B structure

RISING LAND. THERE ARE A SERIES OF STRUCTURES. ONE STRUCTURE IS LONG NARROW AND LOW. ANOTHER STRUCTURE IS TALL LONG AND NARROW. A THIRD STRUCTURE IS LARGE, TALL, WIDE & VOLUMINOUS IT ALSO HAS A LOW QUALITY TO IT.

The long low building is the most interesting (for me) of the three.

The long tall wide building has a rough texture. It may be made out of stone or something like stone. The building has been strengthened. There are steps inside. The building is segregated, sectioned and partitioned. There are dividers and transit areas. Parts of building may be color coded. Men inside are orderly and businesslike. They seem in a hurry. Some of them may be wearing white, or light colored coats. There are several distinct categories of people connected with building. There is almost an

"In the long low building there are doors and shakers." There is planning and developing here. It appears to be of a long term nature. This building feels dangerous. There is a feeling here of recent changes, of new personnel arriving and settling in. There has been some changes and a shift (NFI). There appear to be guards here and separated areas. What goes on here has earned kudos (NFI).
