E. SESSION SUMMARY:
   The overall site was very pretty. At times I felt that I was looking at a picture. The site has "trees" and "leaves" and it looked like a small forest. There was peace and quiet at the site. There may have been a small stream of water.

   Sometimes there was "snow" at the site because I could see white on the trees and leaves. Sometimes there was not snow at the site because the leaves looked very green and peach and there was more colors.

   People were absent from the site.

   I did not see animals but there was a feeling that animals could be at the site.

Target Attribute Questions

For: Enhancing Detection of Anomalous Cognition with Binary Coding

Name: ███████ 079

Trial Number: # 2

Date: 3 - 16 - 92

Time: 8 30

Consider the following attributes and their definitions (where provided). Please indicate whether or not each of the attributes listed below is a *primary* part of the target for the trial number marked above. By "primary" we mean that the attribute is important for defining the overall ambiance of the target. Mark the "yes" box if the attribute is a primary part of the target or mark the "no" box if it is not.
