FRONTLOAD:

THIS WILL BE A RETURN TRIP TO THE ~~STAFF~~ SITE WE WORKED LAST TIME. AT THAT SITE WE ARE INTERESTED IN AN OCCURRENCE WHICH MAY HAVE HAPPENED DURING A SPECIFIC PERIOD OF TIME. AT THE SITE YOU SHOULD SEEK OUT THAT OCCURRENCE AND TRY TO DESCRIBE IT SEQUENTIALLY. THINK OF AN ATC WITH HUNDREDS OF PLANES CIRCULING AROUND. YOU'RE IN CONTROL SO PUT ALL THE AIRPLANES IN A HOLD PATTERN AND ONLY PULL OUT THE ONE PLANE WHOSE TURN IT IS TO LAND - THIS IS THE SAME CONCEPT FOR THE FLOOD OF INFO YOU RECEIVE - PUT IT WHERE YOU CAN GET IT BUT ONLY TAKE THE RIGHT PIECE AT THE RIGHT TIME. YOU MAY WANT TO DESCRIBE PORTIONS OF THE SITE TO ANCHOR YOURSELF BUT THE MAIN INTEREST IS THE OCCURRENCE."

I first saw a natural, man-made structure. This stony structure was big and square with circular smooth sides. It was circular and dark inside.

I sensed men but they were scattered about and hidden and worked in small groups. I sensed men left this area and were sent out to borders or bordering posts that were very wide and had large openings. These men were here only during the day.

I then sensed an object. A big object placed in a very green area. The area seemed swampy and dark and an area was cleared so this object could be placed here. I sensed the object was tall, rather simple in design. It ~~was~~ had a component that was spinning that could be placed inside the object and taken out. I saw men leaving the green area with things packed on their backs. I sensed this object could reach out to men who sat in boxes higher up. This object could reach out but ~~it~~ could not reach aircraft. I did sense flying aircraft at one point.

Occurrence - I sense a hit. I sensed a flying object hitting the top of a structure. The structure had something to do with the structure was near water

that ~~men~~ ~~always~~, I sensed that men climbed and moved closer to the structure. There was ~~to~~ damage to the structure. It was hit and melting and could have caught ~~a~~ fire.

I sensed the plans for an occurrence were not elaborate but the plans, the timing, and the precision were correct.
