2. (S/NF/SK) SESSION: Source was provided with unencrypted coordinates and informed that the site ~~is~~/target had not been worked before (by source). Monitor recognized first ideogram as being symbolic of site and, therefore shifted viewer attention to the portion of the ideogram which monitor believed represents the target. 'OTHER D'
SESSION #8 (CONT)

3. (S/NF/SK) SUMMARY: (^{refer to} ~~see~~ extensive SS data also).

Site involves an oblong structure with angles and rounded components. At least part of the interior is open, brightly lit, w/ curious color schemes. It is empty at present, but sometimes, perhaps frequently, there is a gathering of people. The structure seems to be a center of coordination and control of activities.

Sometimes a 'watch' is maintained during critical times which monitors events, situations, trends, etc. in the ~~area~~ area being monitored, but also keeps tabs on troops or 'operational elements' of the organization associated with the structure.

4. (S/NF/SK) FEEDBACK: Source was told that he had accurately, and thoroughly described the target, and that the session represented ~~the best~~ ~~work~~ excellent work.
