Site is 3 structures on land; one structure includes  
 major round surface. Another is rectangular, perhaps  
 even square, is tall + wide. Another is small solid  
 (compact) grey; there are tall vertical extension, suggesting  
 an ALC of antennae or radio towers, etc.

AOL BIC

Tall rectangular structure house equipment highly  
 technical research/development activity involving complex  
 electronic equipment + ~~perhaps~~ perhaps involving  
 bio-electronic experiments of some sort with  
 people not there voluntarily.
