Staff, or LTG Williams, Director, DIA, would contact MG Soyster "in the near future" to discuss the concept of temporary detailing vice the total transfer of ICLP at this time. The ICLP Manager informed these DIA personnel, who supported a detailing position, of MG Soyster's strong desire to effect a total transfer. The ICLP Manager briefed COL Kirk and MG Soyster on these developments on 20 and 21 November 1984, respectively.

- c. (S/CL-2/NOFORN) As of 6 December 1984, DIA still intended to request a detailing action. The memorandum at Blue TAB D explains the basis for the DIA decision, provides rationale for a detailing action, and addresses the impact a detailing action will have on INSCOM resources.
- d. (S/CL-3/NOFORN) Recommend that CG INSCOM approve the DIA request to detail INSCOM personnel to perform psychoenergetic intelligence collection and counterintelligence activities. The impact on INSCOM resources will be the loss of two TDA spaces for the period of the detail and administrative costs (civilian salaries, word processing equipment maintenance, and equipment rental) that are estimated to be \$60,000 for the remainder of FY 85.

(U) WHAT THIS ACTION WILL ACCOMPLISH:

- a. (S/CL-3/NOFORN) Transfer the responsibility for all DoD psychoenergetic activity to DIA.
- b. (S/CL-3/NOFORN) Satisfy the requirement to cancel INSCOM's involvement in psychoenergetics IAW the directive of CG INSCOM.
- c. (S/CL-2/NOFORN) Permit the Intelligence Community to continue to use a proven team of highly qualified professionals in the application of psychoenergetics as an intelligence collection and counterintelligence tool.
