 Evaluator's Estimate :
- E. SESSION SUMMARY:

The target contains a large, circular wooden structure (diagram page iii). A portion of the site is associated with the concept of "sucking-" or "drawing-in" a material or substance, which is then contained, collected or held-in-place for a period of time. There is sand and large vehicles present.

There are a lot of small objects and/or features which are "sticking" out, or projecting from, the larger feature(s). These objects and/or features are angles and oddly shaped.

The predominant aspect of this site is the intensity of the wind. The aforementioned concept of containment is associated with something natural or organic; not manufactured or synthesized. Other aspects include black, hollow, large and open.

*Viewer's addendum: Target vicinity "feels" rural and the activity "feels" related to agricultural processing.*

TASKING SHEET

049  
SOURCE NO: ~~025~~  
DATE: 5 MAR 93  
SUSPENSE: 8 MAR 93  
1200

1. PROJECT NUMBER: 93-172-P  
2. METHOD/TECHNIQUE: Method of choice.

3. BACKGROUND: This project is a continuation of a proficiency series targeting "structures/configurations,"

----These configurations can be anything. However, buildings/structures will be dominant.

----Targets will emphasize key elements that are unique or distinct. They will be composed of specific shapes, contours, and configurations. Some targets may have multiple similar shapes/features

----Targets may be of a commercial, governmental, or military. They may be either historic or contemporary.

4. ESSENTIAL ELEMENTS OF INFORMATION:

Describe/sketch the key features/shapes/contours of the target.

Describe/sketch the spatial relationships or relative sizes of the target features.

Determine other features such as (colors) and predominant backgrounds.

Determine the purpose of the target structures.

COMMENTS:

----This target ~~is~~ does not have a beacon person.

----Optional Coordinates: 271638/140270
