## memorandum

DATE: 14 November, 1988

REPLY TO  
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY (C/NF/SS)  
SG1J

TO: DT-S (ATTN: [REDACTED])

1. (S/NF/SK) Statistics: Viewer: 018  
 Session date: 14 NOV 88  
 Start time: 1027  
 End time: 1116  
 Mode of operation: SOLO  
 PI: Chest cold  
 AV: none

2. (S/NF/SK) Cuing: 6-digit encrypted coordinates:  
 805305/165518, and "K-13".

3. (S/NF/SK) Tasking: Determine if a targeted event (K-13)  
 will take place in South Korea between November, 1988 and  
 May, 1989.

4. (S/NF/SK) Methodology: RVer consciously worked between  
 the years of 1988 and 1999. First part of session was worked  
 ERV, second part was worked CRV, Stages 5 & 6.

4. (S/NF/SK) Results:

a. The first part of the session produced a "growth  
 chart" (see session transcript, page 1) in which the "present  
 line" rises and falls over a period of time, with a generally  
 rising trend. At a point, however, a "new line" begins and  
 rises rapidly to overshadow the "present line".

1) The "present line" gave an impression of white  
 color, governmental economics, cleanliness.

2) The "new line" gave the impressions of being  
 dark and metallic, somewhat sinister, and very serious. It  
 gave the allegorical impression of the "jaws of a steel  
 trap".

3) The point at which the "new line" overtakes the "present line", there is an impression of the death of a leader. This death was seen as quiet and easy (no violence), but carried the definite impression that it was caused.

b. The second part of the session produced a time-line with the following impressions (see page 3 for the location of each impression along the line):

1) Impression of a young male in a limousine, admiring his own femininity.

2) Impression of a very large, governmental or palatial building.

3) Impression of a small, wild animal hiding from someone who is hunting it.

4) Impressions of written material, beginning a series of impressions along the time-line of "revolutionary" and "revolution".

5) Visual of a large complex of brand new, very large machinery (AOL: like a huge generating/air conditioning /etc. plant).

6) Visual of a long row of very large, circular machines (see sketch, page 4) (AOL: strong impression of it being a generating station).

7) Visual of a man smuggling a woman into a doorway.

8) Reprobing the time-line, in conjunction with the "growth chart", produced the same impression of the leader's quiet death at point 8.

c. I strongly suspect that many of the impressions gained were allegorical in nature.

*In a past session debrief, W. 018 stated "This [session] involves the overthrow of a government." This statement was not included by 018 in his summary.*
