environment being monitored.

The involves a oblong structure with angle  
 & rounded components. At least part of interior is  
 open, brightly lit, w/ ceilings for schemes. Forget  
 at present, it is the location sometimes, maybe  
 frequently of a gathering of people. Structure seems to  
 be a center for coordination & control of activities.  
 Sometimes a "wafdi" is maintain during critical  
 times, which monitors events, situations, trends, etc.  
 in the environment being monitored, but also keeps  
 tabs on groups or "operational elements" of the  
 organization ~~occupies~~ as the structure.
