## FBI FOIPA Addendum

As referenced in our letter responding to your Freedom of Information/Privacy Acts (FOIPA) request, the FBI FOIPA Addendum provides information applicable to your request. Part 1 of the Addendum includes standard responses that apply to all requests. Part 2 includes standard responses that apply to requests for records about individuals to the extent your request seeks the listed information. Part 3 includes general information about FBI records, searches, and programs.

### Part 1: The standard responses below apply to all requests:

- (i) **5 U.S.C. § 552(c).** Congress excluded three categories of law enforcement and national security records from the requirements of the FOIPA [5 U.S.C. § 552(c)]. FBI responses are limited to those records subject to the requirements of the FOIPA. Additional information about the FBI and the FOIPA can be found on the [www.fbi.gov/foia](http://www.fbi.gov/foia) website.
- (ii) **Intelligence Records.** To the extent your request seeks records of intelligence sources, methods, or activities, the FBI can neither confirm nor deny the existence of records pursuant to FOIA exemptions (b)(1), (b)(3), and as applicable to requests for records about individuals, PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(1), (b)(3), and (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records is itself a classified fact protected by FOIA exemption (b)(1) and/or would reveal intelligence sources, methods, or activities protected by exemption (b)(3) [50 USC § 3024(i)(1)]. This is a standard response and should not be read to indicate that any such records do or do not exist.

### Part 2: The standard responses below apply to all requests for records on individuals:

- (i) **Requests for Records about any Individual—Watch Lists.** The FBI can neither confirm nor deny the existence of any individual's name on a watch list pursuant to FOIA exemption (b)(7)(E) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(7)(E), (j)(2)]. This is a standard response and should not be read to indicate that watch list records do or do not exist.
- (ii) **Requests for Records about any Individual—Witness Security Program Records.** The FBI can neither confirm nor deny the existence of records which could identify any participant in the Witness Security Program pursuant to FOIA exemption (b)(3) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(3), 18 U.S.C. 3521, and (j)(2)]. This is a standard response and should not be read to indicate that such records do or do not exist.
- (iii) **Requests for Confidential Informant Records.** The FBI can neither confirm nor deny the existence of confidential informant records pursuant to FOIA exemptions (b)(7)(D), (b)(7)(E), and (b)(7)(F) [5 U.S.C. §§ 552 (b)(7)(D), (b)(7)(E), and (b)(7)(F)] and Privacy Act exemption (j)(2) [5 U.S.C. § 552a (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records would reveal confidential informant identities and information, expose law enforcement techniques, and endanger the life or physical safety of individuals. This is a standard response and should not be read to indicate that such records do or do not exist.

### Part 3: General Information:

- (i) **Record Searches and Standard Search Policy.** The Record/Information Dissemination Section (RIDS) searches for reasonably described records by searching systems, such as the Central Records System (CRS), or locations where responsive records would reasonably be found. The CRS is an extensive system of records consisting of applicant, investigative, intelligence, personnel, administrative, and general files compiled by the FBI per its law enforcement, intelligence, and administrative functions. The CRS spans the entire FBI organization, comprising records of FBI Headquarters, FBI Field Offices, and FBI Legal Attaché Offices (Legats) worldwide; Electronic Surveillance (ELSUR) records are included in the CRS. The standard search policy is a search for main entity records in the CRS. Unless specifically requested, a standard search does not include a search for reference entity records, administrative records of previous FOIPA requests, or civil litigation files.
  - a. *Main Entity Records* – created for individuals or non-individuals who are the subjects or the focus of an investigation
  - b. *Reference Entity Records*- created for individuals or non-individuals who are associated with a case but are not known subjects or the focus of an investigation
- (ii) **FBI Records.** Founded in 1908, the FBI carries out a dual law enforcement and national security mission. As part of this dual mission, the FBI creates and maintains records on various subjects; however, the FBI does not maintain records on every person, subject, or entity.
- (iii) **Foreseeable Harm Standard.** As amended in 2016, the Freedom of Information Act provides that a federal agency may withhold responsive records only if: (1) the agency reasonably foresees that disclosure would harm an interest protected by one of the nine exemptions that FOIA enumerates, or (2) disclosure is prohibited by law (5 United States Code, Section 552(a)(8)(A)(i)). The FBI considers this foreseeable harm standard in the processing of its requests.
- (iv) **Requests for Criminal History Records or Rap Sheets.** The Criminal Justice Information Services (CJIS) Division provides Identity History Summary Checks – often referred to as a criminal history record or rap sheet. These criminal history records are not the same as material in an investigative “FBI file.” An Identity History Summary Check is a listing of information taken from fingerprint cards and documents submitted to the FBI in connection with arrests, federal employment, naturalization, or military service. For a fee, individuals can request a copy of their Identity History Summary Check. Forms and directions can be accessed at [www.fbi.gov/about-us/cjis/identity-history-summary-checks](http://www.fbi.gov/about-us/cjis/identity-history-summary-checks). Additionally, requests can be submitted electronically at [www.edo.cjis.gov](http://www.edo.cjis.gov). For additional information, please contact CJIS directly at (304) 625-5590.

This case concerns the burglary on the night of October 29 - 30, 1964, of the Museum of Natural History, New York City. The subjects took a number of priceless gems from the jewel case, including the 563-karat "Star of India Sapphire." The burglars are in custody but the gems have not been recovered.

By letter dated 11/1/64, the New York Office forwarded to the Laboratory a piece of glass removed from the jewel case by the subjects. Several strips of 1/2" wide adhesive tape were stuck to the piece of glass by the subjects. Also forwarded were a partial roll of 1/2" wide adhesive tape from the New York apartment of the subjects and known gravel and soil samples from the crime scene.

The pieces of tape on the piece of glass are similar to the tape on the roll but no end of the pieces of tape could be matched to the outer end of the roll of tape.

By letter dated 11/1/64, the Miami Office submitted three rolls of 2" wide adhesive tape from the Miami apartment of Allan Dale Kuhn and bandages and debris removed from the right elbow of Jack Rolland Murphy. The rolls of 2" wide tape are different from the pieces of 1/2" wide adhesive tape on the piece of glass from the jewel case. No mineral matter of value for significant comparisons was found on the bandages and debris from the arm of Jack Rolland Murphy.

RE: ALLAN DALE KUHN

Note:

This concerns the burglary on the night of 10/29-30/64, of the American Museum of Natural History, New York City. A number of very valuable gems including the 563 carat Star of India sapphire were stolen from display cases in the museum.

Subjects Kuhn and Murphy, identified as the burglars, were arrested by our Miami Office on 10/31/64. The gems have not been recovered.

Miami, by teletype 11/3/64, advised they have received inquiries from informants and sources regarding possible payment for information leading to the recovery of the gems. Miami recommended blanket authority for payment of \$5,000 for information resulting in the recovery.

Re Miami teletype to Director and New York,  
dated 10/31/64.

Enclosed for the FBI Laboratory are the following six items:

- Q 1. Piece of glass with adhesive tape on it.
- Q 2. A role of adhesive tape.
- Q 3 - 6. Four small boxes containing gravel and dirt.

The enclosed piece of glass is from the showcase that was broken into by the subjects at the Museum of Natural History on 10/30/64. The role of adhesive tape was found in the subjects' apartment in New York City by the local police department and furnished to the New York Office. The four boxes of gravel and dirt were obtained from the roof and immediate outside area of the aforementioned museum.

The Laboratory is requested to compare the tape on the glass with the role of adhesive tape and attempt to determine if the used tape came from this particular role.

The Laboratory is further requested to compare the four boxes of gravel with the material to be furnished by the Miami Office as set forth in referenced teletype.

Upon completion of examinations, the above items are to be returned to the New York Office.

RE: ALLAN DALE KUHN -

ITSP - MT

Found in the apartment of ALLAN DALE KUHN during the search incidental to arrest were three Red Devil glass cutters and a pair of Webster Rubber Co. slippers.

The ball of one of the glass cutters is badly chipped, appearing to have been recently done, apparently from pounding on glass or some other comparatively hard object.

These glass cutters are being forwarded to the FBI Laboratory for comparison with any vacuumings or sweepings at the crime scene for the purpose of attempting to determine if any paint chips, if found at the crime scene, could have come from the glass cutters found in KUHN's apartment. Through comparison, the Laboratory might also be able to locate some imperfection or irregularity in the glass cut at the crime scene, or fine particles of glass in the glass cutters which would indicate that the glass cutters being forwarded to the FBI Laboratory were used at the crime scene.

Specimens received from Miami on 11/4/64 (PC-83150 KS KH, D-462901 HW)

 Q4 - Q5 Two specimens of debris from slippers  
 Q6 - Q8 Three glass cutters

K9 - K20 Twelve impressions of slippers

Specimen received from New York on 11/6/64 (PC-83190 KS)

K21 Gravel from inside courtyard

Specimens received from New York on 11/12/64 (PC-83262 KS KH KL)

 K22 Glass from the center showcase  
 K23 - K24 Glass from two other showcases  
 K25 Glass and debris from showcases

### Results of examination:

Several minute particles of glass were found on the wheels of the Q6 and Q8 glass cutters. This glass, however, had different optical properties from the Q1, K23 and K24 glass specimens and did not originate from the panes of glass represented by these specimens.

Specimens Q4 and Q5 consisted of a small amount of asphaltic material mixed with silty debris. This material was different from specimens K2 through K5 and the K21 gravel.

There are not sufficient individual microscopie characteristics remaining in the scores on specimens Q1, K22 and K23 through K25 to identify the specific tool, or tools, used to produce them.

No paint chips were found in specimen K25 for comparison with the paint on the glass cutters, specimens Q6, Q7 and Q8.

On November 9, 1964, ANTHONY "TONY" RICCI, aka TONY GOBELS, was observed talking to an unknown white male at Steve Maruca's Atlantic Service Station, 183rd Street and Collins Avenue, Miami Beach, Florida, at approximately 3:50 p. m. This same individual was later observed driving a 1963 Cadillac convertible bearing 1964 Florida license

[redacted] A check at Dade County Auto Tag Agency reflected this tag was issued to [redacted]

b6  
b7C

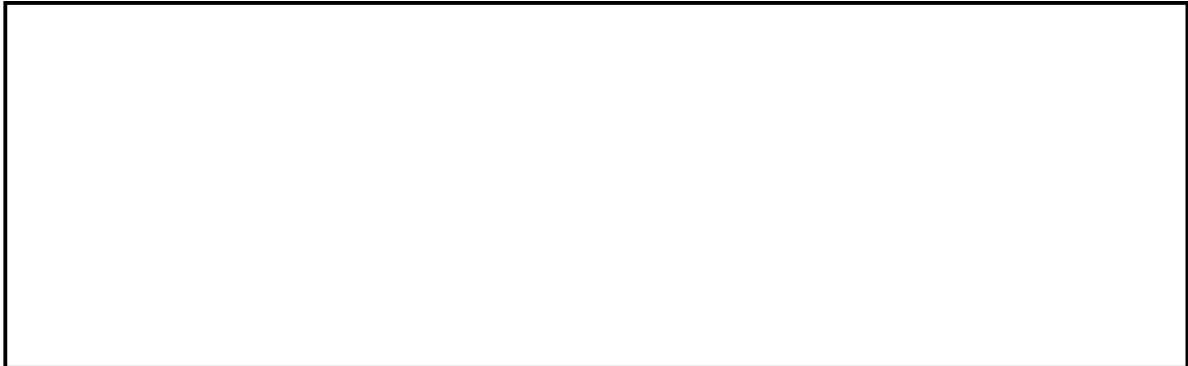

[redacted] This same Cadillac was also observed at Maruca's Service Station on November 10, 1964, around noon time. The unknown individual seen the previous day was not observed.

ANTHONY RICCI is an individual who is under intensive investigation by the Miami Division (Miami File 92-112; Bureau File 92-3247 ). He has resided in the Miami area now for several years and is formerly from the New York and Chicago areas.

RICCI is alleged to be in the "shylock" business and continues his association with known hoodlums whenever the situations present themselves. He gives the appearance of being surrounded by individuals at Maruca's service station on a daily basis where he converses with them. The individuals have past and present backgrounds of being "shylocks", jewel thieves and gamblers.

The individual observed talking to RICCI at Maruca's service station on November 9, 1964 is described as follows:

White male, approximately early 30's, 5'8" - 10", 190 - 210 lbs., heavy build, dark brown hair, light complexion

b6  
b7C  
b7D

At the conclusion of the interview of RICHARD DUNCAN PEARSON on November 12, 1964 concerning the robbery of himself, [redacted] the previous night at the [redacted] residence, PEARSON was asked by SA PRUE C. CLINK- [redacted] whether or not he would consent to submit to a polygraph examination concerning this robbery and the facts as furnished by him [redacted] particularly in view of the extensive investigation which had been conducted by the FBI and other law enforcement agencies during the ten days prior to this robbery concerning ALLEN DALE KUHN and JACK MURPHY, both friends of PEARSON and [redacted] relating to the burglary of the American Museum of Natural History in New York City for which, KUHN, MURPHY and ROGER CLARK had been arrested. It was pointed out that a polygraph examination of PEARSON would be highly desirable to establish beyond any doubt that an actual robbery of PEARSON and others had taken place at the PEARSON residence as claimed, and that same had not been a "fake" robbery or a "put-up" job in an effort to focus the investigative attention of law enforcement officers away from the museum burglary and persons under investigation regarding that burglary.

b6  
b7C

b6  
b7C

PEARSON advised that he readily understood why such polygraph examination of him would be desirable, because of this investigation and because of the reputation of numerous associates and acquaintances of his, but he was declining to take a polygraph examination or lie-detector test, for two reasons. PEARSON stated that first he considers himself a very poor subject for a polygraph examination, due to his being highly nervous and has high blood pressure. He said that while

MM 87-20425

he was in the U. S. Navy he had made four separate attempts to get into the submarine service, and each time was found to have high blood pressure which caused him to be rejected. PEARSON also advised that some months ago he had been erroneously identified by a Miami woman as one of the individuals who robbed this woman, for which he had been arrested by the Dade County Sheriff's Office. Officers at that time requested he take a polygraph examination, which he declined to do until he consulted his attorney, even though he knew he was innocent. His attorney later advised against taking a polygraph examination. PEARSON stated he then obtained books and literature on Polygraph machines, operators and experiments, and read up on these matters. He was advised by a friend (law enforcement officer whom he would not identify) that the polygraph operator for the Dade County Sheriff's Office was not at all reliable and reportedly made errors in his findings (favorable and unfavorable for the subject being examined), and as a result of all this he made up his mind that he would never submit to any polygraph examination for any reason. PEARSON concluded that he realized prior to this conversation that there might be considerable question regarding the reality of his robbery, and as to whether or not same might have been a planned affair or a "set-up", but PEARSON insisted that he is quite certain this was not the case, adding that he would never have had any part in subjecting his wife and friends to the torture and punishment and danger which they underwent in the robbery of their residence the previous night. For above reasons, he respectfully declined to take a polygraph examination concerning this matter.

After interviews on November 7, 10 and 12, 1964, [redacted] was asked if he would consent to a polygraph examination concerning his not having knowledge of the burglary of the American Museum of Natural History at New York City on October 29-30, 1964, and not knowing the location of the gems taken in that burglary. He stated he does not believe the polygraph to be a valid examination and flatly refused to submit to the examination.

b6  
b7c

MM 87-20425

He further declined to submit to the polygraph regarding the robbery at the residence of RICHARD PEARSON, stating he was afraid the examiner would submit him to questions other than the robbery itself, meaning the examiner would question him regarding his knowledge of PEARSON or KUHN and their activities.

DETAILS:

On November 10, 1964 KUHN and MURPHY appeared before U. S. Commissioner EDWARD P. SWAN, Miami. SWAN at the request of Assistant U. S. Attorney AARON A. FOOSANER, Miami, granted a continuance of the hearing until November 17, 1964. SWAN stated no further continuances would be granted in this case, that the government must be prepared to present its case or he would have no alternative but to dismiss the charges against KUHN and MURPHY.

On November 17, 1964, KUHN and MURPHY, represented by attorney HARVEY ST. JEAN, appeared before U. S. Commissioner EDWARD P. SWAN, Miami. SWAN possessed a telegram from the U. S. Attorney's Office, Southern District of New York, copies of which were furnished to Assistant U. S. Attorney AARON A. FOOSANER, Miami, and attorney ST. JEAN. The telegram requested that SWAN grant a further continuance of the ITSP hearing, that the case was currently being presented to Federal Grand Jury at Southern District of New York. Although ST JEAN objected to any further continuances, SWAN granted the continuance until December 1, 1964, with the provision that he be immediately notified of the results of the Federal Grand Jury.

ST. JEAN advised SWAN he intended to take KUHN and MURPHY to New York and surrender them to authorities, requesting that they be allowed to travel to the Southern District of New York under the existing bond. Commissioner SWAN granted permission; no objections were made by Mr. FOOSANER.

On November 12, 1964 in the Justice of the Peace Court of Judge HUGH F. DUVAL, defense attorney ST JEAN challenged that KUHN and MURPHY were not the ones named in the local warrant out of New York. He further advised that he needed time to study the warrants. Judge DUVAL continued the hearing until November 18, 1964.

On November 17, 1964 KUHN and MURPHY appeared before Circuit Court Judge FRANCIS J. CHRISTE and on ST JEAN's advice of counsel, signed waiver of formal extradition, ST. JEAN advising KUHN and MURPHY were voluntarily being returned to New York City on November 18, 1964.

[redacted] stated that she was acquainted with [redacted] as a previous Eastern Air Lines customer and described him as age 40's, 6' tall, 190 pounds, heavy build, dark hair - receding. She stated that on Friday, October 30, 1964, [redacted] came into the lounge accompanied by an individual whom he introduced as [redacted] and both of them exhibited first-class tickets to New York City. She stated she then asked him whether [ ] saw this man at the counter which was just ahead of them at that time. She stated that [ ] replied that he did not know the individual. She stated that as [ ] approached the area near the seat-assignment station, a short, stocky man dressed in Florida casual dress approached [ ] and said [ ]. When [ ] acknowledged this salutation, this man handed him a small package. [ ] stated that when she saw that [ ] had apparently met his man, she turned away from them both and returned to her post at the lounge because they were extremely busy and she did not want to be away from her post longer than necessary. She stated that she did not pay too much attention to this man and could describe him as only much shorter, stocky build and apparently a Florida native due to his casual dress and general appearance. Numerous photographs, including those of KUHN, MURPHY and various associates, were exhibited to [ ] and she was unable to identify any as being the individual who had passed the package to [ ]. She stated she could not describe the package other than to say it was a small package carried in one hand. She stated they left in time to depart on Flight 632 due to arrive at Newark Airport. She stated she had a clear recollection of this flight as there were several company executives or supervisors on the flight. She stated she recalled that she had a spot on her tunic and immediately went to the galley area and started to prepare the breakfast for the passengers and requested the other [redacted] to collect the boarding passes and to greet the passengers at the door. She stated the flight left at approximately 9:15 a.m. and the normal procedure was to serve breakfast shortly thereafter. She stated company regulations prevented the distribution of liquor until 11 a.m. She stated that she recalled that KUHN was accompanied by a young girl, described as small, dark long hair, and petite. one time the girl was in 8D, KUHN in 8C and MURPHY in 8B. She stated that as these three individuals took their seats on the plane, she was aware that they had taken the wrong seats because just before flight time they changed their seats. She stated that they sat at the rear of the first-class passenger section, and it was her impression that an executive in the flight service department, one [redacted] had sat immediately in front of KUHN, which would be seat 7B, and that a female supervisor from the same section had sat in seat 7A. She stated that it was her best recollection that [redacted] an Eastern Air Lines pilot, had sat in seat 9C directly behind MURPHY. She stated that after MURPHY had attracted her attention by asking for drinks, she casually observed the trio and it was her immediate reaction that they did not appear to be the normal first-class passenger type. She stated from their general dress and demeanor, they appeared to be the type that would normally travel tourist class. She stated it was her recollection that the young girl carried a coat and that the two fellows had no coats, had tanned complexions, and it was her impression that the two men were probably Miami residents. She stated that the blond individual identified as MURPHY made several requests for liquor and that while they were all cold sober and had not been drinking, they seemed to be in a gay and festive mood. She stated she had no recollection of any of the conversation and now can recall no activity that appeared unusual other than that previously mentioned. She stated she had a slight recollection that the girl had some sort of a traveling case which she maintained at her feet because she did recall asking her on one occasion if she would like to have the case placed on the overhead rack. She stated the girl declined the offer and stated she would keep the case at her feet. She stated she had no recollection of the color or style of this case and recalled it as only a small travel or cosmetic case.

## FEDERAL BUREAU OF INVESTIGATION

1

Date November 4, 1964

At 5:30 P.M., November 1, 1964, WILLIAM F. BEANE, Special Agent of the FBI, interviewed [redacted] in the parking lot of the Miami Shores Country Club, 1000 Biscayne Boulevard, Miami Shores, Florida. At the outset of this interview [redacted] was informed by SA BEANE that he had the right to consult with legal counsel before making any statement, and cautioned further that any statement he did make could be used against him in a court of law. He was further advised that he was not under arrest and he did not have to make any statement whatever if he did not desire to do so. [redacted] stated that he understood this thoroughly. [redacted] was informed that he had been observed by witnesses to visit the apartment of ALLAN DALE KUHN, Apartment 15T, 2451 Brickell Avenue, Miami, Florida, during Friday, October 30, 1964, and again on Saturday morning, October 31, 1964. He was asked if he would furnish the details relating to the purpose of these visits. He declined to do so. He stated that it is true that he visited the Brickell Towers on both of those days but that on neither of those days did he actually enter KUHN'S apartment.

He stated that the Brickell Towers is a large apartment building and he has other friends in there on the 18th Floor whom he visited and whom he chose not to identify. He stated that those persons were entirely legitimate and he did not wish to embarrass them in any way. He was asked to describe any other previous business dealings with ALLAN KUHN. He declined to comment on any previous transactions with KUHN stating that he had conducted nothing but legitimate business with KUHN.

At this point [redacted] was asked if he was prepared to take a polygraph examination concerning the foregoing.

MM 87-20425

He stated that he absolutely would refuse to take a polygraph examination for any reason. [ ] was informed at this point that it was going to be necessary to conduct extensive investigation in order to determine the nature of his business with ALLAN KUHN since he did not choose to disclose same. [ ] stated that such an investigation would most certainly embarrass him and if the FBI attempted to do this he would seek an injunction against them. He stated that he was prepared to admit that he visited the Brickell Town House for about 20 minutes between 10:30 A.M. and 11:00 A.M. on October 31, 1964. He first went to the 18th Floor and then to the 15th Floor where he visited the rental office which adjoins ALLAN KUHN'S apartment. He admitted that he saw KUHN during this period of time but stood in the doorway of the apartment. He again declined to comment on the nature of his business with KUHN stating that it was none of the FBI'S business.

b6  
b7C

[ ] was asked if he had any knowledge whatever either direct or indirect from ALLAN KUHN or anyone else relating to the burglary of the Museum of Natural History, New York City, which occurred on October 29-30, 1964, and in which burglary several priceless gems including the Star of India and the Delong ruby were stolen. He stated that he had absolutely no knowledge whatever of this burglary or of the disposition of the jewelry and precious stones stolen during the course of same. He advised that he had read in the papers that ALLAN KUHN and some of his associates had been arrested charged with transporting the loot from this burglary from New York to Florida, but he knew nothing other than that. He was asked if he discussed the burglary with KUHN at the time he saw him between 10:30 and 11:00 A.M. on October 31, 1964. He stated that he did not.

b6  
b7C

MM 87-20425

[ ] was asked if certain fences with whom he was acquainted in the Miami area would be capable of handling precious stones such as those stolen in the above-described burglary. His comments relating to these fences are as follows:

b6  
b7C

[ ]  
[ ] stated he was acquainted with [ ]  
[ ] but it is his understanding from mutual contacts and associates of [ ] that [ ] is an informant for the New York City Police Department, therefore, he would have nothing to do with him. He does not feel that [ ] personally has the resources to dispose of jewelry of this magnitude.

b6  
b7C

[ ]  
He stated that he has known [ ] for several years and associated him several years ago with [ ] but does not feel [ ] is capable of handling this large a score.

b6  
b7C

[ ]  
He stated [ ] is referred to generally as the [ ] and that he operates his place of business in the [ ]. He does not feel that [ ] has the financial sources to handle jewelry such as this or to dispose of same himself, however, he is confident that [ ] knows "the right people" in the West 47th Street Jewelry Exchange area of New York City to dispose of same.

b6  
b7C

4

MM 87-20425

He considers that [ ] also would have sufficient New York contacts to dispose of precious stones of the magnitude of those in question.

b6  
b7C

[ ] stated that he thought it was very foolish of anyone to steal such nonmarketable stones as the Star of India and the DeLong ruby. He stated that it was his view that it would be almost impossible to cut either of these gems without ruining them completely. The smaller stones that were taken, in [ ] view, might have some marketable value but because of their association now with the Star of India and the DeLong ruby they would be "too hot to handle" and he would decline to handle them if they were offered to him personally.

b6  
b7C

[ ] advised that he would be willing to assist the FBI in the anonymous return of the precious gems in question in order to avoid any undue embarrassment for himself and his family which most certainly would result from FBI inquiry of many of his associates. [ ] was informed at this point that no deals could be made with him and he was informed that the FBI would continue their investigation of his relationship with ALLAN KUHN until a satisfactory account of this relationship is made known.

b6  
b7C

[ ] was asked through what means he derives his income and he advised that he owns several pieces of property in Miami including several homes which he rents. He stated further that he is presently exploring a remote control burglary alarm system which is manufactured in Japan and in the event he is satisfied with the quality of the product he would attempt to purchase large lots of these alarm devices and open a franchise in the Miami area to market them.

## FEDERAL BUREAU OF INVESTIGATION

Date November 4, 1964

At 11:30 am, November 4, 1964, [ ] was interviewed at the B & M Diner, Biscayne Boulevard and 52nd Street, Northeast, Miami, Florida.

b6  
b7C

At the outset of the interview, [ ] was advised by SA WILLIAM F. BEANE that he was not required to make any statement whatsoever without first consulting legal counsel. He was further informed that any statement he did make could be used against him in a court of law. No threats, promises or other inducements were made to [ ] in connection with this interview.

b6  
b7C

He advised that he had just come from a visit with ALLAN KUHN at a location which he chose not to identify. He pointed out that he met with KUHN at the request of SA BEANE and attempted to encourage KUHN to surrender the jewelry stolen from the Museum of Natural History in New York City on October 29-30, 1964, to the FBI. He suggested to KUHN that he could surrender this jewelry anonymously inasmuch as the FBI has numerous persons in the Miami area looking for the jewelry, and if it were returned anonymously through the mails or if information was furnished anonymously by telephone to the FBI as to its location, the FBI would have no means whatever of determining who was responsible for its return. [ ] suggested to KUHN that such a maneuver would take an enormous amount of "heat" off of [ ] as well as off of himself (KUHN), CLARK and MURPHY. [ ] stated that he indicated to KUHN in the strongest language at his command that now that arrests have been made in this case, the jewelry is virtually worthless and would have no marketable value through any fence. KUHN responded to [ ] that he was very sorry, but he did not wish to discuss the museum theft with anyone, "not even you", (meaning [ ] KUHN advised [ ] that he was taking this position on advice of counsel.

b6  
b7C

[ ] again categorically denied any involvement on his part in the burglary of the Museum of Natural History, New York City; he further again denied any knowledge whatever, direct or indirect, concerning the burglary itself or the disposition of the jewelry.

On 11/4/64 at Miami, Florida File # Miami 87-20425

by SA WILLIAM F. BEANE:mfm Date dictated 11/4/64

Once again, [ ] was asked to describe to SA BEANE the precise nature of his visit to the Brickell Town House Apartments on Saturday, October 31, 1964, and any other days during the week immediately preceding that Saturday. To this inquiry, [ ] responded that earlier in the week, on or about Tuesday, October 27, 1964, he visited the Brickell Town House Apartments with another person, whom he declined to identify. The purpose for this visit in his words was so that his unidentified associate could keep an appointment with an attorney, whom he declined to identify, who was handling an estate of a man who resided in the Brickell Town House and which man died in the recent past. It was [ ] understanding from his associate that the dead man had a two room apartment at the Brickell Town House which he understands was magnificently furnished with furnishings valued at somewhere in the neighborhood of \$300,000. [ ] stated that his associate and himself were possibly interested in purchasing this furniture at an extremely reduced rate. [ ] indicated that if he liked the apartment itself he was considering leasing it. He advised that he and his associate arrived late for the appointment with the attorney and that the attorney was no longer at the Brickell Town House.

b6  
b7C

He stated that he and his associate then made inquiry in the main office of the building situated on the ground floor concerning this apartment. He then, together with his associate, went to the 15th floor of the Brickell Town House, where he spoke with someone else about the apartment heretofore described. He does not recall the names of either of the persons he spoke with. While visiting in the rental office, [ ] rang the doorbell of KUHN's apartment but no one answered. After this, he and his associate left the building.

b6  
b7C

[ ] stated that on Saturday, October 31, 1964, he returned alone to the Brickell Town House in order to make further inquiries about the apartment, described above. He arrived at the Town House at approximately 10:45 am, and after leaving his car with the doorman, entered the lobby and almost immediately upon entry was greeted by ALLAN KUHN, who was casually dressed in shorts and a sports shirt. This meeting, according to [ ] was entirely by coincidence and was not prearranged. The two of them decided to enter the coffee shop in the building, where they sat at the counter and had a cup of coffee, nothing more.

b6  
b7C

[ ] recalls that he had read the papers the preceding evening relative to the burglary of the Museum of Natural History in New York City, but this burglary, according to him, was not discussed with KUHN at this or any other time. He stated that the conversation for the most part related to a couple of pretty girls that KUHN had in his apartment, and also about the possibility of [ ] purchasing one of KUHN's boats.

KUHN invited [ ] to his room on this Saturday morning and [ ] at first declined to go with him, but later reconsidered and agreed to accompany him to his room. Upon leaving the coffee shop, [ ] left fifty cents on the counter for the price of the coffee and the tip, and the two men left for KUHN's apartment. Upon arrival on the 15th floor, [ ] said that he again reconsidered and decided it was best that he not enter KUHN's apartment, and he said goodbye to KUHN in the corridor and immediately left the building. He stated he would estimate the time he spent in the building at approximately fifteen to twenty minutes, and pointed out that his original purpose in going to the building that morning was to further inquire about the apartment and the furniture described above. He did not have an opportunity to make such an inquiry before leaving the building.

[ ] was asked if he knew a man named [ ] who resides on the 8th floor of the Brickell Town House. He stated that he does know him and had met him only on two previous occasions. He was asked if he had attended a party in the [ ] apartment on the evening and early morning hours of October 30-31, 1964. He stated that he did not attend this party, but he was confident that if all the persons present at that party were interviewed, some of them would most certainly state that he was there.

[ ] was asked if he could identify the associate who accompanied him to the Brickell Town House earlier in the week of October 25, 1964, or if he could identify the attorney whom he and his associate were attempting to contact. He advised that he would contact his attorney to ascertain whether or not it would be all right for him to make such information available to the FBI. He further pointed out that he is acquainted with other people who reside in the Brickell Town House.

## FEDERAL BUREAU OF INVESTIGATION

Date November 16, 1964

At the outset of this telephonic interview, [ ] was advised by SA WILLIAM F. BEANE that he was not obligated to make any statement and that any statement he did make might be used against him in a court of law. He was further advised by SA BEANE that he had a right to consult with legal counsel prior to making any statement.

b6  
b7C

[ ] stated that counsel had advised him not to speak with any law enforcement officers, however, he agreed to answer question which would not incriminate him personally.

b6  
b7C

[ ] was asked whether or not he recalls having visited the Brickell Town House on Friday evening, October 30, 1964, approximately during the hours from 5 P.M. to 7:30 P.M. He stated that he absolutely was not at the Brickell Town House during all or any part of that time. He indicated that it is the best of his recollection that he did not visit the Brickell Town House on Friday, October 30, 1964, at all. He recalls having been there possibly on Thursday and one or two days earlier in the week. He was asked if he would furnish his whereabouts on Friday evening between the hours of 5 P.M. and 7:30 P.M. After consulting with [ ] he stated that he and [ ] and other friends, whom he chose not to identify, had dinner at a restaurant which he declined to identify. He stated that he almost always eats dinner out on Friday evening and Friday, October 30, 1964, was no exception.

b6

V. INTERVIEWS WITH RICHARD DUNCAN PEARSON

1

Date November 4, 1964**RICHARD DUNCAN PEARSON,** [redacted]

[redacted] was interviewed at his residence. PEARSON was advised that he did not have to make any statement and that any statement that he did make could be used against him in a court of law.

PEARSON was requested to account for his activities inasmuch as it was known that he had been out of town for a period of several weeks. He was specifically requested to account for his activities on Thursday, October 29, and Friday, October 30, 1964.

PEARSON stated that on Thursday, October 29, 1964, he had left Providence, Rhode Island, at approximately 1:00 or 1:15 P.M. via American Airlines and had arrived in New York City at approximately 2:15 P.M. He stated he arrived at Kennedy Airport and gave serious consideration to going into the city for dinner, inasmuch as he had about a three hour wait for the next non-stop flight to Miami. He stated, however, he remained at the airport and took a National Airlines flight, leaving at 5:20 P.M., which was a non-stop jet flight to Miami, which arrived at approximately 8:15 P.M. He stated he took a cab directly to his home from the airport. He stated on Friday morning, he spent most of the morning at his residence and then, in the noon and early afternoon, made several social and business calls to individuals whom he stated he would rather not identify. He stated that [redacted] subsequently advised him that during his absence, ALLAN KUHN paid a visit to his residence, accompanied by a girl friend. He stated he had last seen ALLAN KUHN at his own residence on Sunday evening, October 11, 1964. He stated [redacted] had given him a surprise birthday party and had invited a number of his friends in for the evening.

He stated that ALLAN KUHN had left Miami, apparently for California, at the end of September and when he showed up at his residence on Sunday evening, October 11, 1964, he had no idea where he had come from. He stated that KUHN was a little unusual in that he would suddenly come to the residence, stay for awhile, and just as suddenly depart and make no comment as to his plans.

He stated he has known KUHN for several years. To the best of his knowledge, KUHN made his living as a swimming instructor and scuba diver. He stated that apparently, KUHN did very well as he was currently supporting a luxurious apartment in the Brickell Towers.

PEARSON stated that he personally left Miami approximately two weeks previously and that he had toured New England with a friend, whom he refused to identify. He stated he traveled by means of a rental car in that area.

PEARSON stated that he did not participate in and had no knowledge of the theft of the valuable jewels at the Museum of Natural History in New York City. He stated he personally felt it was foolish to steal such museum pieces because there was no practical market for such items.

PEARSON was advised that after making several unsuccessful calls to contact his attorney, ALLAN KUHN, subsequent to his arrest, attempted to contact the PEARSON residence. PEARSON quickly stated that it was only logical for KUHN to attempt to contact him, stating they both utilized the same attorney, HARVEY ST. JEAN, and that KUHN knew that he, PEARSON, would certainly attempt to locate his attorney to assist him if he were in trouble.

PEARSON stated he first heard of KUHN and MURPHY being arrested from [redacted] who also lives at the Brickell Towers, when [redacted] called him late Saturday afternoon, approximately 4:00 P.M. [redacted] advised him that ALLAN KUHN had called him by telephone and had requested assistance in locating his attorney, HARVEY ST. JEAN. PEARSON stated he then contacted HARVEY ST. JEAN at his residence, who advised him that he had been in contact with KUHN at the Miami Office of the Federal Bureau of Investigation.

At this point, PEARSON made available a memorandum copy of an airline ticket which reflected travel on October 29, 1964, via National Airlines Flight 7,

leaving New York City 5:20 P.M. for Miami, Florida. This ticket was in the name of [redacted] and bore ticket number 010111888991. Seat 3A had been assigned to the passenger. PEARSON stated that he periodically traveled under an assumed name in his travels around the country and stated to the best of his knowledge, this was not in violation of any existing law.

Date November 17, 1964

RICHARD DUNCAN PEARSON, 6525 Southwest 135th Road, was interviewed at Uncle John's Pancake House, Biscayne Boulevard, by appointment.

PEARSON was advised by SA GUILFOILE that he did not have to make any statement and any statement that he did make could be used against him in a court of law. PEARSON was advised of his right to consult an attorney of his own choice.

PEARSON stated that he had no knowledge of instant theft and he had no knowledge that KUHN or MURPHY had participated in instant theft and that he had no knowledge of the location of or the disposition of the loot from this theft.

PEARSON advised that ALLAN KUHN had left Miami for California at the end of September, 1964, and that he next saw ALLAN KUHN at a party for himself at the PEARSON residence on Sunday evening, October 11, 1964. He said the next time that he saw ALLAN KUHN was subsequent to his arrest.

PEARSON stated that he left Miami himself on a business trip approximately October 15, 1964, and spent about two weeks in the New England area. He stated he traveled in that location by use of rental car. He advised that he returned to his residence on the evening of Thursday, October 29, 1964. PEARSON stated that the above period was devoted to a legitimate business trip and at this time he preferred not to expose either his activities or his associates or contacts to the scrutiny of the FBI. He stated that if necessary, he could account for his presence during this period, but he preferred not to do so at this time. He stated that during this period, he stayed in a motel, which could be verified. He stated that he had called [redacted] on two occasions while away, and it was his clear

recollection that these calls were made on the two Sundays during his absence. PEARSON stated that he did not meet or see ALLAN KUHN or JACK MURPHY or any of their associates in New York City during this period. He stated he did not visit their apartment in New York during this period and that he made no calls from their apartment to his residence in Miami.

He stated that upon his return to Miami, [ ] [ ] advised him that ALLAN KUHN had called him by telephone in his absence, exact day not recalled, but definitely since his departure on his business trip. He stated that this call was separate and distinct from the call made by KUHN prior to his birthday party on October 11, 1964.

b6  
b7C

PEARSON was advised at this point that [ ] had been previously interviewed at the PEARSON residence, and she had stated that she had no recollection of receiving any calls from ALLAN KUHN in New York City while he was away. PEARSON stated that this was entirely possible but commented that [ ] gave him a two-page list of phone calls which she had received on his behalf during his absence.

b6  
b7C

At this point, PEARSON was advised that in view of his past association with ALLAN KUHN and the fact that his actual presence was unaccounted for for approximately two weeks prior to the theft in New York City, that the FBI would have to conduct appropriate investigation to locate PEARSON and account for his activities and associations during this period. At this point, PEARSON stated that he would contact the people that he had been in touch with on his business trip and if they had no objection to being contacted by the FBI, he would furnish to the FBI enough details of his itinerary so that they could verify his location and account for his whereabouts during the period immediately prior to the actual theft. In conclusion, PEARSON repeatedly insisted that he had no knowledge that KUHN or MURPHY was

The FBI was to question her regarding her knowledge of the burglary and the location of the missing gems.

[ ] advised that he is a close friend of PEARSON and that something unusual happened when they arrived at his residence. He stated that there was a Volkswagen parked a little distance down the street. It was noticed by [ ] PEARSON, but PEARSON did not drive by the strange car as he would have normally done. Instead, he (PEARSON) turned into his driveway. [ ] stated that PEARSON is a suspicious person, and he would have normally driven by the car to see who it is and get the license number, but this time he did not.

b6  
b7C

Both PEARSON [ ] entered the house and walked toward the bar area. PEARSON mentioned something about the rug being recently cleaned and [ ] leaned over to feel the rug and when he was about to straighten up he saw someone approaching out of the corner of his eye. He turned to look but was told to turn around and keep quiet. He was forced to lie face-down on the floor at which time he was blindfolded and gagged with tape. His wrists were tied behind his back with cotton clothesline rope, and his feet were tied and secured to his wrists. [ ] advised that during this time he was not able to see what was happening to PEARSON, but assumed the same thing was being done to him from what he could hear.

b6

[ ] got only a fast look at one of the two men and advised he could not identify them.

b6

After they were tied up, one of the men asked, "All right, where's the stuff?" PEARSON asked, "What stuff?" At this point [ ] heard grunts and groans coming from PEARSON, and sounds as if PEARSON was being hit. The same voice asked PEARSON, [ ] PEARSON answered, "The beauty shop," and again it sounded like he was being beaten. beaten about the head, face, and body. He stated that although his name was not mentioned he had the feeling the men knew who he was.

At this point [ ] heard a car drive up to the house, (knowing it was [ ] The doorbell rang, and although [ ] was tied up, he could hear the girls being hustled into the house. [ ] advised he heard scuffles and the girls were apparently being tied and gagged in the same room. [ ] stated that his hands became numb and he kept asking the men to loosen the rope but they did not respond. He stated that [ ] also pleaded with the men, but she was told to shut up. The same voice that was giving all the orders and asking all the questions told [ ] to get her dog in the house. The dog was apparently let in, and it yelped one time.

b6  
b7C

[ ] advised that at one point during the robbery, the two men left the room. [ ] at this time, apparently freed her hands and was hopping toward the telephone when one of the men came out of another room and a scuffle took place. He heard [ ] say, "I saw you, I saw you, and I'll see that you go to the electric chair for this. I can identify you." [ ] stated he expected to hear a gunshot momentarily. Another scuffle took place and the voice stated, "If you say anything else I'll slit your throat."

b6  
b7C

At this point [ ] told the robbers that the stuff they were looking for was in the air conditioning unit at the Brickell Town House. He stated that he said this so they would leave [ ] alone, and because he knew that the air conditioners at the Town House were being repaired and that if they knew anything they might believe him. He also told them that if it was not there, then it was buried here, (meaning on the premises), further yelling through his taped

mouth that ALLAN had told him. The subjects kept kicking and hitting [ ] as well as others, or so it sounded, according to [ ]

b6

[ ] advised that [ ] then yelled, through her taped mouth, (it sounded as if it were taped), that she and ALLAN were the only ones that knew where it was. She told them it was buried outside, down the street, according to [ ]

b6  
b7C

After about two hours, a horn sounded twice outside and it became silent in the house. Soon after that [ ] was heard to ask if they were gone, and she was answered by "DICK" PEARSON that he thought they were. Soon after this, [ ] was freed by [ ] who cut him loose with a knife she said she obtained from "DICK." There was conversation between the three others in the house, but [ ] stated that at this point he ran out of the house, to the house next door where he used to live, broke through the front door calling for help. A young boy living in the house answered [ ] call for help and led him to the telephone. [ ] stated he wanted to make sure the police were called, because when he was lying on the floor taking the beating, he had a chance to think, and there were too many things that were not just right, and he thought he was a "patsy" and was not sure if PEARSON had in reality called the police.

He stated the robbery was discussed, and the police investigated the robbery. He advised that [ ] diamond ring was taken but that she did not appear to be too upset.

MM 87-20425

[ ] stated that he, however, was upset and wanted to talk to ALLAN. [ ] placed a telephone call to an unknown location and told the party on the other end of the line to find ALLAN and have him call her. ALLAN called about 12 P.M., and about 12:50 A.M. arrived at the PEARSON residence. [ ] stated that he, as well as the others involved in this robbery, related the incident to KUHN, and that KUHN appeared to be sympathetic, stating he would pay for [ ] teeth (knocked out during the robbery), and any time off he had to take as a result of not being able to go to work. [ ] assured KUHN that he expected this, advising KUHN he was mad, that he did not want to become any more involved in the matter.

b6

[ ] advised there were too many things that did not appear right, that it was his opinion that the whole thing was a fake robbery made to look good, for the purpose of either taking the heat off PEARSON, in regard to the missing gems from the American Museum of Natural History at New York, or because "DICK" was broke and wanted the insurance money for the ring that was taken from [ ] during the robbery.

b6

[ ] further advised that the robbers took his car, a late model Thunderbird, bearing 1964 Florida tag, 1W113350 and Vehicle Identification Number 3Y83Z141888. He advised the robbers used the car to get away and it has not been recovered.

because the size of the man that pulled her in was the same size as RICHARD. [ ] described the two men as being masked, one a little man, about 5'8" and stocky, the other about 6' tall, slender. She stated that the little man was the one that did all the talking. When they were pulled in the house, [ ] gave one of the men a rough time, and both of the men scuffled with her. [ ] stated that at this point, she saw [ ] RICHARD tied up lying on the floor. [ ] asked the robbers whether they would let her try to control [ ]. At this point, one of the men put tape across [ ] eyes and mouth and proceeded to tie her hands and feet. She stated she was tied first and presumed [ ] was being tied after she was blindfolded. The short man, the only one doing any talking, put a knife to [ ] throat and told her, "Tell me where the stuff is or I'll slit your throat." The man first questioned one girl then the other as to the location of the stuff.

b6  
b7C

She was then told to get her dog in the house, and her feet were untied and she was escorted to the front door and her dog was let in the house and put in the kitchen. She stated the dog yelped once, and she told the men to leave the dog alone. She further stated that RICHARD PEARSON also called out to the men to leave his dog alone. She was then led back to the location where [ ] RICHARD [ ] were tied up, and she was retied and left on the floor.

b6  
b7C

The men left the room and [ ] freed her hands, took the tape off her eyes and mouth, and started hopping toward the area where the telephone was located. She fell down and one of the men came out of the kitchen, put a gun on the couch and started to try to secure her again. She reached for the gun, but the man beat her to it and handed it to the other man who entered from the kitchen. While he was handing the gun to the other man, [ ] reached up and pulled off the man's mask. The man immediately put his hand in front of his face, but [ ] yelled at him, "I can recognize you, if you do anything to anyone, I'll see that you go to the electric chair."

b6  
b7C

The man said to her, "If you say anything else, I'll slit your throat." At this point, [ ] was tied again, much tighter than before. [ ] was asking that his ropes be loosened as his hands were numb; the circulation was cut off. [ ] told the man to loosen [ ] hands, that he needed them to earn a living, but the men did nothing.

b6  
b7C

The men kept questioning everyone where the stuff was, and [ ] stated that [ ] finally said that it was in the air conditioner at the Brickell Town House or buried there, that only ALLAN knew where it was. [ ] told the man that "ALLAN told me; ALLAN and I are the only ones who know where the gems are." She advised she thought they were referring to the gems that were stolen from the American Museum of Natural History at New York City on October 29th or 30th. The man asked her where they were, and she told them they were buried down the street from the [ ] house. The man asked her to describe where, and she told him she could not. The man asked her whether he needed a shovel, and she replied she only needed a "spaghetti spoon."

b6  
b7C

[ ] stated that at this point the tape was slipping off her eyes and she could see. [ ] was still tied up on the floor, bleeding. [ ] was tied up and quiet. [ ] was not in the room. It was determined later that he was in the kitchen, [ ] having told her that he was put in the kitchen to keep the dogs quiet. She said she did not hear him go into the kitchen and could not understand why his feet were not tied.

b6  
b7C

She stated she could see that both of their purses were emptied. The man asked about the keys, wanting to know whether that was her [ ] car outside. She said yes, the keys were in it, explaining she had two sets of keys.

b6

A horn sounded twice outside and it became quiet in the house. [ ] was sitting in the lobby, unmasked and ungagged. [ ] asked him whether they were gone. He said yes,

[redacted] called someone and told them to find ALLAN and have him call her at home. The police came to the house to conduct an investigation. He stated that he had expected to be interviewed by the FBI since he is a close friend of ROGER FREDERICK CLARK.

[ ] has known ROGER FREDERICK CLARK as a former bellboy at the Casablanca Hotel and as a tenant in the same apartment house at Miami Beach, where [ ] has resided for the past several years. [ ] also worked previously [ ] with CLARK at the Deauville Hotel on Miami Beach.

[ ] and CLARK became extremely close friends and were together a good part of their free time. About two months before November 6, 1964, CLARK told [ ] that he desired to leave Miami Beach in order to go to New England where he anticipated doing a lot of skiing during the forthcoming winter season. Just prior to this time CLARK had been unemployed for a brief period and [ ] "carried" him financially, loaning CLARK approximately \$100.00. CLARK promised to send [ ] the money when he reached his mother's home in Connecticut. CLARK soon thereafter apparently departed from the Miami Beach area. Shortly thereafter [ ] placed a call to CLARK at the Meriden, Connecticut, home of CLARK's mother. At that time CLARK promised that he would send the money owed to him. Soon thereafter CLARK sent [ ] \$100.00 by Western Union money order from Connecticut.

He stated he has no information relative to the location of the loot from that burglary. He stated that even if he did know what had happened to the stolen gems, he doubted that he would freely volunteer the information to the FBI or any other law enforcement agency if that knowledge would in any way prejudice his good friend ROGER FREDERICK CLARK.

Concerning ALLAN DALE KUHN, [ ] stated that he recalls KUHN having worked as a beach boy at the Casablanca Hotel. He stated he was not well acquainted with KUHN and that he does not particularly like KUHN, whom he considers to have an aloof manner.

X. INTERVIEW WITH ROGER CLARK

## FEDERAL BUREAU OF INVESTIGATION

1Date November 9, 1964

ROGER FREDERICK CLARK was observed and met in the restaurant located in the basement of the Casablanca Hotel, 6345 Collins Avenue, Miami Beach, Florida.

CLARK was observed walking past the pool area and down the ramp leading to the basement of the Casablanca Hotel with another individual who appeared familiar as a pool manager at the Martinique Hotel, or a hotel in the immediate vicinity of the Casablanca Hotel. CLARK was next observed in the restaurant of the hotel, seated with the afore-mentioned individual.

Agent sat down next to CLARK and asked him how he was getting along, whereupon CLARK freely and voluntarily stated he was getting along all right "down here". He further stated that he had been treated bad in New York, explaining that the police beat him with a blackjack to obtain a confession. CLARK further stated that "the police made the agents leave the floor" before they beat him, that he "told them anything" so the police would leave him alone.

A close observation of CLARK reflected that he had no visible marks or bruises about the head or face, and there were no visible marks or bruises on his arms, noting that CLARK was wearing a short sleeved pale green sport shirt. Observation did reflect that CLARK had rings and bags under his eyes, and he did state he "just got up" and was still tired.

## PURPOSE

This is to advise of current developments in the investigation of the burglary of precious gems from the American Museum of Natural History, New York City.

## BACKGROUND

During the night of October 29-30, 1964, the American Museum of Natural History, New York City, was burglarized and a number of precious gems including the 563 carat Star of India sapphire were taken.

Our New York Office quickly developed information identifying the persons responsible for the theft. Roger Frederick Clark, arrested at New York City, October 31, 1964, admitted acting as a lookout while the burglary was committed by Allan Dale Kuhn and Jack Rolland Murphy.

It was learned Kuhn and Murphy flew to Miami the day following the theft and they were apprehended at Kuhn's Miami apartment by Bureau Agents on October 31, 1964. A thorough search at the time of this arrest failed to recover the gems.

[redacted] of Kuhn, traveled to Miami on the plane with Kuhn and Murphy. She denied any knowledge of the burglary or the location of the gems.

REC-23

## STATUS OF PROSECUTION

On the basis of Clark's admission, the three subjects were indicted by New York authorities for grand larceny. Clark is also charged locally with possession of narcotics. On November 24, 1964, the subjects entered not guilty pleas to the local indictments.

On 11/13/64, Detective Inspector J. FYALL, Chelsea police station, London, advised that on 7/5/64, the Natural History Museum, Cromwell Road, London, was broken into and a showcase containing approximately £20,000 worth of diamonds was forced open and the diamonds were stolen.

FYALL stated that after reading accounts in London newspapers of the Bureau case, he has come to the conclusion that the method of entry into the Museum and the modus operandi of the theft is very similar to his case.

Enclosed is a photograph of the diamonds with a description as to where mounted in the showcase.

Captioned subjects have been charged with theft of the Star of India Sapphire and other precious gems from the American Museum of Natural History, New York City, estimated value \$400,000. The subjects are presently on bail residing in the Miami area. Kuhn, through intermediary developed by the New York Office, has indicated he will sell the gems for \$150,000, and has agreed to discuss the sale with two buyers recommended by intermediary. The New York Office proposes to send two Agents in undercover capacity to act as potential buyers. The New York Office requests authority for Agents to proceed to Miami and to be furnished \$1,000 each for expenses in order to give appearances of affluence, appearing capable of making such a purchase.

## BACKGROUND:

The American Museum of Natural History, New York City, was burglarized during the night of 10/29 - 30/64. On information developed at New York, the subjects were identified and Kuhn and Murphy were arrested by Bureau Agents at Miami 10/31/64, and Clark was arrested at New York the same day. Searches incidental to the arrests and subsequent investigation has failed to recover the missing gems.

New York proposes to utilize Agents Paul J. Brano and Guy C. Berado in this undercover capacity. Both Agents have had successful undercover experience in the past and it is felt they are fully capable of performing this assignment. In order to provide all possible cover for these Agents, the New York Office proposes that they purchase plane tickets in cash rather than utilizing GTR's, and that they be provided sufficient money so as to give the appearance of individuals of means who are capable of making the purchase of these gems. The New York Office recommends these Agents each be given [redacted] in order to carry out this scheme. Agents will make a detailed accounting of expenditures and will only spend what is necessary to insure the success of the operation.

ACTION:

Recovery of these gems by the FBI would be a terrific accomplishment for the Bureau and would result in outstanding publicity. The New York Agents selected for this assignment are considered completely capable of performing in this undercover capacity. It is recommended therefore that the New York Office be authorized to proceed with the plan as outlined above. If approved, in the interest of expediency, the New York Office will be telephonically advised. — Being done Q

[redacted] advised that in about February or March, 1964, he met a woman at the La Bee Bar in Miami, Florida. He related that this woman was wearing a 12 carat diamond ring, and that he set this woman up to be robbed by KUHN. According to [redacted] he was sitting at the bar and engaged this woman in a casual conversation over drinks. When this woman got up and left the bar, he contacted KUHN who was also in the bar and pointed her out to him.

[redacted] related that KUHN told him that he followed this woman in his car after she left the bar and surveilled her for a considerable distance from the bar. When the woman stopped at a stop sign in an undisclosed area in Miami, KUHN tapped the front of his car on the victim's back bumper. When the woman got out to inspect the bumper, KUHN pulled a stocking over his face and hit the woman over the head. KUHN then pulled the 12 carat diamond ring from her finger. [redacted] advised that his share from this robbery was \$3,000. He reiterated that he did not actually participate in the robbery, and that the details of the robbery were obtained by him from KUHN.

JACK MURPHY in a proposed robbery of a woman who allegedly wears a 47 carat Harry Winston diamond. According to [ ] this woman frequents the Pierre Henry Coiffures, 13 West 57th Street, New York City. [ ] asserted that he has a friend who is a hairdresser at this establishment, and this friend has access to the reservations, and thus he knew the exact hour this woman went to the hairdressers. [ ] advised that the woman is in her late 30s, and that her husband is either the owner or the captain of the sailing vessel "The Weatherly".

[ ] advised that he contacted KUHN on about two occasions during October, 1964, regarding this woman, and that KUHN and MURPHY surveilled her on two occasions from the hairdressers. He advised that KUHN and MURPHY first considered an armed hold-up at the hairdressers, but later abandoned this idea because of the crowded condition and security arrangements at this establishment. On one other occasion, KUHN and MURPHY surveilled this woman from the hairdressers, but lost her in the midtown section of New York City.

[ ] advised further that he became alarmed when he ascertained through KUHN that MURPHY wanted to rob this woman in broad daylight on 57th Street. He explained that he was willing to go along with the robbery, but did not want to get involved in any violence. He stated that KUHN promised him \$20,000 if the robbery was pulled off successfully. [ ] commented that he did not believe he would actually receive \$20,000, but would realize \$5,000 or \$10,000 if KUHN and MURPHY were successful.

[ ] concluded by stating that KUHN attempted to contact him on numerous occasions in late October, 1964, at his place of employment and at his girl friend's house, because this proposed robbery was very high on his list. [ ] is of the opinion that KUHN and MURPHY want this diamond ring badly and that they will eventually return to New York City to accomplish what they started out on.

It is noted that [redacted] American Museum of Natural History, and other museum officials have advised that the monetary values placed on the above jewels are somewhat arbitrary and have very little meaning. [redacted] advised that inasmuch as most of the gems are unique and irreplaceable, they are considered priceless and therefore, not subject to accurate monetary evaluation. It is noted that the figure \$50,000.00 set forth above as the value for the Star of India Sapphire was arrived at in 1905, and therefore, obviously does not reflect its current value.

b6

Estimates of the total value of the above jewels have ranged from approximately \$178,000.00 to \$410,000.00.

Date 11/5/64

[redacted] Museum of Natural History, Central Park West, New York City, conducted SAS [redacted] on what he assumed to be a reasonable and logical approach to Building 4 from which the jewelry in question was taken. He pointed out that by approaching the building from 81st Street, it is feasible to assume that they went over a four foot metal fence and then jumped to the area which is about a 12 to 14 foot drop. They could then proceed around the building and approach the rear of Building 4, the rear of Building 4 facing north. It would then be a simple matter to go up the fire escape to the fifth floor and then proceed east to the next set of windows. They could then have attached ropes or hooks to the metal fasteners affixed to both sides of the windows which [redacted] referred to as fasteners for window cleaners. He pointed out that the fifth floor ledge outside this window is quite wide and it would be no problem for anyone to walk from the fire escape on the fifth floor over to the adjoining window. He then pointed out that by straps or ropes they could have lowered themselves to the ledge of the fourth floor window and enter the room from which the jewels were taken and subsequently retrace their steps without leaving any items necessary for their travel to and from the fourth floor.

b6  
b7C

[redacted] also pointed out that the window through which entry was possibly gained was unlocked and is never locked. He also pointed out at the time the burglary was discovered that the upper portion of the window in question was pushed down. [redacted] could not conceive of any other way that the burglars could have entered the building.

ROGER FREDERICK CLARK was advised of the identities of the interviewing agents. He was advised by SA JAMES R. HAYES that he did not have to make a statement and any statement that he did make could be used against him and/or others in a court of law. He was further advised that he had the right to consult an attorney. He stated that he understood this and consented to the interview.

Also present during part of the interview were Detective RICHARD MALINE and Detective JOHN MC NALLY of the 20th Squad, New York City Police Department.

CLARK stated that he had come to New York City from Miami, Florida, with ALLAN D. KUHN and JACK MURPHY. He said that they arrived in New York City about the first week in October, 1964, and stated that they stayed for about a week at the Stanhope Hotel, New York City. They then moved to Apartment 1803 at the Cambridge House, 333 West 86th Street, New York City, New York. He stated that their purpose in coming to New York City was "for a vacation and to do anything". When specifically questioned regarding this statement, he said that they had come to New York City to do a burglary. He said that that had "gone shopping around" looking over various prospective burglary sites. He stated that they had been in several museums among them the Guggenheim Museum and the Metropolitan Museum of Art. He stated that the three of them had also gone into the Museum of Natural History on two occasions in the daytime. As best he could recall they had gone in there on October 13 or 14, 1964, and again

on October 22 or 23, 1964. They had also gone all around the exterior of the museum at night on one occasion. While in the museum, they had specifically looked at the cases where the following items were displayed, ~~which~~

The Star of India Sapphire

The Midnight Star Sapphire

Star Ruby

20 to 30 precious stones

He stated that at about 7:30 p.m. on October 29, 1964, he, MURPHY and KUHN had gone to the museum in KUHN's white Cadillac. He, CLARK, parked the Cadillac across the street from the museum and sat on a park bench. He stated that the plan had been for him to act as a lookout on Central Park West while the other two entered the Museum of Natural History. He said that they had approached the museum from the 81st Street and Central Park West side, "near the Planetarium".

Among the material which he had seen KUHN and MURPHY take with them were a yellow-handled screwdriver; a ball peen hammer; a length of venetian blind nylon chord; a glass cutter; and some adhesive tape. He stated that MURPHY and KUHN also had gloves.

CLARK alleged that he had stayed on the park bench from 7:30 p.m. on October 29, 1964, until 12:30 a.m. on October 30, 1964. He stated that his primary duty was to see if any commotion was made around the museum or if any police arrived. He stated that he did not know how he was going to communicate with KUHN and MURPHY. As far as he knew, KUHN and MURPHY were

NY 87-36226

supposed to go in behind the museum from 81st Street and at the back of the museum go over a wall and into a courtyard and there break a window. They were then going up to the fourth floor. There they were going out on a window ledge and work their way to another window in the room where the above-mentioned diamonds were located. CLARK said that it was necessary for them to go out on a ledge in order to bypass a padlocked iron gate at the entrance to the room where the items were located. After they had committed the burglary, they were to retrace their steps and exit.

CLARK claimed not to have gotten any signal indicating that the burglary was over, but had returned to the apartment at the [redacted] at about 12:45 a.m. on October 30, 1964, because he felt that the five hours he had been on a park bench was more than sufficient time for them to have committed the burglary.

b6  
b7c

He stated that KUHN had done most of the "master-minding" of the burglary. For his participation in the planning and execution of the burglary, CLARK was supposed to receive a one-third share of the amount realized from the burglary. CLARK stated that when he returned to the apartment, KUHN and MURPHY were there and displayed to him the items of jewelry and diamonds which are listed above and which he had previously mentioned.

CLARK said that the items were being taken by KUHN and MURPHY to be fenced somewhere in Florida and it was his belief that it would be Miami or Miami Beach, Florida.

NY 87-36226

4.

He denied knowing specifically who was going to handle the fencing of the loot for KUHN, MURPHY and himself. He stated that after they had all examined the jewelry and diamonds, they had gone to bed and assumed that this was between 1:30 a.m. and 2:00 a.m. He said the next morning, KUHN, MURPHY and a girl named [redacted] had gone to Kennedy International Airport and taken a flight to Miami. They had the jewels with them in a light brown traveling case. Thereafter, CLARK had gone up to Meriden, Connecticut, in KUHN's Cadillac and returned to his apartment in New York City on October 31, 1964, where he was apprehended.

b6  
b7c

CLARK said that KUHN and MURPHY were to return to New York City around November 3 or 4, 1964, with his share of the money received from the disposal of the diamonds and jewels in Florida.

It is noted that several times during this interview, the point was made by ROGER FREDERICK CLARK that he, KUHN, and MURPHY had specifically planned to steal from the Museum of Natural History, the Star of India Sapphire, the Midnight Star Sapphire, the Star Ruby, and any other precious stones readily accessible to them. Moreover, CLARK stated that the three of them, KUHN, MURPHY, and himself had planned from the beginning, that after stealing these items, KUHN and MURPHY would take them to Florida to dispose of them.

No threats, force, or promises of reward were made to CLARK to induce him to give this information.

At approximately 5:30 P.M. SA KELLY journeyed from the 20th Squad of the New York City Police Department, accompanied by ROGER CLARK and Detectives JOHN MC NALLY and RICHARD MALONE, and arrived at the Museum of Natural History, Central Park West, New York City, a few minutes later.

No threats or promises were made to induce him to make additional statements and he was again advised of his right to an attorney.

This trip was made inasmuch as CLARK had volunteered to show how he participated in the burglary of the Museum on the evening of October 30, 1964, with ALAN KUHN and JACK MURPHY.

As the car in which we were riding approached the middle of the block on 81st Street between Central Park West and Columbus Avenue, CLARK advised that this was the approximate area that he had stopped the evening of October 29, 1964, when MURPHY and KUHN exited from KUHN's Cadillac which was driven by CLARK. Immediately after they exited as he was driving away he observed KUHN and MURPHY walking toward the Museum grounds from 81st Street approximately in the middle of the block between Columbus Avenue and Central Park West. He stated that MURPHY was attired in a dark turtle neck sweater and KUHN in a dark sweatshirt. MURPHY had a length of venetian blind type cord drapped over his right shoulder with the coat over the cord. KUHN had a handy talkie black in color. CLARK then drove to Columbus Avenue went south on Columbus to 77th Street east on 77th Street to Central Park West and parked the car. He then sat on a bench on the park side of Central Park West located directly across the street from a church which church is located on the southwest corner of 77th Street and Central

Park West. CLARK was in possession of another handy talkie black in color. He acted as lookout. They transmitted to him several hours later and at approximately 12:30 he received a transmission that they had completed "the job". He returned to the apartment which he shared with KUHN and MURPHY namely Apartment 1803, at 333 West 86th Street at which time MURPHY and KUHN displayed to him the jewels which they had taken from the Museum, namely "The Big Three", the DeLong Star Ruby, the Star of India and the Midnight Star, two pieces of carved emerald, one piece of uncarved emerald, two large acqua marine stones and some assorted pieces of stones. All three then discussed the fencing of the jewelry in question. MURPHY and KUHN were to leave for Miami with the jewelry to fence it. CLARK stated he did not know to whom the stones were to be given.

SAS HAYES and KELLY and Detectives MC NALLY and MULANE interviewed ROGER CLARK on the fourth floor of the Museum of Natural History from approximately a quarter to six to six thirty. He was advised that he did not have to make any statement; that any statement he did make could be used against him and others in a court of law and that he had the right to consult an attorney. No threats or promises were made to induce him to make any statements.

He pointed out the case from which the "Big Three" were taken and the case second from the left from where smaller stones were taken and also the one to the right.. At this point, CLARK stated "as long as I've gone this far I might as well tell you the rest". He elaborated on this statement by stating that he talked to KUHN on several occasions on the evening of October 30, 1964, during the period commencing at 7:30 P.M. when KUHN and MURPHY were in the Museum. It was his recollection when they returned to the apartment that KUHN and MURPHY told him that they waited for the guard to make three checks at the iron gates at the entrance of the room in which they were hiding and from which they took the jewelry in order that they could establish a pattern. CLARK stated that in his discussion with KUHN and MURPHY regarding the checks the guard made, they did not get into a discussion with regard to the specific times.

[redacted] voluntarily appeared at the New York Office of the Federal Bureau of Investigation (FBI), 201 East 69th Street, New York City, at approximately 1:00 p.m. on November 1, 1964, after having previously telephoned this office and stating that she wished to talk to the FBI immediately.

Upon her arrival at the New York Office [redacted] was advised by Special Agent (SA) BEN ASHLEY COX that she did not have to make a statement and that any statement she did make could be used against her in a court of law. SA COX also advised her that she had a right to consult with an attorney before making any statement. No threats or promises were made to her to cause her to make any statement.

b6

Thereafter she orally advised that she had recently been interviewed by detectives of the New York City Police Department who had contacted her promptly after her arrival in New York City from Miami, Florida. She stated that she had advised the New York City Police Department that she had seen some of instant jewels in the possession of subject KUHN. She advised that this statement on her part had been completely false and that she had never seen any of instant jewels except at the American Museum of Natural History, New York City, prior to instant theft.

[redacted] furnished the following additional information:

She had met subjects KUHN, MURPHY and CLARK approximately three weeks ago as a result of the fact that all four of them resided at the Cambridge House Hotel, 333 West 86th Street, New York City. She advised that on October 19, 1964, she, [redacted] and the three subjects visited the American Museum of Natural History on a date and spent several hours there. She recalled that they spent quite a long time looking at the gem display on the fourth floor of the museum. She commented that upon entering the museum, KUHN was impatient to go to the fourth floor where the gems were and "acted like he could hardly wait to get there". She stated that judging from KUHN's comments while looking at the gems he seemed to be very interested in them and to know a lot about them.

b6  
b7C

She recalled that during the three weeks she had known KUHN and the other subjects, the subjects frequently talked about the various museums in New York City which they had visited. She stated that the subjects did not work and seemed to do nothing but go to New York City museums and visit friends in New Jersey. She did not know the names or addresses of any of their friends in New Jersey, however.

[redacted] further stated that during the last week of October, 1964, she was on vacation from her job and that she and KUHN had discussed going to Miami, Florida, together. The specific date of departure from New York for Miami had not been decided, however. Very early in the morning of October 30, 1964, KUHN telephoned her at her apartment at the [redacted] and told her that he and MURPHY were flying out of New York at 9:15 a.m., and that she should pack her bags and come along.

b6  
b7C

Later KUHN came to her apartment carrying a train case which bore the initials "J.M." He told her that he wanted her to carry this case and that she should use the name [redacted] in traveling in that this name would match the initials on the case. He explained that she should use an assumed name in traveling because it was illegal for him to transport an underaged girl out of state. She accepted this reason as valid.

NY 87-36226

She, KUHN and MURPHY took a taxi to Kennedy Airport, New York City. She noticed that MURPHY was carrying a plain brown paper shopping bag which bore no name or label. She also noticed that when MURPHY got on the plane he did not have this bag with him.

In the taxi KUHN made the remark, "Oh, I forgot to call [ ] and then, "Well, I don't guess I have to". She did not know [ ] identity or the reason why KUHN wanted to call him.

b6  
b7C

They arrived at Kennedy Airport at approximately 8:30 a.m. and their plane departed at 9:15 a.m. Upon boarding the plane she carried the train case to the plane door. KUHN carried it into the plane. The stewardess asked him if he wanted to put it on the rack and KUHN said yes.

[ ] commented that the above bag was relatively heavy and in her opinion a gentleman would ordinarily carry such a bag for a lady rather than vice versa.

b6  
b7C

While in flight, KUHN instructed her to act like she didn't know him or MURPHY when they got off the plane. He repeatedly told her that the three of them should leave the plane separately and then meet again later. He also told her that should anything happen to him at the airport she should go to his apartment in Miami and wait there for him. He asked her if she had enough money for a taxi in case she had to go to his apartment alone. He made no comment to her regarding what he believed might happen to him at the airport.

[ ] stated that KUHN also told her that he planned to rent an automobile at the airport. After they landed at Miami, she left the plane alone carrying the train case and walked to the curb near the car rental agency office at the airport. She put the traveling case on the curb. After renting a car, KUHN sent a colored porter over to pick up her luggage, including the train case. The porter put all the luggage into the rented car.

b6  
b7C

4.

NY 87-36226

She and KUHN drove to KUHN's apartment in this rented car. MURPHY left the airport separately from them and did not ride in the car with them. Upon arriving at his apartment, KUHN unloaded the luggage from the car and put it on the curb. KUHN and she then started to walk towards his apartment but while doing so he seemed to change his mind and walked back and picked up the train case and carried it into the apartment. A man who was apparently an apartment house employee picked up the remaining luggage and took it into KUHN's apartment.

In KUHN's apartment they unpacked together in his bedroom. She saw him open the train case and remove some object from it, but she did not see this object. Later she presumed the object must have been a pistol because she saw a pistol in his closet.

After removing the above object, KUHN left the train case on his bed. She looked into it but saw only socks, a bathing suit and other clothes.

Shortly after they had arrived in KUHN's apartment, KUHN stated that he wanted to visit some friends. This was agreeable with her and the two of them went to the house of a man named PEARSON. PEARSON was not at home but [redacted] was. They talked to [redacted] for about 15 minutes and left.

[redacted] recalled that both KUHN and MURPHY stated on the date of their flight to Miami, October 30, 1964, that they were sick and that they also appeared to be slightly sick. KUHN stated that his reason for being sick was the fact that he had been drinking and MURPHY gave no reason.

She noticed no cuts or bandages on MURPHY's body and commented that he was wearing a suit and that she would have had no opportunity to observe any cuts or bandages.

b6  
b7C

5.

NY 87-36226

[redacted] recalled, however, that KUHN and MURPHY also used assumed names and that MURPHY used a name beginning with the letter "D" which she thought was probably [redacted] but it also could have been [redacted]

Prior to leaving New York City, JACK MURPHY made a phone call before boarding the plane to Miami but she does not know who he called. MURPHY also was carrying a brown shopping bag which she never again saw in MURPHY's possession, although she observed from the plane window after landing in Miami, JACK MURPHY walking down the stairs from the plane. MURPHY was to meet his girl friend, BONNIE SUTERA, at the Miami airport.

After landing in Miami, KUHN rented a Thunderbird and they drove to KUHN's apartment. In the apartment she went to the bedroom to change clothes. In the bedroom KUHN took out of the traincase, which she had carried on the plane for KUHN, what appeared to be a sock and emptied out some jewelry. She said she recognized the Star of India immediately from having seen it in the Museum in New York. An argument ensued between her and KUHN over getting her involved. She stated that KUHN told her not to worry about it, that she would not get involved in anything.

She changed her dress and together they went over to [ ] house. She did not think that KUHN took the jewelry with him because he was dressed only in a sport shirt and a white pair of slacks. She carried his wallet in her handbag.

[ ] stated that on approximately Monday, October 12, 1964, after having dated KUHN on several occasions, [ ] and ROGER left, supposedly for Connecticut, to visit ROGER's family. On Tuesday, October 13, 1964, ALIAN told her that he had received a call from them stating he was to join them in Washington, DC. From this time until approximately Saturday, October 17, 1964, the three of them were out of the city, but she got the impression that they had been in Montreal because [ ] came to her apartment during that period and told her that he had received a call from Montreal. She stated that when they left for Connecticut, she got the impression that JACK and ROGER left in KUHN's Cadillac.

b6  
b7C

[ ] stated that as she and the other two girls were curious as to the activities of these three, inasmuch as they displayed considerable wealth and their activities appeared to be mysterious, while the three were out of town, she, [ ] using a key given to [ ] by [ ] entered their room and looked about. She advised that each girl took the particular room of the boy she was interested in, and consequently she looked through KUHN's belongings. She advised that nothing of pertinence was noted, but she did recall having seen a set of jewelry scales that she believes are identical with the jewelry scales that she saw in the possession of the Federal Bureau of Investigation (FBI) in Miami subsequent to the arrest of KUHN and MURPHY in Miami. She stated that with regard to the above three individuals' trip to Canada, she thought that ROGER CLARK had called [ ] from Canada.

b6  
b7C

[ ] advised that prior to the departure of the three boys, a party had been discussed and the boys had mentioned the possibility of using their apartment, which was a larger apartment, for this party. As this party was planned for Saturday, October 17, 1964, they attempted to get the okay for the use of that apartment and, as she recalled, [ ] informed them that the boys had agreed to this.

b6  
b7C

NY 87-36226

At approximately 10:00 p.m., Saturday night, [ ] met ALLEN and ROGER coming up on the elevator at the Hotel and went to their apartment with them. Shortly thereafter JACK entered. At this time they moved all the arrangements for the party, which they were preparing for, to their room and the party that included approximately 60 people ensued at the hotel. Most of the people at the party were friends of [ ] and as [ ] was not familiar with many of these people, she does not recall who was in attendance. She commented that she had been drinking quite heavily and about 1:00 a.m., on October 18, 1964, she lay down in one of the bedrooms in the trio's apartment. She stated that she was being harassed by one of the men in attendance there, and was taken downstairs by ALLAN KUHN. She stated that after sleeping for approximately two or three hours, she awoke and discovered the presence of MURPHY and [ ] in the apartment, who mentioned wanting coffee made. [ ] said that they returned to KUHN's apartment where they had coffee and retired.

b6  
b7C

She stated that she and [ ] slept late on Sunday, October 18, 1964, and sometime during the afternoon returned to KUHN's apartment. She noted on this occasion MURPHY was rather cold to [ ] and she also noted that from this point on, [ ] lost interest in MURPHY.

b6  
b7C

She stated they all decided to go to the ski show that evening at the Coliseum. She recalled that JACK, ROGER, [ ] and KUHN accompanied her to the ski show. She added that sometime during the evening, MURPHY, [ ] and ROGER disappeared and then KUHN and she drove to the Metropole Cafe on 7th Avenue and 47th Street for a few drinks. [ ] stated that the only significance she placed on this trip to the cafe was the fact that KUHN apparently was acquainted with the Maitre D, whom she described as a heavy-set man who greeted the customers as they entered the restaurant. She stated KUHN and she proceeded to the bar where KUHN was engrossed in conversation with the bartender. She stated she gathered from the conversation that they knew one another and that they discussed something relative to the ski show.

b6  
b7C

NY 87-36226

[ ] continued that the following day, Monday, October 19, 1964, ALLEN mentioned visiting different places of interest in New York City and she and [ ] took the day off from their jobs. She advised that she and [ ] and the three boys travelled by their car to the Guggenheim Museum and JACK went to the entrance, but returned stating it was closed. She advised that they then decided to visit the American Museum of Natural History. She advised that on the way they passed a shop and ROGER stated that was where they had pictures being developed and he entered the shop and returned with some pictures that were taken with a Minox camera. She stated that she saw some of the pictures and recalls they were views of the museums both taken inside the museum and outside. She advised that as she recalls one of these photographs was a photo of a piece of jewelry. She stated she could not remember too much about this piece of jewelry but stated that she recalls that it appeared to be an antique and was a small item. She stated that this picture was a closeup of this piece of jewelry. She advised that one of the photographs was a picture of a statue of four soldiers in armor and recalls some comment about the statues being very small.

b6  
b7C

[ ] advised that after arriving in the vicinity of the Museum of Natural History, they entered through the front entrance and started viewing things in the museum on the main floor. She stated that she and ALLEN viewed everything on the first floor and then continued their tour floor by floor except that they skipped the third floor. She stated that sometime during the tour of this museum, she and ALLEN left the other three and the two of them went to the fourth floor where all the gem cases are located. She advised that on the fourth floor they looked at only the gem cases which are in the middle of the room. She advised that it was at this time that she was struck by ALLEN's great interest in jewelry and it made her recall remarks he had made Sunday night when he had passed different women wearing jewelry and had made comments as to the size of the stone in the various items of jewelry worn by these

women. She advised that she recalls that when he would see a piece of jewelry on someone passing by, he would make a comment such as, "that is a two karat stone or that is a three karat stone."

She advised that as she recalls, they looked at a big chunk of emerald in one of the gem cases and at this time, she recalls some remark he made which indicated to her that he had not been in this room before, but she also recalls that some remark had been passed which indicated that the other boys had seen the gem room before. She stated that she and ALLAN spent approximately 45 minutes in this room and one of the first cases that they viewed was a case containing a blue diamond stone. She advised that ALLAN told her that this was a synthetic stone that was a copy of the Hope Diamond.

She continued that as they walked down along the gem cases, she took an interest in the star sapphires and ALLAN commented about the "Star of India" sapphire. She advised she looked at it very closely and read what it said about other stones in the proximity of the "Star of India" sapphire. She advised she mentioned the size of it and ALLAN said, "Gee, you can't even see the bottom of it," indicating to her that he was taken by the size of the stone that was not even visible.

[ ] advised that although she does not recall vividly many of the things she saw on the gem floor of the museum, she does recall seeing the carved emerald that was in the case near the "Star of India." She advised that at one time while on this floor ALLAN left her stating that he was going to the men's room. She advised that after the tour of the gem room, she and ALLAN left the museum and joined the other three outside at about closing time for the museum.

[ ] related that it was on this occasion that KUHN mentioned to her that he would be taking a trip to Florida and asked her to accompany him. ALLAN mentioned the fact that she was to have a vacation and suggested that she accompany him sometime during that period. She added that from the 19th of October until about the 28th of October, 1964, she saw KUHN on a nightly basis. She stated on the evening of October 28, 1964, she attended the movie Topkapi at a theater at 58th Street and 3rd Avenue. She recalled that MURPHY and CLARK were not in New York at this time and understood they had gone to Connecticut, she presumed in KUHN's car. She stated that after viewing the movie, they went over to 5th Avenue where they took a hansom cab ride through Central Park and elighted from the cab in the vicinity of the Tavern on the Green Restaurant. She stated at this point ALLAN and she walked through the park on to Central Park West and up to about 72nd or 73rd Street.

b6  
b7C

She recalled ALLAN mentioned that he had an elderly woman friend living in the vicinity of [ ] [ ] She recalled going to [ ] where ALLAN and she were admitted by a woman whom she described as in her late 50s. She stated that ALLAN and this woman walked to another room and apparently had some conversation for approximately 10 minutes. She noted that when the woman greeted KUHN, the woman stated, "You're a day early." She recalled that ALLAN told her that this woman's husband is imprisoned and stated this woman treats him like an aunt.

b6  
b7C

[ ] advised that it was during this walk on Wednesday evening that ALLAN again brought up the trip to Florida and told her she would be going under a different name. She asked him why she was to use a name other than her own and he stated it was because of a law that made it a violation to take a minor across a state line. She advised that she accepted this answer without question.

b6  
b7C

NY 87-36226

She advised that concerning the trip to Florida, he advised her that they would probably be leaving Thursday or Friday and stated that he was going to show her some of the sights and that there would be times when he would leave her alone, but that as there was much to do in Florida, this would not bother her.

[ ] advised that Thursday evening, October 29, 1964, she had not seen ALLAN but at approximately 2:30 a.m., Friday morning, she received a call from ALLAN, she presumes from his apartment. She advised that ALLAN asked if she could be ready to leave on the 9:15 a.m. flight for Miami and stated that if she could not make it, he would leave money for her ticket with ROGER and she could join him later. She advised that as she was all ready packed to leave, there was no reason why she could not join him and stated she would be ready. She advised ALLAN told her that he would pick her up at approximately 7:30 the next morning.

b6  
b7C

[ ] advised at this time that although she had not seen ALLAN that evening, [ ] told her that she saw the three boys going out from the hotel at approximately 6:00 pm., Thursday evening.

b6  
b7C

[ ] then recalled that on Thursday, October 29, 1964, she had a late breakfast at about 1:00 p.m. with KUHN and MURPHY. She recalled that MURPHY, when mentioning about waking up CLARK, remarked that he had done all the driving, that he was tired, and they should let him sleep. She stated that after leaving ALLAN at this time, she did not see him and heard from him only during the above described telephone call.

b6  
b7C

[ ] advised that at approximately 7:30 a.m., ALLAN called her and told her that he would pick her up in her apartment at approximately 7:50 a.m. to go to the airport. She advised that shortly thereafter he walked into her apartment carrying a small train case. She advised that ALLAN told her that her name was to be [ ] She recalled that the train case had the initials JRM on it.

b6  
b7C

NY 87-36226

She advised that she recalls that vividly because she told KUHN, "Not [ ] I hate that name." She advised that although she does not recall KUHN telling her that she was to carry this case, she understood that she was to do this. She advised that she did not know what was in this bag and that ALLAN picked up her suitcase and this bag and they left the apartment. She continued that when arriving in the lobby of the hotel, they were met by JACK, who was carrying a brown shipping bag. She stated that ALLAN told her that JACK just decided to go, but that ROGER was going to Connecticut.

b6  
b7C

[ ] advised that the three of them took a cab to the airport, but that most of the conversation was small talk about the plane flight and about the sights they were to see in Miami. She stated she could not recall anything of importance being discussed during the trip to the airport, but did recall that she mentioned to ALLAN that she was to remind him to call [ ]. She advised that several days previous, ALLAN told her to be sure and remind him to call [ ]. She stated that at this time ALLAN advised that it was all right.

b6  
b7C

[ ] stated they arrived at the Eastern Airlines terminal at Kennedy International Airport at approximately 8:30 a.m., and she recalls specifically proceeding to the red carpet area. She stated that she recalled that a porter picked up her suitcase and carried it to the Eastern Airlines red carpet service area. She stated this porter was tipped very generously by KUHN. She added that during this period MURPHY had walked off and later joined them at the area where they selected their seats for the flight. [ ] recalled that MURPHY had been carrying a manila colored shopping bag with what appeared to be soiled white shirts in it. She advised that they arrived at the seat selector area and at this time MURPHY no longer had this bag. She said they selected their seats which were 8 A, B, and C in the plane. She stated that during this period, MURPHY had walked away from them and she next saw him in the Falcon Lounge where they had breakfast. She recalled they had breakfast and then proceeded out to the flight deck where they waited on line for the flight to depart at 9:15. She stated all during the time ALLEN had their tickets in his possession.

b6  
b7C

NY 87-36226

[ ] advised that sometime during the stay at the airport JACK had made a call to BONNIE in Miami telling her to meet him at the airport. She stated that MURPHY, KUHN, and she entered the plane and proceed to seats 10 A, B, and C in the first class section. She recalled they discovered they were in the wrong seats and then moved to section 8.

b6  
b7C

Prior to the plane departure, a stewardess had asked KUHN if he wanted to have the train case placed in the baggage area of the front of the plane. At this time he refused. She noted that subsequently another stewardess asked ALLEN the same question and he then gave her the bag, whereupon it was placed in the baggage area of the plane. She recalled during the flight that MURPHY did get up on a number of occasions, but she passed this off inasmuch as both men mentioned they had been drinking heavily on the previous evening. She also mentioned that she thought she observed one of the tickets and it was in the name [ ] or [ ] or a similar sounding name.

b6  
b7C

She stated the plane arrived on time at approximately 11:30 a.m. in Miami, Florida. Concerning the conversation during the flight, ALLAN mentioned to her that they would let JACK get off the plane first. JACK was to be met by BONNIE and he would also get off the plane separate of both her and JACK, and that he would pick up a rented Cadillac. He told her that when they got off the plane, they would act like they did not know her and at this time he printed in his address in Florida in her address book and gave her the keys to his apartment. She advised that she questioned him about this and he merely stated this was just in case something happened. When asked if this did not appear suspicious, she advised that it did, but as she had attempted to question KUHN on previous occasions as to suspicious activities unsuccessfully and had been asked "What is this, the third degree?", she did not press this further as she did not believe she would obtain an answer.

10

NY 87-36226

She advised she did figure from these remarks that the remark "in case anything happens" referred to either action by the police or by gangsters who might be waiting for him at the airport. She stated her instructions were to go to the baggage counter and get her baggage and meet ALLAN at the curb in the rented car that he was to pick up. She advised that before ALLAN left the plane, he told her not to forget the train case and then they immediately left as passengers were being disembarked. She advised that she took her time and picked up the train case and went to the baggage room. She continued that she believes that ALLAN watched her through the window at the airport and after she disembarked, he walked on. She stated that when she got into the terminal JACK was gone and she did not see him again at the airport.

Shortly thereafter, JACK picked her up in a 1964 white Thunderbird and she proceeded to his apartment at 2451 Brickell Avenue in the Brickell Town House. She advised that an attendant parked the car and took the luggage. ALLAN took the train case and they proceeded to apartment 15J.

[ ] advised that she proceeded to the bedroom and opened her suitcase and ALLAN opened the train case on the bed beside her suitcase. She said that ALLAN took something from the train case and placed it on the closet shelf. She advised that she saw this item later and believes it was a pistol in a holster. [ ] advised that in the open train case she saw the gems and recognized the "Star of India" sapphire. She advised that as she recalls, they were in a sock in the train case and he dumped them out on a piece of clothing. She stated there were other stones but could not accurately describe the number, the size, or the appearance of these other stones. She advised she immediately got into an argument with KUHN, speaking as if she knew exactly what the stones were and speaking sharply stating, "What's going on? What are you trying to get me in on?" She advised this was approximately 1:00 p.m. in the afternoon of Friday, October 30, 1964.

b6  
b7c

11

NY 87-36226

[ ] continued to describe other articles she observed in the train case, which she stated was left wide open. She advised there were articles of clothing, including a multi-colored bathing suit which she had seen KUHN wear in New York City. There was also a red nightshirt that the boys wore in New York. She advised that although she and ALLAN had quite an argument over this, he told her not to worry, that she was not involved. She asked him, "Why did you have me carry it down? Why didn't you do your dirty work yourselves?" She advised she asked him where he was going to get rid of this stuff and he said, "We have ways." She advised that the argument continued for about five minutes and shortly thereafter he walked out of the bedroom and placed a call to [ ] and after hanging up said they were going to her house. She continued that they did go to [ ] house and there she met [ ] She advised that after being at [ ] house for a short period of time, they returned to ALLAN's apartment building and went downstairs where they visited [ ] [ ] She remarked that the reason for their visit was to see a new bar purchased by the above mentioned husband and wife.

b6  
b7C

At about 2:30 pm to 2:45, on October 30, 1964, [ ] [ ] stated she placed a call to [ ] in New York City. At this time, she stated that ALLAN was in the living room and she had a brief conversation with [ ] It was at this time that [ ] remarked about the museum burglary and she expressed concern about [ ] travelling to Miami under an assumed name. She stated further that during this conversation the question of carrying the train case entered into the case. [ ] stated further that she mentioned to [ ] at this time that she carried the train case. She stated that she thought that she mentioned to [ ] her conversation with KUHN relative to leaving the plane separately and the strange conversation regarding going to his apartment.

b6  
b7C

NY 87-36226

Shortly thereafter, ALLAN left the apartment for a few minutes and while he was away, a girl called asking for [ ] and when told that there was no one there by that name, the girl asked for ALLAN. She continued that shortly afterwards, JACK called and when asked by the interviewers at this time why she had not questioned JACK about the trouble that they had involved her in, she stated that she did not ask questions of JACK because ALLAN told her on one occasion that his telephone was taped.

b6  
b7C

[ ] advised she called [ ] again in New York and again at this time gave her telephone number and address of her apartment in Miami.

b6  
b7C

Earlier on the next morning, she received a call from [ ] in New York, and [ ] asked her if she could talk. She advised that as ALLAN was sleeping next to her, she could not. However, [ ] stated [ ] expressed concern about her well being and [ ] conveyed to her that she felt that KUHN and his associates had something to do with the burglary at the museum. She stated [ ] told her that she has a friend who knows a detective and that she had told this friend of her suspicions.

b6  
b7C

[ ] continued stating [ ] told her she planned to contact the friend and ask her to inform the detective of her suspicions. At this point, [ ] continued, she asked [ ] to refrain from doing so until the morning. She concluded the conversation whereupon she argued with KUHN pointing out the fact that she travelled to Florida under an assumed name and that she had suspected his implication in the robbery. She stated that she fell asleep and awoke about 9:00 a.m., showered, and got dressed. She stated that while she was dressing in the bedroom at about 10:30, she heard ALLAN talking to someone in the living room. She related that she could not overhear the conversation, but recalled this person had a very deep voice.

13

NY 87-36226

Sometime during Saturday, October 31, 1964, in the morning, she tried to call [ ] at her Staten Island home and learned that she was not at that location. At this point, she corrected her comments and said that she thought that on Saturday morning she had gone down to the previously mentioned apartment of [ ] to see the bar. She stated that sometime during this morning, JACK MURPHY and ALLAN spoke. She recalled that when they left ALLAN KUHN's apartment, they did not slam the door and it was left ajar. She stated that when they were down at the above [ ] apartment, ALLAN and the man disappeared for a short period of time and then returned to the apartment. During this period, when the above two were missing, she and the woman made coffee in the kitchen.

b6  
b7C

[ ] stated they returned to the apartment whereupon they were greeted by JACK MURPHY and his girlfriend, BONNIE. She stated that ALLAN disappeared for a moment whereupon she, JACK, and BONNIE sat down.

b6  
b7C

At this point, she stated it was approximately 11:45 a.m., the doorbell rang. She admitted the Agents of the FBI. She stated that about five or ten minutes later, after she had invited the agents to enter the apartment, KUHN returned to the apartment.

At this time, [ ] was asked if she had testified to similar statements under oath before local grand juries. She stated that she had.

b6  
b7C

[ ] was advised by both Special Agents [ ] that both the New York City Police Department and the Federal Bureau of Investigation are conducting extensive investigations in this matter. It was pointed out to her that the truth regarding this matter would ultimately be determined. [ ] was asked if she

b6

had told the complete truth during this interview and when she appeared before the Grand Jury in Manhattan. This time, she was strongly advised to recall what she had said on both occasions and if she had made any statements which were not true, she should make these statements known at this time.

[redacted] asked the above Agents what would happen if she changed "her story" which she had testified to under oath before the Manhattan Grand Jury. Both Agents advised [redacted] that they could not tell her what would happen to her regarding any statements made before the local grand jury which are later proven to be false. She was told that the important thing she should do was to tell the complete truth.

b6  
b7C

[redacted] stated she wanted to tell the truth. She stated that she had told the New York City Police Detectives that she had never seen any jewelry in the possession of KUHN, MURPHY, or CLARK. She stated that she gained the impression from these Detectives that they would not believe that she did not see the jewels stolen from the Museum of Natural History in KUHN's possession.

b6  
b7C

NY 87-36226

[redacted] then stated that she had attempted to tell the police in New York City on Sunday, when she was first interviewed by them that she had not seen the jewelry and did not know anything about this robbery other than her trip to Florida with KUHN and MURPHY and her trip to the museum with them. She said that she then lied to them and related that she saw the "Star of India" sapphire as well as about 15 other stones in the above mentioned train case at KUHN's residence in Miami, Florida. She advised that as this appeared to be what they wanted to hear, she testified to this same story under oath before the grand jury.

b6  
b7C

[redacted] advised that other than the statements about seeing the jewelry in the travel case and the argument with KUHN over this and her involvement in it, everything else in this statement is the complete truth, with the exception of some possible small details that she cannot recall. She advised that she knows that many of the things that happened with her and KUHN were mysterious and she should have realized that what was going on was not completely right. She did not question him and did not have any knowledge of their activities or of the theft at the museum.

b6  
b7C

She stated that after making the call to [redacted] in New York, she was positive in her own mind that the boys had committed the museum theft, but that as she was very fearful of her involvement in it, she hesitated to make any effort to report this.

b6  
b7C

[redacted] was asked specifically if she had any knowledge from her conversation with KUHN, MURPHY, or CLARK to the effect that they were going to burglarize the museum. She denied anything was said to her to indicate that the above three were to participate in this burglary.

b6  
b7C

15

NY 87-36226

She also denied having any knowledge that the above men had perpetrated this burglary. She also denied seeing any of the jewels observed during her visit to the museum with KUHN on any occasion other than on this visit.

She stated that she has had sexual relations with KUHN and denied receiving any money for this. She stated that he purchased her tickets to Florida, but cannot recall specifically whether she had any sexual relations with him in Florida.

[redacted] stated that a number of weeks ago at the [redacted] they had a fire scare, at which time she was told by KUHN to return to his apartment and obtain \$2,000 which was laying on a desk there. She stated that she recalled taking four \$500 bills from the desk and gave them to KUHN. She stated that she recalled KUHN had sent flowers to the switchboard operator in the [redacted] inasmuch as he told her that the operator was very courteous. In addition, she stated that [redacted] at the hotel, performed little tasks for KUHN and had spent time up in KUHN's apartment.

b6  
b7C

In this regard, [redacted] remarked that KUHN told her that [redacted] and that he had made advances towards him on several occasions.

b6  
b7C

[redacted] was asked if she knew of any friends or business associates of KUHN or of the other two boys in New Jersey and she advised that during the time she was acquainted with KUHN, he had mentioned going to New Jersey for business, but stated she did not know where in New Jersey he went or whom he contacted.

ReMMairtel to Tampa 11/14/64.

Following investigation was conducted by SA JAMES R. RYAN at Cocoa Beach, Fla., 12/15/64:

[redacted] Surf Board Rental and Sales business, Cocoa Beach, Fla., advised he was well acquainted with subject in this case and the underworld elements in Miami, Fla.

He stated he met JACK MURPHY through mutual friends in the southern Fla. area. [redacted] stated he had always considered MURPHY a nickle and dime thief who made his living from burglarizing motel rooms. [redacted] stated MURPHY and KUHN liked to play the part of big spenders and either had a lot of money or were broke. A few weeks prior to the three quarter of a million dollar jewel theft which allegedly occurred in the Bahama Islands ([redacted] could not specify what jewel theft), JACK MURPHY was without funds. Immediately after this theft MURPHY was "loaded" with money. [redacted] stated he heard MURPHY was involved in this crime in which they allegedly used a high power speed boat to escape from the Bahamas to Fla.

[ ] stated approximately three weeks prior to the theft of the "Star of India" in New York, MURPHY was visiting in Cocoa Beach, Fla., at the Polaris Motel.

b6  
b7C

[ ] attended a party given in MURPHY's motel room at this time for the local surfing crowd. MURPHY exhibited a drawer full of \$100 bills and invited any of the boys who wanted to go to Hawaii to help themselves to the money. A number of these people took fistfuls of money and as far as [ ] knows, left Cocoa Beach for Hawaii. He could not identify any of these individuals.

Based on the fact that MURPHY had an ample supply of money prior to the New York jewel theft, he believes the theft of the Star of India was more for prestige than for money. He stated, however, MURPHY and KUHN could possibly have had a buyer prior to the theft. If this was the case, [ ] stated the only people he could think of who fence the loot were [ ] Criss Craft dealer.

b6  
b7C

[ ] stated [ ] whose [ ] goes by the name of [ ] is allegedly a wealthy world traveler who obtained his money through marriage and dabbles in the import export business. [ ] believes he is the fence for stolen jewelry.

b6  
b7C

[ ] stated to him, MURPHY's association with [ ] is totally unexplainable in that these two people are worlds apart socially, intellectually, etc. He further stated that whenever MURPHY goes north, he goes to see [ ] and on [ ] frequent trips to Fla., he always contacts MURPHY.

b6  
b7C

[ ] stated [ ] contacted him by letter last week and advised he, [ ] would be coming to Fla. sometime in January, 1965, and would stop at Cocoa for a visit.

b6  
b7C

Concerning [ ] stated he knows him as a man of means in Miami, Fla. He stated this man's wealth cannot be attributed to his Criss Craft boat business in that [ ] business is very bad. [ ] also feels [ ] is a fence for stolen gems.

b6  
b7C

[ ] believes that if the loot from the New York job is still in the hands of MURPHY and KUHN, this would indicate they do not have a buyer for the gems and they would probably try to make a deal with the insurance company.

b6  
b7C

TP 87-4151

[ ] stated that prior to this contact with the FBI he whadd been thinking of contacting the FBI and offering his services as "undercover man" to assist the Bureau in locating the stolen gems and punishment of the thieves. He stated his motivation for doing this hinges on the fact that he does not like the hero worship which is now given JACK MURPHY by the surfing kids in southern Fla. He believes if MURPHY is not punished and the missing gems found, it will have a bad effect on the kids. [ ] also advised during this conversation he would expect to receive money for his services.

At approximately 7:15 p.m. ALLAN DALE KUHN was introduced to Special Agents PAUL J. BRANA and GUY C. BERADO by [redacted] while at Betty's Lobo Lounge, Biscayne Boulevard, Miami, Florida.

[redacted] asked KUHN if he had heard that CLARK had been arrested that day by the police. KUHN said he had not heard but surmised it was just harassment and expressed sympathy for CLARK.

b7C  
b7D

KUHN excused his being late, saying that he had fuel pump trouble with his car and had to leave it at a gas station and take a cab to Betty's.

[redacted] then excused himself and departed saying he had a dinner appointment.

KUHN then asked how long we were going to be in Miami. He was told this would depend upon him. He questioned why and he was told that [redacted] advised us that he (KUHN) might have something for sale that we might want to buy and that we were in Miami for this particular reason and none other. KUHN stated he did not have the "stuff" in his possession. He asked whether [redacted] had mentioned anything about money. He was told [redacted] did mention money and he asked if a specific sum had been discussed. He was told that a specific sum was not discussed.

b6  
b7C  
b7D

KUHN was asked if he was in a position to firm up a deal since he had stated he did not have the "stuff" in his possession, and whether or not he could definitely settle on a price. He said he would not be in a position to firm up the deal until he made a phone call. He also stated that the "stuff" was not in Miami, Florida.

KUHN then excused himself and went to a pay phone in the immediate vicinity of the table where we were sitting. He dialed a number and was heard to say "Is my cousin

"there?" KUHN returned to the table and said that he was unable to reach the person who could give him the okay to "firm up" a deal. KUHN then asked how much we expected to pay for the "stuff". He was told that no price would be discussed until such time as he (KUHN) stated that he was in authority to make a deal and set a price. At this point, KUHN assured that he could discuss the deal and set a firm price.

KUHN then asked how we intended to dispose of "the load", and he was told that this was our business, however, we had several possible channels to dispose of "the load". KUHN then stated that he had heard that even Mayor WAGNER (in New York City) was interested in making a deal to get the "load" back for the museum. At this point KUHN was told we did not care about who was trying to get the stuff but we were interested in doing business for ourselves in a quiet smooth transaction with the least number of people involved. KUHN expressed a desire to see the load returned eventually to the museum to take the "heat off things." He was told that in this regard we knew of certain people of Italian extraction who would be interested in seeing this "stuff" returned to the museum in order to counteract some of the adverse publicity appearing in the press these days regarding Italians. KUHN was told, however, that this was only one of the ways of disposing of the "load" that may be available to us, but actually, since money was our object, the "stuff" would go to the highest priced commitment we could get. He was told that whichever source we decided on, the job would be smooth with no chance of a trace back to him as the seller. KUHN stated that he thought the idea of ultimately returning the "stuff" to the museum was excellent as this would take the "heat off" the situation. KUHN was again reminded that this may not be the case as we had a tentative commitment from another source and were looking for the highest bidder. KUHN again discussed price stating "I have the authority to set the value of the load and the final price of the load is \$110,000." He stated that last week an offer was made of \$90,000 for the load, and was refused. At this point KUHN

NY 87-36226

was asked if we were talking about the same "load". He said it should be obvious as it had gotten nationwide publicity. He was asked if this was the proceeds from the New York Museum robbery on 79th Street and Central Park West. He said that it was. He was asked if the deal included the three big pieces and also the small stuff. KUHN said that it included everything taken. He was asked if the price of \$110,000 was for the entire load and he stated no, that it just included the three big pieces. KUHN was then asked if any of the three big pieces had been damaged in any way. He stated no, that the real big sapphire and the two smaller stones were in their original form. KUHN was informed that the price quoted of \$110,000 was high and was told that we were thinking more along the line of \$75,000. He said the price was firm. He was told that we would not discuss a firm price until such time as he indicated that he had the okay to "firm the deal" and arrange for delivery. KUHN stated that the load was located in New York and that we would have to transact the final sale in New York. He also stated he would not personally be present in New York at the transaction, but stated that his man in New York who would handle the actual deal, was a person whom he trusted with his life and who had previously handled "loads" for him. KUHN was asked if the man who was going to deliver the stones was trusted enough by him to receive payment for the deal. KUHN said that he trusted this person with the stones and that he would also trust him with the money.

KUHN was asked if he was going to introduce us to his man in New York and he said no but there would be no problem as he would tell this man that the people he was to deal with would be a "guy with horn rimmed glasses and a bald headed guy. "

At this time KUHN excused himself saying that he wanted to see if he could contact his man to get the okay to "firm up" the deal. KUHN using the same telephone, in the bar as he had previously used, was observed to dial a number, speak briefly and returned to the table and stated that he had been unable to reach his party.

NY 87-36226

KUHN was then told that since it was necessary for him to get his man's okay before firming up the deal we should arrange to meet him the next day. KUHN advised that we should meet at 11:30 a.m. the next morning. He was asked if the Howard Johnsons Restaurant on Le Jeune Road and 36th Street, across from the airport was acceptable to him and he stated that this was agreeable. KUHN then stated that he had a 1959 white Oldsmobile and he was told then we would be sitting in a 1965 white Ford in the Howard Johnsons parking lot. KUHN was told that if he did not show by 12:00 noon, we would leave and meet him at an alternate location. KUHN agreed and said that the alternate location would be the amusements center on the 79th Street causeway at 1:00 p.m. KUHN requested that he be called at 9:00 a.m. on Sunday at home to double check on the meeting and furnished his home telephone number as 373-3002. KUHN was asked if it was safe to call him at home since the telephone might be tapped. He stated that even though his telephone was tapped this did not matter since there would be no discussion on the telephone but merely to check that everything was okay. KUHN said that his room was "bugged" and that he had turned his apartment inside out trying to find the bug without any luck.

KUHN stated that his man would want to check us out. KUHN was told that we did not feel this was a good idea since another person would then have knowledge that we were dealing and we felt that the more people involved, the greater the risk that something could go wrong. It was pointed out to KUHN that since we had met through a mutual friend this was sufficient for us and should also be sufficient for him.

KUHN asked how long it would take us if we "firmed up" the deal to come up with the money. He was told that it would depend on whether it was a weekend or a week day. He was advised that if it was a week day we could produce the money in New York in several hours and that if we firmed up the deal tomorrow, we could actually negotiate the transfer on Monday.

5

NY 87-36226

At this time KUHN said that he wanted to make a call to see if CLARK was still being held by the police. KUHN went to the telephone and returned shortly thereafter stating that the person he had called knew nothing about CLARK being arrested. KUHN stated that there was nothing to worry about as far as the Miami police were concerned, and that it was the Miami Beach police that caused them all their troubles. KUHN said that a friend named [redacted] took a terrific beating from some guys who thought that [redacted] knew where the jewels were. He stated that they were apparently trying to find out where the jewels were to steal them.

b6  
b7C

KUHN asked if we had heard that they were going to open up a bar called the Star of India Lounge which was supposed to have been kept quiet but had been leaked out. KUHN asked that he be driven up to the gas station where he had his car parked but was told that it would be best if he took a taxicab since we did not want to be seen together with him.

KUHN said that he would see us tomorrow, shook hands, and left at 8:30 p.m.

On November 6, 1964, SUSUMI KANEMOTO, Superintendent of Mails, Honolulu Post Office, confidentially advised following a check with the Postmaster at the Haleiwa, Oahu Station that no packages had been delivered to either RICHARD CATRI or RICHARD BREWER since October 28, 1964.

On November 9, 1964, Mr. TERUHISA NISHIYAMA, Postmaster, Haleiwa, Oahu, advised SAS J. STERLING ADAMS and MARCUS M. BRIGHT that he had an airmail insured package being delivered that date to one [redacted] at the same address as [redacted]. He noted his records revealed other occupants of that address as [redacted].

[redacted] The package bore a return address of [redacted].

[redacted] measured 15" x 11 1/4" x 9 1/2" and was postmarked November 6, 1964, at Flushing, New York. On authority of Postal Inspector K. N. STALL, NISHIYAMA opened the package in the presence of the Agents and it was observed to contain a plastic housing for an underwater camera wrapped in a towel, a pair of tennis shoes and a sweat shirt which were apparently enclosed only to cushion the plastic housing. There were no other contents. NISHIYAMA explained that several of the men at that address, on registering their names with the Post Office, indicated they were from the New York area.

On November 16, 1964, Mr. NISHIYAMA telephonically advised that an additional five pound package had been received directed to [redacted] at the above address with a return address of [redacted].

[redacted] The package was postmarked October 27, 1964 at Jamaica, New York - regular mail. In view of the mailing date, the contents would not appear significant to this case.

He further advised that the burglar tools they were charged with were ordinary tools that would be found in any car. [redacted] continued that ROGER made other denials about his involvement in this burglary, but that these were the pertinent details as she recalled them. [redacted] advised that she did not believe that ROGER had anything to do with this robbery and advised him that she would testify for him as a character witness if he desired.

She advised that a couple of days ago, she received a call from a Detective of the New York City Police Department (NYCPD) telling her that the District Attorney wished to discuss her knowledge of this burglary with her and asked her to report to the District Attorney's Office. She stated that to date, she has not gone and does not plan on going unless ordered to do so.

[redacted] advised that she has never met MURPHY or KUHN, but has often heard ROGER mention them. BS 87-8945

The following investigation was conducted by SAA ARTHUR E. HOSKER.

On November 9, 1964, [redacted] at Boston University, Boston, Massachusetts, was located and interviewed at her residence. She stated she met ALLAN KUHN, JACK MURPHY and ROGER CLARK in January, 1964, while staying at the Casa Blanca Hotel, Miami, Florida, during her January, 1964 midterm vacation. KUHN and CLARK were swimming instructors at the pool. Her friend, [redacted] was with her and they also met MURPHY, who was at the pool once or twice. She dated KUHN two nights and KUPERMAN went out with CLARK. She was surprised that KUHN had a Cadillac and spent so much money in view of his job, but he told her his family was wealthy; that he had been a scuba diver in the service, and was swimming only for "kicks." They also met a friend of CLARK's named [redacted] (LNU) in Miami.

b6  
b7C

She returned to school and KUHN called her a few times. He also wrote to her twice and she wrote several letters to him. As a result, he came to see her in Boston for about five or six days during what was the last week in June, and the first week in July, 1964. He stayed at the Hotel Somerset alone, as far as she knows, because she never went there with him. She did have him at her home for dinner and he met her parents.

He continued to call her and in August, 1964, she went to see him by herself, although she had hoped [redacted] could join her there. She was with KUHN at the St. Moritz Hotel, New York City, New York, from August 17, 1964 to August 21, 1964, or Monday through Friday. CLARK and [redacted] (LNU) were also staying with KUHN and the four of them shared the same hotel space.

b6  
b7C

She said if any calls were made to her telephone number or that of her parents, it was KUHN calling from the St. Moritz as she made only one call to her parents telling them she was coming home on the day she left. She denied knowing anyone named [redacted] but believed she had received a call on August 14, 1964, from KUHN on the date he supposedly called 696-9352. She has had her own phone for about five months.

BS 87-8945

She last saw KUHN on the weekend of October 23-25, 1964 in New York City, New York. He called her on Thursday, October 22, 1964, and invited her, and when she asked if she could bring along [ ] he said it was all right, and he would find her a date. She called him back collect to tell him they were coming on October 23, 1964.

b6  
b7C

When they arrived at the Cambridge House Hotel, she discovered they were going to share a suite with two girls from Montreal, Canada, right next to the suite of KUHN, MURPHY and CLARK. She received a call from the desk to register and she registered for all four. She used the correct names for herself and [ ] but she knew the other two girls only as [ ] so made up last names she could not recall and put them on the register.

b6  
b7C

While they were there, [ ] called her parents collect and called [ ] a mutual friend, on the day they left to see if she would meet them and pick them up at the airport in Boston. She, herself, called [ ] once. [ ] number is [ ]

b6  
b7C

She last heard from KUHN by telephone on November 2 or 3, 1964, at which time he told her he was not involved in any jewel thefts and that he was innocent of charges brought against him. She denied knowing of his past criminal activities, the instant theft, or the whereabouts of the missing jewels.

[ ] She has never been called [ ] and knows of no friend of the subject's so named.

She stated she believes she was in love with KUHN but felt he was "giving her a line." She also felt they could never marry because of a difference in religion. She denied having sexual relations with KUHN or any of his associates and never knew of any of them to have [redacted]. She said she was going to call KUHN and tell him never to call her or write her again as she is not involved in any wrongdoing now and does not intend to become involved in the future. She expressed a desire to cooperate with the Federal Bureau of Investigation and said [redacted] was ill and out of school on November 9, 1964, but that she would have her get in touch with the Federal Bureau of Investigation.

On November 9, 1964, it was observed that most of the shades in the residence at [redacted] were drawn and that the house appeared to be unfurnished.

She denied ever receiving any telephone calls from anyone made to her former residence, [redacted]

[redacted] from the St. Moritz Hotel, New York City, on August 14, 1964. She stated the call could have been made to her husband from whom she separated on October 2, 1964, as he often received calls at home from persons whose identity she never bothered to learn as they were not getting along with one another. She said her husband often goes on business to New York City, New York, and Miami, Florida. He usually stays at the Eden Roc or Fontainebleu in Miami, and was on a trip to Miami from October 1 to 5, 1964, when she moved out of [redacted]

On November 10, 1964, [ ] Puritan Dress Company, 144 Moody Street, Waltham, Massachusetts, denied knowing any of the subjects of this case or ever receiving any calls from them. He advised if the records of the St. Moritz Hotel show a call to his present telephone number, [ ] on August 14, 1964, they are in error and another number must have been called. He believes he was in the Boston, Massachusetts, area on August 14, 1964.

(It should be noted telephone number [ ] is listed to [ ] who admitted receiving two or three calls from KUHN during early August, 1964.)

He denied being acquainted with ALLAN DALE KUHN or the other subjects of this case and never heard of them or received any telephone calls from them at his residence. He requested that he be allowed to speak to other members of his family and then recontacted on November 10, 1964, to see what he had learned. He was questioned as to whether or not he had any daughter named [ ] and he stated he has only one daughter, divorced, age twenty, whose name is [ ]

On the evening of November 10, 1964, [ ] called the Boston Office of the Federal Bureau of Investigation and requested to be called by SAA ARTHUR E. HOSKER. by telephone at which time she admitted having made the telephone call from the St. Moritz Hotel to the [redacted] residence on August 20, 1964. She said she made this call to [redacted] who is a long-time acquaintance, but had not admitted it earlier in the day as she did not want to get [redacted] in trouble with her family. [redacted] has never met KUHN or his associates, but has heard her speak of him. She stated [redacted] was with her at her residence and after discussing the matter decided to tell the truth as neither is involved in anything dishonest.

b6  
b7C

[redacted] advised she was willing to discuss this matter, but that it would have to be away from her home. She stated she had not told her father the truth because she was not aware [redacted] involvement with KUHN was known to the Federal Bureau of Investigation, but that as soon as she heard of the inquiry, she contacted [redacted]. She said [redacted] had called her with a message for their mutual friend, [redacted].

b6  
b7C

On November 10, 1964, [redacted] was contacted at 2 Park Square, Boston, Massachusetts, where she is employed by [redacted] Suffolk County District Court. She stated she received the long-distance telephone call made to the [redacted] residence on August 20, 1964 from the St. Moritz Hotel, New York City, New York. This call was made to her by her life-long friend, [redacted]. She knew [redacted] was in New York City and seeing ALLAN KUHN, but denied ever meeting KUHN, CLARK or MURPHY, and her only knowledge of them has come from [redacted]. She has no knowledge of subjects' involvement in instant theft, disposition of jewels involved or previous criminal activities. [redacted]

b6  
b7C

On November 12, 1964, [redacted] was located and interviewed at the Boston University School of Public Communications, where she is a senior. She advised she met ALLAN KUHN, ROGER CLARK and JACK MURPHY at the Casa Blanca Hotel during the last week in January, 1964, when she and [redacted] were vacationing there. KUHN and CLARK were employed at the Casa Blanca and MURPHY was around almost every day. She had one date with ROGER CLARK and she and [redacted] double dated with CLARK and KUHN. She also met a friend of CLARK's whose

name was [ ] (LNU) and she stated he could be BERNIER, but she was not sure. They flew down to Miami, Florida and back and she never heard from CLARK thereafter, although she knew [ ] received calls from KUHN and wrote to him. She was never suspicious of KUHN or his friends, but always wondered how KUHN could afford a speedboat and Cadillac on his job in Miami. CLARK did not seem to have any money.

b6  
b7C

[ ] told her in August, 1964, she had received calls from KUHN requesting her to come to New York City, New York. When [ ] spoke to her, she said CLARK was there and maybe they both would be invited, but CLARK never extended an invitation. It was her understanding that [ ] (LNU) was also there at the St. Moritz Hotel. [ ] called their mutual friend, [ ] at this time as she, [ ] was working and asked [ ] to tell [ ] she was coming home. She did not see any of them at this time and did not see KUHN when he came to Boston to see [ ] in June or July, 1964.

b6  
b7C

[ ] received a telephone call from KUHN on Thursday, October 22, 1964, who asked her to come to see him in New York, and [ ] asked if it was all right for [ ] to come. KUHN said it was but that she probably would not be CLARK's date, although he would see that she had one.

b6  
b7C

They took a 5:00 PM Eastern Air Lines flight from Boston the next day, Friday, October 23, 1964, and stayed at the Cambridge House Hotel, where they were in a suite with two girls from Canada she knew only as [ ]. A girl from Newark, New Jersey, named [ ] was CLARK's date one night, and her date was [ ] (LNU), an interior decorator the fellows had just met in New York. The [ ] (LNU) she had met in Miami was also there, as was MURPHY, and on Saturday night [ ] who was from Connecticut, was there with a girl whose name she could not recall, and another couple. They all had come in from Connecticut.

b6  
b7C

When questioned concerning telephone calls made from the Cambridge House, [ ] stated the call on October 22, 1964, must have been KUHN's to [ ] while the collect call from Boston to KUHN on that date must have been [ ] telling him they were coming. On October 23, 1964, Friday, she made a collect call to her parents, advising them she had arrived safely, and [ ] called her parents that day

or the next day. On October 25, 1964, [ ] called a friend in Boston, [ ] to ask her if she would meet them at the airport as they were taking an 8:00 PM Eastern flight. She also made two calls to her uncle in Riverdale, New York, from her hotel room.

b6  
b7C

[ ] described [ ] (LNU) as a [ ] and a college graduate. It was quite apparent to her from the general conversation that he had just met the subjects and, like herself, knew nothing concerning instant theft, past criminal activities or location of jewels missing from the museum. She said she just learned of the involvement of KUHN, CLARK and MURPHY from a news teletype she saw at school. She called [ ] by telephone to tell her and [ ] was as shocked as she was. She has had no communication with the subjects since leaving New York on October 25, 1964.

She stated ALLAN called her on October 31, 1964, at which time he told her not to believe everything she read in the newspapers regarding his arrest and stated he was innocent of any charge against him.

[REDACTED] stated at one time [REDACTED] mentioned that he knew some "characters" but was not getting mixed up with them. On November 5, 1964, IC EBERT ascertained that records of the above credit bureau contained no information.

NY 87-36226

The following investigation was conducted by SA JOHN D. CRAIG of the Los Angeles Office of the Federal Bureau of Investigation (FBI):

On November 2, 1964, the records of the Miramar Hotel, Santa Monica, California, reflect no registration past or present for either subject MURPHY or subject KUHN under their true names. Photographs of both subjects were shown to parking lot attendants, bellhops, and desk personnel without effecting an identification. A check of the parking lot of the Miramar Hotel disclosed no information that any vehicle used by them is being presently at the hotel, although it is to be noted that no records are kept of the vehicles of guests registered at the hotel.

A check of the records of the Santa Monica Police Department (SMPD) reflects no record for either subject. Detective BOB SOLLEE and MERCED ORTEGA, Robbery Detail, SMPD, were advised of the fact that subjects could have possibly been in the Santa Monica, California, area in the past several months.

On November 2, 1964, Officer OLSEN of the Los Angeles County Sheriff's Office, Harbor Detail, Marina Del Rey, California, advised after checking his records that no boat slip had been rented at the harbor by subjects under their true names in the past several months. He was shown photographs of both subjects MURPHY and KUHN without effecting an identification.

On November 2, 1964, Officer LEBLANC, State Division of Small Craft Harbor, advised that a registration for a purchase of a boat could have been effected by a dealer from whom such boat was purchased or by the purchasers themselves. The only record which would reflect such registration would be maintained by the Division of Small Craft Harbor in Sacramento, California.

On November 2, 1964, LEBLANC telephonically contacted the Sacramento Office of the Division of Small Craft Harbor and determined that there was no record of a

NY 87-36226

registration in the name of either MURPHY or KUHN. LEBLANC stated that there are numerous boat dealers in the Marina Del Rey area, any of whom could handle a boat such as the one used by subjects.

It is to be noted that Marina Del Rey, California, area is the primary yacht basin for the Western Los Angeles and Santa Monica, California, areas. In this area, there are numerous boat dealers. In the absence of more specific information concerning the presence of MURPHY and KUHN in the Santa Monica, California, area, it is not determined advisable to conduct further investigation in an attempt to establish a sale of a boat to them by one of these dealers.

[redacted] was present during interview of [redacted] above, but after [redacted] had excused himself to speak briefly with a customer on the outside who was calling regarding a surfboard, she stated that she understood from [redacted] of the King Street outlet, that [redacted] had the long distance telephone call, which had been made to Surfboards, Hawaii, telephone 503-087, collect, charged to his own telephone, [redacted]. A couple, whom [redacted] chose not to identify since she explained they had no personal knowledge of the individuals involved in this investigation, had talked with [redacted] following his receipt of the telephone call subsequent to the New York jewel robbery, and stated that MURPHY reported he was rid of the jewels within the hour and that if something had not gone wrong, they would never have caught them. [redacted] expressed the belief that [redacted] might have just been "playing the big shot" in making such a statement, whereas MURPHY may have made no such statement at all. She noted, however, that it was quite obvious during MURPHY's former visit in Honolulu that he and [redacted] were very close friends.

b6  
b7C

The same couple had quoted MURPHY as stating following the first call from MURPHY prior to the jewel robbery that MURPHY had stated something big was going on and that he was coming over to Honolulu with a lot of money and plenty of girls.

[redacted] stated that [redacted] in Florida is currently suing him for [redacted]. She explained that while [redacted] was also aware of the above statements by the unnamed couple, he was reluctant to say anything which might involve him in any embarrassing situation with other surfers since his business is directly dependent upon them.

[redacted] recalled a telephone call coming to 503-087 sometime during the week prior to Saturday, October 24, 1964, from a party who identified himself as JACK MURPHY. The operator identified the call as originating in New York City and the caller could be heard dropping a number of coins in a pay telephone booth coin box. The caller then requested that [redacted] have [redacted] at this same number to receive a call on the Saturday following, October 24, 1964, at 4:00 P.M., Hawaii Standard Time. [redacted] has a notation to this effect with the exact time of the scheduled call in her permanent record file. She did not know such an individual as [redacted] therefore mentioned the call to her employer, [redacted] who stated he would get the message to [redacted]

b6

[redacted] stated that this first call could have been as far back as the previous Saturday, October 17, 1964, but might have been later. At the time of the second call, October 24, 1964, [redacted] was present in the Surfboards, Hawaii, office and the operator specifically asked for [redacted]. The operator did not identify source of the call. [redacted] accepted the call and was overheard advising the operator not to charge it to that number but to his home number, [redacted]. [redacted] then became busy with customers and did not overhear the balance of the conversation. She recalled, however, that one [redacted] had accompanied [redacted] to the shop and was sitting next to him and presumably overheard his conversation. [redacted] related that he met JACK MURPHY, whom he identified from a photograph as JACK ROWLAND MURPHY, during 1959 and Miami Beach, Florida. In subsequent years, they have surfed at dived together, had many social contacts, and have become, in [redacted] words, "very, very close friends." Their relations were cut off for a time when [redacted] came to Honolulu two years ago at a time when MURPHY was operating a surfboard manufacturing business in Florida. During May, 1962, MURPHY and [redacted] visited [redacted] for two weeks. The [redacted] were then living in [redacted]. Since returning to Florida, MURPHY has separated from [redacted] who is presently employed with the Technical Laboratory of Pan American World Airways (PAA) at Cocoa Beach, Florida. At the time they returned to Florida in May, 1962, the MURPHYS were occupying an apartment in Indialantic, Florida.

[redacted] continued to reside in Honolulu until April, 1964, when he travelled to the mainland aboard the yacht "Wanderer," arriving in California during May, 1964, and returning to Miami, Florida, about two weeks later. JACK MURPHY was in Miami at the time. MURPHY worked as a comedian and diver for Aqua Wonderland, a show appearing in Miami, Florida, during late June, 1964. immediately following. About September 10 or 11, 1964, [redacted] who now resides at [redacted] went out with MURPHY and his girl friend, BONNIE, and MURPHY suggested they all go to Cocoa Beach, Florida, about 180 miles distance for surfing. At the time BONNIE was living with JACK MURPHY at 1360 Northeast 128th Street, Miami, telephone 754-8422. That same evening, the group all went together to ALLAN KUHN's apartment where they drank together. The following morning, [redacted] MURPHY, and KUHN all travelled together via Eastern Airlines to Cocoa Beach where they rented an Avis car and went to the beach to surf. On that same day, the car was reclaimed by an Avis employee who informed them they were all wanted for armed robbery in Miami. [redacted] stated that MURPHY and KUHN went with him directly to the Cocoa Beach Police Department to check on this report and found that it was false. The three stayed in Room 111 at the Polaris Motel in Cocoa Beach for the next four or five days under their true names. [redacted] stated he was, at the time, planning to return to Hawaii with [redacted] also of Cocoa Beach.

b6  
b7C

[redacted] who had also joined the group, indicated they would like to travel to Hawaii with [redacted] MURPHY also advised he was thinking of coming with him, but he wanted to come as soon as possible after he could make arrangements. MURPHY did not specify what would cause his delay. According to [redacted] MURPHY knew [redacted] as fellow surfers, but he was aware of no close association of these individuals with either MURPHY or KUHN.

b6  
b7C

On the day that [redacted] left Florida, MURPHY gave him \$200.00 cash with request that he buy MURPHY a surfboard in Hawaii and have it ready for him when he arrived. He told [redacted] he should use his own judgment in selecting the board. [redacted] believed that MURPHY also loaned [redacted] about \$100.00. At the time MURPHY was unemployed, the Aqua Wonderland Show having closed earlier. KUHN, meantime, had returned to Miami.

[ ] recalled that when MURPHY had given him the \$200.00 to purchase a surfboard, he suggested that MURPHY contact him through Surfboards, Hawaii, when he knew what time he would be coming to Honolulu. Later, MURPHY made a call to Surfboards, Hawaii, Honolulu, to the woman on duty and left word

HN 87-1650

that he would contact [ ] at 4:00 P.M., Saturday, October 24, 1964, on the same number. [ ] recalled that the first call had been on the previous Thursday, October 22, 1964. On October 24, 1964, [ ] accepted a collect telephone call at Surfboards, Hawaii, and requested the operator to charge the call to number [ ] at his [ ] residence. JACK MURPHY, who was calling from the Copacabana Club in New York City, asked if his surfboard was yet ready. [ ] informed him it was finished but had a bad coating so they were doing it over and it would be ready in about one week. MURPHY then stated he would be in Honolulu in about two weeks either alone or with another fellow, no name being mentioned. Specifically, [ ] stated KUHN's name was not mentioned at any time. However, he assumed that MURPHY and KUHN were still together since they had been moving around together just prior to the time [ ] left Cocoa Beach, Florida in mid September.

b6  
b7C

MURPHY had already obtained his divorce. MURPHY asked [ ] to locate an apartment for two in Honolulu which would not be too expensive. [ ] assumed he would want it for at least a one-month period but no specific time was stated. At the time [ ] furnished MURPHY his new telephone number, [ ]

b6  
b7C

[ ] next observed the local newspaper headlines reporting MURPHY's arrest on a charge of jewel robbery out of New York. He stated this came as a total shock. About two days after this notice had appeared, which was on November 1, 1964, MURPHY telephoned him, prepaid, at the Haleiwa number. [ ] inquired "What's going on?" to which MURPHY replied, "Man, they got nothing on me." MURPHY then stated he was still coming to Honolulu but that it would be about a month or so before he could make it; that he had to go to court and the matter had been delayed for one month. He replied, "I couldn't have done something like that." MURPHY then stated that the police in New York City had arrested and beaten ROGER, a name unknown to [ ] and that they had planted marijuana on him and got a confession out of him. MURPHY did not mention the jewels in any manner nor the amount of any bond.

b6  
b7C

HN 87-1650

[ ] was challenged on the discrepancies in his account of the two conversations with MURPHY and what had been related by him to other persons following these conversations. With regard to the first conversation with MURPHY, he acknowledged that through the years he and MURPHY have been very close and have shared what funds they would have available from time to time when one or the other was in need and stated he might have made some such statement in describing his past relations with MURPHY. He denied, however, that he had indicated MURPHY had any kind of deal working or that he was bringing a lot of money or girls to Hawaii and denied any such statements by MURPHY.

With regard to the last conversation with MURPHY, [ ] denied quoting MURPHY as stated he was free under \$50,000.00 but stated that he, [ ] might have repeated such a statement based upon reading a newspaper account that \$50,000.00 bond was being recommended and after talking with MURPHY assumed he had posted such a bond. Also, he admitted he might have made a statement in light of his previous experience with MURPHY in Florida that there would be plenty of girls and partying when MURPHY came to Honolulu. He specifically denied any mention by MURPHY of the jewels or specifically that he had gotten rid of the jewels within the hour or that if something had not gone wrong, they would never have caught them. He stated that in talking with one of his local associates later who had raised the question as to what they could have done with the jewels, assuming their guilt was established, that in his opinion they would have probably gotten rid of them within the hour. He reiterated that MURPHY, at no time by inference or otherwise, indicated his guilty participation in the jewel theft or any knowledge concerning the disposition of the jewels. [ ] stated that MURPHY never suggested sending a package or any other mail matter to him, and nothing has been received from MURPHY since [ ] has returned to Honolulu. The only contact has been the two telephone calls with no letters, wires, or other messages. During the last conversation, MURPHY advised [ ] that he would call again to let him know exactly when he would arrive in Honolulu. No mention was made by MURPHY of ALLAN KUHN.

By letter dated November 1, 1964, the New York Office (NYO) of the Federal Bureau of Investigation (FBI) submitted the following items to the FBI Laboratory, Washington, D.C., and requested that the following examination be conducted:

1. Piece of glass with adhesive tape on it.
2. A roll of adhesive tape.
- 3.-6. Four small boxes containing gravel and dirt.

The above piece of glass was from the showcase that was broken into by the suspects at the Museum of Natural History on October 30, 1964. The roll of adhesive tape was found in the suspects' apartment in New York City by the local police department and furnished to the NYO. The four boxes of gravel and dirt were obtained from the roof and immediate outside area of the aforementioned museum.

The Laboratory was requested to compare the tape on the glass with the roll of adhesive tape and attempt to determine if the used tape came from this particular roll.

The FBI Laboratory was further requested to compare the above items with other items which were submitted to the Laboratory by the Miami FBI Office by Miami letter dated November 1, 1964, and which are described as follows:

Three rolls of two inch adhesive tape which were located in the apartment of subject KUHN subsequent to his arrest on October 31, 1964.

NY 87-36226

Bandages and dirt particles which were removed from the right elbow of subject MURPHY by [REDACTED], following MURPHY's arrest on October 31, 1964.

b6  
b7C

By letter dated November 4, 1964, the FBI Laboratory advised as follows:

Specimens received November 1, 1964, from New York (PC-83097 BN KS).

Q1 Glass with attached pieces of tape  
K1 Roll of tape  
K2 - K5 Four samples of soil and debris from outside of museum

Specimens received from Miami on November 2, 1964 (PC-83122 BN KS)

Q2 Two bandages from elbow  
Q3 Debris from elbow  
K6 - K8 Three rolls of Johnson and Johnson tape, each two inches in width

Results of examination:

The pieces of  $\frac{1}{2}$  inch wide adhesive tape strips on the piece of glass designated specimen Q1 are similar to the  $\frac{1}{2}$  inch wide adhesive tape on the K1 roll but not any of the ends of the tape strips on the piece of glass could be matched to the outer end of the roll of tape.

The three rolls of 2 inch wide tape, specimens K6 through K8, are different from the  $\frac{1}{2}$  inch wide strips of tape on the Q1 piece of glass.

No mineral matter of value for significant comparisons with specimens K2 through K5 was found on specimen Q2 or in specimen Q3.

NY 87-36226

By letter dated November 5, 1964, the New York Office of the FBI also forwarded to the FBI Laboratory another box of gravel marked "Box Number 5" which contains samples from a gravel pile located inside the courtyard of the victim museum.

An examination similar to the above was requested concerning this gravel.

By letter dated November 3, 1964, the Miami FBI Office advised the FBI Laboratory as follows and requested the following examination:

Found in the apartment of ALLAN DALE KUHN during the search incidental to arrest were three Red Devil glass cutters and a pair of Webster Rubber Company slippers.

The ball of one of the glass cutters is badly chipped, appearing to have been recently done, apparently from pounding on glass or some other comparatively hard object.

These glass cutters are being forwarded to the FBI Laboratory for comparison with any vacuumings or sweepings at the crime scene for the purpose of attempting to determine if any paint chips, if found at the crime scene, could have come from the glass cutters found in KUHN's apartment.

Also enclosed for the FBI Laboratory are six impressions of the left slipper and six impressions of the right slipper found in KUHN's apartment, as well as scrapings of a black dirt or tar-like substance from the soles of these slippers. (It should be noted that one envelope contains scrapings taken before dusting and the other contains scrapings taken after dusting.)

NY 87-36226

The Laboratory is requested to compare these impressions with any footprints found at the crime scene and to compare the scrapings with any like material found on the inside or outside of the general area of the crime scene.

By letter dated November 6, 1964, the New York FBI Office submitted the following to the FBI Laboratory and requested the following examination:

- |                  |   |
|------------------|---|
| Package Number 1 | Pieces of broken glass marked numbers 1 through 14. This package also contains a diagram showing the position of each of the 14 pieces. |
| Package Number 2 | Two large pieces of glass marked A and B.   |
| Package Number 3 | Contains debris consisting of pieces of broken glass  |

All of the above pieces of glass were from the showcases at the victim museum which were apparently broken into by the subjects in order to obtain instant jewelry.

The contents of package number one are from the center showcase from which the three major items of jewelry were taken, specifically the Star of India Sapphire, Midnight Star Sapphire and the DeLong Star Ruby. It is noted that the circular piece of glass previously submitted to the Laboratory by New York letter, November 1, 1964, was also a part of this showcase and its position in the showcase is apparent from the diagram enclosed with package number one.

NY 87-36226

The contents of package number two are from the panes of glass which formed the top of two other showcases located in the museum on either side of the main showcase.

The broken pieces of glass in package number three are debris from all of the showcases.

The FBI Laboratory is requested to compare any tool marks found on any of the above pieces of glass which appear to have been scratched or cut, with the glass cutters which were found in subject KUHN's apartment in Miami and previously submitted by Miami to the Laboratory.

The Laboratory is also requested to search the debris in package number three and compare any items believed to be paint chips with the paint chips on the ball pen section of the glass cutters.

The Laboratory is further requested to consider conducting a spectographic examination to compare any glass particles which may have remained on the cutters with any of the glass being currently submitted.

By letter dated November 16, 1964, the FBI Laboratory advised as follows:

Specimens received from Miami on November 4, 1964, (PC-83150 KS KH, D-462901 HW)

Q4 - Q5 Two specimens of debris from slippers  
Q6 - Q8 Three glass cutters

K9 - K20 Twelve impressions of slippers

Specimens recieved from New York on  
November 6, 1964, (PC-83190 KS)

K21 Gravel from inside courtyard

NY 87-36226

Specimens received from New York on  
November 12, 1964 (PC-83262 KS KH KL)

|           |                                 |
|-----------|---------------------------------|
| K22       | Glass from the center showcase  |
| K23 - K24 | Glass from two other showcases  |
| K25       | Glass and debris from showcases |

Results of examination:

Several minute particles of glass were found on the wheels of the Q6 and Q8 glass cutters. This glass, however, had different optical properties from the Q1, K23 and K24 glass specimens and did not originate from the panes of glass represented by these specimens.

Specimens Q4 and Q5 consisted of a small amount of asphaltic material mixed with silty debris. This material was different from specimens K2 through K5 and the K21 gravel.

There are not sufficient individual microscopic characteristics remaining in the scores on specimens Q1, K22 and K23 through K25 to identify the specific tool, or tools, used to produce them.

No paint chips were found in specimen K25 for comparison with the paint on the glass cutters, specimens Q6, Q7, and Q8.

NY 87-36226

On October 31, 1964, Detective PETER MEENAN, 20th Squad, New York City Police Department (NYCPD) advised that fibers believed to be rope fibers had been located by personnel of the NYCPD on the window sill of the fifth floor window which is located directly above the fourth floor window at the victim museum where subjects were believed to have made their entry. He stated that these fibers were being retained on file by the NYCPD.

On December 9, 1964, Sergeant ROBERT BOUTON, 20th Squad, NYCPD, advised that no fingerprints of subjects KUHN, MURPHY, or CLARK had been found by the NYCPD anywhere at the crime scene, the American Museum of Natural History, 20th Street and Central Park West, New York City.

NY 87-36226

On November 1, 1964, SA THEODORE C. JOHNSON, Washington Field Office of the Federal Bureau of Investigation (FBI) contacted Detective Sergeant FRANK J. INNOCENTI, Special Investigations Division, MPD, and advised that the records of his department failed to reflect anyone with the name of [redacted] or anyone with a last name that sounded like [redacted] was licensed as a private detective in Washington, D.C. INNOCENTI explained however, that anyone with a license could hire a number of persons who could call themselves private detectives without the knowledge of the MPD.

b6  
b7C

SA JOHNSON reviewed the Washington Yellow Pages of the current telephone directory of Washington, D.C., and the Polk's Washington City Directory and this review failed to show any [redacted] who was a private detective.

On November 9, 1964, IC KENNETH SHAFFER caused a search to be made of the files of the Credit Bureau, Inc., Washington, D.C., concerning [redacted]. No record could be located in these files for this individual.

On November 9, 1964, IC KENNETH SHAFFER determined that no record was contained in the MPD files concerning [redacted].

It is to be noted that at all times an indefinite number of unidentified records are out of file and not available for review.

NY 87-36226

Special Agents (SAs) HOWARD E. RICHARDSON and ISAAC E. NICKOLS, on November 9, 1964, contacted Officer CHARLES H. SIMPSON of the Fairfax County, Virginia, Police Department, at which time he advised that he had read of the burglary in question, however, definitely did not make a call to the curator of the American Museum of Natural History, New York City, on October 31, 1964, or any other date.

He has no knowledge of any private detective in the Northern Virginia area by the name of CHARLES SIMPSON.

He further advised that in the event he hears of a private detective by the name of CHARLES SIMPSON in the Northern Virginia-Washington, D.C. area, he will immediately make this information available to the FBI.

In connection with the trip Kuhn made in the company of New York City detectives and a representative of the District Attorney's Office, I contacted SAC Alexander today upon hearing the news that they were successful in recovering some of the gems in this case. I asked SAC Alexander to immediately obtain through Hogan or one of his representatives the complete details of the "deal" that was made in order to obtain Kuhn's cooperation.

He was also instructed to ascertain the complete story concerning the recovery of the gems. And thirdly, he was instructed to determine from Hogan why the FBI had not been kept advised of the progress made in this matter, it being noted that Hogan had given earlier assurances that we would be currently informed.

SAC Alexander said that he would immediately initiate inquiries into the above matter.

This is to advise of recent ludicrous events resulting from New York City District Attorney and police Dept. representatives in accompanying Kuhn to Miami to recover jewels stolen from the American Museum of Natural History, October 29-30, 1964.

This afternoon Supervisor William Holloman, Miami Office, advised that the Miami press have been carrying full details of the deal entered into between New York County District Attorney Frank Hogan, New York State Supreme Court Justice Markewich and subject Kuhn whereby Kuhn offered to attempt to obtain and return the stolen jewels in exchange for consideration for all three subjects in connection with the state charge pending against them. Special Agent (SA) Holloman stated from reading the paper it would appear that Kuhn is setting most of the terms.

It is interesting to note that the details concerning this deal were obviously leaked by New York City authorities since newspapers carried the details of this story coincidental with Kuhn's departure to Miami.

Kuhn, Assistant District Attorney [redacted] and two New York detectives arrived in Miami on January 5, 1965. They did not contact nor have they contacted at any time the Miami FBI Office. On arrival they contacted the Dade County Sheriff's Office, but requested no assistance stating they wanted to handle this matter on their own. Major Manson Hill, Chief of the Detectives, Dade County Sheriff's Office, has been in contact with District Attorney [redacted] According to Hill [redacted] stated under the terms laid down by Kuhn there were to be no FBI Agents and no local police present and if the New York City detectives accompanying him got too close the deal would be off. It is to be noted Kuhn told [redacted] an informant of the New York Office, [redacted]

Major Hill has told the Miami Office he feels that Kuhn does not have the jewels and does not know where they are located. He feels Kuhn is leading the New York authorities on a "wild goose chase" as he has nothing to lose. Major Hill stated that there was ample time for

RE: ALLAN DALE KUHN, ET AL

Kuhn to come up with the jewels prior to the time the press determined where they were staying. It is noted that Major Hill is the only person locally in Miami that the New York authorities are talking to.

SA Holloman advised that the group have changed motels in order to avoid the press and this afternoon, January 7, 1965, they are at the University Inn in south Miami and have at least temporarily given the press the slip.

SA Holloman stated that there have been all sorts of stories on the radio and in the papers. Some to the effect that Kuhn jumped out of the window at the Dunes Motel, ran to a waiting New York Car where he was joined by two detectives who leaped from the bushes and all sped away. SA Holloman stated that for a time every move of the New York authorities was followed by the press, that the press have representatives stationed at the airport, in the bus terminals and the train stations to be aware of the activities of the group. The constant badgering, harassment and shadowing by the newsmen of Kuhn and the detectives created an almost comical situation as they moved about.

SAC Alexander, New York Office, advised that District Attorney Hogan had been in contact with the New York Office this afternoon and stated that in spite of press reports to the contrary he had no information that his assistant was en route back to New York and he had no information that the jewels had been recovered. Mr. Hogan has also told the New York Office that the activities of the press had impeded their investigation.
