FBI FOIPA Addendum

As referenced in our letter responding to your Freedom of Information/Privacy Acts (FOIPA) request, the FBI FOIPA Addendum provides information applicable to your request. Part 1 of the Addendum includes standard responses that apply to all requests. Part 2 includes standard responses that apply to requests for records about individuals to the extent your request seeks the listed information. Part 3 includes general information about FBI records, searches, and programs.

Part 1: The standard responses below apply to all requests:

- (i) **5 U.S.C. § 552(c).** Congress excluded three categories of law enforcement and national security records from the requirements of the FOIPA [5 U.S.C. § 552(c)]. FBI responses are limited to those records subject to the requirements of the FOIPA. Additional information about the FBI and the FOIPA can be found on the www.fbi.gov/foia website.
- (ii) Intelligence Records. To the extent your request seeks records of intelligence sources, methods, or activities, the FBI can neither confirm nor deny the existence of records pursuant to FOIA exemptions (b)(1), (b)(3), and as applicable to requests for records about individuals, PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(1), (b)(3), and (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records is itself a classified fact protected by FOIA exemption (b)(1) and/or would reveal intelligence sources, methods, or activities protected by exemption (b)(3) [50 USC § 3024(i)(1)]. This is a standard response and should not be read to indicate that any such records do or do not exist.

Part 2: The standard responses below apply to all requests for records on individuals:

- (i) Requests for Records about any Individual—Watch Lists. The FBI can neither confirm nor deny the existence of any individual's name on a watch list pursuant to FOIA exemption (b)(7)(E) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(7)(E), (j)(2)]. This is a standard response and should not be read to indicate that watch list records do or do not exist.
- (ii) Requests for Records about any Individual—Witness Security Program Records. The FBI can neither confirm nor deny the existence of records which could identify any participant in the Witness Security Program pursuant to FOIA exemption (b)(3) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(3), 18 U.S.C. 3521, and (j)(2)]. This is a standard response and should not be read to indicate that such records do or do not exist.
- (iii) Requests for Confidential Informant Records. The FBI can neither confirm nor deny the existence of confidential informant records pursuant to FOIA exemptions (b)(7)(D), (b)(7)(E), and (b)(7)(F) [5 U.S.C.§ § 552 (b)(7)(D), (b)(7)(E), and (b)(7)(F)] and Privacy Act exemption (j)(2) [5 U.S.C.§ 552a (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records would reveal confidential informant identities and information, expose law enforcement techniques, and endanger the life or physical safety of individuals. This is a standard response and should not be read to indicate that such records do or do not exist.

Part 3: General Information:

- (i) Record Searches and Standard Search Policy. The Record/Information Dissemination Section (RIDS) searches for reasonably described records by searching systems, such as the Central Records System (CRS), or locations where responsive records would reasonably be found. The CRS is an extensive system of records consisting of applicant, investigative, intelligence, personnel, administrative, and general files compiled by the FBI per its law enforcement, intelligence, and administrative functions. The CRS spans the entire FBI organization, comprising records of FBI Headquarters, FBI Field Offices, and FBI Legal Attaché Offices (Legats) worldwide; Electronic Surveillance (ELSUR) records are included in the CRS. The standard search policy is a search for main entity records in the CRS. Unless specifically requested, a standard search does not include a search for reference entity records, administrative records of previous FOIPA requests, or civil litigation files.
 - a. Main Entity Records created for individuals or non-individuals who are the subjects or the focus of an investigation
 - b. Reference Entity Records- created for individuals or non-individuals who are associated with a case but are not known subjects or the focus of an investigation
- (ii) **FBI Records.** Founded in 1908, the FBI carries out a dual law enforcement and national security mission. As part of this dual mission, the FBI creates and maintains records on various subjects; however, the FBI does not maintain records on every person, subject, or entity.
- (iii) **Foreseeable Harm Standard.** As amended in 2016, the Freedom of Information Act provides that a federal agency may withhold responsive records only if: (1) the agency reasonably foresees that disclosure would harm an interest protected by one of the nine exemptions that FOIA enumerates, or (2) disclosure is prohibited by law (5 United States Code, Section 552(a)(8)(A)(i)). The FBI considers this foreseeable harm standard in the processing of its requests.
- (iv) Requests for Criminal History Records or Rap Sheets. The Criminal Justice Information Services (CJIS) Division provides Identity History Summary Checks often referred to as a criminal history record or rap sheet. These criminal history records are not the same as material in an investigative "FBI file." An Identity History Summary Check is a listing of information taken from fingerprint cards and documents submitted to the FBI in connection with arrests, federal employment, naturalization, or military service. For a fee, individuals can request a copy of their Identity History Summary Check. Forms and directions can be accessed at www.fbi.gov/about-us/cjis/identity-history-summary-checks. Additionally, requests can be submitted electronically at www.edo.cjis.gov. For additional information, please contact CJIS directly at (304) 625-5590.

Sabotage Plot By Cuba Coing Before OAS

By RICHARD BOYCE

WASHINGTON, Nov. 28.—The full story of the arrest of Castro Cuban saboteurs who planned a way of terror bombings in New York will be laid before the Organization of American States.

The State Department is now working with the Federal Bureau of Investigation in preparing the case. The OAS may hear the defails before the week's end a member of the United States delegation to the OAS said.

"But first the grand jury in New York must finish its sesision," he added. We don't want to create a problem in international law by airing the sabotage case in an international public forum while it is still pending in U.S. courts."

Explosives Selzed
Three Cubans were arrested
by the FBI Nov. 17 and explosives and weapons were
selzed. The FBI said all were
pro-Castro Cubans. One was
a member of Cuba's United
Nations delegation.

They were charged with conspiring to commit sabolage in this country. They could get up to 10 years in prison and \$10,000 fines. Two other Cubans who, the FBI said, participated in the conspiracy were not arrested be cause they had diplomatic immunity.

The arrests were the first by U.S. authorities though other subversion attempts in this country by Castro Communists have been suspected. Probing Miami Bombing

The government still is in restigating the Miami bombing earlier this month of an auto belonging to Cuban exile leader Jose Miro Cardona. There have been several reports of Castro-Inspired bombings and other sabotage in Latin American nations.

The United States will not ask the OAS to take specific action on the sabotage case, the U.S. delegate said.

"After all, we've got the three Cubans dead to rights, and they'll be prosecuted in our courts.

We are going to the OAS with this in response to a request from a committee of the OAS for all member countries to report on instances of Castro subversion in their countries.

He said this was to keep countries alert to the Castro menace and to share information on how it may be controlled.

FBI Seeks to Deepen Anti-Cuba Hysteria

NEW YORK, Nov. 21 - The of the Cuban Mission to the Unit-FBI round-up of Cubans here on ed Nations. charges of conspiring to commit sabotage is a deliberate hoax de- tonio Sueiro, also a Cuban-Amer-

The witch-hunting character of the Justice Department move is apparent from the few hard facts that can be sifted from the screaming headlines and lurid stories of plans to destroy depart ment stores and oil refineries in the New York area and to unleash a reign of terror in the city,

Almost simultaneously with the Nov. 17 arrests, newsmen were summoned to an FBI press conference. A typical result was the Nov. 17 New York World Telegram story stating FBI sources said the conspirators planned to plant the explosives in air-conditioning systems and other areas of New York department stores and in gasoline and oil refineries lomatic passport six weeks pre in New Jersey."

The FBI Story

An FBI "source" explained that pressive plan had been found in the business place of José Garcia, a Cuban-American, and that they had been furnished by members

signed to deepen anti-Cuban hys- ican and a part-time employe of Garcia's Held as a material witness was Ada Dritsas, a friend of Sueiro's who happened to be standing on a street corner with him when he was picked up.

Also arrested, in flagrant violation of his diplomatic status, was Roberto Santiesteban, of the Cuban Mission. He was held on \$250,000 bail, despite vigorous protests of Carlos Lechuga Cuban ambassador to the UN who also charged that Santiesteban was brutally beaten when arrested. The FBI claimed that Santiesteban's diplomatic status had not been completely "processed" at the time of his arrest. He had been admitted to this country on a dip-

Two other Cuban Mission employes, Jose Gomes, 21, and his wife Elsa, 20, were named as co-conspirators, but since they had been here too long for the FBI to pretend they didn't have dip-lomatic status, it demanded instead that they leave the country. This was acceded to.

Those arrested were also charged with acting as agents of a foreign government without notifying the Secretary of State. Conviction on the two charges could bring sentences of 20 years in jail and \$15,000 in fines.

When the newsmen gathered at FBI headquarters the "cache" of explosives and munitions allegedly. found in Garcia's shop was displayed for the benefit of photographers. An FBI spokesman explained the collection was of the "sabotage and guerrilla warfare." What did the "cache" actually include?:

Six incendiary bombs. One unloaded pistol and three hand; grenades. To bolster the display, a gun taken from Santiesteban (many UN officials have them)

was included.

Newsmen stared at the collection and one inquired if it was the total or, perhaps, just a sampling. The otherwise loquacious FBI: "source" refused to answer. When the prisoners were brought before U.S. Commissioner Earle Bishopp, according to the Nov. 19 New York Times, "nothing was said about the possible use of the sabotage materials in stores or refineries."

The significance of a charge of "conspiring" to commit a crime rather than actual commission is that a wide range of otherwise inadmissable hearsay evidence is agents can play a key role.

The whole case has a particularly bad odor since in the nearly

four years since the Cuban Revolution, there has not been single act of sabotage committed or even charged in this country But the U.S. government has been indisputably linked to the very kind of sabotage in Cuba it now charges against those arrested here. Saboteurs didn't simply "conspire" to plant incendiary bombs in Cuban department; stores. They actually burned down Havana's biggest store. And hand grenades were really thrown into a small Havana restaurant, severely wounding, among others, a small boy 13

Indeed, U.S. backing such crimes has been a subject of open chortling by press and TV propagandists. On Sept. 25, for example, the Columbia Broadcasting System showed films of men being trained on the Florida keys to infiltrate Cuba to conduct sabotage.

CIA Agent Confesses

It was one such group whose capture was announced by the type "generally cassociated with Cubans last week: Heading the group was Miguel Orozco, an army officer during the Batista tyranny and now a confessed CIA agent. His detailed account of the organlization of sabotage groups included a description of its headquarters in Florida.

Meanwhile, the FBI is continuing to trample on the civil rights of those caught in its dragnet. Yesterday attorney Stanley Faulkner, who is defending Jose Garcia, assailed the FBI for "trying the case through the newspapers

"I feel very strongly," he declared, "that the conduct of Mr. Hoover is reprehensible. He is building up public sentiment and scaring people to the point that in the light of the present situation, the defendants couldn't possibly get a fair trial."

I begin by taking. I shall find permitted in court. Thus planted scholars afterwards to demonstrate my perfect right.

To the N. Y. Herald Tribune: To the N. Y. Herald Tribune: I thoroughly agree with all you say and imply about the wickedness of the Cuban sabotage plots recently uncovered by our F. B. I. Demands for Curbs On UN Cubans Grow

Leash for Stooges' - See Page 22

Still more distinguished citizens joined today in a demand that a tight travel rein be imposed on members of the Cuban delegation to the United Nations.

The new demands reiterated an editorial appeal by the N.Y. Journal-American that the State Dept. restrict Cuban diplomats here to their Manhattan, headquarters, the UN reservation, jand a specific travel route between the two.

Rep. Alfred E. Santangelo.
Manhattan Democrat, called
for "the elimination of freedom of movement by Cuban
representatives."

Only through such action, he held, could the United States protect itself from "Cuban representatives to the UN and the dichard Cubans who resort to bombing, subversion and overtactions to create chaos in the

United States."
Earlier, U.S. Sen. Jacob K.
Javits and Rep. Seymour Halpern. both Republicans, were
among those appealing to the
State Dept. to impose a travel
ban on the UN accredited
Cubans

PAWNS OF CASTRO

Rep. Santangelo stressed that the Cuban representatives here "are not free agents but pawns of Fidel Castro."

"For the security of our country and the peace of the world," he added, "we must limit the menace of the representatives who are Communistic and anti-American."

The Journal-American's editorial appeared last Sunday, a day after FBI agents here shuffed out operations of a schotage ring operating under orders from the Cuban UN mission

mission.
Three defendants in that plot enter pleas today on an indictment that could send each to prison for 1 5 years and force each to pay \$20,000 in fines.

Santiesteban Casanova, 27, of 240 E. 46th st. an attache of the Cuban UN mission; Marino A. Sueiro, 22, of 35 Hamilton pl., and Jose G. Orellana, 42, a jewelry store operator; and president of the Casa Cuba Club.

Santlesteban, who arrived here Oct. 3 on a diplomatic passport but had not yet been granted diplomatic immunity, was held in \$250,000 ball and then other two, in \$100,000 ball each.

Efforts to get the State Dept.
to bottle up the Cubans were
joined by the Affiliated Young
Democrats of New York.
Through their president, Harold
R. Moskovit, they asked the
department:

"Restrict the Cubans of the UN mission to the immediate heighborhood of their head-

And Rosser Reeves, board chairman of Ted Bates & Co., Inc., New York advertising firm asked:

why allow those Cubans—
who are Communists—the full
run of the United States when
their full UN. mission can be
performed in one, or at the
most two, of our cities?"

FBI PRAISED.

Rear Adm. Ben Scott Custer, USN Ret., of Rye, praised the FBI for its work in exposing the Cuban wreck-and-main ring. He noted that he believed the FBI can "handle the situation." But he emphasized;

If the FBI can't follow them (the Cubans) and keep track of them, obviously something else would have to be done. We can't lay ouselves liable to this kind of sabotage without some official action."

Adm. Arthur Radford USN (Ret.) former chairman of the Some Uniets of Staff, said he

realized the UN Cubans must be watched carefully.

He said he assumed the FBI was doing that but he added:
"The diplomatic immunity problem applies to other delegations to the United Nations as well as to the Cubans. It's quite a problem."

Alexander de Seversky noted airplane designer, said he hoped the United States could remain "an open society." He stressed however:

But if we find sabotage activity assuming threatening proportions, we should restrict the movements of all Commu-

nist nations.

To me, a Communist is a Communist. I don't care if it's the Cuban brand, Russian brand, Tito brand or any other brand.

HAVANA CHARGES REPRISAL FOR ARREST THERE

HE FEDERAL BUREAU of Investiga tion arrested three pro-Castro Cubans in New York Nov. 17 with a blaze of sensational publicity on charges of conspiracy to commit sabotage

"One of those arrested is Roberto Santlesteban Casanova, an attache of the Cuban Mission to the United Nations,

Leonard B. Boudin of Rabinowitz and Boudin, attorneys for the Cuban government, filed a motion for a writ of habeus. corpus for Santiesteban. The motion, to be argued Nov. 23 in Federal District Court, charges that the U.S. government tapped phones of the Cuban UN Mission, the homes of Cuban diplomats and attorneys, Boudin also argues that Santiesteban, who traveled to the U.S. on a diplomatic passport, has diplomatic immunity.

Also arrested were Marino Antonio Esteban Del Suelro y Cabrera and Jose Garcia Orellana, head of Casa Cuba, a social and meeting hall. The FBI dramatically displayed to newsmen at its headquarters some explosives, and incendiary devices: which it said had been found in a safe in a jewelry concern owned by Garcia and in a flourescent lighting fixture which was found leaning against a wall)

Two other members of the Cuban Mission staff were accused of complicity. but were not arrested because they have diplomatic immunity. They are Mr. and Mrs. Jose Gomez Abad, who left the U.S. Nov. 19 after a request for their expulsion had been made by the U.S.

Bail was set at \$250,000 for Santiespeban and \$100,000 for Garcia and Sueiro.
Ada Marie Dristes, arrested as a material vitness, was held in \$25,000 bond.

that all those named were part of a plot fo injure and destroy national defense installations; that those arrested were acting as agents of a foreign power and that they had compired to gather information on military installations.

BRUISES ON FACE In court at a hearing on the complaint Santiesteban appeared to be badly bruised. The FBI said
he had resisted arrest and had punched
agents and kicked a news photographer.
Prensa Latina dispatches carried a statement by UN Ambassador Carlos Lechuga
charging that the attache had been
brutally beaten by arresting agents.

The Cuban press has assailed the arrests as without foundation and as unjustified retaliation for the arrest in Havana last week of Miguel Angel Oroco Crespo, whom Premier Catro described as the "leader of a group of spies trained by the CIA and directed by it." He said they were planning to blow up a mine and kill 400 workers.

Castro made the charge in a hote to U Thant, acting UN secretary general, made public Nov. 16, the day before the arrests for alleged sabotage in New York, TRIAL BY PRESS: The New York arrests were the first bulletins on radio and television broadcasts throughout the day Nov. 17. A front-page story the next day in the New York Herald Tribune began: "Their plans-made in Castro's Cubawere simple enough; they intended to terrorize the metropolitan New York area with flames, bullets and bombs. Let New Yorkers watch across the broad Hudson while an oil refinery exploded into deathdealing, sky-reaching flame a spectacle to strike dread and fear into every heart."

On Nov. 19 the New York Times reported a state-wide police alert in New Jersey to the effect that "three or four carloads of Cuban revolutionists" had been en route to New Jersey refineries. Later in the alert "revolutionists" was changed to revolutists." The Times story said: "Then at 8:10 a.m. the alert was canceled The original information had been traced to a telephone call to the big Esso Bayway refinery in Linden. Either the caller or the receiver of the call, or both had misinterpreted the announcement of the arrests."

TO HAVANA: TWO DIPLO MISSION OF TERROR A FAILURE

By Marshall Peck 7

There, are two faces to Castro's Cuba those of the tortured and those of the sly. These extremes passed one another at Idlewild Airport

yesterday. "Getting out of town in a hurry," as the FBI put it,

were two Castro diplomats who planned a reign of terrorism and sabotage in the metropolitan area.

Covered by diplomatic immunity, Jose Gomez Abad; 21; and his wife, Elsa, 20, were escorted out of the country by police. They caught a direct flight to Mexico City.

About an hour earlier, crumpled under the strain of fruitless waiting, three Cubans who have been in Havana attempting to promote the freeing of 1,113 Baynof Pigs prisoners, arrived at Idlewild from Cuba, via Bermuda.

The three—Arraro Sanchez if., chaimen of the Cuban Families Committee for Liberation of the Prisoners of War, and Mr. and Mrs. Jesus Barreto de los Heros—will report to the committee and the prisoners families.

Outwardly, they expressed optimism for release of the men. But their story will de-tail the almost heartless catand-mouse game that Fidel Castro has played in bargain-

ing with the lives of men.
The American mission at the United Nations had de-manded the ouster of the Gomez couple, named Saturday as members of a conspiracy "aimed at the heart of the internal security of the United States."

Another (member of the Castro UN mission, Roberto Santiesteban Casanova, 27, whose diplomatic immunity in this country had not yet been established. is being held in \$250,000 ball for his alleged part in the plot If convicted he faces up to 20 years in prison and a possible \$20,000

As expected, Carlo Act EC12 1962

UN, made a personal protest to Secretary General U Thant. The Ambassador called Santiesteban's arrest (he had a loaded pistol in his pocket. police said), a violation of diplomatic immunity.

The three Cubans from the Castro UN mission, and several other Castro sympathizers also taken into custody, reportedly (planned las cam-paign) of ! destruction | and terror. The FBI confiscated a cache of explosives and incendiary devices found at 242, W. 27th St.

An FBI spokesman indicated the agency was still rounding up loose ends in the case. There may be some developments." (a spokesman said, "we're not saying that this is all. But we'll have to see what we come up with."

The three members of the Bay of Pigs prisoners committee delegation were delayed in returning to this country because of the edict Castro laid down Saturday canceling commercial flights over Cuba unless he wants them.

In the company of James B. Donovan, the Brooklyn lawyer who has been negotiating with Castro for release of the prisoners, the three Cubans will hold a press conference today.

Apparently the curtailment on direct transportation to Havana led to the Gomez couple's trip to Mexico City. They left, haughty and without comment: {Asked to stop and pose for photographers, Gomez only snapped:

"We're not actors" Then they were gone,

Castro Out of Control

THREE CUBAN CONSPIRATORS, one a member of the Cuban mission to the United Nations, have been seized by the Federal Bureau of Investigation in New York City, along with weapons, explosives, and incendiary devices with which they planned a campaign of murder and terrorism on a vast scale. Two more conspirators were not arrested because of diplomatic immunity-indicating that a criminal with the required papers can get away not only with murder but with mass murder. However the individual cases are disposed of, the FBI's disclosures make a few facts clear and urgent.

First, Cuba should immediately be barred from the United Nations. The U. N.'s fundamental job is to preserve peace; it can hardly let itself be used as a base for open hostilities. The Castro government has carried out similar campaigns of sabotage and murder in Latin America, but this one frankly used the U. N. as an instrument in attempting an act of war against the organization's host country. Letting Cuba keep its seat as a bona fide member would make a degrading farce of the U. N.'s peace keeping mission.

Second, it is pretty plain that the Castro government has gone: Chinese and is no longer under soviet control. "If has rejected the Russian theme of "peaceful co-existence"—that is, nonviolent infiltration and subversion—in favor of undisguised, murderous savagery as preached and practiced by Mao Tse tung. The negotiations with Russia now going on in New York City are based on the assumption that Khrushchev is running things in Cuba; it is time he was required to prove it by muzzling Castro.

The Castro regime must be removed from the backs of the Cuban people, and until it is removed it must be controled. . The Soviet Union has had time to impose control and evidently failed. It must be made clear to the Russians that the United States cannot tolerate a mad-dog regime in this hemisphere much jouger.

As a demand that Cuban emissaries to the UN be severely restricted in their travel privileges here continued to draw public support, an attempt was launched to spring the ringleader of the sabotage plot:

SEEKS IMMUNITY

He is Robert Santiesteban Casanova, 27, an attache at the Cuban UN Mission, 155 E. 44th st.

Cuban UN Ambassador Carlos Lechusa moved behind the scenes in maneuvers to drape the cloak of diplomatic immunity around Santiesteban, who arrived here Oct 3 with a diplomatic passport.

The Cuban Government's request for diplomat status and immunities for Santlesteban, however, was still being processed by the U.S. at the time of his arrest

Authorities here insisted, therefore, that Santiesteban's arrest was legal and that he would have to stand that he question is expected to be thrashed out Friday when the diplomatic alde is due for a Federal Court hearing.

PACK BELONGINGS

Two other Cubans who didescape arrest because of diplomatic immunity, but whose ouster from the U.S. was demanded by government officials, packed their belongings yesterday. They were Jose Gomez Abad, 21, and his wife. Elsa Montero de Gomez, 20, both members of the permanent Cuban Mission to the UN.

Two station-wagonloads of clothing and personal effects were removed to an undisclosed airport from their apartment at 265 W. 71st st., but it wasn't immediately determined when they themselves planned to depart. They were identified by the FBI as the persons who supplied the arsenal to the saboteurs.

THE EXTENT of the monstrous terror which Fidel Castro planned to unloose on the 16,000,000 people of the metropolitan area shocks the imagination of any civilized person.

The Cuban agents rounded up here by the F.B.I: are charged officially with plotting to sabotage defense installations. But the evidence shows they also were planning to terrorize civilians with indiscriminate bombings and fires.

The plot called for the killing and maining of helpless men, women and children by setting off bombs and grenades whereever New Yorkers congregate.

This city has not been brought face to face with the possibility of such wholesale destruction since Nazi saboteurs landed on Long Island 20 years ago. But that was war.

Today we are technically at peace—and the responsibility for engineering this outrage leads right to the door of the Cuban mission to the United Nations, the peace-making agency of a troubled world.

Three members of the Cuban mission stand charged with using the cloak of diplomatic immunity to plot this diabolical violence against the city in which they are guests. This is a plot that violates every civilized concept of humanity and decency.

Under the United Nations treaty we have to grant even Cuba the right to be represented here. But we can restrict the movements of Cuban UN representatives just as we have restricted travel by Russian diplomats.

We again call on the State Department to restrict the Cubans to the headquarters of their mission and access to the United Nations compound. They should be denied the right to use any of our streets except the shortest route between these two points.

They MUST be denied the freedom of the city in which they have become a dangerously grave menace.

We also think it is time for the Immigration Department and the police to proclaim a lime.

Get Out, Fidelista

in our Cuban population. It was from this loudly defiant and disorderly group that the plotters were recruiting potential killers who were being trained in a school of sabotage.

For far too long, the Fidelistas have been turning our streets into battlegrounds and persecuting the brave refugees who fled here from Castro.

If these people like Castro so much why don't they go back to Cuba?

Stop All of Castro's Saboteurs

The decisive action of the FBI in smashing a ring of pro-Castro Cubans apparently assigned to spread terror, in New York and other United States cities by sabotage, fire and bombings reflects the usual efficiency which Americans have come to expect from this agency.

The peril is by no means over, however. Bombings of oil installations in Venezuela and acts of sabotage elsewhere in South America indicate that Castro is striking out the came into power. in every underhanded manner he can against all those who have dared must inevitably bring Castro's own: to oppose him.

This outrage is reminiscent in a way of the landing in the U.S. of would-be Nazi saboteurs during World War II. But it is far more serious because of the enormous international repercussions if a major catastrophe were successfully engineered. In this respect, it is further evidence of the streak of suicidal irrationality that has characterized Castro's policies ever since

ANEDITORIAL

THE DIABOLICAL nature of the Castro plot to indiscriminately bomb the people of New York wherever they may congregate violates every concept of decency and humanity.

By the proven complicity of its members in this shockingly evil conspiracy, the Cuban Mission to the United Nations has forfeited any right to continue in the status of a guest there.

Any government that would sanction such senseless terrorizing of innocent civilians has no place in the company of civilized nations.

Unfortunately, the members of the Guban mission are here as delegates to the UN and as such we are reluctantly forced to give them diplomatic immunity.

But there is no reason why we cannot restrict their movements just as we have restricted the travel of Russian diplomats to specified areas and routes:

Therefore, we demand that the State Department use its authority to restrict the Cubans to the headquarters of their mission and access to the UN reservation. The streets that they may travel between these points should be limited to specified routes and the FBI and the police should see that these rules are adhered to

We call on Mayor Wagner and U.S. Senators Javits and Keating to bring home to the State Department the urgent need to restrict these mad dogs who are in our midst.

They MUST be denied the freedom of our

U.S. Demands **Ouster of Cuba UN Delegates**

By Joseph McNamara and William Neugebauer

NEW YORK

A Cuban sabotage conspiracy in New York City. "aimed at the heart of the internal security of the United States," was smashed Saturday with the arrest of three men, one a member of the Cuban Mission to the United Nations, and the seizure of an arsenal of

having supplied arms and explosives to the ring.

A sharp directive from the United States UN Mission to Acting Secretary General U Thant and the Cuban UN Mission demanded the immediate ouster of the two accused said Gomez and his wife gave, the arms to Garcia to be diplomat-gun suppliers, Jose Gomez Abad, 21, and his wife, ased

At arraignment of the three accused saboteurs, which tise them," Malone added kicked up a diplomatic storm before all were held on a total \$450,000 bail, the ring was accused of spying on the side. The official charge read:

Accused of Spying As Well:

It was part of said conspiracy that the defendants and their co-conspirators would obtain information concerning United States military and national defense installations and facilities."

FBI sources said the conspirators aimed to blow up large department stores across the country by, putting, incendiary gas refining units in New Jersey.

Arrested were:

Robert Santiesteban Casanova, 27, of Manhattan, newly

arrived attache at the Cuban Mission.

Marino Antonio Esteban del Carmen Sueriroy, Cabrera, 22, Cuban citizen and treasurer of the Casa Cuba Club who recently sent his pregnant wife back to the island because he "did not want his child to be born an American citizen."

Jose Garcia Orellane, 42, operator of a costume jewelry manufacturing shop in W. 27th Street, where the arms and explosives were found.

Incendiary Bombs in Arsenal

The arms uncovered in an FBI raid included six French delayed action incendiary bombs hidden in a fluorescent light fixture a dozen detonators for the bombs, a 45 caliber Army automatic pistol, three U.S. Army-style fragmentation hand grenades and several clips of ammunition.

The ring extended beyond those arrested, the FBI indicated, with announcement that 10 others are being served subpoenas to appear for testimony purposes

An FBI spokesman said the conspirators were training other pro-Castro Cubans in use of the infernal weapons and instructing them in guerrilla warfare.

Later a fourth person, Ada Marie Dritsas, 26, of Manhattan, was arrested as a material witness. She was with Sueriro when he was nabbed by FBI agents early Saturday.

Santiesteban, who arrived here Oct. 3 on the same plane that brought Cuban President Osvaldo Dorlticos to the UN session, had applied last month for diplomatic immunity and privileges. His application was still being processed when he was arrested.

While the conspirators trained the other pro-Castroites, no formal school existed and the weapons were not for the purpose of conducting a school," Malone stated.

The weapons were intended for the commission of sabotage, he added. Such weapons have been used before in guerrilla warfare. He noted that pemphiets explain-

ing in English and Spanish how to use the incendiaries for sabotage were found with the cache of munitions.

The FBI added an interesting note. When the bomb detonators were found in Garcia's jewelry workshop, they were in an envelope bearing the return address of 155 E. 44th Street, the address of Cuba's Mission to the UN.

When the agents pounced on Santiesteban he assertedly bombs in air condition yents, and plotted to blow up oil and tried to swallow a written formula for home-made explosives, calling for five ingredients, including nitroglycerine, phosphates and acids:

UN OFFICIAL REDICTS

Rift Looms Over Arrest

UNITED NATIONS, N.Y. A UN official predicted Saturday that the Cuban delegation will challenge the legal right of the United States to arrest one of its attaches.

He made the prediction after the U.S. delegation delivered a note at 10:46 a.m. to the Cubans informing them of the arrest of Roberto Santies teban Casanova for participation in a conspiracy to commit sabotage within the U.S.

The note, which asked also for the expulsion from the U.S. of two other members of the Cuban delegation, said that Santiesteban does not possess diplomatic immunity. He will be subject to prosecution under U.S. federal statutes.

An unidentified spokesman at the permanent mission of Cuba told a newsman over the telephone that "it's not true" that Santiestebandid not have diplomatic immunity adding

CUBAN ATTACHES - Jose Gomez Abad, 21 and his wife; Elsa (20, have been accused by U.S. officials esconspiring sabolage in the U.S. (UPI).

The latest official publication issued by the protocol office of the UN giving the names of members of delegations lists both Santiesteban and Jose Gomez Abad-also named by the U.S. as a conspirator as attaches

However, the UN official said the inclusion of a delegate's name in the publication did not denote that the official had diplomatic immunity.

Under the agreement be tween the United Nations and the United States regarding UN headquarters the official noted, the principal resident representative of a country has automatic immunity upon entering the U.S.

Mother members of the delegation, however, must apply to the U.S. mission to the UN for such immunity. This usually takes from 20 days to a month to complete, he said.

According to the FBI, Santiesteban had requested diplomatic status and immunity, but the request was still being processed and had not been granted at the time he was ar

-U. N. Employe Of Castro Held: Bombs Seized

A Cuban plot to blow up vital nstallations and spread terror through: New York was smashed vesterday when the FBI seized a secret cache of bombs. Three Cubans were larrested on charges of conspiring to commit espionage and sabotage.

They were planning to launch a series of terrorist attacks in the larger New York department stores using gre-nades and miniature fire bombs, agents said.

One of those arrested was a Cuban United Nations employe who had not yet been granted diplomatic immunity.

Two other members of the Cuban Mission to the U.N. a husband and wife, were named as conspirators who had furnished incendiary devices and other explosive materials.

They were not arrested because of diplomatic immunity. But the United States delegation to the U. N. promptly asked for their recall to Cuba on grounds of "a most flagrant abuse of the pristieses of

Bombs Seized

Seized by the FBI in a Jewely workshop on West Twentyseventh street, New York, were three fragmentation hand grenades, also French delayed action incendiary bombs, 13 detonators for them and a 45caliber, pistol.

The bombs and grenades were described as litems generally associated with sabotage and guerrilla warfare.

Federal agents said a corps of pro-Castro Cubans were being trained in the use of the explosives, but no formal sabotage school: existed.

One of the trio arrested was Roberto Santiesteban Casanova, 27, a new attache of the Cuban U. N. mission; who flew here October 3 on a plane bringing Cuban President Osvaldo Dorticos to attend a U. N. session. The FBI said Santiesteban violently resisted arrest and had to be subdued by agents. He was reportedly armed with a fully loaded Mauser semiautomatic pistol and was carrying secret explosive formulas which he tried to swallow when he was captured. The FBI retovered the formulas....

To Face Hearings

The Cuban government had requested diplomatic status and immunity for Santiesteban late last month. The request was still being processed and had not been granted at the time of his arrest. He was held under a \$250,000 bond for a hearing next Friday.

The other two arrested were Jose Garcia Orellana, 42, owner and operator of the jewelry shop where the explosives were found, and Marind Antonio Sueiro, 22 described as a part-

time worker for Garcia. Both were held under \$100,000 bond. Both were active in pro-Castro organizations, including the July 26th Movement founded by Fidel Castro, the Casa Cuba Club in New York and the Fair Play for Cuba Communication. Play for Cuba Committee.

The three men were charged with violating the law which prohibits injury to or destruc-tion of national defense facilities during peacetime and with falling to register as foreign agents. The maximum penalty for the combined offenses would be 20 years imprisonment ate and \$15,000 fine.

Reds Forming Military Units, Evidence Hints

By EARL H. VOSS

The Kennedy Administration is urgently analyzing evidence that Sovie t military units, perhaps larger than company size, have been formed in Cuba.

President Kennedy will call on the Soviet Union to remove the military forces along, with all offensive weapons systems if it is frimly established that the Kremlin intends that the units remain in Cuba, officials said yesterday.

Elements have been observed at scattered locations on the island. So far it is not clear whether they will depart with the offensive weapons still remaining on the island, or whether they would stay on. It is possible they may be grouping for departure.

On the other hand, one high administration source observed, "they may be intending to stick around."

Press Conference Tuesday

The President may comment on the Soviet military units in Cuba at a press conference he has scheduled for 6 p.m. Tuesday, but the situation is not expected to clarify quickly enough for him to make any new demands of the Soviet Union by then

A Soviet military presence in the Western Hemisphere is regarded by the administration as a threat to the peace under the terms of the Inter-American Treaty of Reciprocal Assistance of 1947, the so-called Rio Treaty. It is also a violation of the Monroe Doctrine.

The Organization of American States' Organ of Consultation is expected to be called into urgent session soon to hear the United States' evaluation of its new evidence and demand withdrawal of the imilitary units, if this is warranted.

Officials spoke only in guarded terms about the character of the Soviet military units discovered to have been established in Cuba. Presumably they referred to remaining Soviet personnel whom the Kremlin calls "technicians," who have been brought to Cuba in increasing securiors since mast summer.

More than 5,000 Soviet continued by are estimated to have entered Cuba before the missles were withdrawn. Some left on the ships carrying 42 imedium-range Soviet rockets out of Cuba last week end, but official say it is likely that several thousand are still there.

More than 35 Soviet Hyushin-28 bombers still remains in Cuba. At least live have been assembled one has been known to have been test-flown, and there has been no move to take them out of Cube destite

President Kennedy's demands.
Premier Fidel Castro's new complaint to the United Nations about American aerial reconnaissance of Cuba inch by Inch may have been prompted by intensified photographic missions earlier last week to gather the evidence now being evaluated here

He threatened in a letter to Acting Secretary General U Thant to shoot down American reconnaissance aircraft. The United States intends to continue the surveillance despite Premier Castro's threat.

Premier Castro's threat.

There were urgent conferences in many parts of the State Department yesterday.

Officers took lunch at their desks and were in a steady round of meetings.

Type of Units: Unclear.

They may have been preparing the evidence which is to be laid before Secretary of State Rusk and President Kennedy in the next few days.

What types of units the Russians have established in Cuba was not clear yesterday officials said.

One prospect is that the Soviet Union has set up new communications centers in caves where Cuban refugees report missiles have been secreted. Unofficial information was that Soviet personnel had doubled the populations of some Cuban mountain villages in the areas where caves are known to exist.

Other Soviet military units may be establishing supply centers. One official speculated the Soviet military men may be forming a kind of "all-Russian brigade" but declined to guess what its mission might be.

The administration is understood to regard any non-hemisphere military unit in Cuba which is not engaged in training as a threat to the peace, under the terms of the Rio Treaty.

Not as Serious as Missiles

Presence of Soviet military units is not regarded by official Washington as a problem of the same degree of gravity as the medium-range missiles which were discovered last month.

Persuading the Soviet Union to remove the II-28 bombers is said to have higher priority on President Kennedy's list of requirements for settling the Cu-

ban crisis.

But a strong public move against these Soviet military units would serve to underscore in yet another way the President's earnestness in demanding withdrawal of the bombers and effective international inspection of Cuba.

The Federal Bureau of Investigation's arrest of three Cubans on sabotage charges in New York yesterday was another sign of growing United States impatience for a settlement of the Cuban problem.

Seen as Offensive Force

The presence of organized Soviet military units in Cuba would be treated as a new situation not covered by the Kennedy - Khrushchev - agreements of October 27-28.

The fact that officials now are treating the military groupings as possible threats to the peace indicated they would be regarded as an offensive rather than "defensive" force and thus would be required to

be removed from Cuba.
Consideration is also being given to tightening the still-operative United States naval quarantine of Cuba, perhaps to prevent petroleum shipments without which a great deal of the military potential in Cuba could not function. Fuel for the jet bombers and fighters provided by the Soviet Union would also be cut off.

Soviet Deputy Premier Mikoyan's, mission to Havana stretched into its third week yesterday. American officials, first expected he would stay only three or four days, and more recently expected him to return to New York Friday.

His plane was reported to be checked out for flight and standing by at Havana airport yesterday. What he has been doing is a myster to American officials. Backing Castro's Bemand
He has backed Premier Castro's demand that the United
States withdraw from the
Guantanamo naval base as a
price for removal of the IL-28
bombers Mr. Mikoyan has also
backed other Castro protests
against alleged United States
violations of Cuban sovereignty.

Secret correspondence between President Kennedy and Premier Khrushchev reportedly is continuing. It is held so closely that most of the officers dealing with the Cuban crisis on a day-to-day basis do not know the contents of the letter exchanges,

Another phase of the negotiations has been carried on under loose United Nations sporisor ship in New York. The Acting Secretary General has met frequently with Soviet Deputy Foreign Minister Kunnetsov and the American team of Ambassador. Adiai Stevenson and trouble shooter John J. McCloy. The Americans and Soviet negotiators have met separately, but made little headway

By MILTON BRACKER Three pro-Castro Cubans were arrested here yesterday on charges that included conspiracy to commit sabotage. Their arrest followed the seizure of a cache of explosives and incendiary devices in a West 27th Street loft by the Federal But reau of Investigation.

The Government complaint alleged that the materials were "for the purpose of injuring and destroying national defense materials, premises and utilities" in the New York area; An F.B.L. spokesman said the inquiry had suggested that large retail stores in Manhattan and oil refineries in New Jersey were among possible targets.

Federal agents charged two members of the Cuban mission to the United Nations with complicity in the conspiracy. They are a man and wife, suspected of having passed the weapons which included two pistols—to the asserted sabotage conspirators.

In a car between two agents, Garcia, handcuffed, kept his head down and his eyes almost closed. He had dark curly hair. His left knee was awkwardly high, as he sat squeezed between his two escorts.

In data transmitted to the regional office, Mr. Hoover explained that the arrested men were charged with conspiring to violate the following Federal statutes:

Section 2155 Title 18, United States Code, which prohibits injury to or destruction of national defense materials, premises or utilities during peace-

Section 951, Title 18, United States Code, which prohibits persons other than diplomatic or consular officers or attaches from facting in the United States as agents of a foreign government without prior notification to the Secretary of State.

mum penalty of ten years imprisonment and a fine or \$10, 000; section 951 provides a maximum term of ten years and a \$5,000 fine.

The complaint held that the suspects had conspired to gather information concerning. United States military installations, as well as to "obtain and possess" the explosives and incendiaries for the purposes mentioned.

Moreover, according to the complaint, the three men had agreed to further their activities with the cassistance of as many pro-Castro Cubans as pos-

Garcia and Sueiro were said to have extensive backgrounds in pro-Castro organizational life in this city. Both were said to belong to the Movimiento del 26 de Julio, or 26th of July movement, the basic group on which fidelismo has been built.

It was on July 26, 1953 that Castro led an attack on Batista forces at Santiago. Seventy of 165 attackers were slain. Castro was sentenced to fifteen years but was freed in an amnesty and went to Mexico.

The two were said also to have frequented the Casa Cuba Club, identified with Castro sympathizers at 691 Lands Avenue, and to have taken part

Play for Cuba Committee. The committee's attitude on the Cuban controversy brought it under the scrutiny of the Scnate Internal Security subcommittee.

Suspect Impassive

Before Commissioner Bishopp in the Federal Building Santiesteban looked on impassively as Vincent Li Broderick, United States Attorney for the Southern District of New York, said the suspect was "right at the core of the conspiracy."

The scope and direction of the conspiracy, the prosecutor said, was aimed at the heart of the internal security of the United States.

Leonard B. Boudin of 30 East 42d Street, appeared for the Cuban mission. He insisted that Santiesteban did enjoy diplomatic status, that he therefore had the "right to resist," and that his arrest was a crime."

The defense attorney asked that, the prisoner be allowed to leave on his own recognizance or that nominal ball of \$1,000 be set.

Mr. Broderick countered:

Here we are dealing with a man who is a revolutionary, charged with exercising aggressive acts. The surest way to insure that the man goes back to Cuba is to fix nominal ball."

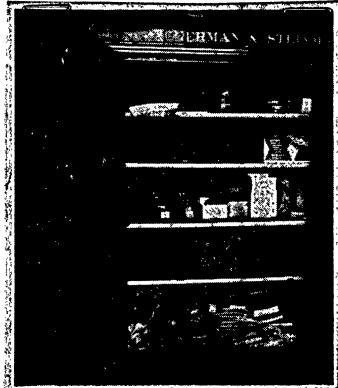

The Government attorney selected head of the Casa Cuba Club—also had played a key role? In the case. The Cuban's lattorney, Stanley Faulkner, argued that \$100,000 bail would be excessive.

Commissioner Bishopp disagreed "If the allegations are true, the \$100,000 ball is too small in my opinion," he said.

Mr. Broderick said that Suchress native of Marianao.

Cuba and treasurer of the Casa Cuba Club, had sent his preghant wire back to Cuba because he did not want the child to become, by birth a United States citizen.

Miss Dritsas was described as a teacher and recreation supervisor at the Hudson Guild, 436 West 27th Street, two blocks from the loft building. Mr. Broderick said she had one told those in the Garcia office—which was locked yesterday—that she had been followed there by the F.B.I. and been told to stay away from the premises.

CONCEALED: CUBAN, EXPLOSIVES: Some of explosives and incendiaries were discovered in this safe in mid-town jewelry loft. Cuban literature was also found.

Planned \$100 Million Damage to Oil Refineries

If the FBI had failed to smash a Cuban plot geared to spreading death, terror and destruction in the Metropolitan Area, Government sources said the three arrested saboteurs planned to;

- Destroy national defense materials, sites, and utilities in New York City. The expected result: a loss of valuable offensive and defensive weapons and a downgrading of American prestige among other nations of the world, who would scoff at this country's inability to defend its own soil.
- Blow up gasoline and oil refineries in such North Jersey communities as Linden, Rahway, Cartaret and Bayonne. The expected result: widespread destruction surpassing the \$100,000,000 worth of damage done when pro-Castro saboteurs blew up oil fields in Caracas, Venezuela; last Oct. 29. Death, injury, and general panic among residents would have been by-products of the North Jersey bombings,
- Plant incendiary bombs and smoke devices in the air conditioning systems of New York City's largest department stores. The expected result: terror and panic.
- Train 10 tother pro-Castroltes in the art of sabotage. These 10 already were undergoing training clandestinely in "private rooms" in New York. The expected result: ta stepped-up program of sabotage that in time might completely paralyze the city. The blowing up of bridges and subway facilities, for example, might have been part of the plot for the

in order to accomplish these acts the saboteurs had the following arsenai:

. Six French delayed action incendiary devices: 12 acid-type luses; three to an Army hand grenades; two pictors in the ideas of bloof clips; instructions in French and English explaining the incendiray detonators and their use. In addition, one of the three saboteurs was carrying "secret explosive formulas" which he tried, without success, to swallow

A Cuban sabotage plot, designed to destroy by fire and explosion military installations, oil storage tanks and public facilities in New York City, was smashed yesterday by the FBI.

Agents arrested three of Castro's Red followers, in cluding a member of the Cuban United Nations delega tion, and seized a cache of explosives and incendiary devices stored in a jewelry manufacturing office on

An FBI spokesman said the plotters were poised to unloose a reign of terror in the Metropolitan Area.

News of the arrests in the subversive plot, flashed to world capitals, brought immediate reaction of shock and a realization that the incident would serve to heat up the current Cuban crisis. But this time the advantage belonged to the United States and its famed Federal Bureau of Investigation.

The world learned that three members of the Cuban Mission to the United Nations—two were not arrested because they were protected by diplomatic immunityhad been involved in the deadly plot.

Arrived Here Last Month

The agenda of destruction included the blowing up of oil refineries in North Jersey, the setting off of incendiary bombs and smoke devices in air-conditioning systems of New York City's major department stores; and the throwing of hand grenades into crowds of Christmas shoppers. 18. 36 1. 13.

"It was a question of moving in before they had a chance to use their equipment," said John Malone, in charge of the New York FBI office.

The FBI also disclosed that 10 other Castro Reds were being trained in the art of sabotage at private rooms" in New York. All:10 have been subpoensed by a Federal grand jury.

Identified as the ring-leader of the conspiracy was surly, pugnacious Roberto Santiesteban Casanova, 27, of 240 E. 46th st., the UN attache under arrest. He arrived in this country last Oct. 3; three weeks before the start of the Cuban crisis, aboard the same plane which carried Cuban President Osvaldo Dorticos to this country,

In describing the Federal raid. James Green, superintendent of the seven-story loft building in which Model Craft was housed, said:

WELLS BLOWY UP

In making a joint announcement of the arrests in Washington, Atty, Gen. Robert Keninedy and FBI Director J. Edgar Hoover stated that the purpose of the abortive plot, was to obtain and possess incendary devices and other explosive materials for the purpose of injuring and destroying national defense materials, premises and utilities in New York City.

A spokesman for the Federal agency said the initial targets for sabotage were the sprawling oil refineries in such North Jersey cities as Rahway, Linden, Carteret and Bayonne.

THREE PRINCIPALS

A pro-Castro conspiracy was launched list Oct. 29 when U.S.-owned oil installations outside Caracas. Venezuela, were blown up with damage of \$100 million.

A second attack on the Venezuelan oll fields was carried out yesterday—and some government agents wondered if this was timed to coincide with the planed reign of terror in New York City and New Jersey.

Mr. Malone linked Gomez and his wife to the plot. They delivered the explosives to Garcia; he said. When asked how the FBI learned of the conspiracy, Mr. Malone answered:

"It's a trade secret. It would be detrimental to the security of our country to give such information."

noing, but no other arrests are expected immediately. The three arrested are the principals we were after."

Both Garcla and Suerlo have extensive backgrounds of participation in pro-Castro or-

ganizations in New York City.

Both were members of the July 26th Movement, founded by Castro himself more than a decade ago, and both fook part in the working of the Fair Play for. Cuba Committee, Garcia was recently elected president of the Casa Cuba Cuba, where once was hatched a plot to hijack American commercial air liners. Surio was its treasurer.

NOTEMMUNE

Sanitiesteban hau ocen in this country before. He first came here in April, 1957, using a tourist visa. That visa was extended the following December when he stated that he had become a student.

His application for diplomatic status was still being processed at the State Department in Washington, at the time of his capture, and so he was liable to arrest

At his arraignment in Federal Court at Foley Square before U. S. Comm. Earle N. Bishop, Santiesteban's attorney claimed that he was held liggally on the ground he carrie da diplomatic passport. His plea was futile.

HIGH BAIL SET

Asst. U.S. Atty: Vincent N Broderick, in asking that ball be set at \$250,000; stated:

"This man is at the heart of the conspiracy which is aimed at the people of New York."

Bail was set at \$250,000 and Santiesteban, who has a wife and child living in Cuba; will be given a hearing next Friday.

Garcia, who is a naturalized citizen by virtue of service in the United States Army, was held in \$100,000 bail for the grand jury. A resident of this country since 1941, he has a wife and two daughters here.

SENT WITH HOME

Bond of \$100,000 also was set for Suerio, who attended City College of New York as a non-matriculating student. He is not a citizen and, according to Mr. Broderick, he sent his wife back to Cuba to await the birth of their first child "so the infant would unot be born on United States soll."

The Dritsas woman was held In \$25,000 ball as a material witness. Mr. Broderick noted that her testimony could play an important part in the trial.

The three would-be saboteurs were charged with conspiracy to commit sabotage and violation of the Federal law which prohibits persons other than diplomats from acting as agenta

PRAISES FBI WORK

In Washington, Atty. Gen. Kennedy stressed the importance of inpping the sabotage plot before it could come full flower. He said

The smashing of the sabotage ring is a continuation of vigilant, dedicated work of the FBI:which prevented any foreign-inspired; sabotage from being committed in the United States during the second World Wal and the Korean souther. It has been 20 years ance a loreign power last select to cripple the United States from within. In April, 1942, eight German saboteurs came ashore on Long Island in a rubber boat launched from a submarine All were subsequently captured before carrying out their mission, and all were executed under laws related to wartime activities.

The daily activities of Garcia and Suerio are cloaked in mystery. Suerio's neighbors described him as a somewhat shadowy figure who seldom was home. Garcia's wife would say only:

But the facts were there for

ARRESTED AS CONSPIRATOR—Held in what the FBI calls a plot to sabotage military property and utility installations in New York is Roberto Santiesteban Casanova, an attache to the Cuban mission to the United Nations His plea for diplomatic immunity is under study. Arrests Smash Sabotage Ring

NEW YORK, Nov. 17.—Their plans—made in Castro's Cuba—were simple enough. They intended to terrorize the metropolitan New York area with flames bullets and bombs.

It, was a Communist-run sabotage ring in the hear

of Manhattan with its own midown school to train others in the uses of destructive terror. The saboteurs had an carsenal explosives grenades incendary devices

The FBI smashed the saboiage ring and the arsenal with key arrests today, and pointed an accusing revealing tinger at the Cuban mission to the United Nations

This was the plotters chiling psychological objective:

Let New Yorkers watch across the Hudson while an oil refinery in New Jersey exploded into death dealing sky reaching flame—a spectacle to strike dread and fear into every beart

heart;
Toss a hand grenade into a crowded, department store main many set off hysteria and panic, send screaming scared and wounded into the atreets of midtown Manhattan.

Tet a fast spreading fire in Wall Street:

e Use the well-developed tech niques of terror on the richest city in the world, the thickest concentrations of people, the biggest abuildings, the best known places; burn and kill and

main white in the daylight and in the daylight and in the darky.

It sounds like middle Europe of a Communist coup somewhere far away But it wasn't

And it was no wild eyed, bushy haired bunch of inelfectual radicals. It was a well-oiled machine—a hard corps of specialists and technicians a school for training in sabo

And its heart beat in the official residence of the Cuban mission to the United Nations. The FBI moved in on the plot today/collecting saboteurs, INI grenades, guns and other paraphernalia of terror as though they were so many low grade felons with the usual runs of equipment.

It was New York's closest call since nine Nazi saboteurs landed on Long Island in 1942,

The plan broke up when the FBI raided a costume jewelry workshop,

The plot apparently was directed through the Cuban mission to the UN. A short time after the FBI's announcement of the raid and arrests, the United States demanded that two members of the Cuban mission—Jose Gomez Abada and his wife, Elsa Montero de Gomezbe expelled from the United States. The Gomezes, according to the FBI, delivered arms to the plotters.

Here Is Dramatic Story Of Saboteurs' Capture

Armed FBI Agents Struck Swiftly Seized Cubans and Explosives By JERRY O'LEARY, Jr.

Star Staff Writer :

NEW YORK, Nov. 17-Fifty FBI agents won a battle in the cold war on the streets of Manhattan this morning.

Hours before they had received a final briefing. They were to be the first of this country's security forces to face foreign saboteurs on American soil since German groups

landed on Long Island, and Florida in 1942.

They had gathered on the tenth floor of their head-quarters at 201 East Sixty-ninth street late Friday after noon.

Their assignment was to arrest a gang of pro-Castro terrorists before the group could carry out a plan to use hand grenades and incendiary bombs in some of New York's busiest department stores. They looked like neatly dressed commuters.

The agents were intense in their assignment because they live here.

They felt and said that if

they failed to intercept the gang their own wives and children might be in any of the city's big stores when the grenades went off and the incendiaries began to burn.

Tall, gray-haired Assistant FBI Director John F. Malone and his assistants carefully briefed the younger men.

Washington officials of the FBI, including Director Edgar Hoover from his hospital room at George Washington University, were in constant

touch with the task force of agents.

The cache of explosives, grenades and detonators, the agents were told, had been located and they were in a race with time to seize the plotters before the Cubans could act.

The men, armed with their service revolvers, went down the elevators into their radioequipped cars and spread over New York.

Some of them took stations along Riverside drive; where apartments tower against the Hudson (River, kyline" Others' drove to the squalld tenement areas of the lower West Side where Spanish is a more com-

The first action came at 40 (o'clock) Friday night.

Eight agents were posted in front of a gray-stone, 'lading abartment house known as the Orbinwell Annex, at 604 Riverside drive. Some were in cars: Others hid in areaways and ohe FBI man was across the street in a park more normally frequented by boys and girls.

At that moment, the doubleand onto the sidewalk stepped Roberto Santiesteban /Casanova, 27, a stocky Cuban newly arrived at the United Nations as an attache on a plane bearthe Castro's puppet president, Osvaldo Dorticos.

Resists Arrest

Roberto, as the FBI referred to him; was the ringleader of the plot in the estimation of the agents.

He was not taken easily. AThere he is " shouted the agent who knew Roberto best from days of surveillance. At the signal, the others closed in. One FBI man grabbed Roberto's arm. The Cuban reacted

by biting him on the hand Then he fought wildly as the other FBI agents moved in the subdue him.

He yelled in Spanish and

English: "Diplomatico! Diplomatico!"

In his belt they found loaded 765 Mauser pistol Rob erto's efforts to reach the pisto and to swallow a plece of paper NOT RECO mai housed on his boad

The biece of paper he tried to swallow turned out to be a formula for the manufacture of explosives.

The agents quickly hand cuffed Roberto's hands behind him and hustled him into a car. Crowds were beginning to gather. He was driven to headquarters on the East Side and word went out over the radio that he had been arrested.

But there remained the explosives and there were other Cubans in the Diot At a dozen locations over New York; the FBI men increased their visilance.

At 1:50 a.m., the second arrest took place at the usually busy corner of Twenty-fifth street and Third avenue on the East Side. There, the agents had spotted & car belonging to Marino Antonio Esteban Del Carmen Suerio y Cabrera, 22. and they had staked it out:

Scorna Arfest

Tony was an odd-job man very tall for a Cuban, and a married man. When the FBI agents leaped from their van-tage points, he offered no resistance and he proved to be

unarmed.

Meanwhile whole task force of agents was camped in the block where Jose Garcia Orellana, 42, had a costume jewelry business, on the sixth floor of a building at 242 West Twenty-seventh street.

it was here, the FBI believed that the cache of grenades and explosives was hidden. They had a search warrant but couldn't serve it all night be cause no one showed up.

The break came when a pair of agents managed to convince Garcia's petite brunette wife that she and their two daughters would be better off if he were in custody.

She gave the agents the address of a friend of her husband and at 8:15 o'clock this morning, the agents went there. They found Garcia there. They found Garcia asleep in what is called a rioit; in New York and arrested him in bed. He was not armed and offered no resistance.

Then, with Garcia in their custody the FBI men moved in on the suspected location of the explosives.

They took Garcia's brother

an entirely introcent man, the with the agents:up the slevater to the locked door, of the Model Craft Custom Jewelry Co.; and opened the door. He also opened the safe, in which he was sure the FBI would find mothing. The start of

Inside they found a 45 call ber pistol of the kind used by the United States Army, They also found 13 clear-shaped detonators such as are needed to set off more inert explo-sives. The detonators were wrapped in cotton and the agents handled them carefully In the cluttered shop, the agents found what they were looking for the explosives They found the stuff in a metal light fixture, some of it wrapped in paper.

The fixture, intended to be emplaced on a celling, con-tained three fragmentation hand grenades in their card board containers and wrapped in tape. It also contained sever small incendiary devices, also of the type used by the Amer-

the FBI building where Roberto Tony and Garcia were being fingerprinted, photographed and questioned

The agents in charge of the operation then lodged formal charges of conspiracy to com-imit sabotage and failure to register as foreign agents against the three men. They also took into custody as material witness a 22-year-old Cuban woman, Ada Dritsas.

Two members of the Cuber mission to the United Nations were named as being involved in the conspiracy but not ar-rested. They are Jose Gomes Abad, 21 and his wife Elsa 20. The Federal complaint alleges; that they delivered the incendiary devices and explosives to Garcia:

Although Jose Gomez and his wife are immune from arrest because of their diplomatic status, Roberto is not because the request to grant him diplomatic status is still being processed by our State Department. Roberto's arrest stands despite the fact; that be had in his possession a Pasaporte Diplo-matico and a U.N. Identifica-tion card. He also had the loaded Mauser.

Three persons, including a member of the Cuban mission to the United Nations, have been arrested by FBI agents in New York on charges of conspiring to commit sabotage, Atty. Gen.

Mr. Kennedy said the agent also seized a secret cache of weapons and explosive equipment. He said the cache had been stored by pro-Castro Cubans.

In addition to those arrested, two members of the Cuban Mission to the United Nations are named as participants in the conspiracy.

FBI Director J. Edgar Hoover said the persons arrested were Roberto Santiesteban Casanova, 27, a newly arrived attache at the Cuban Mission to the UN; Atonio Sueiro, 22 New York City, and Jose Garcia Orellana, 42, New York City.

He said Jose Gomez Abad, 21, and his wife, Elsa, 20, both members of the Cuban Mission to the LIM, also were named as conspirators but were not arrested. The arrests took place last night and early today in New York City.

A federal complaint filed by the FBI in New York alleges that they delivered incendiary devices and other explosive material to Jose Garcia.

Agents said Casanova was armed with a fully loaded Mauser semi-automatic pistol when he was arrested. They said he violently resisted arrest and it was necessary for agents to subdue him."

Casanova had: "secret explosive formulas" In his possession at the time of his arrest, agents said. They said he tried to swallow these formulas but they were recovered by the agents.

The FBI director said the three arrested men are charged with conspiring to violate two Federal statutes. One prohibits injury to or destruction of national defense materials, premises or utilities during peacetime. The other bars persons other than diplomatic or consular officers or attaches from acting in the U.S. as agents of a foreign government without prior notification to the State Department.

CIA Director a Bares Hole in Iron Curtain

Washington, April 14 (News Bureau)—CIA Director Richard Helms disclosed today that "a number of well-placed and coura-geous Russians" had in previous years passed military secrets to

The American spy chief said later that the Russian informants included Col. Oleg Penkovskiy, the Soviet military intelligence officer who was shot to death for treason in 1963, and others. Helms made the disclosure in

his first public speech in five years as head of the Central Intelligence Agency, Addressing the American Society of Newspaper Editors he described the agen-cy's role in the 1962 Ciban missile crisis

Our intelligence files in Washington thanks to U-2 photogra-phy of the Soviet Union and to a number of well-placed and cou-rageous Russians who helped us included a wealth of information on Soviet missile systems, Helm's said.

Knew What to Look For

"We had descriptions or photographs of the missiles, their transporters, and other associated equipment, and characteristic sites in the Soviet Union.

Helms said this information in the CIA's files was used to sort out misleading, and erroneous information from Cuba. Then, he said. American reconnaissance planes were able to locate Soviet missile sites under construction

on the island.
Questioned after the speech Helms said it was the first time, to his knowledge, that he CIA had confirmed receiving military had confirmed receiving military informaton from a number of the said published accounts of the 1962 crisis had not revealed this. He said he was making the disclosure to indicate that the CIA had known exactly what to look for in Cuba and was not dependent solely on technological means of obtaining infor-

Acknowledged for 1st Time Inough it was generally known that Penkovsky had worked for both British intelligence and the CIA; Helms schowledged this for the first time. Asked whether it could be assumed that his reference to well-placed and courageous Russians meant Penkoy sky and other persons, he said: Yes, and others."

Penkovskiy was arrested on Oct. 22, 1962, at the height of the Cuba missile crisis, on charges of espionage for the United States and Britain. He was sentenced on May 11, 1963, to be shot for atreason Greville Wynne, a Brit-ish businessman accused of being a spy-go-between, was sentenced at the same time to a long prison

Penkovskiy was executed on May 16, 1963. Wynne was later traded for Gordon Lonsdale a Soviet spy in England.
With the approval of President Nixon Helms

Nixon. Helms accepted the editors invitation in order to answer charges that the CIA "is an invisible government"—a law unto itself, engaged in provocative covert activities repugnant to a democratic society, and subject to no controls."

Helma said that simply wasn't so, that his agency did not give policy advice, did not spy on Am-ericans, and was strictly account-able to the President and appropriate congressional committees.

Saying that the CIA would lose its effectiveness if it did not

maintain secrety about its work,
Helms told the editors:
"We believe, and I say this

Molinal Release Called Blackmai

By DONALD R. FLYNN and GUS ENGELMAN

Shocked and angry New Yorkers reacted violently today to the freeing of child-killer Francisco "The Hook" Molina and three alleged saboteurs in exchange for 21 American prisoners in Cuban jails.

While the Administration declined to discuss details of the spectacular swap and Congressmen contacted by the N. Y. Journal-American withheld comment, the man-on-the-street spoke in cold fury,

"This is nothing but blackmall," snapped restaurant manager Frank Polo of 1380 1st ave. "It's another victory for Castro."

But for some the swap was

"I can't, see anything morally wrong in this act," said William Darcey of 1970 E. Tremont ave. Bronx, a General Motors salesman.

"A precedent was already set for the prisoners release by the recent swap of the Russian spy (Rudolph) Abel for our U-2 flier (Francis Garr) Powers. Bot haides were satisfied with the results.

"There doesn't seem to be any difference now."

At least, we have our boys safely back home, said Robert Price of Brooklyn, a chef at the Hotel Pierrepont. I grieve for the murdered girl, but I still think this is a good moye.

It was with reluctance that

Gov. Rockefeller Molina loose from Green Haven Prison in Stormville, N. Y.

At the request of the Federal government upon its representation that it is necessary in the national interest, I have commuted the minimum sentence of Fancisco Molina Del Rio o permit the U.S. Immigration and Naturalization Service to deport Molina to Cuba," said the Governor.

But only upon the assurance of Federal authorities that his release along with the release of three other Cuban Nationals now held in Federal Custody would be helpful in securing the release of 21 American eitizens imprisoned in Cuba."

FORMAL REQUEST

The request came to the Governor in a formal, written note from the U.S. Department of Justice, he said, and with the express condition that Mollina be deported forthwith.

If he ever again enters the U. S., "he is automatically deemed an escaped convict, and will complete the balance of his life sentence."

The release and deportation of the three Federal prisoners and Molina was carried out under the strictest security, and on a tight schedule.

Hardly 15 minutes after the Cubans arrived at Idlewild they were aboard a piston on their way to Atlanta, Ga., and Miami, to make connection with a Cubana Airlines plane.

Reporters and photographers were refused entry to the heavily guarded northern section of the field where the prisoners were held, a spot about two miles from the Terminal area.

Armed guards would answer no questions, and told reporters only that if they wanted to be admitted to the area they would have to obtain clearance from Washington.

Not even Port Authority Po-

lice or operations officials could enter without government approval

Gov. Rockefeller reportedly sked the Justice Department to withhold announcement of the release of Molina until the convicted killer, was on his way out of New York City.

Anti-Castro rioling was expected it is were known that The Hook was free.

Winzing off to Cuba with Molina were Roberto Santieste-ban Casanova, 27, a member of the Cuban UN Mission and the alleged leader of the sabotage plot; Jose Garcia Orellano, 43, a feweler, and Antonio Suelro, 23, who said he was only a salesman for Orellano.

But the FBI charged that the three—were planning a conspiracy to blow up military bases and defense installations and were trying to operate a spy ring.

SHOOTING FRAY

Molina's case involves the senseless murder of a 9-year-old girl in a shooting fray between pro and anti-Castroites.

The fiery Molina who was nicknamed "The Hook" because he wears a hook in place of a lost hand, spattered bullets through the El Prado Restaurant at 854 8th ave. during a brawl in April of 1991 and a stray slug hit little Magdalena in the back

The child, visiting New York with her parents from Venezuela, died 12 hours later. Molina was eventually sentenced to 20 years to life in prison.

Before imposing sentence on Molina, General Sessions Judge Mitchell D. Schweitzer rejected the idea of giving "The Hook" a suspended sentence as a possible spur to the release of Bay of Pigs invasion prisoners. The court, he said, was "not a trading post in human beings."

URGES ACCEPTANCE

But yesterday, commenting on the releasing of Molina, Judge Schweitzer told the N. Y. Journal American:

"If Molina's release in some measure assisted the return of 27 prisoners, then we as good Americans must accept it as the considered judgment of persons who are makign these determinations.

Derely "in the national interest," three suspected Cuban saboteurs who have been living it up in federal cust ody for more than five months were sprung late yesterday in Federal Court. It had been charged that they conspired to spy on our military bases, le arn the use of explosives, and damage 生成的原则 知果 or destroy defense installations.

Though nobody in authority would say so, the springeroo was obviously tied in as a deal involving the release of 21 Americans over the weekend, making it a nine-to-

one swap.

The lucky three were Roberto Santiesteban Casanova, 27, former attache at the Cuban UN mission here; Jose Garcia Orellano, 43, a jewelry store owner, and Antonio Sueiro, 23, who maintained that he peddled gems in Garcia's store.

Federal Judge Thomas F. Croake dropped all charges against the trio on application of U.S. Attorney Henry Morgenthau, stipulating that Santieste ban and Suerio ret out of the country at once.

A Legal Cutie

Santiesteban came here last Cuban UN mission and promptly claimed diplomatic immunity on his arrest. When that failed he invoked a writ of probibition, a proceeding that seeks to forbid prosecution except by the U.S. Supreme Court This legal dodge, has been pending before the highest court.

Judge's Conditions

Chief Assistant U. S. Attorney Vincent L. Broderick told Judge Croake that the dismissal had: been suggested to the Justice De-October as an attache to the partment by the State Department and Judge Croake said he would make two conditions that the Cuban rectionaly leave the U. On arriving with the American prisoners at Homestead Air Force Base near Miami, Mr. Donovan said his last mercy mission to Cuba had been completed.

Not all of the Americans known to have been held in Cuba returned with him on the Red Cross-chartered plane. Mr. Donovan said that Rafael del Pino, whose tearful wife was waiting at Homestead for for him, had not been released. Three other American; prisoners had elected to: by to South America instead of returning to the United States and five others are still in Cuba.

The announcement of the release of the accused saboteurs came in the midst of: these other developments:

-1. A high United States official who may not be quoted acknowledged that the Kennedy administration may have been overoptimistic in its estimate of the rate of withdrawal of Soviet troops from Cuba. In contradiction of a recent statement by Sen. Kenneth G. Keating, R. N. Y. he insisted, however, that the number withdrawn in recent weeks exceeded the number that had arrived!

2. In a sharp Senate discussion. Sen. Joseph S. Clark, D. Pa., defended President Kennedy's Cuban policy. He denounced "the war-whoopers around here" who want to march up San Juan Hill and start a war that would surely spread across the world. He suggested that the President was getting much more reliable information than Sen. Keating about events in

Cubs. The United States and a group of

Central American countries whose representatives recently conferred in Managua, Nicaragua, will submit to the Organization of American States this week recommendations for combatting pro-Castro subversion.

They will also ask the OAS to declare an economic embargo against Cuba. This latter would have more physchological than practical effect, however, since trade: between Cuba and the rest of Latin America is already at a minimum. The proposed embargo would exempt only food and medicine.

Judge Croake dismissed the indictment against the three alleged saboteurs on a motion of United States Attorney Vincent Broderick. Mr. Broderick told him that "the State Department has suggested to the Department of Justice that it would: be in the national interest if these three. defendants were released."

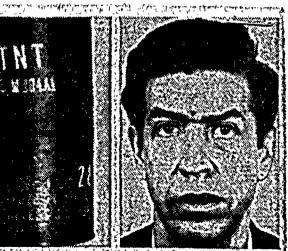

The three also were accused of conspiring to act as Cuban agents without having notified the Secretary of State, as the law requires. They failed to post bond of \$50,000 each and were held until yesterday at the Federal House of Detention in New York.

Two others named in the indictment co-conspirators, but not as defendants. left the United States at the request of the State Department. They were Jose Gomez Abad and his wife, Elsa, both attaches; at: the Cuban Mission to the UN.

The government charged that the three men released yesterday had intended to terrorize New York with fire, bullets; and bombs. At the time of their arrest, the FBI seized pistols, explosives, grenades and incendiary devices.

Opviously none of those named here was aware time. each participant had been under observation for weeks by the FBI. And at 10:25 on the night of Friday, Nov. 16, the time had come to close in on every one of them.

Santiesteban was arrested. walking to his ear on Riveriside dr. The FBI had intensified its watching of Cubans in this country, particularly in New York and Florida, because of the grave detericration of U. S.-Cuba relations. The Cuban Mission to the UN had become the prime target of FBI surveillance.

Watching this outpost, the G-men: were able to detect the sabotage plot almost from the moment it was conceived.

SANTIESTEBAN lurched grabbed one of the arresting G-men around the throat and hurled him backward. Then, before the others could move against him; he pulled out - wallet, stuffed, a piece of paper into his mouth and began to chew. One of the G-men grabbed him and pried the paper from his mouth. The paper had a formula for a powerful explosive that was to be used in the sabotage operation.

There was no violence elsewhere as G-men moved in simultaneously to close the ring around the others.

Antonio Sueirro Cabrela and Ada Maria Dritsas were sewed on their corner be-fore the driver could release the brake and drive away. Jose Gomez Abad and Elsa-Montero de Gomez Abad were locking their apartment door when FBI men broke

from cover under the stairwell and surrounded them. The words "You are under arrest!" spoxen by the Gas men prompted a sharp and sarcastic rejoinder from

Jose Garcia Orellana was seized in his office. G-men seized the grenades, detonators and incendiaries, two pistols, three loaded pistol clips and a quantity of TNT in the vault. More grenades and detonators were found in an old 42-inch fluorescent lighting fixture.

The FBI had carried out its crackdown so efficiently that not a word about the arrests came out until next day. The official announcement was made by the U. S. Mission and the FBI.

Simultaneously with announcement of the arrests of the saboteurs, the U.S. Mission delivered a note of protest to the Cuban UN Delegation and to Secretary General U Thant demanding that Jose Gomez Abad and his wife be expelled immediately to Havana.

Maria Dritsas, the teacher who was with Cabrera in the car, was released after extensive questioning. She had merely met Cabrera "socially," it was explained, and was not in on the plot.

Wednesday, Nov. 21, the trio was indicted by a Federal grand jury in New York for sabotage and conspiracy, and nothing more was heard about them for four months. Then the government was negotiating with Cuba for the release of U.S. nationals and others involved in the calam-

itous Bay of Pigs invasion.
Significantly, the three saboteurs were enabled to return to Cuba, with a fourth. Francisco "The Hook" Moling del Rio, who killed a 9year-old girl. Magdalena Urdaneta, during a shooting fray with anti-Castro Cubans in a New York City restaurant in 1959.

At the Federal govern-ment's request, Gov. Rockefeller had commuted Molina's sentence. 11

Once again, the United Nations, with its built-in protection, had become the shield and the un brella under which Communist espionage agents and terrorists function with immunity in this country. · 1 14 1 4, F.

HOW MANY CUBANS TO BLOW UP NEW YORK?

by newspaper: The 'sabotage'

By Joanne Grant THE PROPAGANDA CAMPAIGN to portray, the revolutionary government of Cuba as a source of danger to the hemisphere gained momentum with the FBI's arrest of three alleged sabo-teurs and implication that the Cuban Mission, to the UN master-minded :: 12 "sabotage plot."

. The press dutifully embroidered and dramatized the FBI report of its hereism in saving metropolitan New York from terror, panic and destruction.

Four persons were arrested in the early morning hours Nov. 17. They are: Roberto Santiesteban Casanova, an attaché at the Cuban UN Mission; Marino Antonio Esteban del Carmen Sueiro y Carbrera: Jose Garcia Orellana, and Ada! Marie Dritsas Miss Dritsas was held as material witness until her release was obtained in Federal court Nov. 27.

York Journal-American headlined the story Nov. 18: "Plot to Terrorize New York—3" Cuban Saboteurs Selzed." A front-page editorial demanded that the movement of Cuban UN diplomats in New York be restricted and that the furgent need to restrict these mad dogs who are in our midst" be impressed upon the State Department. Train 10 other pro-Castrolles in the art of sabotage. These 10 already were undergoing training clandestinely in private rooms in New York. The expected result: a stepped-up program of sabotage that in time might completely paralyze the city. The paper said: *An FBI spokesman (Continued on Page 9)

a reign of terror in the Metropolitan
Area."

PAGE ONE FANTASY: The New York Herald Tribune carried a six-inch fantasy on page one before revealing toward the end of the story on an inside page the substance—that the FBI had made arrests. It began

"Their plans—made in Castro's Cuba -were simple enough: they intended to terrorize the Metropolitan New York area with flames, bullets and bombs ... Toss a hand grenade into a crowded department store-maim many, set off hysteria and panic, "send screaming scared and wounded into the streets of midtown Manhattan. Set a fast-speeding fire in Wall Street ... burn and kill and main, strike in the caylight and in the dark . . . It was a well-oiled machinea - hard - corps of specialists - and stecknicians, a school for intensive training in sabotage. And its heart beat in the official residence of the Cuban Mission to the United Nations."

The next day the Journal investors carried a photograph of oil refineries across the top of the front page under the headline: N. J. Refineries ... Target of Saboteurs.

The FBI release got results. The New York Times reported Nov. 19 that New Jersey state police had alerted oil refineries to be on the lookout for three or four carloads of Cuban revolutionists on their way to New Jersey refineries. The alert was later cancelled and attributed to a phone call which had misinterpreted the announcement of the arrests.

newspapers described as an "arsenal" the following items confiscated by the FBI at a fewelry manufacturing concern rum by Garcia: two automatic pistols, three grenades, two sets of detonators and incendiaries. 7 cartridges and a cartridge case, an FBI agent said illudetonators had been found. They were designed to ignite incendiary packets which burn for ten minutes, he said. The two sets displayed had been found with an instruction leaflet in English and French dated Jan. 21, 1943.

While the Times gave more restrained news coverage, its editorial Nov. 19 said:
".....in typical Communist fashion, the Castro forces have started to export terror to both the United States and Latin-American countries."

LINK TO VENEZUELA: In succeeding days there were news reports of a plot by Castro supporters to blow up bridges linking the United States and Mexico and of the bombing of the ear of anti-Castro exile leader, Dr. Jose Miro Cardona in Miami. All mentioned the New York arrests, implying a Castro-directed reign of terror in the hemisphere.

The Cuban. Revolutionary Council, which Miro heads, said it was "absolutely necessary to remove by force of arms the Fidel Castro regime, which is the intelligatual author of a terroristic plan throughout the hemisphere. The arrests were also linked to explosions at Venetical and fields. On Nov. 9 Venezuela had

ROBERT SANTIESTERAN.
The bruises were evident,

innounced it would bring documentary froof before the Organization of American States linking Cuba to the facts of sabotage and subversion by Venezuelan Communists.

On Nov. 28 the New York World Telegram & Sun reported that a U.S. delegate to the O.A.S. said the State Department is preparing a case with the FBI on the alleged New York sabotage plot to be presented to the O.A.S.

The next day Hearst Headline Service reported from Washington that the Senate Internal Security Subcommittee and the House Committee on Un-American Activities had started "preliminary investigations of possible Communist links with the alleged New York pro-Castro Cuban sabotage ring."

GRAND JURY HEARINGS: In most press stories those arrested have been identified as members of the July 26th Movement, the Fair Play for Cuba Committee and Casa Cuba, a social and meeting hall in New York Members of the July 26th Movement and Casa Cuba have in the past been subpensed for grand jury hearings on registration under the Foreign Agents Registration Act. The July 26th Movement was decimated because of hearings held in March. The foreign agents charge was also raised against Fair Play for Cuba in hearings before: the Senate Internal Security Subcommittee. Such hearings tend to reduce support for improved Cuban-American relations and to intimidate supporters of the Cuban revolution here.

Grand jury hearings are currently in progress. An FBI spokesman said that all 10 alleged "trainces" have been subpensed. Subpense were issued before the arrests. An indication of the manner in which the grand jury hearings have been conducted is contained in a motion filed by Eve Preminger, one of the attorneys representing subpensed persons, seeking the return of a passport taken and held by the grand jury The action also charges that witnesses have been directed to answer questions after asserting Constitutional privileges under the Fifth Amendment.

Gand jury witnesses were reported

have said that they were not allowed to consult their lawyers, that they were asked how they obtained counsel and have been called back repeatedly.

The timing of the subpense, the arrests and the character of the FBI announcement lend credence to the charge that the FBI is attempting to the charge case in the newspapers.

SCARE CAMPAIGN: Stanley Ecuation, Stiorney for Garcia, Sueiro and Miss. Dritsas, said that FBI Director J. Edgar Hoover is building up public sentiment and scaring people to the point that in the light of the present situation, the defendants couldn't possibly get a fair trial."

He characterized as "inflamatory" the FBI mention of department stores and oil refineries as targets when both the complaint and the indictment use the generalized terms national defense materials, premises and utilities.

Leonard B. Boudin, attorney for Santlesteban, has charged that the arrest of his client was illegal and in violation of his diplomatic immunity. Boudin has argued a writ of habeas corpus in Federal court contending that Santlesteban's diplomatic status was attested to by the issuance of a G-I visa issued only to diplomats by the U.S. State Department. Boudin also charged that the arrest and detention resulted from illegal wire-tapping of the Cuban Mission and the offices and homes of the attorneys for the Mission.

"SOME LOGIC": The government has maintained that Santiesteban's application for diplomatic immunity had not been processed up to the time of his arrest. Boudin told the GUARDIAN that the recognition of diplomatic status of a UN attache is "purely mechanical."

that Santiesteban could not be arrested, since the UN. Headquarters Agreement governing immunity does not define the status of a delegate between his application and the granting of immunity.

Boudin has subpensed Harlan Cleveland, Assistant Secretary of State for international organization affairs, and UN Ambassador Adlai Stevenson or persons they designate to testify on procedures for the granting of diplomatic immunity. He also has subpensed FBI-Director Hoover or his assistant, and John F Malone, Special agent in charge of the New York FBI division to testify on wire-tapping.

Bail for Santiesteban, set by the US. Commissioner at his arraignment at \$250,000, was set by Federal District Court Judge Edward Weinfeld at \$75,000. The bail will stand until Judge Weinfeld rules on the habeas corpus writ. Bail for Garcia and Sueiro was changed from \$100,000 to \$50,000 by Judge Weinfeld.

THE CHARGES: All three were indicted Nov. 21 and charged with conspiring to injure and destroy national defense materials, premises and utilities, to obtain information on U.S. military and national defense installations and facilities and to obtain incendiary devices and other explosives to destroy national defense materials.

The indictment also charged that they conspired to procure others to act as agents of the Revolutionary Government of Cuba without prior notification to the Secretary of State in violation of the Poreign Agents Registration act.

Two others named as co-conspirators.
Mr. and Mrs. Jose Gomez Abad, were not arrested or named as defendants since they have diplomatic immunity. They left for Cuba after the U.S. requested their expulsion.

Grand Jury Indicts 3 Cubans In Alleged 'Sabotage' Plot

By Harry Ring

NEW YORK, Nov. 28 Two turther argument will be heard the UN were indicted here Nov. In court yesterday Ada Dritsin, 21 by a federal grand jury on the who had been held as a material Cuba and thereby also "conspiring" not to register as agents of a foreign government.
The two Cuban-Americans, José

Garcia and Antonio Sueiro pleaded not guilty and are slated for trial Dec. 10. Pleading was adjourned in the case of Roberto Santiesteban pending disposition of his demand for release on the ground that the FBI arrested him in violation of his diplomatic immunity,

Yesterday Federal Judge Edward Weinstein heard arguments by Santiestehan's attorney. Leonand Boudin, to release him on a vrit of habeas corpus. Counterrguments were presented by U.S. Attorney Vincent Broderick and

Cuban-Americans and a member tomorrow, Meanwhile Santiesteban. of the Cuban diplomatic staff at its being held without bail.

dual charge of conspiring to witness in the case was released commit sabotage on behalf of on her own recognizance on the witness in the case, was released. basis of a writ of habeas corpus filed by her attorney Stanley Faulkner who is also defending Garcia and Sueiro. At the time of detention she was held in \$25,000 bail. Garcia and Sueiro are being held in 1\$50,000 bail each, an amount they have been so far unable to post.

In all its aspects there is bad? stench to the government's trole in this case. The arrests were made by the FBI in a manner clearly calculated to further inflame anti-Cuban sentiment in this country. In this effort it enjoyed the full co-operation of the press, radio and television, which featured the FBI announcement of the arrests with blazing headlines and fantastic stories of a plot to unleash a bloody reign of terror in the city including the burning; of department stores and the destruction of "national defense" installations and oil refineries.

All of this was to be accom-plished with six incendiary bombs, three hand grenades and one un-loaded pistol which the Justice Department claims it found concealed in a shop owned by Garcia.

The government sought to create the link with Cuba by bringing the UN Mission into the "conspiracy" and by noting to the press that Garcia is president of Casa Cuba, a social club supported by the pro-Castro Cuban community here, and that Sueiro is treasurer tof the club. It was also alleged that both had been active in the Fair Play for Cuba Committee and the now defunct 26th of July Movement:

Santiesteban is being held on the flimsy legalistic claim that

Since the origin arrest.

In arguing for the writ of charged the arrest of Santiesteban: was illegal on three counts: First, that he did enjoy diplomatic immunity (the current monthly UN "blue book" which lists all those of diplomatic status at the UN includes Santiesteban); Secondly, that the wording of the government charge strongly indicated the illegal use of wire-tapping; And, finally, that the charges were based solely on hearsay evidence.

"Key Witness" Not Called

This final point is given added weight by the fact that the government secured the indictment from the grand jury without calling to the the stand its sole material witness, Miss Dritsas. According to her attorney Mr. Faulkner, she was not even questioned by the U.S. Attorney's office during the period of her detention : 明 流

The strong possibility of a frame-up is underscored by the use of the notorious charge of "conspiracy" to commit a crime, Morton Sobell for example, was convicted not of committing espionage but of "conspiring" to do so. Leaders of the Socialist Workers Party were railroaded to prison in 1941 on charges, under the Smith Act, not of advocating. force and violence but of "conspiring to do so. The same method was applied in the Smith Act trials of the Communist Party leaders. "Conspiracy" is the vaguest possible type of legal charge and opens the door to all types of hearsay evidence that is inadmissable under other laws.

The vengeful character of the present presecution would be almost humorous if it weren't so serious. It was someone with

grimly ironical touch who figured out that "conspiracy" to commit sabotage without first notifying the government constitutes a second charge of "conspiracy" to violate the foreign agents regis-

Since the original announcement of the arrests the wave of habeas, corpus, attorney Boudin lynch-spirit publicity in the press has curlously subsided. However, the grand jury which handed down the indictments is reportedly continuing to call witnesses, including, several dozen from the Cuban community and a number. of local participants in the Puerto Rican independence movement This means further indictments are possible.

Meanwhile, Radio Havana night broadcast a detailed record cofferimes committed on Cubin soil by U.S. based saboteurs.

raded Cubans F avana

By DENIS SNEIGR Reporter of The Miami News

Three "alleged" Cuban sabo teurs and a Cuban murderer were flown from Key West to Havana today in a swap for 21 Americans freed yesterday by Dictator Fidel Castro.

A Cubana Airlines plane carried the four Cubans from Boca Chica Naval Air Station. near Key West, to Havana at 7:23 a.m.

One of the alleged saboteurs was accompanded by his wife and two small children. He was Jose Garcia Oreliana, 43, a Cuban-American who owned a New York costume jewelry shop.

Federal agents confiscated a large amount of explosives in Garcia's shop.

About 2 hours earlier, an Immigration Service plane brought the Cubans from Idlewild International Airport, New York, to Boca Chica.

The Federal Aviation Office at Key West erroneously had reported the plane was owned by Riddle Airlines.

55 MAY 3 42 1933

A motorcade of four black limousines protected by security cars took the Cubans to Idle vild late last night. They were deposited at the highsecurity north end of Idlewild

Four F-104 Navy jet fighter planes escorted the Cubana C-46 in and out of Boca Chica air field.

At Boca Chica there were rumors - that the Cubana plane brought another American home from Havana: but this could not be confirmed. Newsmen were barred from the air station.

Rafael del Pino, 36, of 621 NW 59th Ct. was due to arrive yesterday with the 21 prisoners, but failed to do so. He (may have been returned today.

There was little doubt that New York lawyer James Donovan was the key figure behind the swap of the 21 Americans for the four Cubans.

Donovan engineered the swap of U-2 pilot Francis Gary Powers for Soviet master spy Rudolph Abel, who was serving 30 years in prison in the U.S.

Desovar also handled the ransoming of 1,113 Bay of Pigs prisoners.

Attorney General Robert Kennedy announced the latest swap last night. He said the decision to free the alleg Cuban Saboteurs was part of a deal for the American prisopers in Cuba.

"New York Gov. Nelson Rockefeller said another part of the deal was the release of convicted murderer Francisco Molina del Rio. 31, known as "The Hook" because of an artificial hand.

The other three Cubans were indicted on sabotage conspiracy charges by a federal grand jury after their arrest in New York Nov. 16.

They are Roberto Santieste ban Casanova, 27, an attache with the Cuban mission to the United Nations: Antonio Sueiro. 23. a Cuban living in New York. and Garcia: 👯

Rockefeller earlier had freed Molina, who was sentenced to 20 years to life for the 1960

the Cubans. At the time of the conference they felt that the best basis for the complaint would be a violation of the Foreign Agents Registration Act of 1938, as amended. They said there are other possibilities, however, such as the seditious conspiracy statute, which is very technical, and another statute having to do with possession of explosives, wherein a rebutable presumption arises that the person having it in his possession moved it in interstate commerce.

Both Hall and Davitt recognize the need of providing the Bureau the means of moving if the circumstances demand this. They said they will utilize the best approach possible at this time but asked to be kept informed by telephone of further developments in the case so that they can consider whether such developments lend themselves to an approach from the standpoint of a Federal sabotage violation or some other strong statute. They stated that they would keep us telephonically advised of their consideration in this matter and let us know when the complaint is ready.

RE: CUBAN SABOTAGE EFFORTS IN THE UNITED STATES

b3 b7E

New York has indicated that, in view of the reluctance of to continue to store the sabotage supplies and as	b6
is known to change his announced plans without notice, New York feel that the best possible advantage to the U.S. Government is to bring	
this case to a climax at earliest possible moment. New York specula	
that conceivably this could occur	_
OBSERVATIONS:	ř
We now have sabotage supplies in the hands of	
we probably wi	<u>1</u> 1
know what happens to the sabotage supplies when they are moved from	
his workshop. However, we do not have any control over and d	- r
know (1) where he has stored the detonators and pistol given to him	
(2) what specific sabotage mission or killing may have been assigned	. to
him by already. In other words, this case is progressi	ng bb
to that point where it is felt we probably will have to act or lose	h7n
control of this whole operation. Accordingly, it is felt we should	
ready to move Thursday night. At this point, although certain indiv	
have been named as being ones who would be suitable candidates to ca	rry
out sabotage operations, our investigation has shown that	
directly involved in this plot. In any complaint issued,	
and thus enjoying dip	10=
matic status, would have to be named as a co-conspirator rather than	_o
co-defendant.	
000 11.1. Co	
Following individuals have been mentioned as ones who woul	d be
possible candidates to carry out possible sabotage operations:	, .
Santiago Larroque,	b 6

All of these are under intensive investigation by

New York. Depending on developments, these individuals could become
defendants in this matter or could possibly be utilized as friendly witnesses.

in place where we can legally effect microphone b7D coverage, we will do so. This could develop data which might be valuable in case of any trial in corroborating
ACTION: If you approve:
(1) Attached letter summarizing latest developments will be sent to Attorney General, with copies for Deputy Attorney General and Assistant Attorney General Yeagley. No other dissemination being made at this time in order to insure our informant is not jeopardized.
(2) This matter will be discussed with the Department and we will proceed with view in mind of obtaining a complaint so that we may be prepared to move Thursday night, if necessary. We will also discuss bfor the obtaining of a search warrant on
(3) If Department authorizes filing of complaint against individuals involved and it is indicated that we should proceed against them on Thursday night, we will advise State Department so that it may be in position to take immediate action to expell from the b7c U. S. To date, State Department has not been advised of developments in this matter in view of need for protecting our source.

	Memorandum to Mr. Sullivan RE: CUBAN SABOTAGE EFFORTS IN THE UNITED STATES b3 b7E
[ASAC Schmit of the New York Office telephonically advised this morning that the sabotage materials now in workshop should be moved to both another place in this respect and we, in turn, will keep Mr. Hall advised of all pertinent developments.
	Mr. Schmit further reported that there has been a most interesting development in this matter. The New York Office has an informant active in the Communist Party area, In the past few weeks this informant has submitted reports showing that a new Spanish club of the Communist Party has recently been organized. The informant has now positively identified a picture of as that of the individual whose name was previously reported by him as The New York Office has reviewed the informant's other reports relating to this new Spanish club. It has tentatively
	identified as members of the Communist Party club and two other Cubans whose names have come into this sabotage investigation, and Santiago Larroque. In this connection. our informant on 11-10-62 said that had talked to and Larroque and these two men were agreeable to work for the Cuban "revolution." Our informant did not know if specifically mentioned to these two men the possibility that acts of sabotage would be committed. The New York Office will closely pursue this apparent
	tie in of Communist Party members with the Cuban sabotage efforts. ACTION:
	We plan to have a further conference with Departmental attorneys this afternoon on this case following which we will advise the Attorney General of our plans for moving against and others involved. We will advise the Attorney General of the recent information developed showing the possible Communist Party connections on the part of some of the Cubans concerned in the matter.

THE FOLLOWING FACTORS ARE SET FORTH FOR CONSIDERATION AS TO GAINING THE GREATEST POSSIBLE ADVANTAGE TO THE US GOVERNMENT AS A RESULT OF ARREST AND PROSECUTION OF SUBJECTS INVOLVED.

1, CONSIDERING THAT THERE WOULD BE FOUR CO-DEFENDANTS IN ADDITION TO OTHERS WHOSE ASSISTANCE HAS BEEN SOLICITED FOR ACTS OF SABOTAGE, THIS LATTER GROUP MIGHT BE CONSIDERED AS CO-CONSPIRATORS. IT WOULD APPEAR THAT THE CO-DEFENDANTS, ESPECIALLY

- 2, IN THE EVENT IT IS POSSIBLE TO BRING IN AS MANY PARTICIPANTS AS POSSIBLE THAT HAVE COME TO OUR ATTENTION IN CONNECTION WITH THIS CASE, ALL OF WHOM WOULD BE CUBANS, IT MIGHT BE CONSIDERED THAT THEY WOULD BE SUBJECTING THEMSELVES TO IMMEDIATE DEPORTATION PRIOR TO ANY TRIAL. THIS MIGHT HAVE CERTAIN BENEFICIAL EFFECTS WHEN VIEWED IN THE LIGHT OF CURRENT NEGOTIATION CONCERNING THE CUBAN CRISIS, INSOFAR AS ANY DESIRE ON THE PART OF THE US IS CONCERNED TO EFFECT A PEACEFUL NEGOTIATION.

SUCH A SUGGESTION MIGHT BE RAISED INDEPENDENT OF US GOVERNMENT AND SERVE ITS PURPOSE IN THE RELATIONSHIP BETWEEN CUBAN EXILES IN THE US AND THE US GOVERNMENT.

5, IT IS POINTED OUT THAT IT IS THE OPINION OF THE NYO	
IN ORDER TO GAIN MAXIMUM ADVANTAGE CONCERNING ARRESTS IN	ı
THE CAPTIONED CASE THAT THE ARRESTS OF THE DEFENDANTS SHOULD

IN THE EVENT SUCH ARREST CAN BE EFFECTIVELY CARRIED OUT AND WE ARE ABLE TO DIRECTLY ESTABLISH THAT THIS CONSPIRACY WAS BEING DIRECTED BY THE CUBAN UN MISSION, IT IS FELT THAT THE US GOVERNMENT COULD EFFECTIVELY BENEFIT FROM THE RESULTS IN DEEPING THE SUPPORT FOR THE US GOVERNMENT'S POSITION IN THE CUBAN CRISIS AMONG OTHER NATIONS. APPEARS THAT SUCH DEVELOPMENTS COULD SERIOUSLY AFFECT THE PRESENCE OF DEPUTY PREMIER MIKOYAN AND HIS EFFORTS AT PEACEFUL NEGOTIATIONS IN CUBA AT THE PRESENT TIME, ESPECIALLY IN VIEW OF THE FACT THAT THESE ACTIVITIES WERE ACTIVELY UNDERTAKEN DURING THE PERIOD OF NEGOTIATION, THEREBY ESTABLISHING THE UNTRUSTWORTHINESS OF THE CUBANS AND CONCEIVABLY COULD AFFECT RUSSIAN RELATIONS WITH CASTRO. ANY SUCH DEVELOPMENTS AT THIS TIME MIGHT BENEFIT THE PRESENT STATE OF NEGOTIATIONS CONCERNING THE REMOVAL OF RUSSIAN BOMBERS AND THE RIGHT OF INSPECTION RRESENTLY STALEMATED.

IN THE EVENT SUCCESSFUL RESULTS ARE ACHIEVED IN INSTANT MATTER, CONSIDERATION MIGHT BE GIVEN TO CONTINUE TO MAINTAIN THE PRESSURE ON PRO-CASTRONALIENS AND TO EMPLOY THIS CASE IN ORDER TO INITIATE GRAND JURY PROCEEDINGS TO BRING ALL KEY PRO-CASTRO ACTIVISTS BEFORE A FEDERAL GRAND JURY.

For information of the Bureau, on the above date SAS J. WILLIAM LOVE and RAYMOND MC ANDREW entered	b6
contact or inquiry, the availability and feasibility of utilizing an unoccupied office adjacent to office for plant purposes.	b7C
SAS LOVE AND MC ANDREWS entered the single unoccupied elevator which was about to ascend, when a young woman, unidentified at that time, entered the elevator which then ascended. Upon reaching the sixth floor, the SAS permitted the woman to leave and she turned right. The SAS stepped off the elevator, quickly observed there was only one twenty foot long corridor with only one office at each end, whereupon the SAS turned left. The woman entered the subject's office immediately and closed the door, upon the sound of which the SAS turned, re-entered the elevator, and immediately left the building.	
The SAS did not turn when the subject's door opened consequently it is not known if the subject appeared in the doorway momentarily; but if so the subject could only have seen the backs of the SAS.	,
It is also noted that subsequently claimed he had seen the same two men in the doorway of his building the following day.	b6 b70

Ŋ	ASAC Schmit was requested to contact Assistant U. S. Attorney (AE Mollo, who is handling this case in New York, to find out whether Mollo desired the subjects arraigned during the night. At 2:15 a.m. Schmit advised that Mollo stated the subjects would not be arraigned tonight but would be arraigned before noon, November 17. Meanwhile, Mollo stated the subjects could be held in our office or taken over to the Federal House of Detention if we so desired. Mollo was asked whether the search of subject where the explosives are stored, become could be conducted without the presence of a third person or Mollo stated that our Agents could make the search at any time without the presence of other persons, providing a copy of the search warrant was left. At 2:35 a.m. Assistant Attorney General Yeagley was asked about
	the legality of the search without witnesses. He advised that AUSA Mollo was correct and a witness was not necessary. Nevertheless, it was our feeling from the standpoint of avoiding legal questions during the trial it would be better to have a witness to the search; therefore, New York was so instructed.
	ASAC Schmit was also requested to check with AUSA Mollo as to b6 b7c whether should be held as a material witness. Schmit checked with Mollo and advised that Mollo authorized detention of as a material witness and she was thereafter taken to
:	Search for subject proving fruitless, ASAC Schmit was authorized to proceed with the service of subpoenas on the remaining possible witnesses. At daybreak, November 17, Alfonso Garcia, was to be brought to the office by way of subject in order that he could witness the search and recovery of the explosive and incendiary devices. At 6:45 a.m. ASAC Schmit called to advise that Alfonso Garcia had been contacted, appeared to be cooperative, and was being taken to the storeroom for the search and obtaining of the sabotage materials. He will, thereafter, be brought to the office and interviewed.

SUBJECT:

CUBAN SABOTAGE IN THE UNITED STATES

At approximately 4:35 p.m. today, 11-20-62, I received a call from the office of Leonard B. Boudin who is the defense attorney in captioned case in New York. He is notoriously known for his communist connections. Miss Frances Lurz immediately notified me of the call and I instructed her to tell Boudin's secretary that I was not in the office. Boudin's secretary then wanted to speak with anyone else in the office who was familiar with the press release in the captioned case. She was told this was the Attorney General's press release and that she would have to get in touch with the Department of Justice. The secretary told Miss Lurz that she had already contacted the Department of Justice (Ed Guthman's Office) and they had referred her to my office.

It appears obvious that Boudin desires to discuss the press release with an FBI representative and possibly later subpoena this representative in an attempt to prove that his client "was tried out of court" by the FBI. Our New York Office, at 10:30 p.m., 11-19-62, received a call from Boudin asking for a copy of the press release. We recommended that Boudin be placed in touch with the Department of Justice.

I have discussed this matter with Henry Diamond in Ed Guthman's Office. Guthman was not in at the time. Diamond admitted he had received the call from Boudin and stated he was not aware of Boudin's background. He indicated that he would furnish Boudin a copy of the press release in the event further calls were received.

I have instructed the men in my Front Office not to accept any calls from Boudin or representatives of his firm.

UNITED STATES DEPARTMENT OF JUSTICE FEDERAL BUREAU OF INVESTIGATION

WASHINGTON'25, D. C.

> POR IMMEDIATE RELEASE November 17, 1962

Attorney General Robert F. Kennedy has announced that FEI Agents seized a secret cache of weapons and explosives equipment from the hands of pro-Castro Cubans, and arrested three persons on charges including conspiracy to commit sabotage, in New York City last night and this morning. Among those named as participants in the conspiracy were three members of the Cuban Mission to the United Nations.

J. Edgar Hoover, Director of the FBI, identified the arrested persons as:

Roberto Santiesteban Casanova, aged 27, a newly arrived Attache at the Cuban Mission to the United Nations;

Antonio Sueiro, aged 22, of 35 Hamilton Place, New York City;

Jose Garcia Crellana, aged 42, of 139 West 82nd Street,

New York City.

Other members of the Cuban Mission to the United Nations named as involved in the conspiracy are Jose Gomez Abad, aged 21, and his wife Elsa, aged 20. A Federal complaint filed by the FBI in New York City yesterday alleges that they delivered incendiary devices and other explosive materials to Jose Carcia.

Roberto Santiesteban, upon his arrest, had a fully loaded Mauser semi-automatic pictol on his person. He violently resisted arrest and it was necessary for the Agents to subdue him. He additionally had secret explosive formulas in his possession which he tried to swallow at the time of apprehension. These were recovered by the FBI.

Jose Gomes joined the Cuban Mission in December, 1961. His wife, the former Hisa Montero Maldonado, was assigned to the Cuban Mission in August, 1961. Both are Attaches and are on the State Department's list of members of permanent Missions to the United Nations entitled to diplomatic privileges and immunities.

According to Attorney General Rennedy, Roberto Santiesteban arrived in New York on October 3, 1962, abourd the same plane as Cuban President Cavaldo Dorticos. The Cuban government requested diplomatic status and immunities for Santiesteban late last month; however, this request was still being processed—and the diplomatic status and immunities had not been granted—at the time of his arrest by FBI Agents.

The Attorney General said the three arrested men are charged with conspiring to violate the following Federal Statutes:

Section 2155, Title 18, U. S. Code, which prohibits injury to, or destruction of, national defense materials, premises or utilities during peacetime; and

Section 951, Title 18, U. S. Code, which prohibits persons other than diplomatic or consular officers or attaches from acting in

the United States as agents of a foreign government without prior motification to the Secretary of State.

The first-named statute provides a maximum penalty of 10 years' imprisonment and/or a \$10,000 fine; the other, a maximum penalty of 10 years' imprisonment and/or a \$5,000 fine.

The Federal complaint filled yesterday charges that the arrested mea conspired to gather information concerning United States military installations, as well as to "obtain and possess incondiary devices and other explosive materials for the purpose of injuring and destroying national defense materials, premises and stillties" in New York.

In furtherance of these activities, the Coverament charged, the three men agreed to precure the assistance of as many pro-Castro Cubans as possible.

The contraband equipment seized by FBI Agents included hand grenades, incendiary devices, detonators and other items generally associated with sabotage and guarrilla warfare. They were cached in a workshop operated by Jose Carcia at 242 West 27th Street, New York. Autonio Suerio has ciaimed to be a part-time employee at this address.

Mr. Hennedy said that Carcia and Sueiro have extensive backgrounds of participation in pro-Castro erganizations in New York City. He stated they have been members of the July 26th Movement, a revolutionary movement founded and led by Fidel Castro; members of the Casa Cuba Club, a place frequented by Castro adherents at 601 Columbus Avenue in New York; and have taken part in activities of the Fair Play for Cuba Committee.

Ada Marie Dritans, 26, of 264 Sast 25th Street, New York City, has been detained by the FBI as a material witness. She was taken into custody early today at 3rd Avenue and 24th Street in the company of Antonio Sueiro.

The Attorney General stated that the three arrested men would immediately be taken before a United States Commissioner in New York.

Sackground information concerning the five persons named in the Federal complaint in attached.

Reference memorandum D. E. Moore to W. C. Sullivan 11/21/62 concerning issuance of subpoenas calling for testimony of various Bureau officials and personnel at hearing to be held morning of 11/23/62 for one of subjects in this case.

On late afternoon of 11/21/62 Special Agent Robert Shackleford of Washington Field Office was served subpoena by United States Marshal's office calling for the appearance of the Director in connection with this hearing and instructing that Director bring with him any documents relating to interceptions of telephone and telegraphic communications on Cuban United Nations Mission, residencies of Cuban United Nations personnel, and residencies and offices of Cuban United Nations Mission attornies. United States Marshal's office also delivered a check payable to the Director in the amount of \$45 to cover transportation and witness fees.

Details concerning this were telephonically furnished to Supervisor Frank Gallant of New York Office at 6:30 p.m. 11/21/62 by Special Agent R. D. Cotter so that New York could immediately advise Assistant United States Attorney Mollo. Mollo, who is handling this case for Government at New York City, planned to take action to quash various subpoenas served on Government officers in this case.

This morning at 9:20 a.m. in accordance with prior arrangements, original of subpoena for the Director together with check were delivered to the office of Assistant Attorney General Yeagley by Special Agent V. H. Nasca.

Results of examination:

The five mixtures listed on Xerox copies submitted will explode from rapid combustion if properly confined and ignited by fire as from a fuse.

The mixture number 3 has one illegible component. This component could be some compound such as potassium nitrate.

Spontaneous ignition of number 5 mixture will result if contacted by sulphuric acid. Sulphuric acid could be used with proper accessories as a long time delay type of initiator. If placed in a flammable container this mixture could be used as an incendiary device as indicated by the caption for this number 5 mixture.

Honorable Dear Sirs:

I just had to write to you the FBI. in deep sincere praise for the work you did with the Cuban Spys in New York and New Jersey. Your great men are truly the saviours of our America in this arrest you took care of.

I have read every book ever come out about your FBIZ work; and in reading one of the books I read of the salarys of these dedicated men; to my way of thinking they are priceless; salarys to them could never compensate the work they do for all of us rich and poor why is it so many of the Millionaires in America do not see that some. of their surplus money be given directly to these men; even though well

know they are well satisfyed with the salary they receive. Possibly they never gave this a thought; but a slight suggestion in one of the popular magazines like THE PARADE SINDAY PAPER would surely do this, no money in the world of course could pay these

men for what they do for all of us REC-FX-103 Again; all praise to you and your men in saving our' by

Country and we the people from worse than a War. in nawyark I beleive that telephone Co. furnace explosion was one

of the Cuban spys, work. More newspaper information on their actions. should be written so the people could wathny, and more .

God bless the FBI F

Hoover.

INCENTIVE AWARDS AND COMMENDATION MATTER

The purpose of this memorandum is to recommend incentive awards and commendations for/New York Office/personnel in connection with captioned matter.

In the attached 15-page teletype from New York there is outlined in detail the individual performances of personnel who performed outstanding services in connection with the splendid handling of this Conspiracy to Commit Sabotage case. New York has recommended 22 incentive awards, 33 individual commendations and a general letter of commendation to recognize the performances of two ASACs, 45 agents, a number of secretarial and stenographic personnel and photographers. The primary performance and the key to the entire matter rests with SA Maurice H. Lauziere who obtained original information from informant developed by him and who participated in entire investigation at great personal risk. He therefore appears deserving of the greatest award. ASAC Joseph L. Schmit, Supervisor Harold A. Hoeg and SAs J. William Love and Francis I. Lundquist made major contributions to the success achieved and are deserving of substantial awards but less than SA Lauziere. These individuals are responsible for the direction, supervision and coordination of the entire investigation. Sixteen other agents and one photographer who provided valuable assistance which involved personal risk and much inconvenience are also considered deservingof lesser awards.

BUREAU RECORDS

The services of the following agents have been satisfactory during the past three years and each is completely available. They were all rated Excellent on their 1962 annual performance ratings with the exception of SA Spencer who was rated Outstanding. Their overtime records have been satisfactory. There follows additional specific information regarding each. REC-145

SA Lauziere - EOD 3-26-51, Grade GS 13, \$11, 150. No censures, one commendation and received two incentive awards.

SA Hoeg - EOD 1-22-51, Grade GS 14, \$12,845. No censures, three commendations and commended once through his SAC.

SA Love - EOD as SA 7-6-53, Grade GS 12, \$10, 105. No censures and two commendations.

TEEN AND DÛRING ENTIRE PERIOD INSTANT INVESTIGATION INFORMANT WAS MOST CAPABLY HANDLED BY SA MAURICE H. LAUZIERE. ALL DETAILS FROM INITIAL RECEIPT OF THIS DABOTAGE SCHEME UNTIL FINAL CONCLUSION RESULTING IN ARREST OF SUBJECTS ARE KNOWN TO BUREAU AND NOT BEING REPEATED HERE.

SET FORTH BELOW ARE HIGHLIGHTS OF INVESTIGATIVE ACTIVITY JUSTIFYING RECOMMENDATIONS MADE HEREINAFTER.

DURING PAST MONTH,

AT WORKSHOP OF ON NOV. NINE, AGENT PERSONNEL SUCCESSFULLY
OBTAINED DISCREET LOOKOUT COVERAGE WHICH HAS NOW RESULTED IN POSITIVE
IDENTIFICATIONS OF DELIVERING MATERIALS TO 67
BUSINESS ADDRESS: THIS COVERAGE MAINTAINED ON TWENTY FOUR
HOUR BASIS DURING ENTIRE THREE DAY VETERAN-S DAY WEEKEND DURING
WHICH TIME CAREFULLY PLANNED ANONYMOUS SOURCE DEVELOPED WHICH LOCATED
AND IDENTIFIED THE SABOTAGE MATERIALS INVOLVED. THROUGH CAREFUL AND
METICULOUS HANDLING OF INFORMANT, NYO WAS SUCCESSFUL IN MAINTAINING
KNOWLEDGE OF WHEREABOUTS OF SABOTAGE MATERIAL TO PREVENT ITS REMOVAL
TO SOME UNKNOWN LOCATION. THIS WAS EXTREMELY IMPORTANT TO ULTIMATE
SUCCESSFUL SOLUTION INSTANT CASE.

BY NOV. SIXTEENTH INSTANT SUFFICIENT EVIDENCE HAD BEEN DEVELOPED

OF POSSIBLE VIOLATION OF SABOTAGE STATUTES TO JUSTIFY ISSUANCE OF COMPLAINTS AND WARRANTS CHARGING THREE PRINCIPAL SUBJECTS WITH VIOLATIONS

OF SABOTAGE AND REGISTRATION ACT STATUTES AS WELL AS NAMING TWO ADDIT

AT SAME TIME THAT USA-S OFFICE, SDNY, ISSUED POSSESSION OF COMPLAINTS AND WARRANTS, THREE SEARCH WARRANTS WERE OBTAINED WHICH HAVE BEEN SUCCESSFULLY EXECUTED. IN ADDITION ELEVEN SUBPOENAS WERE OBTAINED REQUIRING APPEARANCE OF POSSIBLE ADDITIONAL SUBJECTS AND CO-CONSPIRATORS BEFORE FEDERAL GRAND JURY, NYC, THIS DATE.

IN VIEW OF POSSIBLE WIDESPREAD INTERNATIONAL INTEREST IN INSTANT CASE IT WAS ESSENTIAL THAT METICULOUS AND DETAILED PLANNING BE UTILIZED SO THAT ALL OBJECTIVES BE OBTAINED, NAMELY SUCCESSFUL APPRE-HENSION OF PRINCIPAL SUBJECTS PLUS RECOVERY OF SABOTAGE MATERIALS. IN ORDER TO ACCOMPLISH THIS END AT HEIGHT OF INVESTIGATIVE ACTIVITY OVER PAST WEEKEND. TOTAL OF APPROXIMATELY ONE HUNDRED EMPLOYEES OF NYO WERE UTILIZED. ENTIRE CLIMAX OF CASE WAS BUILT AROUND

RESISTED ARREST. UPON ARRIVAL IN NYO A HIGHLY VALUABLE PIECE OF EVIDENCE,
NAMELY FORMULAS FOR MANUFACTURING HOME MADE EXPLOSIVES, WAS OBTAINED
FROM HIS POSSESSION, ALTHOUGH HE MADE DESPERATE EFFORT TO DESTROY SAME.
THESE TWO EVENTS WERE ACCOMPLISHED THROUGH EXTREME ALERTNESS ON THE
PART OF AGENT PERSONNEL. CONTINUING INVESTIGATION DURING EVENING RESULTED
IN RECOVERING AS A RESULT OF SEARCH WARRANT OF ALL SABOTAGE MATERIALS
IN THE LOCATION OF BUSINESS ADDRESS. IN ADDITION THROUGH
EFFORTS CONTINUING THROUGHOUT ENTIRE EVENING, BOTH

WERE SUCCESSFULLY APPREHENDED ALTHOUGH NEITHER OF THEM WERE LOCATED
AT PREVIOUSLY KNOWN HABITATS.

I AM OF THE OPINION THAT INSTANT CASE IS ONE OF THE FINEST
INVESTIGATIVE ACCOMPLISHMENTS ON THE PART OF BUREAU PERSONNEL THIS
OFFICE OVER A CONSIDERABLE PERIOD OF TIME AND WILL DEFINITELY ENHANCE
BUREAU-S PRESTIGE. I PERSONALLY OBSERVED THE HANDLING OF MANY ASSIGNMENTS BY NY AGENTS, BOTH IN AND OUT OF THE OFFICE, DURING ENTIRE
EVENING OF NOV. SIXTEEN AND EARLY MORNING HOURS OF NOV. SEVENTEEN AND
ALL PERSONNEL DEMONSTRATED AN ENTHUSIASTIC AND PAINSTAKING APPROACH TO
ALL PROBLEMS AS THEY AROSE. THE RECOMMENDATIONS WHICH I AM MAKING IN
THIS CASE TAKE INTO CONSIDERATION THE FACT THAT THIS IS THE CULMINATION

OF APPROXIMATELY EIGHTEEN MONTHS OF HARD WORK BY THE ENTIRE CUBAN SQUAD. MOST OF THE PERSONNEL BEING RECOMMENDED FOR INCENTIVE AWARDS, FOR EXAMPLE, ALL WORKED PRACTICALLY DAY AND NIGHT FOR THE PAST NINE DAYS AND ON TWO SEPARATE OCCASIONS WORKED FOR TWO SOLID DAYS WITHOUT ANY SLEEP WHATSOEVER. SA LAUZIERE HAS NOT HAD A SINGLE DAY OFF, INCLUDING WEEKENDS, SINCE OCTOBER NINETEENTH. ABOVE DEMONSTRATES EXTREMELY FINE ESPRIT DE CORPS ON PART OF NY PERSONNEL.

BASED ON FOREGOING, THE FOLLOWING RECOMMENDATIONS ARE MADE FOR INCENTIVE AWARDS WHICH, I BELIEVE, SHOULD FALL IN THREE CATEGORIES BASED UPON OVERALL CONTRIBUTIONS.

SA MAURICE H. LAUZIERE()

SA LAUZIERE IS PLACED IN CAT	EGORY BY HIMSELF AS TO HIS CONTRI-
BUTION BASED UPON HIS DEVELOPMENT	, SUPERIOR CONTROL AND DILIGENT
HANDLING OF	WITHOUT WHOSE ASSISTANCE THIS
RESULT COULD NOT HAVE BEEN ACHIEV	VED. DURING THE ENTIRE OPERATION, SA 66

THE HIGHEST POSSIBLE INCENTIVE AWARD THE BUREAU FEELS JUSTIFIED IN
THIS CASE. APPROPRIATE RECOMMENDATIONS WITH RESPECT TO INFORMANT AND
HIS SERVICES WILL BE SUBMITTED AT PROPITIOUS TIME AFTER CONCLUSIONG OF
CASE.

IN CATEGORY TWO, I RECOMMEND INCENTIVE AWARDS FOR SUPERVISOR

HAROLD A. HOEG AND SAS J. WILLIAM LOVE AND FRANCIS I. LUNDQUIST, ALL

OF WHOM MADE MAJOR CONTRIBUTIONS TO THIS RESULT. SA HOEG IS SUPERVISOR

OF SECTION THREE ONE TWO WHICH HANDLES ALL CUBAN MATTERS. UNDER HIS

INTELLIGENT, CAPABLE AND PAINSTAKING DIRECTION, CUBAN INTELLIGENCE

ACTIVITIES IN NYC HAVE BEEN PENETRATED TO THE POINT WHERE

HIS CAREFUL PLANNING OF EVERY MINUTE DETAIL CONTRIBUTED

IMMEASURABLY TO THE RESULTS.

SA J. WILLIAM LOVE IS THE CASE AGENT WHILE SA FRANCIS I. LUND-QUIST PARTICIPATED IN PRACTICALLY EVERY MAJOR DEVELOPMENT IN INSTANT CASE. BOTH AGENTS ASSISTED IN DEVELOPMENT OF ANONYMOUS SOURCE EVENING OF NOV. TEN - ELEVEN. SAS LOVE AND LUNDQUIST LOCATED PLANTS AND LOOKOUTS END PAGE 7 OF 15

UNDER DIFFICULT CIRCUMSTANCES ON SHORT NOTICE, WORKED TIRELESSLY DAY AND NIGHT ON: MANY OCCASIONS, AND WERE GUIDING LIGHTS IN MAKING ON THE SPOT DECISIONS AT KEY POINTS IN INSTANT INVESTIGATION. ABOVE THREE ARE RECOMMENDED FOR INCENTIVE AWARDS IN CATEGORY TWO.

MAJOR CONTRIBUTIONS WERE MADE BY FOLLOWING ADDITIONAL PERSONNEL AND SUBSTANTIAL INCENTIVE AWARDS ARE RECOMMENDED FOR THE FOLLOWING..

STAFF SUPERVISOR FRANCIS J. GALLANT IS ALSO NUMBER ONE MAN TO ASAC,
DIVISION THREE AND ENTIRE CASE WAS HANDLED UNDER HIS OVERALL DIRECTION
AS STAFF SUPERVISOR. DURING ENTIRE THIRTY DAY PERIOD COVERED BY INSTANT
INVESTIGATION, HE APPROVED AND HELPED PLAN WITH SUPERVISOR HOEG ALL
MAJOR MOVES. ON FRIDAY, NOV. SIXTEEN, WHILE SUPERVISOR HOEG WAS ASSISTING IN PREPARATION OF LEGAL DOCUMENTS WITH USA-S OFFICE, SUPERVISOR
GALLANT HANDLED PERSONNEL ASSIGNMENTS AS WELL AS POLICY DECISIONS. HE
ASSISTED IN DEVELOPMENT OF ANONYMOUS SOURCE EVENING OF NOV. TEN ELEVEN. HIS FINAL OVERALL DIRECTION AS STAFF SUPERVISOR WAS A MAJOR
CONTRIBUTION.

	AS INDICATED ABOVE, THE PRINCIPAL SUBJECT IN THIS CASE IS b
	WHO WAS APPREHENDED ON THE EVENING OF NOV. SIXTEEN.
	WHEN APPREHENDED, FURIOUSLY RESISTED ARREST, WAS ARMED, AND
	ONLY THROUGH THE ALERTNESS OF THE APPREHENDING AGENTS, WAS MAJOR
	INCIDENT AVOIDED. THE AGENTS PARTICIPATING IN THISE EXTREMELY DANGEROUS
	APPREHENSION WERE JAMES A. CALLAHAN, ROLAND G. KEARNS, PATRICK W.
	HIGGINS AND HARRY G. MULHALL.
	WHEN WAS RETURNED TO THE NYO FOR A STRIP SEARCH,
,	AGAIN HE VIOLENTLY RESISTED, AND AT ONE POINT ATTEMPTED TO SWALLOW A b7c
	HIGHLY SIGNIFICANT, INCRIMINATING PIECE OF EVIDENCE, AND HERE, THROUGH
	THE ALERTNESS AND OVERPOWERING OF BY SA THOMAS G. SPENCER,
	WAS IT POSSIBLE TO RECOVER THIS VERY IMPORTANT PIECE OF EVIDENCE. IN
r	ADDITION, SA SPENCER, DURING THE COURSE OF THIS INVESTIGATION, WAS
	ALWAYS READY TO EXTEND THE EXTRA EFFORT AND HIS UNTIRING ASSISTANCE
	WAS VITAL TO THE SUCCESSFUL OUTCOME OF THIS CASE.

THE FOLLOWING SPECIAL AGENTS, THROUGH THE USE OF THEIR SPANISH
LANGUAGE ABILITIES, WERE OF INVALUABLE ASSISTANCE IN CONDUCTING NUMEROUS INTERVIEWS LEADING UP TO THE CLIMAX OF THIS CASE, AND FOLLOWING
THE ARRESTS OF THE THREE PRINCIPAL SUBJECTS, PLAYED A VITAL ROLE IN THE

IN ADDITION TO THE ABOVE, THE ABOVE AGENTS WERE ASSIGNED TO THE TASKS INCLUDING MANNING OF THE PLANTS, PRETEXT INTERVIEWS, AND NUMEROUS OTHER ASSIGNMENTS OF A LIKE NATURE UNDER EXTREMELY HAZARDOUS AND SENSITIVE CIRCUMSTANCES WHERE ONLY EXCELLENCE OF PERFORMANCE OF THE TASKS ASSIGNED COULD BE ACCEPTED.

AND HIS OVERALL EXCELLENCE OF PERFORMANCE WAS IN NO SMALL MEASURE

SAS JOHN EDWARD HEGARTY, BOYD B. HENRY, RAYMOND R. MC ANDREW AND

SAS HEGARTY, MC ANDREW AND O/BRIEN, DURING THE ENTIRE COURSE OF THIS INVESTIGATION, MATERIALLY CONTRIBUTED TO THE SUCCESSFUL RESULTS IN THE MANNER IN WHICH THEY HANDLED THEIR ASSIGNMENTS, IT BEING NOTED THAT THEY WERE IN CONTACT WITH INFORMANTS WHO WERE FURNISHING PERTINENT INFORMATION HAVING A BEARING ON THE MANNER IN WHICH INVESTIGATIVE ACTION SHOULD BE TAKEN IN THIS CASE. THESE AGENTS, DURING THE ENTIRE COURSE OF THE INVESTIGATION, PERFORMED IN AN OUTSTANDING MANNER IN SECURING AND MANNING THE LOOKOUTS.

BUREAU PHOTOGRAPHER JOHN MURPHY IS ALSO RECOMMENDED FOR AN INCENTIVE AWARD ON THE BASIS OF HIS PARTICIPATION IN THE DEVELOPMENT OF AN
ANONYMOUS SOURCE, AND HIS EXCELLENCE OF PERFORMANCE IN PHOTOGRAPHING b7c
THE SABOTAGE MATERIALS BEING SEIZED AT THE WORK SHOP OF
ON BOTH OCCASIONS, PHOTOGRAPHER MURPHY WAS FORCED TO USE HIS SKILL UNDE

THE FOLLOWING INDIVIDUALS ARE RECOMMENDED FOR INDIVIDUAL LETTERS OF COMMENDATION FOR THIER EXCELLENCE OF PERFORMANCE..

SA JAMES H. KAVANAGH, SUPERVISOR OF SECTION THREE ONE ONE,
CONTRIBUTED MATERIALLY TO THE SUCCESSFUL OUTCOME OF THIS INVESTIGATION.
HE ASSISTED IN ASSIGNMENT OF PERSONNEL, COORDINATED INVESTIGATIVE ACTIVITIES ON THE NIGHT OF NOV. SIXTEEN - SEVENTEEN, AND PERFORMED ON THE
SPOT SUPERVISION OF PERSONNEL.

SAS CARLO A. DI SIBIO, RICHARD E. HEON, NICK F. STAMES AND HEINRICH VON ECKARDT ARE SPANISH SPEAKING AGENTS AND THROUGH THE UTILIZATION OF THESE SKILLS IT WAS POSSIBLE TO INTELLIGENTLY CONDUCT NUMEROUS
INTERVIEWS DURING THE COURSE OF THIS INVESTIGATION, AND PARTICULARLY
ON THE NIGHT OF NOV. SIXTEEN - SEVENTEEN, WHICH INTERVIEWS CONTRIBUTED
TO SOME MEASURE TO THE SUCCESSFUL OUTCOME OF THIS INVESTIGATION.

guidance so that they will continue to expand their activities and be aware of all developments in respective field divisions. Field offices should not rely on existing informants and sources to supply coverage but should attempt to come up with individuals who could logically become active in pro-Castro activities, particularly any new pro-Castro organizations which might be formed. There are many former members of the July 26th Movement on whom we have conducted inquiries. There is no loubt that some of these have probably become disenchanted with the Castro regime, especially in view of its drift into the Soviet orbit. If some of these were cooperative and were given proper guidance, they could probably again become active in pro-Castro activities and be of valuable assistance to the Bureau.

The sabotage case in New York City has shown that we cannot our vigilance if we are to keep abreast of pro-Castro activities. tatement that anti-Castro individuals have driven all of the pro-individuals out of a certain area is not a completely valid one. Castro people may have left a certain area, but the hard-core-robably still remain and are more of a threat than ever. It is people in particular on whom we must secure coverage.

It will be the personal responsibility of each SAC to evaluate Cuban coverage in his office to insure that we have the coverage which can supply results.

Ionstrous Plo

The idea of pro-Castro Cuban Communists plotting sabotage against the United States, with the plot directed right from the Cuban Mission to the United Nations, is absolutely monstrous.

Thanks to the FBI, including its chief, J. Edgar Hoover in Washington, and Assistant Director John F. Malone, in charge of the New York office, the plot has been smashed, arrests made, and two diplomats attached to the Cuban Mission told to get out of here. They enjoy diplo-

matic immunity.

The group planned to spread death, terror and destruction in New York City as widely as possible.

They would have aimed particularly at large crowds—in stores, in Wall Street, in the Times Square vicinity. They would have attempted to set oil refineries afire.

Why should they care how many Innocents, including women and children, were killed? They could claim J. E. HOOYER 'popular uprisings' in the United States in favor of Castro just as they make such claims in

Venezuela and other Latin American countries where their saboteurs were not so unfortunate as to have the FBI on their tail.

There should be a tougher crackdown here on the hard core of pro-Castro Cubans. They are enemies, in contrast to the majority of Cubans here who are loyal to the United States and militantly anti-Castro.

The Cuban U. N. Mission should be quarantined.

We can't prevent its inmates from being here or from attending the U. N. But we can make super certain that they are shut up in the mission, escorted to and from their East River offices, and denied one inch of additional leeway.

We do not have to tolerate any insolence from this murderous gang.

Meanwhile, for the accused who were caught redhanded, we trust the courts will think in terms of-

Maximum Penalties

when and if they are convicted. The penalties are small enough anyway.

Most that can be meted out for conspiracy to commit sabotage in peacetime is 10 years in prison and a \$10,000 fine; failure to register as a foreign agent can bring another 10 years and a \$5,000 fine.

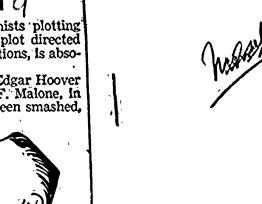

Maximum penalties are not on the books just as a matter of form. If the trials sustain the charges, certainly the full punishment is justified.

He stated b6 that the Secretary General of the UN would send a note to b7C the <u>U.S. UN Missi</u>on enclosing a Cuban note claiming immunity for According to Stavropoulos, the note of the Secretary General would request the views of the U. S. Government. but the note would not repeat the Cuban demand that be released from custody. Telegram to State Department from U: S. UN Mission on 11-22-62 indicated that Stavropoulos hoped that the legal issue could be considered calmly and that the Secretary General would not press for a quick reply. Stavropoulos urged that the U.S. take advantage of consultations between the Secretary General and the U.S. UN Mission to have removed b7C from the U.S. Telegram from U. S. UN Mission dated 11-23-62 to State Department indicated that Secretary General's note on b6 would be delayed until 11-27-62. b7C State Department telegram 11-28-62 indicated that the b6 U. S. UN Mission was unable to raise question of b7C due to appointment that Secretary General had on that date. The telegram indicated that the U.S. UN Mission was seeking an appointment with the Secretary General on 11-29-62 to discuss the contents of informal-talking paper as well as the political and practical considerations involved in this case. Justice Department has received copies of above-mentioned State Department telegrams. It appears that State Department has taken a strong stand in this case and is not yielding to pressure to release b6 b7C

of aggression against Cuba.

Havana CMQ Television Network in Spanish 1800 GMT 19 November 1962--F
(Kuchilan commentary)

(Summary) We are now going to comment on this latest imperialist action against the comrades who are fulfilling their duty in the United States, struggling there against aggression. As a result of the capture of notable CIA chief Miguel Angel Orozco, the position of the United States—imperialism—is very precarious in international relations, because this arrest shows that in midst of U Thant's negotiations for peace and of the (sessions?), or the Soviet Union's attitude in favor of peace, the United States is contriving, without stopping its maneuvers'

The little man of the CIA talked so much (phrase indistinct) about the relations of Kennedy with Somoza for a simulated provocation in which he was going to embark a group of mercenaries, and not only embark them, but also not to leave a single one alive. Moreover, this man related the name of Bob Kennedy, the U.S. President's borther, in connection with this CIA activity, which indicates that this very Bob Kennedy may be the one who directed this FBI action against the Cuban diplomats."

This FBI action is carried out by the FBI precisely because it has to be another repressive body which distracts attention from the Orozco activity. In his statements, Orozco mentioned that U.S. Secretary of State Dean Rusk was very concerned each time that Fidel spoke or each time that Fidel made a statement, and recently Fidel's letter to U Thant managed to "cross the t's".

CUBA 20 November 1962

The distraction operation was undertaken, in which they have carried out the greatest barbarities which can be committed and which range from arresting a diplomatic official to beating him, in addition to the lie that they were planning to place bombs to injure civilians in New York and New Jersey.

They speak of bombs against civilians in New York and New Jersey because they want to raise the spirit of hatred and enmity of the U.S. people, who do not hate the Cuban people. This is seen by the fact that every time a meeting of U.S. people in favor of Cuba takes place, it is not the U.S. citizens who oppose or attack those U.S. citizens in favor of Cuba, but rather it is the "worms" who live there and who want to raise the U.S. people's spirit of hatred, threatening them that Cuba wants to bomb defenseless civilians, as if they were an attitude of the Cuban revolution.

However, it is a maneuver of distraction in which they do not stop at any barbarity and they even openly and shamelessly beat up diplomatic official Santiesteban because what they want to do is distract attention with a big scandal--from what is fundamental--the sabotage which the CIA continues and the arrest of agent Orozco. They want to divert attention from the very grave nature of the maneuver which CIA people were carrying out with the knowledge of the brother of the U.S. President and of the President himself. This maneuver has become quite scandalous and today occupies the front pages of all the dailies of the United States, the radio and the television, whereas the arrest of Miguel Angel Orozco--with plastic bombs--did not occupy the attention of the front pages of the newspapers and television and radio.

"With regard to this business about the U.S. press, we want to repeat that there has recently been great control in the United States of media of diffusion and, for that reason, all the short wave stations—not only of the United States but also of the puppet states—have joined in network with the Voice of America in order to maintain the orientation of the news which the U.S. Government wants. This naturally enables them to say not only what happens, but also the lies which they want to infiltrate both in the Latin American countries as well as in the United States.

POLICE ACTIVITIES AL! CUBANS IN MIAMI

Cubin S. beton Equits

Santa Clara Cen Radial Revolucionario in Span 1700 GMT 19 November 1962-F

(Text) Surveillance and repressive measures have been stepped up in the past few hours by all police agencies, both local and federal, against thousands of Cubans who live in Miami. It is being alleged that such measures are connected with the anti-Cuban plot of the FBI in New York. It does not require too much investigation to observe in Miami the mobilization of hundreds of CIA, FBI, and Irmigration Service agents. Special groups are working without let up on personnel files and it is anticipated that such activities herald a wave of persecution not only against thousands of Cubans who have been living in the United States for years, but also against U.S. citizens who have at one time or other expressed themselves in favor of peace and against the warmongers.

A spokesman for the Miami police department explained the move by saying that they had been informed about the infiltration of undesirables. Miami is filled with this type of person, stated an officer of one of the police services who did not want to be identified by name or by his organization. Immigration Department investigations are forwarded to the FBI, where apparently dossiers on thousands of Cubans are being compiled and such Cubans will be included in plans for arrests, expulsions, and other measures.

The stepped-up activities of the Yankee police have caused justified alarm among Cuban residents who do not forget the brutal methods always used by the CIA, FBI, and other repressive U.S. agencies. Some Cubans have reported that in the past new hours strange persons have been shadowing them and have tried to eavesdrop on their conversations. This naturally,

is cause for concern, since they always fear the worst.

Cubans are keeping a close watch on their newspapers and radios to learn Roberte Bantiesteban Casanova, Cuba's U.N. attache, charged with illegal intended to carry out sabotage DEC rabout the violent actions by FBI agents in New York who arrested Gutan citizens, Josek Garcia orellana and Antonia Kueiro, as well as 1 5' possession of arms and explosives, wh Intended to carry out sabotage. Informed of the methods of the U.S. police, apprehension has been heightened when it was learned that the prisoners had suffered a brutal beating. It is asserted that the events in New York could mean the signal for the development of a vast plan of persecution in view of the hysterical anti-Cuban climate which has been fanned for months by the most enraged, reactionary, and warmonger elements of De United States.

CUBAN SABOTAGE IN THE UNITED STATES PRESS RELEASE MATTERS

Press interest in the captioned case has been tremendous. Following b7C preparation of the final release off and on during the night, the release was read to Assistant to the Director Belmont and ASAC Schmit of New York. It was given to the wire services here in Washington at 9:10 a.m., 11-17-62. The New York Office was instructed to move with the same release in their area at 9:40 a.m.

Almost simultaneously with the release to the wire services, the release was also given to local newspapers, radio and television stations by special messenger. Pictures were additionally furnished in the "hand outs." The immediate reaction was interruption of radio and television programs and the complete changeover of front page composition so that this story could be used. Within 30 minutes, we were receiving calls not only from the Washington area but from the midwest and large eastern cities. Within one hour's time my office had received a total of 85 press calls. Five requests for recording the press release by "an FBI spokesman" were received and handled. This was handled merely by reading the approved press release.

Ed Guthman of the Department, who had previously approved the release, was notified of the issuance of the release approximately five minutes before it was given to the wire services at 9:10 a.m. Pursuant to the Attorney General's instructions, Mr. Reed Harris of the U. S.I information Agency, was read the press release following our giving it to the wire services. (Guthman notified us last night that the Attorney General had advised Edward R. Murrow that this case should receive wide publicity in Latin America.)

The New York Office, specifically Assistant Director Malone and ASAC's Schmit and Bryant, was given explicit instructions on the handling of the press in that city. Following the seizing of the cache of weapons and explosives equipment, the press and television cameras were allowed to take pictures of this equipment. Arrangements were made for pictures of the subjects to be taken by the b7E press and wire service photographers as well as televiwere escorted from our building.

FOR IMMEDIATE RELEASE November 17, 1962

Attorney General Robert F. Kennedy has announced that FBI Agents seized a secret cache of weapons and explosives equipment from the hands of pro-Castro Cubans, and arrested three persons on charges including conspiracy to commit sabotage, in New York City last night and this morning. Among those named as participants in the conspiracy were three members of the Cuban Mission to the United Nations.

J. Edgar Hoover, Director of the FBI, identified the arrested persons as:

Roberto Santiesteban Casanova, aged 27,
a newly arrived Attache at the Cuban Mission to the United Nations;
Antonio Sueiro, aged 22, of 35 Hamilton Place, New York City;
Jose Garcia Orellana, aged 42, of 139 West 82nd Street,
New York City.

Other members of the Cuban Mission to the United Nations named as involved in the conspiracy are Jose Gomez Abad, aged 21, and his wife Elsa, aged 20.

A Federal complaint filed by the FBI in New York City yesterday alleges that they delivered incendiary devices and other explosive materials to Jose Garcia.

b7E

ENCLOSURE

Robertot Santiesteban, upon his arrest, had a fully loaded Mauser semi-automatic pistol on his person. He violently resisted arrest and it was necessary for the Agents to subdue him. He additionally had secret explosive formulas in his possession which he tried to swallow at the time of apprehension. These were recovered by the FBI.

Jose Gomez joined the Cuban Mission in December, 1961. His wife, the former Elsa Montero Maldonado, was assigned to the Cuban Mission in August, 1961. Both are Attaches and are on the State Department's list of members of permanent Missions to the United Nations entitled to diplomatic privileges and immunities.

According to Mr. Hoover, Roberto Santiesteban arrived in New York on October 3, 1962, aboard the same plane as Cuban President Osvaldo Dorticos.

The Cuban government requested diplomatic status and immunities for Santiesteban late last month; however, this request was still being processed—and the diplomatic status and immunities had not been granted—at the time of his arrest by FBI Agents.

The FBI Director said the three arrested men are charged with conspiring to violate the following Federal Statutes:

Section 2155, Title 18, U. S. Code, which prohibits injury to, or destruction of, national defense materials, premises or utilities during peacetime; and

Section 951, Title 18, U.S. Code, which prohibits persons other than diplomatic or consular efficers or attaches from acting in

the United States as agents of a foreign government without prior notification to the Secretary of State.

The first-named statute provides a maximum penalty of 10 years' imprisonment and/or a \$10,000 fine; the other, a maximum penalty of 10 years' imprisonment and/or a \$5,000 fine.

The Federal complaint filed yesterday charges that the arrested men conspired to gather information concerning United States military installations, as well as to "obtain and possess incendiary devices and other explosive materials for the purpose of injuring and destroying national defense materials, premises and utilities" in New York.

In furtherance of these activities, the Government charged, the three men agreed to procure the assistance of as many pro-Castro Cubans as possible.

The contraband equipment seized by FBI Agents included hand grenades, incendiary devices, detonators and other items generally associated with sabotage and guerrilla warfare. They were cached in a workshop operated by Jose Garcia at 242 West 27th Street, New York. Antonio Suerio has claimed to be a part-time employee at this address.

Mr. Hoover said that Garcia and Sueiro have extensive backgrounds of participation in pro-Castro organizations in New York City. He stated they have been members of the July 26th Movement, a revolutionary movement founded and led by Fidel Castro; members of the Casa Cuba Club, a place frequented by Castro adherents at 691 Columbus Avenue in New York; and have taken part in activities of the Fair Play for Cuba Committee.

Ada Marie Dritsas, 26, of 204 East 25th Street, New York City, has been detained by the FBI as a material witness. She was taken into custody early today at 3rd Avenue and 24th Street in the company of Antonio Sueiro.

The FBI Director stated that the three arrested men would immediately be taken before a United States Commissioner in New York.

Background information concerning the five persons named in the Federal complaint is attached.

Senator Morse. Democrat of Oregon, agrees with Senator Fulbright, Democrat of Arkansas that there is no need for the Foreign Relations Committee to meet now for a briefing on Cuba.

Senator Morse is chairman of the Latin-American Affairs subcommittee. Senator Fulbright, the full committee chairman, turned down a request by Senator Lausche, Democrat of Ohio, earlier this week for a complete briefing of the entire committee.

Senator Fulbright, before leaving for a trip of several weeks abroad, told Senator Lausche by letter there were not enough committee members in town for a meeting but he offered to set up briefings by administration officials for Senator Lausche or any other members requesting them.

Casanova had "secret explosive formulas" in his possession at the time of his arrest, agents said. They said he tried to awallow these formulas but they were recovered by the agents.

The FBI director said the three arrested men are charged with conspiring to violate two Federal statutes. A LOOK AT PESTICIDES

Congress will take a look at use of chemical pesticides next year; will try to determine just how dangerous they are to humans, animals, birds.

Whether Agriculture Department should require stricter premarket testing of pesticides. (Inclusion of animal studies, for instance, to detect possible hereditary harm)

 Whether Food and Drug Administration needs more authority or more inspectors to enforce rules governing chemical residues in foods,

Mouse interstate and Foreign Commerce sub-committee headed by Rep. Kenneth A. Roberts (D., Ala.) will make the study.

Here's what Federal agencies are doing—already—on use of pesticides:

Special Pest Control Review Board, set up 17 months ago, is cracking down on use of chemicals to fight fire ants, greashoppers and mormon crickets. It's promoting non-chemical control of gypsy moths and Japanese beetles.

U. S. Forest Service is discouraging excessive use of pesticides to curb bank beetles, in fight to stop Dutch eim disease,

Review Board recommends cornoon and soybean ball with one-seventh ounce of texts chemicals per acre for fire anta. (Original program used two POUNDS of chemicals per acre.) And it wrges spot treatment of grasshoper and cricket breeding areas, to eliminate need for aerial spraying.

Forest Service is telling cities to cut down and burn trees infected with Dutch clm disease, use pesticides only on trees not yet infected,

This, it believes, will reduce slaughter of birds and other wildlife, reduce human exposure to DOT.

THE FBI BRUTALLY BEATS A CUBAN DIPLOMAT

The Cuban delegation to the United Nations, today continued to pressure that World Body to recognize the diplomatic immunity of attache of the Cuban Mission, Mr. Roberto Santiesteban, illegally arrested by the FBI. Santiesteban, together with other Cubans, is accused by the Yankee Gestapo of possessing explosives and of plotting the commission of terror and sabotage acts; which constitutes a coarse intent by Yankee authorities to offset, in any way, the impact the arrest of Yankee espionage agents had in Cuba. Santiesteban, in spite of entering the United States with diplomatic passport and as part of the Cuban Mission to the United Nations, was arrested and brutally beaten by the Yankee constables. Carlos Lechuga, Cuban delegate to the United Nations, vigorously denounced the new provocation of Yankee Imperialism: The arrest of the said Cuban group and falsely accused it of being terrorist.

(Sixth paragraph on page 9)

THE FBI INAUGURATES TERROR AGAINST CUBAN RESIDENTS OF THE UNITED STATES; YANKEE HYSTERIA OVERLOOKS OF

In the United States, persecution has started to develop against all those Cubans who, in one way or another, have in the long run demonstrated, with the four year anti-imperialist fight, that they firmly are with their country even though they live in the heart of the monster. The gigantic machine for political searches, created by the Federal Bureau of Information (sic), the famous FBI, serves the purpose of persecuting our countrymen who live and work in the United States and who have not denounced the rights of their far awayl country: The persecution, in fact, is channeled not only

against the Cuban residents of the United States, but also against those Americans, who sometimes manifest favorable opinions on the Cuban revolution, or those who participate in enterprises destined to clarify, in their country, the truth about liberated Cuba. The beginning of the brutal repression that was unleashed in the United States, started with the agrest of our countrymen, Jose/Garcia/Orellana and Antonio Sueiro, and also Roberto Santlesteban Casanova, Attache to the Cuban Delegation to the United Nations, accused of illegal possession of firearms and explosives, destined, according to the strange version of the FBI, to fulfill a supposed plan of sabotage. According to the observers, the spectacular accusations against the Cubans, are the false and deceitful counterpart selected by the Central Intelligence Agency and by the FBI, in order to weaken the impact produced in Cuba by the capture of the spy and saboteur who widely confessed his vicious alliance with the CIA, Miguel Angel Orozco Crespo.

To give greater relief to the danger of possible sabotage in the United States, and in agreement with the defamation against Cuba, the newspapers and radio broadcasts controlled by the Yankee government spread news announcing that the police of Leimen, New Jersey, and vicinity, have placed themselves on an alert state to protect the petroleum installations. The Leimen police also informed that a dispatcher from the Texaco refinery had received a telephone call informing him that the Cubans were heading towards the refinery. The Westfield, New Jersey, refinery also received similar information. The Cuban residents, who have been submerged during the hysteria and neofascism, are exposed to the danger of submission and inspection. The Latin Americans who live in big cities of the United States, and who have been cited as suspicious, also enter into a period where their security is uncertain and their liberty is unstable.

On the other hand, the Cuban delegation to the United States continues pressuring the World Body to recognize the logic and legal diplomatic immunity of the Cuban Mission Attache, Roberto Santiesteban, who was arrested by the Yankee authorities under the incredible accusation that he participated in a plan of sabotage in New York City.

The American FBI, neglectfully overlooking the immunity granted by the United Nations to Santiesteban, held our representative and savagely beat him and also refused to set him free. Santiesteban was arrested yesterday, accompanied by four other Cubans and Calsely accused by the Federal Bureau

of Investigation of preparing sabotage in New York. Two of the arrested, Jose comez, Ahad and Elsa Montero de Gomez, members of the Cuban delegation to the United Nations, were set free due to their diplomatic status and the other two were kept under arrest.

La delegación cubana ante la ONU continuaba hoy gestionando en el Organismo Internacional que se reconozca la immunidad diplomática al agregado de la Misión cubana, compañero Roberto Santiesteban, ilegalmente detenido por el FBI. Santiesteban, junto con otros cubanos, está acusado por la Gestapo yanqui de peser explosivos y de estar confabulado para la comisión de actos de terror y sabotaje, en lo que constituye un burdo intento de la autoridades yanquis para contrarrestar de algún modo el impacto que ha tenido el arresto en Cuba de agentes del espionaje yanqui. Santiesteban, pese a que entro en los EE.UU, con pasaporte diplomáticoy que forma parte de la Misión cubana en las MU fué detenido y golpeado brutalmente por los esbirros yanquis. Carlos Lechuga, delegado cubano ante la ONU denunció vigoros amente la nueva provoçación del imperialismo yanqui, al detener al grupo de cubanos en cuestión y acusarlos falsamente de terrodetener al grupo de cubanos en cuastion y acusarlos falsamente de terrorstas.

EL FEI INAUGURA EL TERROR CONTR. CUBANOS RESIDENTES EN LOS EE.UU. LA HISTERIA YANGUI DESCRIQUE LA INJUNIDA D DI-LONATIG.

Enlos EE.UU. ha comenzado a desarrollarse una raffia contra todos aquellos cubanos que de una u otra manera han demostrado a lo largo de la lucha anti-imperialista de 4 años, que están con su patria firmemente aunque vivon en el corazon del monstruo. El gigantesco aparato de registro político creado por el Faderal Buro of Informacion, al calebre FMI sirve a los propositos de persocusión a nuestros compatriota; que viven y trabajan en los EE.UU. y que no han renunciado a dofonder los derechos de su potria lejana. La rafífia sin embargo no está canalizada unicamente contra los cubanos residentes en los EE.UUl sino también contra acuellos Nortemericanos queen alguna oportunidad manifestaron opiniones favorables a la revoláción cubana, o que participaron en empresas destinadas a hacor claridad en su país sobre la verdad de Cuba liberada. El inicio de la brutal represión desatada en los EE.UU. produjose con el arresto de nuestros compatriotas José García Orellana y Antonio Sueiro, así como Roberto Santiesteban Casmova, Agregado de la delegación do Cuba ante las NV, acusados de portar ilegalmente armas y explosivos, destinados, según la perregrina versión del FBI, a realizar un supuesto plan de sabotajo. Según los observadores, las espectadulares acusaciones con ra los cubanos son la contrapartida falsa y amañada elegida por la Agencia Central de Intolicada y por el FBI, destinada a debilitar el impacto producido en Cuba por la captura del espán y saboteador que confesó ampliamente su contubernio con la CIA, Higuel Angel Crozco Crespo. Para dur mayor relieve al

peligro de posible sabotaje en los EE.UU. y de acuerdo a la campaña de Mifamaciones contra Cuba. los periódicos y radioemisoras controladas por el Cobierno yanqui difundieron noticias anunciando que la policía de Leimen, en el Estado de Uneva Jersey y en las comunidades vecinas se han puesto en estado de alerta para proteger las instalaciones petroleras. La policia de Leimen informo también que un despachador de la Refineria de la Texaco había recibido una llamada telefónica anunciando que los cubanos estaban en marcha hacia la refinería, y que en la planta de la Westfield, en el mismo Estado de New Jersey recibieron una información asmilar. Los residentes culanos, a los que se trata de sumergir en la ola de historia y neclasciano, estan sometidos desde ahora al peligro de allanamiento y registro. Los latinoamericanos que viven en las grandes ciudades de los Estados Unidos, y que han sido citados como sospechosos,
también entran a un periodo enque su seguridad es precaria y su libertad

Por otra parte, la delegación cubana anto las MU continúa gestionando ante el Organismo Internacional que se regonosca la lógica y legal immanidad di plomatica al ogregado de la Misión cubana Roborto Santiesteban,

Numerosas cargas explosivas deflaron seriamentelos equivos eléctricos provocándose la paralización de la producción de petroleo en la zona. Memorandum to Mr. Sullivan CUBAN SABOTAGE EFFORTS IN THE U. S.

b3 b7E

A great deal of data on this case, including our press release, appeared in various newspapers throughout the country and this is available for use by State Department and the OAS.

Other data has been furnished to the Secretary of State and to the Deputy Assistant Secretary for Secuity, State Department, by us. It is contemplated that State Department will be kept advised of pertinent data in the sabotage case as it develops; however, we do not feel that data we have furnished to State or data we will furnish to State in the immediate future should be made available to OAS. We feel that this stand is necessary since disclosure of our information by the OAS could possibly prejudice a successful prosecution of subjects involved in forthcoming trial and since we must protect our informant His identity has not been revealed to b7D date and probably will not be until trial takes place.

CUBAN SABOTAGE EFFORTS IN THE U.S.

IS - CUBA SABOTAGE

I want to call to the Bureau's attention the outstanding cooperation with this office and devotion to duty exhibited by Assistant United States Attorney Silvio J. Mollo, head of the Criminal Division, Southern District of New York, in connection with this matter.

On Friday morning, November 16, 1962, it was ascertained that AUSA Mollo was on annual leave. It was believed by this office that his presence in duty status for our assistance in obtaining necessary opinions and to present to him problems as they arose was necessary. He was telephonically contacted at his home and he immediately proceeded to his office where he worked throughout the day and evening in the preparation of necessary complaints and warrants and handled all legal matters incidental to this case. Throughout the night of November 16 and early morning hours of November 17, AUSA MOLLO kept himself available in regard to legal problems in connection with the arrest, searches and so forth, as they arose. He unhesitatingly was aggressive in his cooperation with this office. In addition, he arranged for the arraignment of the subjects on Saturday morning and handled details of this arraignment in an exemplary fashion.

This is merely another example of the type of cooperation AUSA MOLLO has rendered to the New York Office for the past more than 20 years. It is recommended that a b3 letter of commendation from the Director be sent to AUSA MOLLO b7E expressing appreciation for his assistance in this case.

I want to also call the Bureau's attention to the very excellent cooperation extended to this office by United States Attorney VINCENT L. BRODENICK, Southern District of New York, and AUSA DAVID R. HYDE of that office. Through the cooperation of these two individuals with AUSA MOLLO, it was possible to expeditiously secure the necessary legal documents, including arrest warrants, search warrants, and numerous subpoenas, all of which were instrumental in achieving the outstanding results in this case.

IN THE UNITED STATES SUBJECT: 1 - Mr. Wannall 1 - Mr. Dunn INTERNAL SECURITY - CUBA Prior to the arrests which took place in New York City in the recent Cuban sabotage case we had several conferences and discussions with Assistant Attorney General J. Walter Yeagley and his staff. They were most cooperative at that time and have been most helpful in discussions which have taken place since the arrests on 11/16 and 17/62. Our New York Office has advised that Assistant U.S. Attorney Silvio J. Mollo, head of the Criminal Division, Southern District of New York, was extremely helpful to that Office in its handling of the Cuban sabotage case. New York has advised that on 11/16/62 Mollo was on annual leave but when he was contacted at his home on that date he immediately proceeded to his office where he worked throughout the day and evening in the preparation of necessary complaints and warrants and he handled all legal matters incidental to this case. Throughout the night of 11/16/62 and early morning of 11/17/62 Mollo kept himself available in regard to legal problems which arose in connection with the arrests and searches. New York has advised he was unhesitatingly, aggressive in his cooperation and handled details of the arraignment of the subjects involved in an exemplary fashion. New York recommended that a letter of commendation from the Director be sent to Mollo expressing appreciation for his assistance in this case. New York also advised that it received excellent cooperation from U. S. Attorney Vincent L. Broderick, Southern District of New York, and Assistant U. S. Attorney David R. Hyde of Broderick's office. New York stated that through the cooperation of these two together with Mollo it was possible to expeditiously secure the legal documents, including arrest warrants, search warrants and subpoenas, all of which were instrumental in achieving the outstanding results in this case. As is evident from the above-mentioned data, personnel of Domestic Intelligence Division and personnel of our New York Office received tremendous assistance from Mr. Yeagley and his staff and from Departmental representatives in New York City, and it is felt that letters yesley, mollo, a product of appreciation should be directed to individuals involved. CASA CUBA CLUB

On July 26, 1961, a source advised as follows:

The Casa Cuba Club, 691 Columbus Avenue, New York City, was originally founded as a social club by persons of Cuban background living in the New York City area, and was generally regarded as the focal point for Cuban social activities in New York City. During the years when FIDEL CASTRO was struggling to overthrow the BATISTA Government in Cuba, the general membership of the Casa Cuba Club (CCC) were predominantly sympathetic to the revolutionary aims of CASTRO and supported CASTRO's 26th of July Movement by contributing funds and clothing for the needy oppressed peoples of Cuba.

After CASTRO came to power in Cuba on January 1, 1959, and it became apparent that he was establishing a Communist form of government in Cuba, the membership of the CCC gradually declined drastically in numbers, and the loyal supporters of CASTRO, and the leaders of the 26th of July Movement, New York City, assumed leadership in the activities of the CCC.

On November 29, 1961,	ь7D

FAIR PLAY FOR CUBA COMMITTEE

The April 6, 1960, edition of "The New York Times" newspaper contains a full page advertisement captioned, "What Is Really Happening in Cuba," placed by the Fair Play for Cuba Committee (FPCC). This advertisement announced the formation of the FPCC in New York City and declared the FPCC intended to promulgate "the truth about revolutionary Cuba" to neutralize the distorted American press.

"The New York Times" edition of January 11, 1961, reported that at a hearing conducted before the United States Senate Internal Security Subcommittee on January 10, 1961, Dr. CHARLES A. SANTOS-BUCH identified himself and ROBERT TABER as organizers of the FPCC. He also testified he and TABER obtained funds from the Cuban Government which were applied toward the cost of the aforementioned advertisement.

On October 3, 1960, a source advised that the Socialist Workers Party (SWP) in New York had become active in the FPCC, and that SWP members, in an FPCC election, had been able to remove several Communist Party (CP) members who were on the Executive Board of the FPCC and gain control of the organization.

A second source advised that an announcement from National Headquarters of the SWP was made on September 24, 1961, to the effect that RICHARD GIBSON had fired the secretary in the FPCC headquarters and was trying to break the SWP influence in the FPCC.

Column 2, page 8, of the February 22, 1962, edition of "The New York Times" contains an article captioned, "CASTRO Backer Resigns," which announced that ROBERT TABER had resigned as Executive Secretary of the FPCC and as President of the Institute for the Improvement of Inter-American Relations, Incorporated, which had organized the FPCC in April, 1960.

On May 17, 1962, a third source advised that National Headquarters of the FPCC is located in Room 329 at 799 Broadway, New York City, and that the FPCC is operating under the direction of RICHARD GIBSON, Acting National Executive Secretary of the FPCC.

The SWP and the CPUSA have been designated pursuant to Executive Order 10450.

Mr. Callahan, Mr. Conrad Mr. DeLeach Mr. Evans Mr. Gale A commentary to the Central Ol Mr. Rosen by the WBNS Stations, C Mr. Sullivan Mr. Tavel Mr. Trotter. Tele. Room Miss Holmes. Miss Gandy. The FBI's swift move egainst the Castro plot to terrorize the densely populated areas of the Eastern United States was a typical Gfrom operation. The FBI smached the plan before it could be carried out. How the FBI learned of the plot and how it managed to time its move so dramatically must remain FBI secrets. But we may gain confidence from this latest evidence of its proved ability to penatrate the Commuhist apparatus in this country. The mind that devised a plan so fantastically terroristic as this one undoubtedly was Castro's. But the motivation was patently Communist, and Communist motivations are the especial business of the FBI. So well are Communist notivations known and understood by the FBI that hardly lany overt action arising from them can be put into operation without FBI detection. FORTS Castro and his plotters made two mistakes in this instance. Cas was in trying to use Cuban guarrilla tactics on the American castern (seaboard. The other was in forgotting the FBI's intimate knowledge of CUBAN SABOTAGE KFO all Communist manauvers endangering the United States. b7E REC-EX-118. pill 5-1 a made available for

LECHUGA PROTESTS A. LATMENT OF ENVOY Havana in Spanish to the Americas 1100 GMT 22 November 1962--E (Text) A New York jury has indicted the Cuban diplomat Roberto Cantiesteban, falsely accused by the North American authorities in the United Stat of committing acts of sabotage and illegally acting as an agent of the Cuban Government. Santiesteban, who is an attache of the Cuban mission to the United Nations. was also submitted to tortures and mistreatment by the agents of the sinister Federal Bureau of Investigation when he was arrested and submitted to abusive interrogations. Next Friday a writ of habeus corpus will be presented for the Cuban cuba diplomat to the federal court of New York. Together with Roberto Santiesteban, Jorge Garcia Orellana and Antonio Sueiro have been accused. They are Cubans residing in North American territory and they are charged with the same crimes. Eight other persons were charged b7C in the last few hours by the jury, which is secretly investigating these accusations. Among them is, the prominent fighter for Puerto Rican independence, Peregrin Carcia. Ny At the same time, Carlos Lechuga, the Cuban permanent representative to O Cubas Sabotage the United Nations, presented a formal protest to the U.N. Acting Secretary General U Thant against the arrest, mistreatment, and trial being initiated against the diplomat Roberto Santiesteban. Note to U Thant Havana in Spanish to the Americas 1100 GMT 22 November 1962--E (Text) Carlos Lechuga, permanent representative of Cuba to the United **b**3 Nations, presented a letter of protest to Acting U.N. Secretary General b7E U Thant denouncing the illegal arrest of the diplomat Roberto Santiesteban member of the Cuban delegation to the United Nations. Santicsteban was arrested by the sinister Federal Bure (FBI). The protest also refers to the search made of the home of the COEDED Cuban diplomat, Raul Forner Delgado. A UEC II 1006 The note delivered to U Thant says: 'Mr. Secretary General: instructions of the Cuban Revolutionary Government, I have the thomesof making known through these means our protest for the arrest and-illegal imprisonment of Senor Roberto Santiesteban Casanova, diplomatic attache of this permanent mission, in violation of the agreement between the United Nations and the Government of the United States, and of international

In the same fashion, the strategic air force, which can deliver nuclear bombs at great distances; the sea and ground forces, and the submarine fleet in particular, were also alerted and have now returned to normal activities. The submarine fleet was provided with missiles which can be launched with nuclear payloads from the bottom of the ocean. The submarine fleet returns to its permanent stations after having been deployed to probable action locations in the face of war.

The reduction in tension stemming from these orders by the Soviet Union and the Warsaw Pact nations and by the United States, has eaused visible satisfaction in European capitals, particularly in Iondon and Paris, where the possibility of being dragged into a thermonuclear war because of purely North American interests, in which neither England nor France are concerned, never was looked upon favorably.

So far there has not been any official Cuban reaction to the lifting of the blockade. In the street one can of course hear sundry comments running the gamut from satisfaction with the lessening of international tension to warnings of caution because of U.S. insistence in its Cuban policy.

However, there is something in which they all agree: they reaffirm the Cuban people's unity around their revolutionary government; their willingness to give their lives if necessary in defense of the revolution; and the determination to stay alert until the danger passes.

Nothing remains of the dispirited, apathetic Cuba produced by the robber politicos of the old regime and their cynical alliance with U.S. imperialism. Not even a trace can be found of that Cuba on the streets of our cities. Now there is an agile, alert, industrious, confident Cuba rallying round the revolutionary government and looking forward to what destiny holds in store for it. It is a Cuba "ready to conquer"; a fearless Cuba which does not believe in phantoms; which has freed itself from geographical determinism; which works and struggles for the construction of a new and better society. The traitors in Washington and Miami who plot against Cuba would certainly not recognize her today if they saw her. This commentator is firmly convinced that every plan against Cuba which President Kennedy and his illustrious collaborators concoct will be futile. And a very good night to you friends.

custom. (We also -- Ed.) protest the search carried out on 17 November 1962 by Federal Bureau of Investigation agents of the Justice Department of the United States in the residence of the diplomatic official of this mission. Third Secretary Senor Raul Fornel Delgado.

"The aforementioned police agents," Carlos Lechuga continues saying,
"violating the diplomatic immunity of that member of the Cuban permanent
mission, presented to the superintendent of the building at 240 Fast 46th
Street a search warrant signed by the commissioner of the southern district
of New York. They carried out the search without the presence,
knowledge, or consent of the aforementioned Cuban official, in whose
name the apartment of the cited building is rented.

"The search warrant appears to have been issued due to the fact that the official, Roberto Santiesteban Casanova, is temporarily living et that place."

The letter presented by Carlos Lechuga to U.N. Acting Secretary General U.Thant concludes: "We request that you take all the steps necessary for the immediate freedom of Senor Santiesteban as well as to prevent a recurrence of these incidents which interfere with the basic rights of a member state of the United Nations.

"I take advantage of this opportunity to reiterate to Your Excellency the testimony of my highest consideration:

Signed Carlos Lechuga, ambassador, permanent representative of Cuba."

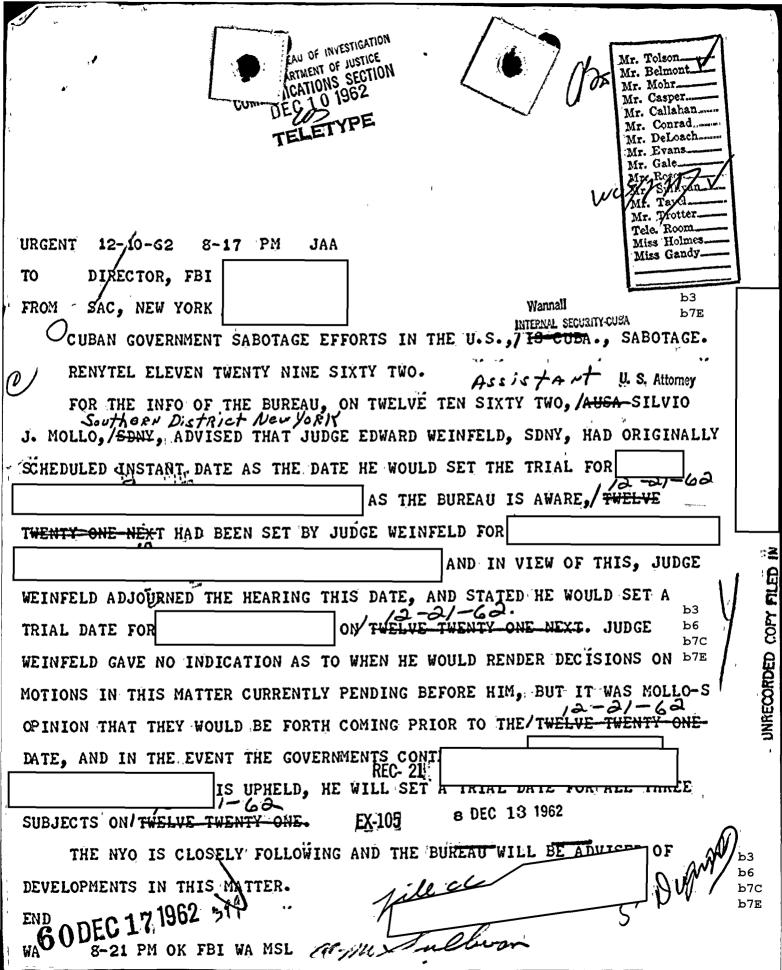

On Saturday, 24 November, at 1100 hours we are going to render homage to the Cuban ship Rio Damjui in San Francisco Plaza in front of the Havena Custom House, and all organizations are exhorted to attend and render homage to all those comrades of the Rio Damjui, who underwent the provocation of a Yankee plane which was dropping bombs around its route toward Cuba.

"Something (worthy?) of comment is how ridiculous the ships have become which the Argentineans, the Domincans, and the Venezuelans sent, now that the blockade has been lifted, because the ships remained on the way and did not manage to (join?) with the Americans and in addition, just as they are reaching them it turns out that the party is all over. They have done nothing but show the (lackey nature?) of their mission. The Argentineans are wondering whether to remain on the Yankee base or to return to Buenos Aires, because the trip is a long one and it used up a great deal of fuel.

"However, other inventory must also be taken. In this crisis, which has lasted almost one month--crisis of blockade and imminence of nuclear war and so forth--there have been casualties. The United States suffered the casualty of one U-2 and of Maj. Anderson in addition to another plane which caught fire in Key West in taking off with six crew members abroad.

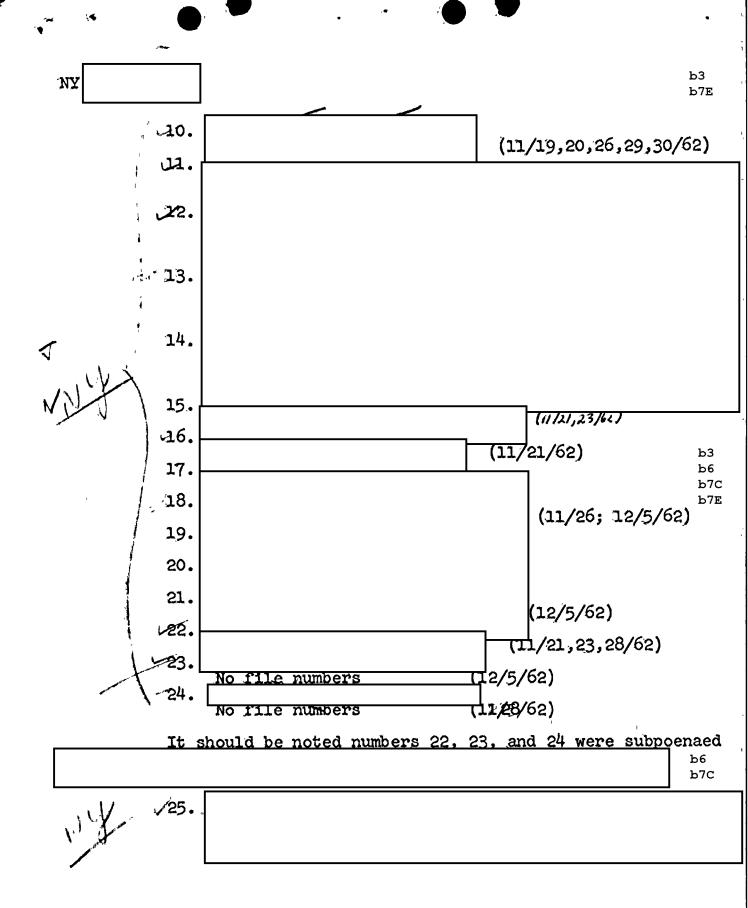

"In addition, nine Argentine airmen, who were also to take some planes which were going to help out in the blockade at this time are returning to Busnos Aires like (strange?) people.

"On Cube's side we can say that there were only casualties in the

on 12/4/62 told our liaison representative that talks at the UN appeared at animpasse and it is very likely that the Soviets will go home from the U.S. without reaching a definite agreement on Cuba. If this impress it will be necessary for the U.S. to go to the OAS and request additional support for purpose of eliminating Castro.

It is felt we should check with the Department before any press release or photographs are furnished to State for the OAS. This action could conceivably give the prospers in the case leeway to charge that the case was being tried in the newspapers and before the OAS rather than in a court of law.

The following will confirm information telephonically furnished on December 10, 1962, to of your b7C of this Bureau. Division by Inspector

On December 7, 1962, United States Attorney Vincent L. Broderick advised our New York Office that another memorandum had been filed by Defense Attorney Leonard Boudin, in which the United States Government was requested to make a specific denial of wire tapping. Broderick told our New York Office that he is of the opinion that the United States Government has maintained its position as far as it could and the Office of the United States Attorney in New York City intended to file an affidavit during the week, December 9-15, 1962, in which a specific denial would be made that this sabotage case was based on wire-tap evidence er that any leads came from wire taps in existence. Mr. Broderick was advised by our New York Office that such statements in an affidavit would be completely accurate and that we had no objection to this information being set forth in the affidavit although it was pointed out to Mr. Broderick that the filing of this affidavit was a legal point and that we would rely on the decision of the Office of the United States Attorney and the Denartment of Justice. b3

Miami is also requested to attempt to identify the above names and the subscribers to the above telephone numbers in an expeditious manner.

With reference to Miami's request as to some belief as to the period of time involved, it is believed that a reasonable period would be not prior to 4/1/62. That date or estimate was selected merely because instant data appeared in the personal notebook of who. as Miami is aware, did not arrive in the United States until Since information previously be received reflected that may have taken over some of intelligence duties or assignments, an additional six months, or 4/1/62, should be a more than reasonable "cut-off" date to select.
