SUMMARY OF INFORMATION

SG1A

The vessel identified as [REDACTED] is currently located off the southeast coast of Florida, in the vicinity of Jupiter, Florida. The vessel is en route to St Augustine, Florida, and Savannah, Georgia, where the drugs are projected for transshipment to Augusta, Georgia.

The vessel is then projected to sail as far north as about Charleston, South Carolina, turn about and sail in southerly direction to eventually sail west across the Florida Keys for Houston, Texas.

The purpose of stop at St Augustine as a port-of-call is to receive instructions on a projected course of action. The primary port-of-call for the unloading of drugs remains Savannah, Georgia.
