PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 1061	SESSION NUMBER: 01
DATE OF SESSION: 900619	DATE OF REPORT: 900619
START TIME: 0910	END TIME: 1100
METHODOLOGY: CRV	SOURCE IDENTIFIER: 052

1. (S/NF/SK) MISSIONS: Describe the training target, an old Indian silver necklace.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates. The following in session cues: "shape of interest," "stage 5 your AOL of gold chain," "stage 5 'shapes'," "people," "person associated with the shape being made," "stage 5 your AOL of manufacturing," "use this clay and show how the shape is made," "people."
3. (S/NF/SK) COMMENTS: No PI's. Summary attached. Excellent stage 5's. For fun, I had 052 use clay to get more information about how the necklace was made. Her information correlates with what is known about the necklace, it's history and manufacture. Excellent session: 052 seems ready for stage 6.
4. (S/NF/SK) EVALUATION: *3*
5. (S/NF/SK) SEARCH EVALUATION:

WORKING PAPER

Target #:
Date: 19 June 90
Time: 0910-1100
Viewer: 052
Session: 01

SUMMARY OF INFORMATION:

The target is structures and land. There are many odd shapes at this site. The shape that interests me most is round. It made me think of a gold chain or bracelet. It is made of some type of steel or metal. It is medium sized, not big nor small.

At the time that the shape was made, it first started out as a flat rounded shape. There is also a long, straight thing, but I don't know how it fits. Then the edges of the round shape are curved upward, bowl-shaped. This is done by someone banging on it. Then there is a small point in the middle that sticks out. After that, the thing is coated. Two separate pieces of this thing seem to hook together. There is also a sharp pointed angle.

Many people seem to be working on this thing. It is bright, shiny, solid, hard and made of some type of metal. The person banging on this thing is using a hammer. He is left handed. He has brown hair and is foreign.
