PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8906	SESSION NUMBER: 1
DATE OF SESSION: 890321	DATE OF REPORT: 890323
START: 1115	END: 1100
METHODOLOGY: CRV	VIEWER IDENTIFIER: 003

1. (S/NF/SK) MISSION: Describe the nature and purpose of an activity at encrypted coordinates 937201/907314.
2. (S/NF/SK) VIEWER TASKING: Coordinates.
3. (S/NF/SK) COMMENTS: 003 was exhibiting a couple of the behaviors associated with ADL. Don't know if this had any affect on the session or not - input on his site contact would be helpful before next session.
4. EVALUATION:

*Report?*  
*Rev Ogart*

Summary of Information

Site involves a very large structure, apparently of thick reinforced cement, with interior stairs and heavy duty metal railings. Structure is large, voluminous, very substantial, as if to withstand significant shocks or strains. People inside are professional, skilled, technical, and are engaged in activity surrounding an object or objects that are sheltered within this structure. There is significant access to outside which can be blocked or open as necessary. The object(s) are only temporarily inside for current attention being given there. They are of metal, smooth, shiny, rounded, dark uniformly matte finish, sleek. Activity taking place here is uniformly preparatory--as if getting it ready to be used. Object moves, and is thin, long, tapered, swept, large, and in cross section is much thinner than one might expect. From top it seems much broader and curvy in unexpected ways. It seems to sit on long spindly legs. Its purpose seems to be primarily to move. Strong A/S of advanced technology aircraft of some sort. No feeling that it's flown before, but people involved have few doubts that it will work--almost as if they had had extensive experience with it already. "Uni-body" construction--like it was cast, formed in a mold, or somehow "poured out"--very smooth and integral. Made carefully and in a polished, professional fashion. A/S "flying pancake."

Huge power to weight ratio. Outside are large areas of flat cement; it is breezy, light, cool, sunny, crisp. Climate reminds me of the northern Rockies area--thinner air, low humidity, wind, bright sun. Impression that site involves an event of some sort.
