FOIPA Request No.: 1431530-000
Subject: Cult of the Dead Cow

Dear Mr. Greenewald:

The enclosed 67 pages of records were determined to be responsive to your subject and were previously processed and released pursuant to the Freedom of Information Act (FOIA). Please see the selected paragraphs below for relevant information specific to your request as well as the enclosed FBI FOIPA Addendum for standard responses applicable to all requests.

☐ In an effort to provide you with responsive records as expeditiously as possible, we are releasing documents from previous requests regarding your subject. We consider your request fulfilled. Since we relied on previous results, additional records potentially responsive to your subject may exist. If this release of previously processed material does not satisfy your request, you may request an additional search for records. Submit your request by mail or fax to—Work Process Unit, 170 Marcel Drive, Winchester, VA 22602, fax number (540) 868-4997. Please cite the FOIPA Request Number in your correspondence.

☐ Please be advised that additional records responsive to your subject exist. If this release of previously processed material does not satisfy your request, you must advise us that you want the additional records processed. Please submit your response within thirty (30) days by mail or fax to—Work Process Unit, 170 Marcel Drive, Winchester, VA 22602, fax number (540) 868-4997. Please cite the FOIPA Request Number in your correspondence. If we do not receive your decision within thirty (30) days of the date of this notification, your request will be closed.

☐ One or more of the enclosed records were transferred to the National Archives and Records Administration (NARA). Although we retained a version of the records previously processed pursuant to the FOIA, the original records are no longer in our possession.

If this release of the previously processed material does not satisfy your request, you may make a request to NARA at the following address:

National Archives and Records Administration
8601 Adelphi Road
College Park, MD 20740-6001

☐ Records potentially responsive to your request were transferred to the National Archives and Records Administration (NARA), and they were not previously processed pursuant to the FOIA. You may file a request with NARA using the address above.
One or more of the enclosed records were destroyed. Although we retained a version of the records previously processed pursuant to the FOIA, the original records are no longer in our possession. Record retention and disposal is carried out under supervision of the National Archives and Records Administration (NARA), Title 44, United States Code, Section 3301 as implemented by Title 36, Code of Federal Regulations, Part 1228; Title 44, United States Code, Section 3310 as implemented by Title 36, Code of Federal Regulations, Part 1229.10.

Records potentially responsive to your request were destroyed. Since this material could not be reviewed, it is not known if it was responsive to your request. Record retention and disposal is carried out under supervision of the National Archives and Records Administration (NARA) according to Title 44 United States Code Section 3301, Title 36 Code of Federal Regulations (CFR) Chapter 12 Sub-chapter B Part 1228, and 36 CFR 1229.10.

Documents or information referred to other Government agencies were not included in this release.

Please refer to the enclosed FBI FOIPA Addendum for additional standard responses applicable to your request. The “Standard Responses to Requests” section of the Addendum applies to all requests. If the subject of your request is a person, the “Standard Responses to Requests for Individuals” section also applies. The “General Information” section includes useful information about FBI records. Also enclosed is our Explanation of Exemptions.

For questions regarding our determinations, visit the www.fbi.gov/foia website under “Contact Us.” The FOIPA Request Number listed above has been assigned to your request. Please use this number in all correspondence concerning your request.

You may file an appeal by writing to the Director, Office of Information Policy (OIP), United States Department of Justice, Suite 11050, 1425 New York Avenue, NW, Washington, D.C. 20530-0001, or you may submit an appeal through OIP’s FOIA online portal by creating an account on the following website: https://www.foiaonline.gov/foiaonline/action/public/home. Your appeal must be postmarked or electronically transmitted within ninety (90) days from the date of this letter in order to be considered timely. If you submit your appeal by mail, both the letter and the envelope should be clearly marked “Freedom of Information Act Appeal.” Please cite the FOIPA Request Number assigned to your request so it may be easily identified.

You may seek dispute resolution services by contacting the Office of Government Information Services (OGIS) at 877-684-6448, or by emailing ogis@nara.gov. Alternatively, you may contact the FBI’s FOIA Public Liaison by emailing foipaprocess@fbi.gov. If you submit your dispute resolution correspondence by email, the subject heading should clearly state “Dispute Resolution Services.” Please also cite the FOIPA Request Number assigned to your request so it may be easily identified.

Sincerely,

David M. Hardy
Section Chief,
Record/Information Dissemination Section
Information Management Division

Enclosure(s)
FBI FOIPA Addendum

As referenced in our letter, the FBI FOIPA Addendum includes information applicable to your request. Part 1 of the Addendum includes standard responses that apply to all requests. If you submitted a request regarding yourself or another person, Part 2 includes additional standard responses that apply to requests for individuals. If you have questions regarding the standard responses in Parts 1 or 2, visit the www.fbi.gov/foia website under “Contact Us.” Previously mentioned appeal and dispute resolution services are also available. Part 3 includes general information about FBI records that you may find useful.

Part 1: Standard Responses to All Requests: See Below for all Requests

(i) 5 U.S.C. § 552(c). Congress excluded three categories of law enforcement and national security records from the requirements of the Freedom of Information Act (FOIA). See 5 U.S. C. § 552(c) (2006 & Supp. IV (2010). FBI responses are limited to those records subject to the requirements of the FOIA. Additional information about the FBI and the FOIPA can be found on the fbi.gov website.

(ii) National Security/Intelligence Records. The FBI can neither confirm nor deny the existence of national security and foreign intelligence records pursuant to FOIA exemptions (b)(1) and (b)(3) and PA exemption (j)(2) as applicable to requests for records about individuals [5 U.S.C. §§ 552/552a (b)(1), (b)(3), and (j)(2); 50 U.S.C § 3024(i)(1)]. The mere acknowledgment of the existence or nonexistence of such records is itself a classified fact protected by FOIA exemption (b)(1) and/or would reveal intelligence sources, methods, or activities protected by exemption (b)(3); 50 USC § 3024(i)(1). This is a standard response and should not be read to indicate that national security or foreign intelligence records do or do not exist.

Part 2: Standard Responses to Requests for Individuals: See Below for all Requests for Individuals

(i) Requests for Records about any Individual—Watch Lists. The FBI can neither confirm nor deny the existence of any individual’s name on a watch list pursuant to FOIA exemption (b)(7)(E) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(7)(E), (j)(2)]. This is a standard response and should not be read to indicate that watch list records do or do not exist.

(ii) Requests for Records for Incarcerated Individuals. The FBI can neither confirm nor deny the existence of records which could reasonably be expected to endanger the life or physical safety of any incarcerated individual pursuant to FOIA exemptions (b)(7)(E) and (b)(7)(F) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(7)(E), (b)(7)(F), and (j)(2)]. This is a standard response and should not be read to indicate that such records do or do not exist.

Part 3: General Information:

(i) Record Searches. The Record/Information Dissemination Section (RIDS) searches for reasonably described records by searching those systems or locations where responsive records would reasonably be found. Most requests are satisfied by searching the Central Record System (CRS), an extensive system of records consisting of applicant, investigative, intelligence, personnel, administrative, and general files compiled and maintained by the FBI in the course of fulfilling its dual law enforcement and intelligence mission as well as the performance of agency administrative and personnel functions. The CRS spans the entire FBI organization and encompasses the records of FBI Headquarters (“FBIHQ”), FBI Field Offices, and FBI Legal Attaché Offices (“Legats”) worldwide. A CRS search includes Electronic Surveillance (ELSUR) records.

(ii) FBI Records

Founded in 1908, the FBI carries out a dual law enforcement and national security mission. As part of this dual mission, the FBI creates and maintains records on various subjects; however, the FBI does not maintain records on every person, subject, or entity.

(iii) Requests for Criminal History Records or “Rap Sheets.” The Criminal Justice Information Services (CJIS) Division provides Identity History Summary Checks—often referred to as a criminal history record or “rap sheet.” These criminal history records are not the same as material in an investigative “FBI file.” An Identity History Summary Check is a listing of information taken from fingerprint cards and documents submitted to the FBI in connection with arrests, federal employment, naturalization, or military service. For a fee, individuals can request a copy of their Identity History Summary Check. Forms and directions can be accessed at www.fbi.gov/about-us/cjis/identity-history-summary-checks. Additionally, requests can be submitted electronically at www.edo.cjis.gov. For additional information, please contact CJIS directly at (304) 625-5590.

(iv) The National Name Check Program (NNCP). The mission of NNCP is to analyze and report information in response to name check requests received from federal agencies, for the purpose of protecting the United States from foreign and domestic threats to national security. Please be advised that this is a service provided to other federal agencies. Private citizens cannot request a name check.
EXPLANATION OF EXEMPTIONS

SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552

(b)(1) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (B) are in fact properly classified to such Executive order;

(b)(2) related solely to the internal personnel rules and practices of an agency;

(b)(3) specifically exempted from disclosure by statute (other than section 552b of this title), provided that such statute (A) requires that the matters be withheld from the public in such a manner as to leave no discretion on issue, or (B) establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(b)(4) trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(b)(5) inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(b)(6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(b)(7) records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information (A) could reasonably be expected to interfere with enforcement proceedings, (B) would deprive a person of a right to a fair trial or an impartial adjudication, (C) could reasonably be expected to constitute an unwarranted invasion of personal privacy, (D) could reasonably be expected to disclose the identity of confidential source, including a State, local, or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source, (E) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law, or (F) could reasonably be expected to endanger the life or physical safety of any individual;

(b)(8) contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(b)(9) geological and geophysical information and data, including maps, concerning wells.

SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552a

(d)(5) information compiled in reasonable anticipation of a civil action proceeding;

(j)(2) material reporting investigative efforts pertaining to the enforcement of criminal law including efforts to prevent, control, or reduce crime or apprehend criminals;

(k)(1) information which is currently and properly classified pursuant to an Executive order in the interest of the national defense or foreign policy, for example, information involving intelligence sources or methods;

(k)(2) investigatory material compiled for law enforcement purposes, other than criminal, which did not result in loss of a right, benefit or privilege under Federal programs, or which would identify a source who furnished information pursuant to a promise that his/her identity would be held in confidence;

(k)(3) material maintained in connection with providing protective services to the President of the United States or any other individual pursuant to the authority of Title 18, United States Code, Section 3056;

(k)(4) required by statute to be maintained and used solely as statistical records;

(k)(5) investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment or for access to classified information, the disclosure of which would reveal the identity of the person who furnished information pursuant to a promise that his/her identity would be held in confidence;

(k)(6) testing or examination material used to determine individual qualifications for appointment or promotion in Federal Government service the release of which would compromise the testing or examination process;

(k)(7) material used to determine potential for promotion in the armed services, the disclosure of which would reveal the identity of the person who furnished the material pursuant to a promise that his/her identity would be held in confidence.

Title: CULT OF THE DEAD COW; MICRON ELECTRONICS - VICTIM EXTORTION

Synopsis: Document complaint received from Micron Electronics, Boise, Idaho.

Details: On 07/10/1997, Micron Electronics, contacted the FBI, Boise, Idaho, regarding an extortion message left on a recorder at Micron Electronics. Advised a female with a middle eastern accent left a message stating, "This is fiber optics in the Cult of the Dead Cow. I want $5,000.00 cash or I will crash your systems with (ah) a tremendous virus. Later." Advised an employee at Micron was searching the system to determine if the origination number could be found on the 1-800 line on which the Cult of the Dead Cow contacted Micron.

Boise, that the call came in from 813-757-5951, Plant City, Florida. Further advised that the call was received at 11:09 p.m., on 07/09/1997, at the Micron Electronics, Inc., Nampa, Idaho. She advised that the call could be identified at extension 3636 at the 813-757-5951 number.

SSRA spoke with the Micron Electronics and found there was no additional call providing instructions to Micron Electronics for the delivery of the $5,000.00.

In the event no additional call is made to Micron Electronics with instructions for delivery of the $5,000.00, Tampa Division will be requested to contact the individual or individuals listed at the number and specific extension.

DETH VEGETABLE;  
NET NINJA;  
dba CULT OF THE DEAD COW (CDC);  
MINDSPRING ENTERPRISES,  
1430 PEACHTREE ST.,  
ATLANTA, GA., 30309 - VICTIM;  
INTRUSION - INFO SYSTEMS;  
IDENTITY THEFT;  
CONSPIRACY

Synopsis: To open an assign captioned matter.

Details: On 11/10/1998, the Atlanta division hosted a conference on Computer Fraud and Economic Espionage Investigations. In attendance were security representatives from Mindspring Enterprises, Inc. (Mindspring). Mindspring advised at that time that they were encountering a new Trojan horse program known as 'BACK ORIFICE' (BO). Mindspring advised that innocent subscribers to Mindspring were being inadvertently infected with the BO program, and that the UNSUB(s) who were exploiting the victim's computers were using the victim's electronic user identification (userid) and password to illegally access Mindspring and thereby the Internet using fictitious identification.

Back Orifice is a take-off of the Microsoft, Inc., name of Back Office. Back Office is a suite of software used to
operate and control server class computers. Back Orifice was published for free download and use by a group known as the "Cult of the Dead Cow" (CDC) from their Internet web site at <http://www.cultdeadcow.com>. CDC claims to have previously gained access or "hacked" into US Government computers including Department of Defense computer systems. CDC claims to have been in existence since the mid 1980's. On 8/3/1998, CDC released the BO program for download from its web site. CDC advises that BO is a "remote administration tool" for Windows 95/98/NT, however the information released with BO clearly indicates that BO is a "hacker" tool. Once installed, BO allows unauthorized users to execute privileged operations on the affected computer, whether over a local area network (lan) or over the Internet.

As early as three days after the release of BO, computer security groups such as CERT and Internet Security Systems, Inc., began issuing advisories on the dangers of the BO program. In November 1998, Mindspring advised that they were seeing approximately two BO intrusions every day. Information available through CERT <http://www.cert.org> indicates that tens of thousands of computers may be infected. Information has been developed that many of the affected computers send Internet messages to servers used by CDC to alert the UNSUB(s) that the infected computer is currently available for illegal access.

On 12/11/98, Mindspring advised that an Internet web site with an address of <http://www.bobastard.com> was publishing userids and passwords of BO infected customers of Mindspring. Mindspring security provided the information via e-mail to the Atlanta office.

The investigative strategy for this matter will be to collect information on the nature and scope of CDC, with an intent to prosecute for violations of T18 sec 1030 (Computer Intrusions), T18 sec 1028 (Identity Theft), and T18 sec 371 (Conspiracy). To this end, Agents in Atlanta will undertake a Group II UCO.
On 12/14/98, Agents from the [group met with AUSA Northern District of Georgia, who was advised of the proposed investigation and strategy. AUSA stated that there did not appear to be an entrapment issue, and he concurred with the investigative strategy.

In order to expeditiously address this matter, Atlanta needs to [prior to its use in an investigation. Atlanta is requesting [ ]

CDC claims to have previously...
gained access or hacked into US Government computers including Department of Defense computer systems. CDC claims to have been in existence since the mid 1980's. On 8/3/1998, CDC released the BO program for download from its web site. CDC advises that BO is a remote administration tool for Windows 95/98/NT, however the information released with BO clearly indicates that BO is a hacker tool. Once installed, BO allows unauthorized users to execute privileged operations on the affected computer, whether over a local area network (lan) or over the Internet.

As early as three days after the release of BO, computer security groups such as CERT and Internet Security Systems, Inc., began issuing advisories on the dangers of the BO program. In November 1998, Mindspring advised that they were seeing approximately two BO intrusions every day. Information available through CERT <http://www.cert.org> indicates that tens of thousands of computers may be infected. Information has been developed that many of the affected computers send Internet messages to servers used by CDC to alert the UNSUB(s) that the infected computer is currently available for illegal access.

On 12/11/98, Mindspring advised that an Internet web site with an address of <http://www.bobastard.com> was publishing userids and passwords of BO infected customers of Mindspring. Mindspring security provided the information via e-mail to the Atlanta office.

The investigative strategy for this matter will be to collect information on the nature and scope of CDC, with an intent to prosecute for violations of T18 sec 1030 (Computer Intrusions), T18 sec 1028 (Identity Theft), and T18 sec 371 (Conspiracy). To this end, Agents in Atlanta will undertake a Group II UCO.

On 12/14/98, Agents from the group met with AUSA Northern District of Georgia, who was advised of the proposed investigation and strategy. AUSA stated that there did not appear to be an entrapment issue, and he concurred with the investigative strategy.

Re: 288A-AT-87389  
12/14/1998

In order to expeditiously address this matter, Atlanta needs to request prior to its use in an investigation. Atlanta is
Computer Analysis Response Team (CART) field examiner, conducted an examination as outlined below. The examination was done following the procedures and using the tools provided by the FBI Laboratory.

A generic minitower, no serial number, was made available for examination. This system belonged to and was examined at his residence. The system contained a 3.5" diskette drive and a CD drive. The system also had an internal modem card installed.

The following items were accomplished to this system:

- Write Protect Hard Drive
- Image Hard Drive

At the conclusion of the examination, the computer remained in the custody of CART notes and documentation were placed in Atlanta's Evidence Control Room.

FBI - ATLANTA
was contacted at his residence on 12/17/98. is a white male, dob [ ] ssn [ ] and is employed at [ ] phone [ ]. was advised of the identity of the interviewing Agent and the nature of the interview. Thereafter provided the following. 

is a subscriber to MindSpring Enterprises Inc. (Mindspring), Internet service provider (ISP). who has only one computer, noticed on the last two bills from Mindspring that he was billed for simultaneous logons. This would indicate that more than one computer was using the same user id and password to access Mindspring at the same time. also stated that his monthly usage went from about 150 hours to over 600 hours. could not account for these changes in ISP usage. notified Mindspring about the unusual bills. was notified by Mindspring that his computer may have possibly been infected with a Trojan horse program known as Back Orifice. Mindspring also advised that he should contact the interviewing Agent. then contacted the interviewing Agent and a time was set for an interview. 

was asked if the interviewing Agent and another Agent could make an image of computer hard drive in order to determine if, in fact, computer had been infected with the Back Orifice program. executed a FD-26 Consent to Search form. A search of the files on computer disclosed a file with the name windll.dll which is an indication of a Back Orifice program. An image copy of computer hard drive was made and kept for evidentiary purposes. No physical items were removed from custody. was also advised to immediately implement Mindspring instructions to remove the Back Orifice program. 

At this point the interview was terminated.

Investigation on 12/17/98 at Lawrenceville, Ga.

Title: UNSUB(S), aka; dba Cult of the Dead Cow (CDC); MINDSPRING ENTERPRISES, 1430 PEACTREE ST., ATLANTA, GA. 30309 - VICTIM INTRUSION - INFO SYSTEMS IDENTITY THEFT CONSPIRACY

Synopsis: Request for equipment, as discussed in telcall between SSA and SA Atlanta on 12/22/98.

Details: Captioned investigation was opened 12/14/1998, at Atlanta based on information from MINDSPRING that CDC had published for free a hacker program known as Back Orifice (BO). MINDSPRING alerted customers to the BO Trojan horse virus. MINDSPRING has documented over sixty (60) BO attacks since August 1998 when the BO program was released.

Agents from the Atlanta office succeeded in locating a MINDSPRING subscriber victim who agreed to a consent search of the victim's computer and hard drive. Atlanta Agents located a file (windll.dll) on the victim's computer that is indicative of a BO intrusion. Windll.dll is alleged to control keystroke logging for the hacker. Atlanta also obtained an image of the victim's 4.5GB hard disk. AUSA Northern District of Georgia, has advised that he will consider prosecution and that he concurs with the investigative strategy.

ASSA

TO ALL FBI FIELD OFFICES/IMMEDIATE/
GROUP IN EXISTENCE SINCE 1984) RELEASED A PRODUCT CALLED QUOTE BACK ORIFICE UNQUOTE AT LAST YEAR'S DEFCON VI HACKER CONVENTION.

CDC HAS ANNOUNCED PLANS TO RELEASE A NEW VERSION OF BACK ORIFICE (BACK ORIFICE 2000) ON JULY 10TH AT THE DEFCON VII CONVENTION LAS VEGAS. THE PRODUCT WILL BE MADE AVAILABLE AS A FREE DOWNLOAD ON THAT DATE.

2. (U) THE ORIGINAL 1998 RELEASE OF BACK ORIFICE INCLUDED THE FOLLOWING CAPABILITIES:

A. RETRIEVAL OF SYSTEM INFORMATION INCLUDING CURRENT USER, CPU TYPE, WINDOWS VERSION, MEMORY USAGE, MOUNTED DISKS AND DRIVE INFORMATION, SCREENSAVER PASSWORD, AND PASSWORDS CACHED BY USERS (DIAL-UPS, WEB AND NETWORK ACCESS, ETC).

B. FILE SYSTEM CONTROL: COPY, RENAME, DELETE, VIEW, SEARCH,
COMPRESS, AND DECOMPRESS FILES.

E. PROCESS CONTROL: LIST, SPAWN, KILL.

D. REGISTRY CONTROL: LIST, CREATE, DELETE, SET KEYS AND VALUES.

E. NETWORK CONTROL.

F. MULTIMEDIA CONTROL (INCLUDING SCREEN CAPTURE).

G. PACKET REDIRECTION AND SNIFFING.

H. APPLICATION REDIRECTION: (SPAWN MOST APPLICATIONS ON A SPECIFIC PORT, SUCH AS TELNET).

I. HTTP SERVER (UPLOAD AND DOWNLOAD FILES).

J. RUNS ON START-UP WITH NO ENTRY IN THE TASK LIST.

3. (U) BACK ORIFICE 2000 WILL REPORTEDLY INCLUDE SEVERAL FEATURES NOT FOUND IN THE ORIGINAL VERSION, INCLUDING WINDOWS NT COMPATIBILITY (THE ORIGINAL PROGRAM ONLY WORKED ON WINDOWS '95/98), OPEN PLUG-IN ARCHITECTURE FOR 3RD PARTY ADD-ONS, STRONG CRYPTOGRAPHY, AND OPEN SOURCE CODE AVAILABLE UNDER GNU PUBLIC LICENSE.

4. (U) ASSESSMENT.

A. (FOUO): BACK ORIFICE 2000 WINDOWS NT COMPATIBILITY COULD
0006 MRI 01078/189
CC AFO FBIAT ALO
DE RUCNFB #0064 1892235

Q 081834Z JUL 99
FM DIRECTOR FBI (288-HQ-1234199)
TO ALL FBI FIELD OFFICES/IMMEDIATE/
GREATLY INCREASE THE POTENTIAL FOR DAMAGE TO NETWORK INFRASTRUCTURE. THE PREVIOUS VERSION ONLY AFFECTED WINDOWS 95/98 MACHINES, GENERALLY USED AS NETWORK CLIENTS. HOWEVER, INFECTION OF NETWORK SERVERS (COMMONLY RUNNING WINDOWS NT) COULD DRAMATICALLY INCREASE THE POTENTIAL IMPACT OF AN INFECTION IN TERMS OF BOTH DATA LOSS AND CONNECTIVITY DISRUPTION.

B. (FOUO) THE EXPECTED COMBINATION OF OPEN SOURCE CODE AND PLUG-IN ARCHITECTURE WOULD MAKE BACK ORIFICE 2000 POTENTIALLY MORE DESTRUCTIVE AND DIFFICULT TO ERADICATE THAN ITS PREDECESSOR. THE ORIGINAL BACK ORIFICE WAS FOLLOWED BY A SMALL NUMBER OF THIRD-PARTY ADD-ONS; IT APPEARS THAT CDC IS MAKING AN EFFORT TO ENCOURAGE THIRD-PARTIES TO ENHANCE BACK ORIFICE 2000, IN LINE.
WITH THE GENERAL PHILOSOPHY OF OPEN-SOURCE PROGRAMMING ADVOCATES. EXPECT SIGNIFICANT VARIANTS TO APPEAR AFTER THE INITIAL RELEASE WHICH COULD INCLUDE VARIOUS PROPAGATION FEATURES, REMOTE INFORMATION TRANSMISSION, OR CORRUPTION AND DESTRUCTION OF DATA. THESE VARIANTS MAY REQUIRE ANTI-VIRUS SOFTWARE AND NETWORK PROTECTION UPDATES. EXPECTED 'BACK ORIFICE 2000' FEATURES COULD EASILY INCORPORATE CUSTOMIZED MALICIOUS CODE WITH THE BASIC PRODUCT.

5. (SOUTH) RECOMMENDATIONS. 'BACK ORIFICE 2000' WILL LIKELY BE USED IN A SELECTIVE OR TARGETED MANNER SIMILAR TO PREVIOUS NETWORK SECURITY EXPLOITS. EXPECTED NT COMPATIBILITY WILL MAKE CORPORATE, GOVERNMENT, AND MILITARY SYSTEMS INCREASINGLY ATTRACTION TARGETS. THESE COMMONLY TARGETED GROUPS SHOULD AGGRESSIVELY REVIEW AND MONITOR COMPREHENSIVE SECURITY MEASURES TO PROTECT AGAINST THE KIND OF EXPLOITS CAUSED OR SUPPORTED BY 'BACK ORIFICE 2000'. ADDITIONALLY, 'SUBSEQUENT MODIFICATION OF BACK ORIFICE 2000' FOR EXPANDED MALICIOUS IMPACT IS POSSIBLE, AND SHOULD BE IMMEDIATELY REPORTED.

REMARKS

The above captioned group has been in existence since 1984. At the 1998 DEFCON VI HACKER CONVENTION, the group released a product called BACK ORIFICE. At the annual convention held on July 10, 1999 in Las Vegas, Nevada, the group released a newer version called BACK ORIFICE 2000.

BACK ORIFICE 2000 allows an individual to gain access to a person's computer and retrieve system information, including current user, cpu type, windows version, memory usage, mounted disks, drive information, screen saver password, and passwords cached by users. It will also allow the individual to have file system control, process control, registry control, network control, multimedia control, packet redirection, sniffing, application redirection and HTTP server.

BACK ORIFICE 2000 includes several features not found in the original version, including windows NT compatibility. BACK ORIFICE 2000 will likely be used in a selective or targeted manner similar to previous network security exploits. FBIHQ is aware of the release of the virus, file number 288-HQ-1234199 and they have sent out an advisory notice.

Investigation failed to develop evidence of criminal misconduct that occurred within Georgia. Case was closed administratively.
