PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8907	SESSION NUMBER: 1
DATE OF SESSION: 890217	DATE OF REPORT: 890222
START: 1355	END: 1435
METHODOLOGY: CRV	VIEWER IDENTIFIER: 003

1. (S/NF/SK) MISSION: Access and describe the target building.
2. (S/NF/SK) VIEWER TASKING: Coordinates.
3. (S/NF/SK) COMMENTS: 003 appeared to be on site in the general area, not sure if 003 accessed the target building specifically. Next session 003 will be directed to focus specifically on the "target building" (cue to be used).
4. EVALUATION: 3

HANDLE VIA SKEET CHANNELS ONLY  
SPECIAL ACCESS REQUIRED

17 Feb 89

1355-1435

Site involved objects/structures of varying shapes. One is sloping, triangular, almost pyramidal in shape, hard, smooth, truncated. Another is rounded, dished, shiny, glassy, metallic, intricate, parabolic, with movement involved. Technology seems involved that is highly involved and highly evolved. A structure of interest is large, squared off, high, solid, complex, with levels and many rooms. There is some sort of "advanced activity" here, with a sense of highly technical R&D. Something was perceived that was long, pebbled-surfaced, cylindrical, "conduit-like", with small attached tube/hoselike attachments. This is not located outside, nor is it in an improved space within the structure. There are many activities going on inside this structure. People involved are excited and exciting--they're interesting types, almost "enlightened" for the area where they are. There were perceptions of one person in a room full of equipment, who was adjusting knobs--analyzing, assessing components. What he is examining is so small it requires technical augmentation to examine and manipulate the components. Involved is a sense of sealed, inert gases, light pressure/overpressure. The person is examining something within a container that has inert gas pumped in to exclude oxygen/atmosphere.
