1. (S/NF/SK) TASKING: Target was the second floor of Area #2 (i.e., the floor above ground level). Source was directed to use attached layout sketch for a worksheet.
2. (S/NF/SK) SESSION: Monitor was briefed by CRV-4, however had conducted Source RV-021 (who first worked this target in CRV-4) to have been mostly "off (assigned) line." Consequently, monitor experienced a great deal of suspicion when RV-003 began to report basically the same information regarding the target. Session began, and remained, in Stage 6 ~~through~~ throughout session. Source was directed to "isolate" info pertaining to the records he perceived, as well as to S5/S6 "subjects", for whom the records were kept.

perception resulted in a source AI of "massive

Very detailed records were kept on the "subjects"  
with reference to their "various" states and "conditions",  
records were described as "clinical" in nature.  
Source felt that "subject" were carefully selected  
and, once "in the system", their whereabouts, etc.,  
was kept hidden.

4. (S/NP/SK) FEEDBACK - Source was told by monitor that his  
info was very similar to that of RV-021 when on this  
target.
