PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

-----

PROJECT NUMBER: S3 TRNG	SESSION NUMBER: 1
DATE OF SESSION: 880926	DATE OF REPORT: 880928
START: 1445	END: 1540
METHODOLOGY: CRV	VIEWER IDENTIFIER: 032

-----

1. (S/NF/SK) MISSION: Access and describe in a stage one sense training target # 33, Busch Stadium, St. Louis, MO.

2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 3890/0926. Movement commands in stage 3:

1. "500 m Eastnortheast something should be perceivable" - Mississippi river. ✓
2. "490 m Eastnortheast something should be perceivable"-St. Louis Arch. ✓
3. "8 km Westnorthwest something should be perceivable" - Jefferson Memorial. ✓
4. From the second structure "6.5 km Westnorthwest something should be perceivable." - McDonnell Planetarium. ✓

3. (S/NF/SK) COMMENTS: Excellent stage three session. 032 prepared himself perfectly. First session with involved movement exercises. 032 did an excellent job on the movement exercises. With the movement in the arch, he experienced the AOL of being high up on a structure looking down and to the right at another structure. His sketches were not of the arch, but of a bridge which was located to the right of the arch. It was explained to 032 that in movement exercises the viewer needs to perceive and sketch the target of the movement exercise not something he can see from there. He corrected this in the remaining movement exercises. On the last movement 032 experienced some AOL as evidenced by his sketching, this was not due to any structural errors on his part but rather to the large number of moves he had conducted—they were starting to overlay on one another.

4. EVALUATION: 4. *jk.*
