#02 BK - Impression that there was a document that was at the DITE that is missing & they think it's somewhere else & are looking for it.

Structure

brownish
grey

workshop

Feels "like" a house. Some however of other than residents are
- "like" an office a HQ or etc. in a converted dwelling
place. Sense of being brownish-grey stone concrete
on a slight elevation above a street curving along a
slight slope contour with fence around it & steps
leading to a door. 2 floors - other parts to
structure. Internal activities are not visible
to this level. It's "like" it's part of a large
federation/organization/agency - group of people bound
by common purpose & goal but more constraints
than just voluntary
