Ad fresh - people of various ages, both sexes,  
some healthy, others with a variety of physical  
illness are being given substances on a regular  
basis to determine effect, which is determined  
by the results are used to determine the  
effect of certain substances on the  
body.

Second floor of area 2 contains 2 distinct areas -  
 one a classroom type room with blackboards  
 on which symbols are written, the other a  
 library type room containing many books, some  
 of which have red bindings. These books contain  
 records of people, identified by ~~name~~ number  
 who have been used to determine the  
 effects of substances being introduced to  
 their bodies (virus An fresh). The  
 results are obtained by autopsy, entered  
 into a data bank and used to refine  
 or restructure future "experiments".  
 The people used are zombie like during the  
 introduction of the substances and  
 are "An" like people with no home - no  
 one cares about them and no one misses them.  
 An fresh-like patients in mental institution  
 or prisons.
