11/27/2019	TENNESSEE	JACKSON	<p>PRELIM INFO FROM FAA OPS: JACKSON, TN/UAS INCIDENT/1015C/MCKELLAR ATCT ADVISED, 2/CT114, WHEN FLIGHT WAS OVERHEAD ON RIGHT BREAK TO ATCT OBSERVED A UAS BEING OPERATED AT 150 AGL APPROX 1,000 FEET WEST OF THE EXTENDED CENTERLINE OF RWY20. NO EVASIVE ACTION TAKEN. MCKELLAR ARPT OPS PERSONNEL RESPONDED TO LOCATION AND OBTAINED THE OPERATOR'S INFORMATION AND CERTIFICATE NUMBER.</p> <p>Summary: At approximately 1615Z, a flight of 2 Canadian Snowbirds were in the right break near the approach end of runway 20. At that moment a drone was observed by the tower approximately 1000 feet north of the tower, about 1000 feet west of the extended centerline of runway 20 at approximately 150 feet AGL. UAS activity was issued to the Snowbird flight and it was observed that the drone was not an eminent threat to the aircraft. The flight of 2 were allowed to continue and land. ATM stepped out on the cat-walk and yelled at the operator to land the drone. Which he did immediately. The airport authority was called and they responded to the site of the operation. Sheriff was notified, but when operator landed the drone and left, the airport authority cancelled their call. Since that time, has provided me with a copy of his COA. This is the first time I've seen it. He was operating in a zero grid from the UASFM. COA and information attached.</p>
