SUMMARY OF INFORMATION

I was in an outside area. I could see men climbing up a hill and at times it looked as though they were pulling something up the hill. It was warm and breezy here. It was a secluded area. The area was straight and circular. This is a military complex and it reminded me of a construction site.

I could see an object that was not too big and not too small. It was straight at the bottom and rounded at the top. I could see the men with the object.

The men at this complex were workers. There were higher levels that delegated this work.

Words that kept coming into the session were "riding" and "knight/night."

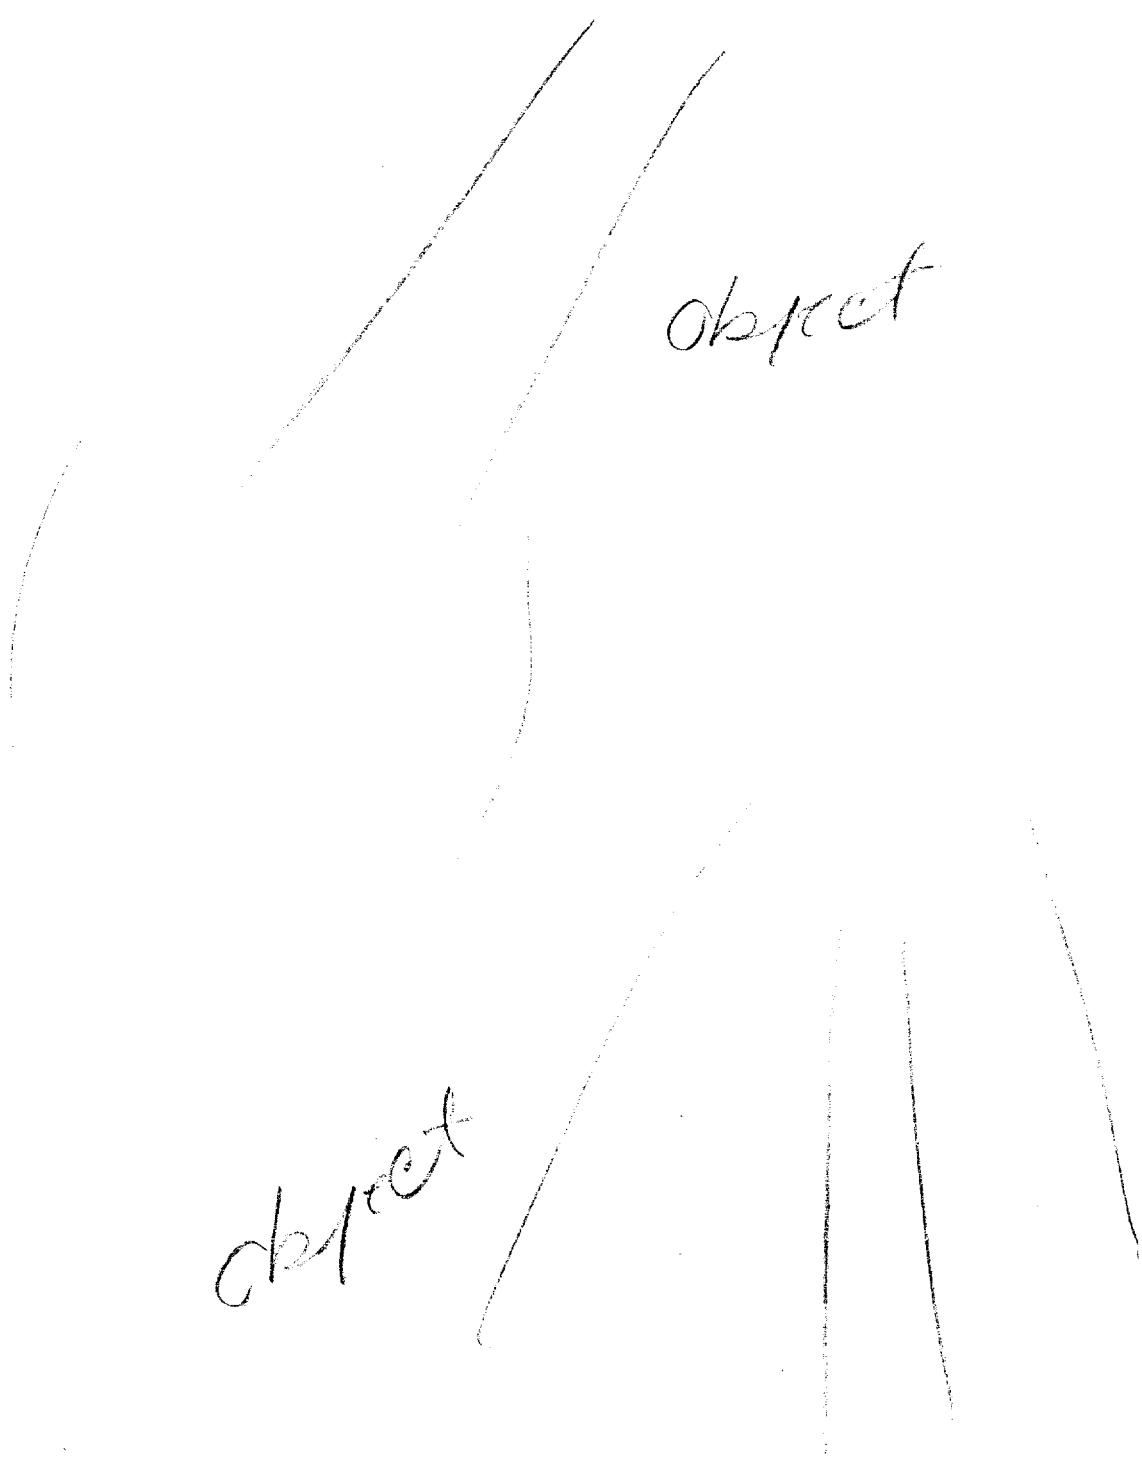

At the end of the session, I could see heat or fire under an object.

Secret object.
