FORMAT

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Control Number: 'H'	Nicknames:
Date of Session: 2 OCT 86	Target Country:
References:	Session Number: CRV-2
Date of Report: 2 OCT 86	Mission Status:
Technique Utilized: CRV	Source Identifier: RV-003

1. (S/NF/SK) TASKING: (SEE ATTACHED TARGET INFO) Monitor was informed that problem. (in addition to attached questions) would entail a site-space search for a matrix point (or points) at the intersection of Area 1 and Area 2. Monitor was also informed that Area #2 was different than MATRIX #1 and that it was located (relative) to the Southwest.

2. (S/NF/SK) SESSION: Monitor front-loaded with CRV-1 and ops officer feedback. Source was ~~asked~~ asked if he recalled the ~~session~~ ^{site} ~~base~~ that he worked last session, (He did), and then shown the "working diagram" (see last page of CRV-2) which labeled Area 1 as a military compound and displayed area 2 in the lower left corner of the paper. ~~After a short description~~ He was then instructed to view Area 2, not Area 1. After a short description of area 2 source began to lose interest in the site ^{area 2 coordinates then read.} since it seemed to offer no novelty ^{as well as a time line search}. Monitor then told source that the Areas 1 & 2 were connected in some way and that his new target would be this 'matrix' intersection. Source was ~~then~~ ^{shown} both areas (on paper) with his left hand and to perceive the relationships which would answer the "intel question".

This document is made available through the declassification efforts
and research of John Greenewald, Jr., creator of:

The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA) document clearinghouse in the world. The research efforts here are responsible for the declassification of hundreds of thousands of pages released by the U.S. Government & Military.

'H' CRV-2 RV-003 2 OCT 86 (CONT)

3. (S/NF/SK) Summary: Area 2 was perceived by source as having a definite "run down" feeling. Buildings (green colors) were present; paint peeling. Area is humid; exhaust fumes present. Several different types of structures present.

Connected in some way with both areas are the following ideas:

- a "VIP" who does not wish this "involvement" to become common knowledge.
- a large, voluminous building (poss. a warehouse)
- Technical equipment in crates, also weapons, stockpile
- military involvement

The 7 key connector seemed to be a piece of "hi-tech" equipment.

4. (S/NF/SK) Feedback: Source inquired how much monitor knew re. sites. Answer was that sites were connected in some way in the matrix and that the "interaction" was probably an ultimate target.

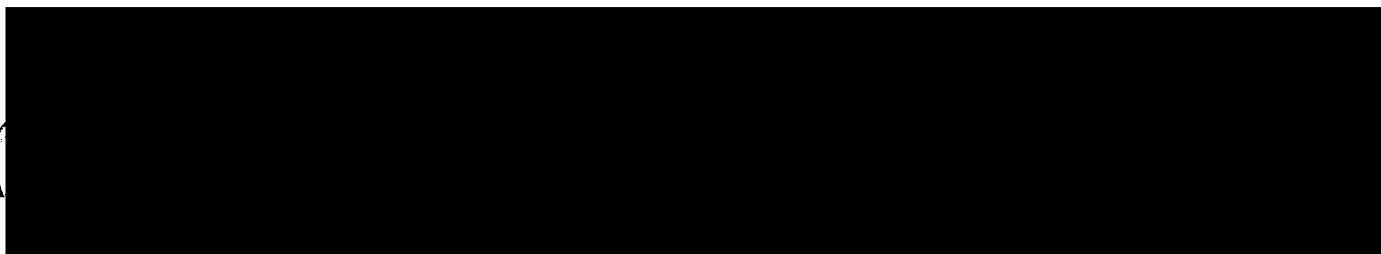

ERV* Data Sheet

Utility Assessment "H"

This will be a multi session, progressive collection effort.

HLs

59k ~~one~~ are and know this is going on, the other one doesn't

Site is an area of buildings + land, ~~set~~ situated hilly w/ trees + humid + sunny + warm. Some bldgs are old, w/ flaking paint - reminiscent of old areas of Ft. Leonard w/ wooden Ft. roads. Site is connected in some way with "Site 1" and involved the relationships of certain from one site with people from the other over a finite period of time. At least one person seen to be high-ranking + powerful, but doesn't want it common knowledge he's involved. Sense of equipment - computers, hi-tech, electronic type - bldgs stored in secret away.
