PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	0112 (Tng)	SESSION NUMBER:	1
DATE OF SESSION:	02 OCT 90	DATE OF REPORT:	03 OCT 90
START:	1109	END:	1130
METHODOLOGY:	ERV	VIEWER IDENTIFIER:	052

1. (S/SK) MISSION: To describe the target site (McDill Air Force Base, Florida) using ERV methodology.
2. (S/SK) VIEWER TASKING: "Describe the area, objects and activities located at encrypted coordinates 275190/822910".
3. (S/SK) COMMENTS: No personal Physical Inclemencies (PI) reported, but the building had a strong smell of skunk spray, and the doors were open throughout the session, to air the building out. Halfway through the session, the wind slammed a door shut, effectively ending 052's concentration. In the session, 052 had immediate site contact, and essentially described the main aspects and activities of the site within the first minute of work. After the interruption of the slamming door, 052 tried to get back to the site, but ran into heavy AOL problems.
4. (S/SK) EVALUATION: *3*
5. (S/SK) SEARCH EVALUATION: N/A.

Good.

Time: 1109-1130
Viewer: 052
Session: 01

SUMMARY OF INFORMATION:

The target is a structure and land. The structure is bright, curved and rounded in all directions. There are little windows on the side, all the way around. There are things moving by, very fast, they are shaped like planes or aircraft. There are at least five or six people at the site and trees. It seems to be a large, open area. There is a fence that surrounds it. There are large mountains or formations of rocks in the background.
