1. (S/NF/SK) TASKING: Ops officer pre-empted scheduled ops by presenting monitor with a new target to be placed on docket. Attached ~~the~~ "info sheet" was provided with no accompanying explanation. Monitor had no idea or guesses regarding nature of target or data.
2. (S/NF/SK) SESSION: S.3 & S.6 search of perspectives/searches (TIME & SPACE) of target yielded ~~nothing of interest~~ ~~that "jumped right out in front of view/monitor"~~. Site was viewed in ~~the~~ periods of darkness. Source received no cueing info other than ^{coordinates}.
3. (S/NF/SK) SUMMARY: Site seems to be a complex with one particularly big, open, tall structure. Something like a "cloud" may have been produced in conjunction with operations here; ~~however~~ it is at least connected with site. ~~But~~ AOL's of NUKO tests & Barium injection experiment.
4. (S/NF/SK) FEEDBACK: None provided except that target was a "new" operation.

Site is one main composite structure, heavily made up of metal, of the idea of interstitials; ^{approx. located} ^{by} ^{surround} other smaller structures. N. side structure is large, empty, open space w/ vertical lines ("like" cables, conduit, what have you) run on one side. Elements involved. Dark colored; ^{with a} ^{element;} Swords, rounded. Some sort of Amorphous, Silver shape is connected w/ site. People may be present on top of structure. Structure has an "industrial" feel, what is it. Not U.S.

1433

Site is a ^{fenced} complex group of structures with
 one tall, large structure heavily made
 up of metal. ~~The~~ Inside this one structure is
 a large empty open space with ventile
 lines ^{to one side} passing through it, perhaps like
 cables or conduits. There is an elevator
 involved. The entire structure has a smooth
 rounded feel to it. ^{outside} Inside (w/ I - perhaps
 the walls) there was interesting or
 "honeycombed" metal construction. Structural
 has an industrial quality about it. A silvery
 amorphous form is associated with this
 site.
