SG1A

1. Intelligence information indicates that a series of smuggling operations is underway involving the shipment of multi-ton quantities of cocaine from Colombia to Mexico. The supplied tail number [REDACTED] was from an aircraft that had previously been associated with this activity.

SG1H

3. In project 94-272-0 (second session), Source B was redirected and was asked for the aircraft ETA and exact destination in Mexico. This information (even though we cannot confirm it to be true) was very much appreciated in that it does provide the actionable type of information that JIATF-EAST requires.
