1. In November 1955 I received a letter from my niece in Budapest. She contained the following information (free translation):

   "The so-called 'flying saucers' (rockets) [Fig. 1] for several weeks kept the people in a nervous state. These very fast moving figures kept scientific groups very busy. I'm sure you heard already from the papers, 12 thousand kg per hour was estimated on these figures."

2. Included with the letter was the following sketch indicating the formation and suspected course of the above objects:
