

STATEMENT OF WORK  
for  
FY 1989

Objectives:

- A. Maintain scientific credibility by providing access to all aspects of the research to a Scientific Oversight Committee (SOC).\*

Task 1

Description: Provide statistical and basic research design protocols in advance of any formal experiments.

Deliverables: 1st Quarter FY 1989 (A report including the experimental protocols for FY 89, and detailing the approvals and the review process by the SOC.)

Task 2

Description: Provide continuing access to on-going experiments to SOC members.

Deliverables: None

Task 3

Description: Provide final reports for inspection and critical review to the SOC.

Deliverables: 4th Quarter FY 1989; A final technical report including the experimental results for FY 1989, and detailing the SOC's review comments.

SGFOIA2 Cost:

\* The time-lines for all tasks during FY 1989 are the same: Start on 1-Oct-1988 and end on 30-Sep-1989. The costing is computed on an objective-by-objective basis, and the contractor is SRI International, except where noted differently.

Costing is shown for each objective. The total percent of project is also shown as (Operational/Research) percentages.

This document is made available through the declassification efforts  
and research of John Greenewald, Jr., creator of:

# The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA)  
document clearinghouse in the world. The research efforts here are  
responsible for the declassification of hundreds of thousands of pages  
released by the U.S. Government & Military.

**Discover the Truth** at: <http://www.theblackvault.com>

**B. Applications of Remote Viewing Technology.**

**Task 1**

Description: Target viewers against special sites supplied by and under control of the sponsor.

Deliverables: A report on each site that includes the analysis of the responses, a summary of the best estimate of the target site, and the raw data as an appendix. The report must be completed before another site can be targeted.

**Task 2**

Description: In support of Task 1, using a sponsor-supplied target element list, develop a quantitative analytical technique for remote viewing analysis when the target material is generally unknown.

Deliverables: 4th Quarter FY 1989; A detailed description of the procedure and a summary of its performance in Task 1.

SGFOIA2 Cost:

**C. Determine a physiological indicator of psychoenergetic functioning.**

**Task 1**

Description: Determine the degree to which magnetic visual evoked potentials can be observed under psychoenergetic conditions.

Subcontractor: Los Alamos National Laboratory

Deliverables: 4th Quarter FY 1989; A report detailing the techniques and results of the experiment.

SGFOIA2 Cost:

**D. Provide a technical review of psychoenergetic research at SRI International.**

**Task 1**

**Description:** Using meta-analytical techniques, assess, where possible, the experimental results of the research since 1973. This should include the following:

- a. An analysis of remote viewing and remote action.
- b. Retrospective analysis of Pat Price data.

**Deliverables:** 4nd Quarter FY 1989; A report detailing the methods and results of the meta-analysis and including:

- a. The state-of-the-art of psychoenergetic research.
- b. Confidence levels on the constituent parts of above.
- c. What technology is available.
- d. Short statement of what experiments are needed for progress.
- e. Contributions by other research organizations.
- f. Contributions of psychoenergetic research to more traditional research areas.

SGFOIA2

Cost:

**E. Screen large populations for high quality remote viewers.**

**Task 1**

**Description:** Using a multi-level screening procedure, identify high-quality remote viewers and individuals with an ability to locate items by psychoenergetic means.

**Deliverables:** 4nd Quarter FY 1989; A report detailing the methods and results of the screening.

SGFOIA2

Cost:

F. Determine parameters of RV.

Task 1

Description: Expand upon the hypnosis concepts developed during FY 1988.

Deliverables: 4th Quarter FY 1989; A report detailing the experimental protocol, the method of approach, and results.

Task 2

Description: For new viewers, determine best viewer-dependent collection environment for remote viewing.

Deliverables: 4th Quarter FY 1989; A report detailing the experimental protocol, the method of approach, and results.

Task 3

Description: Improve the analysis of RV data by determining the optimum parameters for the set definitions.

Deliverables: 4th Quarter FY 1989; A report detailing the method of approach, and results.

Task 4

Description: Determine the source of "mental noise" in binary psychoenergetic tasks.

Deliverables: 4th Quarter FY 1989; A report detailing the experimental protocol, the method of approach, and results.

SGFOIA2

Cost:

G.

SG1A

SGFOIA2

Cost:

**H. Provide a handbook on statistics for psychoenergetic research.**

Description: Provide a handbook of statistics for psychoenergetic research including:

- a. Guidelines for judging the quality of research for non-technical people.
- b. Schematic protocols for various areas of psychoenergetic research.

Deliverables: 4th Quarter FY 1989; The psychoenergetic handbook.

SGFOIA2 Cost:

**I. Provide support for research.**

**Task 1**

Description: Provide administrative, technical and secretarial support.

**Task 2**

Description: Provide protocols and administrative support for SRI International's Human Use Review Board.

**Task 3**

Description: Provide computer software/hardware maintenance, and mod-est software/hardware upgrades.

**Task 4**

Description: Provide sponsor-requested travel.

**Task 5**

Description: Provide document production services.

SECRET

6.0. (S/NF) SPECIFIC TASKS:

6.1. (S/NF) Basic Research:

*Objective D*  
6.1.1. ✓ (S/NF) Reassess previous research and conduct new research to identify parameters and procedures that are responsible for remote viewing occurrence and for enhancing performance.

→ 6.1.2. ✓ (S/NF) Identify optimum statistical evaluation methods and procedures and prepare appropriate handbooks.

*Objective C  
TASK 1*  
6.1.3. ✓ (S/NF) Determine if select physiological parameters can be useful for identifying or predicting occurrence of psychoenergetic phenomena.

→ 6.1.4. ✓ (S/NF) Perform various investigations that assist in identifying fundamental aspects of the phenomena.

*B*  
6.2. (S/NF) Applications Research:

*Objective B  
TASK-2*  
6.2.1. (S/NF) ✓ Develop quantification and evaluation techniques for a variety of operational types of targets.

*Objective B  
TASK-1*  
6.2.2. (S/NF) Conduct multi-series remote viewing projects for special operational targets to determine levels of accuracy as a function of operational conditions such as distance, shielding, timing, other factors.

*Objective B  
TASK*  
6.2.3. (S/NF) Review and analyze all operational related projects to identify possible operational limits or qualifiers.

*Objective E.*  
6.2.4. (S/NF) Conduct screening of large candidate groups to identify people with high quality remote viewing and related (i.e., search) ability.

6.2.5. (S/NF) Initiate development of new application capability (i.e., search).

6.3. (U) Support:

6.3.1. (U) Project management

6.3.2. (U) Support for Science Oversight Committee (SOC)

6.3.3. (U) Support for Human Use Review Board

SECRET

NOT RELEASABLE TO FOREIGN NATIONALS

SECRET

6.3.4. (U) Computer support and maintenance

6.3.5. (U) Document preparation, ~~administration~~

6.3.6. (U) Travel

7.0. (U) **Quick Reaction Capability (QRC):** The contractor will maintain a quick response capability and be prepared to respond in less than 24 hours to problems or unexpected demands for brief technical papers that may develop during the term of this effort.

8.0. (U) **ALLOCATION OF EFFORT:** The level of effort to be applied to each basic task should be approximately as follows:

<u>Task No.</u>	<u>Allocation of Effort/Funding</u>
6.1	40%
6.2	40%
6.3	20%
