Short Summary

Site involves a land/space interface. White is important color; rounded components are salient, suggesting a "dome-like" nature. ~~There~~ There's a sense of swirling "swirling" at the site, of a seemingly nebulous consistency. Scales of site components seem rather large.

vacatrade

Something describing a swirling/circling/
circular pattern of motion. Land is around it.

There is a manmade structure/structures associated
with it. Motion is a very important element at
the site. White is prevalent as a color, as is "roundness"
as a dimension. AOLs of things like vacatrade & sports
stadiums are suggested.

Site conveys strong impression of ~~the~~ ~~trade~~
or a similar activity involving intensive motion.

Circular movement is important, but there is other
activity that is not patterned in execution - almost
random. Amusement Park is another strongly
suggested AOT. A high level of excitement
is present; people involved ~~are~~ seem to be present
for ~~in~~ ~~the~~ ~~is~~, exhilaration, enjoyment, thrill seeking,
etc.

Seems to be somewhere in
Mid-west USA
