Inter Summary

Area is a land/water/rocks interface

HL BK
Lam

Water is bounded by land & may be moving but it
is very slowly. Climate is warm & fairly dry. There
may be more than one structure present, but there is one
primary structure

for BK
 Soviet Union
 intel activities
 & espionage

Site is involved in monitoring, observing + reporting on developments, status + conditions, levels of awareness, & state of readiness of a specific demographic area + social group (i.e., nation or population or etc.). Intent seems to be "early warning, trend analysis, tailoring of "covert operations," etc. Monitoring is covert but reports - perhaps via satellite link - to an overt collection + operation center a very great distance away, perhaps even transoceanic. Site is located "enroute" the targeted area or population. Overt site is in "home" territory.
