## FBI FOIPA Addendum

As referenced in our letter responding to your Freedom of Information/Privacy Acts (FOIPA) request, the FBI FOIPA Addendum provides information applicable to your request. Part 1 of the Addendum includes standard responses that apply to all requests. Part 2 includes standard responses that apply to requests for records about individuals to the extent your request seeks the listed information. Part 3 includes general information about FBI records, searches, and programs.

### Part 1: The standard responses below apply to all requests:

- (i) **5 U.S.C. § 552(c).** Congress excluded three categories of law enforcement and national security records from the requirements of the FOIPA [5 U.S.C. § 552(c)]. FBI responses are limited to those records subject to the requirements of the FOIPA. Additional information about the FBI and the FOIPA can be found on the [www.fbi.gov/foia](http://www.fbi.gov/foia) website.
- (ii) **Intelligence Records.** To the extent your request seeks records of intelligence sources, methods, or activities, the FBI can neither confirm nor deny the existence of records pursuant to FOIA exemptions (b)(1), (b)(3), and as applicable to requests for records about individuals, PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(1), (b)(3), and (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records is itself a classified fact protected by FOIA exemption (b)(1) and/or would reveal intelligence sources, methods, or activities protected by exemption (b)(3) [50 USC § 3024(i)(1)]. This is a standard response and should not be read to indicate that any such records do or do not exist.

### Part 2: The standard responses below apply to all requests for records on individuals:

- (i) **Requests for Records about any Individual—Watch Lists.** The FBI can neither confirm nor deny the existence of any individual's name on a watch list pursuant to FOIA exemption (b)(7)(E) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(7)(E), (j)(2)]. This is a standard response and should not be read to indicate that watch list records do or do not exist.
- (ii) **Requests for Records about any Individual—Witness Security Program Records.** The FBI can neither confirm nor deny the existence of records which could identify any participant in the Witness Security Program pursuant to FOIA exemption (b)(3) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(3), 18 U.S.C. 3521, and (j)(2)]. This is a standard response and should not be read to indicate that such records do or do not exist.
- (iii) **Requests for Confidential Informant Records.** The FBI can neither confirm nor deny the existence of confidential informant records pursuant to FOIA exemptions (b)(7)(D), (b)(7)(E), and (b)(7)(F) [5 U.S.C. §§ 552 (b)(7)(D), (b)(7)(E), and (b)(7)(F)] and Privacy Act exemption (j)(2) [5 U.S.C. § 552a (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records would reveal confidential informant identities and information, expose law enforcement techniques, and endanger the life or physical safety of individuals. This is a standard response and should not be read to indicate that such records do or do not exist.

### Part 3: General Information:

- (i) **Record Searches and Standard Search Policy.** The Record/Information Dissemination Section (RIDS) searches for reasonably described records by searching systems, such as the Central Records System (CRS), or locations where responsive records would reasonably be found. The CRS is an extensive system of records consisting of applicant, investigative, intelligence, personnel, administrative, and general files compiled by the FBI per its law enforcement, intelligence, and administrative functions. The CRS spans the entire FBI organization, comprising records of FBI Headquarters, FBI Field Offices, and FBI Legal Attaché Offices (Legats) worldwide; Electronic Surveillance (ELSUR) records are included in the CRS. The standard search policy is a search for main entity records in the CRS. Unless specifically requested, a standard search does not include a search for reference entity records, administrative records of previous FOIPA requests, or civil litigation files.
  - a. *Main Entity Records* – created for individuals or non-individuals who are the subjects or the focus of an investigation
  - b. *Reference Entity Records*- created for individuals or non-individuals who are associated with a case but are not known subjects or the focus of an investigation
- (ii) **FBI Records.** Founded in 1908, the FBI carries out a dual law enforcement and national security mission. As part of this dual mission, the FBI creates and maintains records on various subjects; however, the FBI does not maintain records on every person, subject, or entity.
- (iii) **Foreseeable Harm Standard.** As amended in 2016, the Freedom of Information Act provides that a federal agency may withhold responsive records only if: (1) the agency reasonably foresees that disclosure would harm an interest protected by one of the nine exemptions that FOIA enumerates, or (2) disclosure is prohibited by law (5 United States Code, Section 552(a)(8)(A)(i)). The FBI considers this foreseeable harm standard in the processing of its requests.
- (iv) **Requests for Criminal History Records or Rap Sheets.** The Criminal Justice Information Services (CJIS) Division provides Identity History Summary Checks – often referred to as a criminal history record or rap sheet. These criminal history records are not the same as material in an investigative “FBI file.” An Identity History Summary Check is a listing of information taken from fingerprint cards and documents submitted to the FBI in connection with arrests, federal employment, naturalization, or military service. For a fee, individuals can request a copy of their Identity History Summary Check. Forms and directions can be accessed at [www.fbi.gov/about-us/cjis/identity-history-summary-checks](http://www.fbi.gov/about-us/cjis/identity-history-summary-checks). Additionally, requests can be submitted electronically at [www.edo.cjis.gov](http://www.edo.cjis.gov). For additional information, please contact CJIS directly at (304) 625-5590.

[redacted] After being advised of the identity of the interviewing Agents and the nature of the interview, [redacted] provided the following information:

[redacted] advised that she and some friends stopped briefly at the Elks Club on November 14th. [redacted] The Elks Club (the club) was not [redacted] regular place and [redacted] When she was ready to leave, she went outside and she saw lots of people, then heard a gun shot. She immediately went back inside and club security locked the doors. She remained inside for what felt longer than it probably was, maybe a few minutes, before leaving a second time. When she reemerged from the club, she described the scene as "pure pandemonium". She and her friends quickly went to their car and left. [redacted] did not really know what happened, she wanted to get out of there.

b6  
b7C

The first time she exited the club, [redacted] saw people across the street, as well as on her side. They were milling around and everyone was in a good mood leaving the club, having danced and listened to music. Seconds later a shot was fired and the scene changed. [redacted] estimated she was trapped in the club for 30-60 seconds before being allowed to leave a second time. When she heard the shot she went back into the club. She expected waves of people to pour back into the club but that did not happen. The first time she exited the club she did not see emergency lights; the second time she came outside there were lots of emergency lights. She felt like every officer in the city was there and the scene had already been taped off. Her first sight leaving the club the second time was a policeman with his gun drawn.

b6

[REDACTED] only knew the people she was with that night. The club was not her "regular dive" so did not recognize any of the other patrons. She did not take any pictures or video that night. Nobody with her took pictures or video either, they got out of there as fast as they could. The gun shot was loud like fireworks and the crowd got wild. She heard the crowd saying expletives, "they shot him", and "oh my god". The crowd noise before the shot was only murmurings like that of crowd noise. [REDACTED] described the difference between the first and second time she left the club as two completely different settings. People were happy the first time, and the second time, there were lots of people, lots of lights, it was "chaos".

[REDACTED] did not hear any shouting and heard nothing from the officers. She did not hear anyone saying stop resisting. The first time she exited the club, the crowd seemed "anticipatory" to her, like they were waiting for something to happen, and it did. [REDACTED] said the incident was very unfortunate. She thought it might have been possible to hear yelling from the other side of the street from the club due to that time of night, that the streets were not busy and there was little traffic. She could not really say though what she could or could not have heard, that would be guessing. The first time she left she could not see anything across the street; the second time everything was bright and loud and the officer in front of her had his gun out. She felt they needed to get away quickly and they did. In the car, the discussion was "oh my god" and everybody was in shock. Nobody in her party was clear what happened.

b6  
b7C

[REDACTED] did not know anybody that stayed and watched the scene play out that night. She repeated that the club is not a place she normally frequents and does not know anyone there. She did not know anyone who saw what happened. Even though her group that night was in different locations when it went down, they all ended up back at the car and they left together. Even though she did not know him, [REDACTED] felt really sad because he was a young man.

b6  
b7C

Agents explained to [REDACTED] why it was important to speak with everyone that was at the club that night, but she was reluctant to provide the names of her friend. Agents provided [REDACTED] with their contact information and she agreed to pass it along to her friends and they could contact Agents if they wanted to give a statement.

for the Lodge's sign-in or log book. Lodge members and their guests must sign in upon entering. The log book is kept downstairs by the metal detector. There is a Lodge member who sits by the door and makes sure people sign in, but the names are not checked, so there is no way to verify that people are signing their true name or that the entry is even legible. People are good about signing in.

On the night of November 14, 2015, [redacted] was [redacted] at the Lodge. The Lodge opens around 4:00 P.M. and [redacted] arrived around 10:00 P.M. [redacted] recalls that [redacted] and [redacted] worked behind the bar. FNU [redacted] was the deejay. [redacted] LNU and [redacted] were also present. [redacted] was working at some point during the evening, but [redacted] does not know what time she left. In addition, there were two contract security guards, names unknown, working outside. The security guards are primarily responsible for the parking lot and patron security outside. They come inside if there is a security incident inside. If there is inclement weather, the security guards will stand in the doorway sometimes.

There was a larger than normal crowd that night, approximately 150 people. There was normal bar noise plus music from the deejay. People inside would not have been able to hear anything going outside unless they were standing right near the exit.

The Lodge closes at 1 A.M. At some point near closing, [REDACTED] walked outside and saw an ambulance with emergency lights on across the street. [REDACTED] often sees ambulances at the apartments in the area, so he did not take much interest in what was going on. The two security guards were outside and a few patrons were standing around on the sidewalk in front of the Lodge. Patrons usually do not hang out for long outside, they usually go outside when they are ready to leave for the night. Because the door is always locked, once a person leaves, they have to be buzzed back in and be screened through the metal detector again in order to re-enter. If patrons want to smoke, there is a smoking area in the rear.

b6  
b7C

[REDACTED] re-entered the Lodge [REDACTED] Since the Lodge closes at 1 A.M., they usually start trying to move people out around 12:45 A.M. While [REDACTED] heard that there had been shooting across the street. There were a lot of patrons in the stairway, so it took [REDACTED] some time to get to a window where he could see what was going on. When [REDACTED] looked out, he saw several police officers outside. [REDACTED] went to the security monitors and saw that police were hanging yellow tape around the parking lot [REDACTED]

b6

When he looked at the security camera monitors, [REDACTED] noticed that a camera on the [REDACTED]

asked to see the security footage. There were three uniformed officers and two plainclothes detectives or supervisors. [REDACTED] knew one of the uniformed officers, FNU LNU, [REDACTED] FNU LNU told [REDACTED] that the guy who was shot was not handcuffed and was going for one of the officers' guns. FNU LNU said he knows the officer involved in the shooting and that officer would never shoot an innocent person in handcuffs.

b6  
b7C

Other than speaking with the Minneapolis Police personnel who came into the Lodge that morning, [REDACTED] has not spoken with or given a statement to Law Enforcement about the incident.

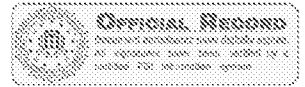

[REDACTED] does not know of anyone who was an eyewitness to the shooting. The security guards were probably in the best position to have seen what happened. The security guards should be cooperative with law enforcement because one of the [REDACTED] [REDACTED] is not aware of any video of the shooting.

b6  
b7C

[REDACTED] did not know CLARK or the police officers involved. The Lodge does not have any problems with the police. [REDACTED] heard that [REDACTED] FNU LNU, was in the ambulance he had seen earlier in the evening. FNU LNU used to come into the Lodge. FNU LNU is described as [REDACTED] [REDACTED] has only ever seen her [REDACTED] does not know which Lodge member FNU LNU knows to gain entry to the Lodge. Lodge members have been saying that FNU LNU has disappeared.

b6

[REDACTED] left the Lodge around 3:30 or 4:00 A.M. [REDACTED] stayed and closed up.

[REDACTED] had another strange thing happen around the time of the incident. [REDACTED] reached out to [REDACTED] over email and asked him if [REDACTED] was the same guy he knew when he was a kid. [REDACTED] had no idea who the guy was so he forwarded the email to [REDACTED] It turned out that [REDACTED] did know the guy but [REDACTED] thought he could be a member of the media.

[REDACTED] knew that [REDACTED] was the shooter from his comment about [REDACTED] [REDACTED] never shared the details of what happened with [REDACTED] only knew what he had heard or seen from his police friends and the media. [REDACTED] said that sadly the media can report anything they want, even when it has not been verified.
