E. SESSION SUMMARY:

The site has a very large object or structure. This object or structure has many different shapes and components to it. At first, I could see a pointed triangular shape. The structure has a square bottom and then a portion comes up high which is rounded. The structure also has a portion which comes straight up and is not that wide.

The site also has motion or movement to it. I sensed an object that had a rotating motion.

The structure or object has technology associated with it. Inside, people work on small objects in front of them.

Blue, green, gold, white, brown are colors associated with the site.

It seems that a liquid motion comes out of a circular object.
