MR. JOHN R. GREENEWALD JR. THE BLACK VAULT SUITE 1203 27305 WEST LIVE OAK ROAD CASTAIC, CA 91384-4520

FOIPA Request No.: 1352247-000

Subject: CHURCH, FRANK FORRESTER, III

### Dear Mr. Greenewald:

The FBI has completed its search for records subject to the Freedom of Information Act (FOIA) that are responsive to your request. The enclosed 803 pages of records were determined to be responsive to your subject and were previously processed and released. Please see the selected paragraphs below for relevant information specific to your request as well as the enclosed FBI FOIPA Addendum for standard responses applicable to all requests.

In an effort to provide you with responsive records as expeditiously as possible, we are releasing documents from previous requests regarding your subject. We consider your request fulfilled. Since we relied on previous results, additional records potentially responsive to your subject may exist. If this release of previously processed material does not satisfy your request, you may request an additional search for records. Submit your request by mail to Initial Processing Operations Unit, 200 Constitution Drive, Winchester, VA 22602, or by fax to (540) 868-4997. Please cite the FOIPA Request Number in your correspondence.

Please be advised that additional records responsive to your subject exist. If this release of previously processed material does not satisfy your request, you must advise us that you want the additional records processed. Please submit your response within thirty (30) days by mail to Initial Processing Operations Unit, 200 Constitution Drive, Winchester, VA 22602, or by fax to (540) 868-4997.. Please cite the FOIPA Request Number in your correspondence. If we do not receive your decision within thirty (30) days of the date of this notification, your request will be closed.

One or more of the enclosed records were transferred to the National Archives and Records Administration (NARA). Although we retained a version of the records previously processed pursuant to the FOIA, the original records are no longer in our possession.

If this release of the previously processed material does not satisfy your request, you may file a FOIPA request with NARA at the following address:

National Archives and Records Administration Special Access and FOIA 8601 Adelphi Road, Room 5500 College Park, MD 20740-6001

Reference file numbers 9-HQ-57204 and 9-HQ-52453 in your correspondence.

Records potentially responsive to your request were transferred to the National Archives and Records Administration (NARA), and they were not previously processed pursuant to the FOIA. You may file a request with NARA using the address above.

Please reference file numbers 89-HQ-3421, 89-HQ-3536, 89-HQ-3500, 89-HQ-3045, 89-HQ-4037, and 100A-BT-8343 in your correspondence.

V	One or more of the enclosed records were destroyed. Although we retained a version of the records previously processed pursuant to the FOIA, the original records are no longer in our possession. Record retention and disposal is carried out under supervision of the National Archives and Records Administration (NARA), Title 44, United States Code, Section 3301 as implemented by Title 36, Code of Federal Regulations, Part 1228; Title 44, United States Code, Section 3310 as implemented by Title 36, Code of Federal Regulations, Part 1229.10.
<b>V</b>	Records potentially responsive to your request were destroyed. Since this material could not be reviewed, it is not known if it was responsive to your request. Record retention and disposal is carried out under supervision of the National Archives and Records Administration (NARA) according to Title 44 United States Code Section 3301, Title 36 Code of Federal Regulations (CFR) Chapter 12 Sub-chapter B Part 1228, and 36 CFR 1229.10.
	Documents or information referred to other Government agencies were not included in this release.

Please refer to the enclosed FBI FOIPA Addendum for additional standard responses applicable to your request. "Part 1" of the Addendum includes standard responses that apply to all requests. "Part 2" includes additional standard responses that apply to all requests for records about yourself or any third party individuals. "Part 3" includes general information about FBI records that you may find useful. Also enclosed is our Explanation of Exemptions.

For questions regarding our determinations, visit the <a href="www.fbi.gov/foia">www.fbi.gov/foia</a> website under "Contact Us." The FOIPA Request Number listed above has been assigned to your request. Please use this number in all correspondence concerning your request.

Please be advised that if you are seeking a new search for records, you may wish to narrow the scope of your request based on material that you have already received, e.g., timeframe or locality. Additionally, be advised that "unusual circumstances" may apply. See 5 U.S.C. § 552 (a)(6)(B)(iii). These "unusual circumstances" will delay our ability to make a determination on your request within 20 days. See 5 U.S.C. § 552 (a)(6)(B). Additionally, the payment of pertinent fees may apply to your request. See 5 U.S.C. § 552 (a)(4)(A)(viii). The application of "unusual circumstances" is not a determination of how the FBI will respond to your substantive request.

If you are not satisfied with the Federal Bureau of Investigation's determination in response to this request, you may administratively appeal by writing to the Director, Office of Information Policy (OIP), United States Department of Justice, 441 G Street, NW, 6th Floor, Washington, D.C. 20530, or you may submit an appeal through OIP's FOIA STAR portal by creating an account following the instructions on OIP's website: <a href="https://www.justice.gov/oip/submit-and-track-request-or-appeal">https://www.justice.gov/oip/submit-and-track-request-or-appeal</a>. Your appeal must be postmarked or electronically transmitted within ninety (90) days of the date of my response to your request. If you submit your appeal by mail, both the letter and the envelope should be clearly marked "Freedom of Information Act Appeal." Please cite the FOIPA Request Number assigned to your request so it may be easily identified.

You may seek dispute resolution services by contacting the Office of Government Information Services (OGIS). The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at <a href="mailto:ogis@nara.gov">ogis@nara.gov</a>; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769. Alternatively, you may contact the FBI's FOIA Public Liaison by emailing <a href="mailto:foipaquestions@fbi.gov">foipaquestions@fbi.gov</a>. If you submit your dispute resolution correspondence by email, the subject heading should clearly state "Dispute Resolution Services." Please also cite the FOIPA Request Number assigned to your request so it may be easily identified.

Sincerely,

Michael G. Seidel Section Chief Record/Information

Dissemination Section

Enclosure(s)

This is the final release of information responsive to your FOIPA request. This material is being provided to you at no charge.

Duplicate copies of the same document were not processed.

#### **FBI FOIPA Addendum**

As referenced in our letter responding to your Freedom of Information/Privacy Acts (FOIPA) request, the FBI FOIPA Addendum provides information applicable to your request. Part 1 of the Addendum includes standard responses that apply to all requests. Part 2 includes standard responses that apply to requests for records about individuals to the extent your request seeks the listed information. Part 3 includes general information about FBI records, searches, and programs.

### Part 1: The standard responses below apply to all requests:

- (i) **5 U.S.C. § 552(c).** Congress excluded three categories of law enforcement and national security records from the requirements of the FOIPA [5 U.S.C. § 552(c)]. FBI responses are limited to those records subject to the requirements of the FOIPA. Additional information about the FBI and the FOIPA can be found on the <a href="https://www.fbi.gov/foia">www.fbi.gov/foia</a> website.
- (ii) Intelligence Records. To the extent your request seeks records of intelligence sources, methods, or activities, the FBI can neither confirm nor deny the existence of records pursuant to FOIA exemptions (b)(1), (b)(3), and as applicable to requests for records about individuals, PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(1), (b)(3), and (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records is itself a classified fact protected by FOIA exemption (b)(1) and/or would reveal intelligence sources, methods, or activities protected by exemption (b)(3) [50 USC § 3024(i)(1)]. This is a standard response and should not be read to indicate that any such records do or do not exist.

### Part 2: The standard responses below apply to all requests for records on individuals:

- (i) Requests for Records about any Individual—Watch Lists. The FBI can neither confirm nor deny the existence of any individual's name on a watch list pursuant to FOIA exemption (b)(7)(E) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(7)(E), (j)(2)]. This is a standard response and should not be read to indicate that watch list records do or do not exist.
- (ii) Requests for Records about any Individual—Witness Security Program Records. The FBI can neither confirm nor deny the existence of records which could identify any participant in the Witness Security Program pursuant to FOIA exemption (b)(3) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(3), 18 U.S.C. 3521, and (j)(2)]. This is a standard response and should not be read to indicate that such records do or do not exist.
- (iii) Requests for Records for Incarcerated Individuals. The FBI can neither confirm nor deny the existence of records which could reasonably be expected to endanger the life or physical safety of any incarcerated individual pursuant to FOIA exemptions (b)(7)(E), (b)(7)(F), and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(7)(E), (b)(7)(F), and (j)(2)]. This is a standard response and should not be read to indicate that such records do or do not exist.

### Part 3: General Information:

- (i) Record Searches and Standard Search Policy. The Record/Information Dissemination Section (RIDS) searches for reasonably described records by searching systems, such as the Central Records System (CRS), or locations where responsive records would reasonably be found. The CRS is an extensive system of records consisting of applicant, investigative, intelligence, personnel, administrative, and general files compiled by the FBI per its law enforcement, intelligence, and administrative functions. The CRS spans the entire FBI organization, comprising records of FBI Headquarters, FBI Field Offices, and FBI Legal Attaché Offices (Legats) worldwide; Electronic Surveillance (ELSUR) records are included in the CRS. The standard search policy is a search for main entity records in the CRS. Unless specifically requested, a standard search does <u>not</u> include a search for reference entity records, administrative records of previous FOIPA requests, or civil litigation files.
  - a. *Main Entity Records* created for individuals or non-individuals who are the subjects or the focus of an investigation
  - b. Reference Entity Records- created for individuals or non-individuals who are associated with a case but are not known subjects or the focus of an investigation
- (ii) **FBI Records.** Founded in 1908, the FBI carries out a dual law enforcement and national security mission. As part of this dual mission, the FBI creates and maintains records on various subjects; however, the FBI does not maintain records on every person, subject, or entity.
- (iii) Requests for Criminal History Records or Rap Sheets. The Criminal Justice Information Services (CJIS) Division provides Identity History Summary Checks often referred to as a criminal history record or rap sheet. These criminal history records are not the same as material in an investigative "FBI file." An Identity History Summary Check is a listing of information taken from fingerprint cards and documents submitted to the FBI in connection with arrests, federal employment, naturalization, or military service. For a fee, individuals can request a copy of their Identity History Summary Check. Forms and directions can be accessed at <a href="https://www.ebo.cjis/identity-history-summary-checks">www.fbi.gov/about-us/cjis/identity-history-summary-checks</a>. Additionally, requests can be submitted electronically at <a href="https://www.edo.cjis.gov">www.edo.cjis.gov</a>. For additional information, please contact CJIS directly at (304) 625-5590.

#### **EXPLANATION OF EXEMPTIONS**

### SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552

- (b)(1) (A) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (B) are in fact properly classified to such Executive order;
- (b)(2) related solely to the internal personnel rules and practices of an agency;
- (b)(3) specifically exempted from disclosure by statute (other than section 552b of this title), provided that such statute (A) requires that the matters be withheld from the public in such a manner as to leave no discretion on issue, or (B) establishes particular criteria for withholding or refers to particular types of matters to be withheld;
- (b)(4) trade secrets and commercial or financial information obtained from a person and privileged or confidential;
- (b)(5) inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;
- (b)(6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;
- (b)(7) records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information (A) could reasonably be expected to interfere with enforcement proceedings, (B) would deprive a person of a right to a fair trial or an impartial adjudication, (C) could reasonably be expected to constitute an unwarranted invasion of personal privacy, (D) could reasonably be expected to disclose the identity of confidential source, including a State, local, or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source, (E) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law, or (F) could reasonably be expected to endanger the life or physical safety of any individual;
- (b)(8) contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or
- (b)(9) geological and geophysical information and data, including maps, concerning wells.

### SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552a

- (d)(5) information compiled in reasonable anticipation of a civil action proceeding;
- (j)(2) material reporting investigative efforts pertaining to the enforcement of criminal law including efforts to prevent, control, or reduce crime or apprehend criminals;
- (k)(1) information which is currently and properly classified pursuant to an Executive order in the interest of the national defense or foreign policy, for example, information involving intelligence sources or methods;
- (k)(2) investigatory material compiled for law enforcement purposes, other than criminal, which did not result in loss of a right, benefit or privilege under Federal programs, or which would identify a source who furnished information pursuant to a promise that his/her identity would be held in confidence;
- (k)(3) material maintained in connection with providing protective services to the President of the United States or any other individual pursuant to the authority of Title 18, United States Code, Section 3056;
- (k)(4) required by statute to be maintained and used solely as statistical records;
- (k)(5) investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment or for access to classified information, the disclosure of which would reveal the identity of the person who furnished information pursuant to a promise that his/her identity would be held in confidence;
- (k)(6) testing or examination material used to determine individual qualifications for appointment or promotion in Federal Government service the release of which would compromise the testing or examination process;
- (k)(7) material used to determine potential for promotion in the armed services, the disclosure of which would reveal the identity of the person who furnished the material pursuant to a promise that his/her identity would be held in confidence.

# FBI Checks Threat On Church, Pike

**Associated Press** 

A right-wing group has threatened to assassinate several prominent politicians, including the chairmen of congressional committees investigating the CIA and an announced presidential candidate, an FBI spokesman says.

He said yesterday the FBI was investigating the threat but that there had been no arrests yet in the

The spokesman said the group, which calls itself Veterans Against Communist Sympathizers, threatened to kill Intelligence Committee Chairmen Sen. Frank Church, D-Idaho, and Rep. Otis Pike, D-N.Y.

In addition, the group has threatened Fred Harris, a candidate for the Democratic presidential nomination, and Rep. Ron Dellums, D-Calif. a member of the House Intelligence Committee, the FBI spokesman said.

He added that the threat also was aimed at Tim Butz, head of a Washington-based organization which has been publicly blamed for blowing the cover of CIA agent Richard Welch, who was slain last week in Greece.

The threat came in a note delivered to a Houston television station by "an unidentified individual" on Dec. 26, according to the spokesman, Tom Coll.

Specimens received 1/2/76

Q1 Sheet of ruled paper bearing hand printed letter beginning "THE ASSASSINATION of one..." ending "...GOD BLESS AMERICA"

Result of examination:

Ql was compared with specimens in the Anonymous Letter File, but no identification was effected. A photograph will be added to the file for future, reference.

The examination of the Ql sheet of paper failed to reveal any watermarks, indented writings of significance or other significant features which would assist in determining the immediate source of that item.

Q1 was photographed and will be returned separately.

UNKNOWN SUBJECT (1), ALSO KNOWN AS VETERANS AGAINST COMMUNIST SYMPATHIZERS; THREAT AGAINST SENATOR FRED HARRIS, SENATOR FRANK CHURCH, REPRESENTATIVE OTIS PIKE, REPRESENTATIVE DONALD V. DELLUMS, **DECEMBER 26, 1975** HOUSTON, TEXAS: ASSAULT ON A FEDERAL OFFICER

On December 26, 1975, a lone white male walked into the reception room of KDOG-TV, 3935 Westheimer, Houston, and handed a note to the receptionist, which threatened the captioned individuals and stated that the captioned organization was responsible.

b7C

During the latter part of December, 1975, and during January, 1976, Houston Division conducted investigation to identify this individual. Neighborhood investigations were conducted with negative results and photos of numerous left and right wing extremists were displayed lwith negative results. In addition, regular contact was maintained with the Houston Police Department, Criminal Intelligence Division; Harris County Sheriff's Office; and U. S. Secret Service, Houston.

Further, increased contact with sources in extremist matters has failed to produce any information concerning the identity of the unknown subject.

UNKNOWN SUBJECT (1), ALSO KNOWN AS VETERANS AGAINST COMMUNIST SYMPATHIZERS:

On January 17, 1976, Laboratory Division, FBI Headquarters, advised that the original note had been compared with specimens in the anonymous letter file but no identification was effected. In addition, the Laboratory Division advised that examination of the paper failed to reveal any watermarks or indented writings of any significance.

On February 2, 1976, contact with U. S. Secret Service, Houston, Harris County Sheriff's Office, and Houston Police Department - Criminal Intelligence Division, revealed that their investigations had failed to identify any subjects.

Indices checks at Bureau Headquarters, Houston Division, and other field offices of the FBI failed to develop any additional information on Veterans Against Communist Sympathizers (V.A.C.S.).

To date no additional notes have been received at KDOG-TV and no additional information regarding V.A.C.S. has come to the attention of the Houston Division.

ь6 ь7с

On February 3, 1976, this matter was discussed with Assistant U. S. Attorney Houston, who stated that no further investigation is warranted.

Office of the Editor Courier-Journal Louisville. Kentucky

Dear Mr. Editor:

When I read that the Associated Press has disclosed that there is a "worldwide terrorist network", it makes me think of what an American taxpayer told me, that"the best bicentennial for us would be for a plane of liberation terrorists to fly over and drop an atomic bomb on the surrender prone liberals in Washington D.C. Then former Secretary of Defence Schlesinger, with the military-industral complex and the CIA could save the fifty states, with D.C.blown off the earth".

I told him that while he is wishing, wish that the so-called "United Nations"highrise, the headquarters for thousands of Russian spies in America, be toppled over in the East River. Also, in these events, many innocent, honest people would be killed "for their country"as we were told when they sent a hundred thousand American boys to Asia in a no-win war and murdered "for their country" We read in the brain washing news that "Americans are simply going to learn to take it as a way of life". Eric Sevareid asked on T.V. "can the world be saved?". Yes, without the quislings in the State Department, the radical edicts from the Supreme Court and without the labor bribed politicians in Congress, the people of the United States, with a more powerful Navy, can save the World.

Very sincerely. Public Opinion rates Church leaders- 24% P.S. Industral leaders who give labor jobs-16% President of U.S. and bureaucrats Congressmen of U.S. It seems that the lowest of all, are the majority of the few people who vote, Other reading and seeing you on To I thenke you was the livest trait

### NOTE:

Lleyd William Frimmersdorf, claiming access to large amounts of surplus property through auspices of Department of Agriculture officials, has convinced large groups of farmers in Montana, Idaho and Utah he can purchase this surplus for them at ridiculously low prices. He has accepted approximately 1,100 orders accompanied by approximately \$80,000 in down payments, promising delivery at an unknown future date. He has been in contact with several members of both Houses of Congress and through them, received appointments with officials of Department of Agriculture. On 3/13/59, Butte instructed to contact USA and explore matter as to possible violation of any Federal law within our jurisdiction. Deadline 3/23/59.

Gentlemen:

Mr. George Seeley of the engineering firm of Daniel, Mann, Johnson & Mendenhall, of this City, has called my office regarding the application for employment of Calvin E. Church. According to Mr. Seeley, Mr. Church strongly represented himself as being my nephew from West Virginia.

I do not have a nephew, and to my knowledge I do not have a relative by the name of Calvin E. Church.

Sincerely,

He drove to the residence accompanied by Anatoli Y. Kornienko, one of the COPY Embassy Attaches. There was a 45-minute conversation before luncheon dealing with numerous generalities. During the luncheon The conversation touched on United States elections, Africa, disarmament, and the banning of nuclear tests. Menshikov very obviously was fishing for Gore's opinion regarding the outcome of the forthcoming election. Gore stated that as a Democrat he Chaturally expected Kennedy to win. He did emphasize that with Whegard to any dealings with Russia, there would not be any differences between the Republican and Democratic parties. the Soviets of stirring up trouble. Menshikov was highly critical of United States use of NATO countries in stirring up troubles and had no regard for our program to control nuclear tests.

Gore received the definite impression that Menshikov was a "lonely man" and that he enjoyed conversing with an American. Gore noted that there were no other Russians at the residence other than Kornienko, who served as an escort for Gore.

Senator Church lunched with Menshikov at the Soviet Embassy on August 25, 1960. The Senator asked the Ambassador if it were true that there was considerable anti-Jewish activity in the Ukraine. Menshikov immediately stated that there was no such atmosphere in Russia and anything to the contrary was sheer propaganda. The Ambassador then initiated a discussion of developments in Africa and made several derogatory remarks concerning the "colonial powers," Church retaliated by referring to the expansion of the "Russian empire." Menshikov very hotly denied any Soviet desires to acquire additional territory.

The Ambassador raised questions concerning the coming elections and Church followed a line very similar to that of Senator Gore. Church felt the Democrats would win but very strongly pointed out that both parties would follow the same line with regard to Russia.

Menshikov denied that the Soviets were trying to move into Cuba but commented that there was nothing wrong in doing so, particularly when the United States has encircled Russia with bases in foreign countries. He stated: "We have surpassed you in military power and you can't catch up."

Menshikov briefly referred to the U-2 flight and stated:

A discussion developed on the subject of treaties and negotiations with Russia. Church emphasized to Menshikov that Soviet officials quite often forget how our system of Government operates. He pointed out that no United States President, whether

Memorandum L'Allier to Belmont Re: XALLEN DULLES (S)

he is a Democrat or Republican, can establish a treaty with a foreign country without a two-thirds Senate ratification. He cited the example of President Wilson, who failed to obtain the Senate's support in his objective to make the United States a member of the League of Nations. Menshikov then "exploded." He ridiculed the Senate, stating that: "Many members ought to be in cages and be taken off to medical laboratories for examination." He immediately cooled off and stated to Church that he meant "no personal offense."

A lengthy discussion was held concerning the banning of nuclear tests. Church held to the position that nothing will ever be accomplished unless the Soviets accept an inspection system.

Dulles made the observation that in his opinion Menshikov undoubtedly is doing everything possible to collect information which might assist the Soviets in predicting election results in November. According to Dulles, it is very possible that Menshikov's future in the diplomatic service will depend on the accuracy of his reports to Moscow. Dulles feels that Menshikov may be contacting other Congressmen. In this connection, Dulles heard that the Ambassador may have tried to contact Senator Joseph Clark of Pennsylvania, but he was not certain if this took place.

Dulles stated that he contacted the Liaison Agent because he had informed both of the Senators that in his opinion it was necessary that the Bureau be advised of the above-described meetings with the Soviet Ambassador.

My dear Senator:

Washington 25, D.C.

Your letter enclosing a copy of a news item from the Twin Falls Times - News, Twin Falls, Idaho, was received on November 7, and I welcome the opportunity to respond to your questions about the communist menace.

PATELO-15-57 BY

In view of your concern, may I point out that the communists have tried to infiltrate every part of our society, but they have not achieved substantial success because of our internal security programs; the investigation, arrest, and prosecution of a number of Party functionaries; and the rising tide of public opposition to the communist movement. All this has been accomplished in orderly constitutional fashion and is something of which every American should be proud. We must continue to be alert to these infiltration efforts. I wish to emphasize most strongly that communism is a grave threat to the continued existence of the United States. Because of this, it is doubly imperative that we be calm, rational, and thoroughly accurate in what we say and do in opposing communism. This is no time for rumors, unfounded suspicion, gossip and the hurling of false accusations.

In accordance with Presidential directives, instructions from the Attorney General and various Federal laws, the FBI is charged with conducting specific types of investigations concerning applicants, appointees and employees of agencies of the Executive Branch of the Coverament. The purpose of these inquiries in to determine facts about an individual on which appropriate officials can make a sound judgment as to whether or not that person warrants the trust placed in him as a public servant. In the domestic intelligence field, the primary aim of the FBI is to keep appropriate Government officials constantly informed with respect to the activities and plans of the enemies of democracy within the United States so that effective countermeasures and preventative means can be devised. The FBI, as in the past, will endeavor to carry out these investigative responsibilities to the utmost.

Enclosed are several items setting forth my views on these and other matters relating to communism which you may find of interest.

Sincerely yours,

SUBJECT:

REQUEST FOR COPY OF LETTER TO

SENATOR FRANK CHURCH BY OFFICE OF

CONGRESSWOMAN GRACIE BOWERS PFOST

## BACKGROUND:

Mr. George Schulz, of Congresswoman Pfost's office, contacted Inspector Kemper on 11-15-61, and stated that he recently had the opportunity to see a letter from the Director to Senator Frank Church dated 11-9-61, which dealt with the Bureau's position on communist matters. In view of the large volume of constituent letters received by Congresswoman Pfost, he feels that the substance of the letter to Senator Church would be of immeasurable help in handling the Congresswoman's correspondence if a similar letter were directed to her from the Director.

## INFORMATION IN BUFILES:

Bufiles contain no derogatory information identifiable with Schulz, and we have had limited but cordial contacts with Congresswoman Pfost. As of 1-19-59, she was included in the program of Congressional contacts as an acquaintance of an employee of the Domestic Intelligence Division.

# **RECOMMENDATIONS:**

1. The attached letter to Congresswoman Pfost be approved, as it contains the substance of the letter which was sent to Senator Church on 11-9-61.

Upon approval, this letter be personally delivered to

Congresswoman Pfost's office by Mr. DeLoach or one of his assistants

My dear Senator:

Reference is made to the anonymous letter you recently received which was most inflammatory and carried a direct threat against Senator Goldwater.

I am pleased to advise you that based on investigation conducted by this Bureau, the perpetrator of these letters has now been identified as an eighteen-yearold white male who resides in San Francisco, California. The youth has admitted to Special Agents of our San Francisco Office that he is the author of the numerous letters sent to members of the United States Senate and newspapers in various parts of the country.

The facts in this matter are being made available to the United States Attorney, San Francisco, for consideration as to prosecutive action. REC 4

Dear Mr. Hoover:

Forgive me, please, for burdening a busy, harried man my mechanical mutterings to the wind.

I submit a copy of this letter because your name was in it and because you are one of the few men of national in ance who hasn't lost touch with reality in this mad scramb be "progressive".

The article referred to is one in which the Senator from Idaho expressed his views in a speech prepared for Congress regarding the "ultra" conservative element in our country; naming organizations and individuals he considers menaces to freedom while minumizing the biggest threat of all....COMMUNISM:..... e.g., "For too long too many politicians have used our national repugnance to communism as a convenient crutch in their races. "Little wonder that they now hesitate, though many see the need to take issue with constituents who regard themselves as superpatriots, waving the compelling banner of "anti-communism". "The radical right is not so much the enemy of communism as it is the enemy of freedom. "It opposes the only programs that fight the real Communist threat...which festers on the miseries of the people in Asia, Africa and Latin America....and focuses instead on a straw-man specter at home." (STRAW-MAN!!! God help us!)

I wish I could go back to baking cookies and watching daytime TV! The futility of fighting the tide is wearing me down to a frazzle and making me feisty. Having been a drop-out in the second year of high-school and later hungering to KNOW I've read and thought and read and thought until I wish I'd stayed STUPID!

Thank you and take care.

The Honorable Frank Church, (D) The United States Senate Washington, D. C.

CoPY

Dear Sir:

The attached article which appeared in the Washington Evening Star, January 12, 1965 explains the following:

We do NOT, as you would have us believe, have as much to fear from the "far right" as we do from proponents of your own line of thought. Quite to the contrary! and no amount of abstract rationalization and "interpretation" has, or will, change some irrefutable, incontrovertible facts of life in these United States, the most obvious being the tendency to over-simplify as inevitable the monstrous changes about which the "radical right" is most concerned! Your remarks bear this out.

First of all, relative to the <u>election</u> defeat of the Republican Party, I must point out the ever-increasing willingness of a large segment of the American population to fall for the something-for-nothing promises made by politicians and the break-neck speed with which they will trade their immortal souls, as well as their votes, for a piece of the wind-fall. This and fear of "the bomb" explains for the most part the mandate which is being waved aloft.

I am NOT a John Bircher. I have never heard the Messrs. Hargis and McIntire speak nor do I know anything about the Christian Crusade. The only organization I belong to is the Republican Party, the party of the Government of the People. I can read, write and think without the dubious assistance of the image-makers and the poll-takers. Many of we "extremists", "right-wingers" or "alarmists" abhor the clatter and clack of those who would obscure simple, unvarnished truth (Diogenes' lamp is all but invisible in the political and moral darkness of our times!) and I need only call to your attention a few facts, free of piffle and pseudo-rationalization in order to make my point. (I'm surprised you didn't add Mr. Hoover's name to the above list. He doesn't believe communism is a straw-man in this country!)

We are told we are to feel responsible for the starving masses ....when countries far older than ours chose to devote their time to contemplating their navel, head-hunting or weaving baskets to devoting their energies and intellects to scientific, industrial and sociolog-cal progress.

We submit to blackmail and extortion in staggering proportions both here and abroad. (Tell me threatening to withhold Federal funds from the Sovereign States for one reason or another isn't extortion!) The bitter pill is that the states themselves provide these funds which are in turn used to blackjack them into submission to the Federal will!)

We raise all sorts of hell with countries seeking to trade with Red China in "non-strategic goods" while we GIVE our goods and

ENCLOSURE 62-103617-6

dollars away to Comunist Satellites and Sovie Russia herself:

Our avowed enemy who has sworn to bury us (when is an enemy not an enemy) is wined and dired in grand style, given the free use of our communications systems to insult and threatken us and our president is contemplating a repeat performance of this obscene tableau.

We pour billions of dollars in aid into countries who are neither earning it or appreciating it while breaking the back of our defense program.

You speak plaintively of the "super-patriots" undermining public confidence in the men of Congress, the Supreme Court and the presidency itself. The "far right" isn't undermining this confidence. The men themselves are doing if very well without any help from us! You cannot command or demand respect and confidence. We look for statement and get politicians, we look for TRUTH and decency and get Bobby Bakers and Walter Jenkins' and unfinished investigations. In the Supreme Court we don't get legal interpretations of our Constitution; we get men who aren't even lawyers MORALIZING!

The Supreme Court has arbitrarily...and repeatedly...abrogated and usurped the right of the states to govern themselves as set forth most specifically in the original, un"interpreted" version of our Constitution, the most recent sutilation taking place December 14, 1964. "Interpretations" by nine men are now laws of the land which is a far cry from carrying out the amendment process as I was taught it in civics classes! and I quote:

"AMENDMENTS CAN BE MADE TO OUR CONSTITUTION CALL AS A RESULT OF A TWO-THIRDS VOTE OF BOTH HOUSES OF CONGRESS AND RATIFICATION BY THREE-FOURTHS OF THE STATES!!!

A classic example of truth not only being obscured but totally NEGATED was the flading of the U.S. Court of Appeals right here in Washington in the Eillough case. One has either atolen or he has NOT stolen (please, no clatter about degree or value of article or sum stolen!). Hillough either killed or he did NOT kill, technicalities notwithstanding. One is a communiat or he is NOT a communist. One is a patriot (that dirty word) or he is NOT a patriot. There is an air of the bizzere in all this rationalization. Fact is still fact...or is it?

As a parting shot I would like to say that the day a child of mine is "bused" ANYWHERE for the sake of any such collectivist purpose as "achieving balance" of ANY sort will be the day I rist:

You may not like what you have read but then neither did I (article), and though you may be shocked at my lack of respect it is no more shocking than to be called names because I believe in Constitutions, severnment as defined by our FOUNDING FATHERS and net in that set then by a handful of men whose tenure in the scheme of things is fleeting at best and for the last thirty years or so, to many of us, suspect to say the very least.

Mr. Hoover received your letter of March 2nd and asked me to thank you for your interest in his book, "Masters of Deceit," and his many articles and speeches you have read. He asked me to assure you that his book is as valid today as when it was written. Further, he suggested that perhaps you may wish to read his latest book, "A Study of Communism," which is a comprehensive study of the development and expansion of communism throughout the world. A copy may be available at your local library.

In connection with the quotation you mentioned, Mr. Hoover requested me to send you two copies of pages 101-and 102 from Volume V reflecting a portion of Mr. Hoover's testimony before the Presidential Commission investigating the assassination of President Kennedy. You may wish to read his remarks prior to and following the paragraph in issue. He is certain you will see there is no conflict between his testimony and his warning about the threat of communism.

Federal Bureau of Investigation

I wrote Senator Frank Chruch regarding his article in the "Look" magazine.

Among other things I asked him if we were to believe that, -----"A man like J. Edgar Hoover is not telling the truth when he says there is danger of communism?41.

In his answer to me he has writeen a quote by you from your testimony before the Wareen Commission, as follows: "I think the extreme Right is just as much danger to the freedom of this country as the extreme Left. There are groups, organizations and individuals on the extreme Right who make these very violent statements, allegations that General Eisenhower was a Communist, disparaging references to the Chief Justice----now, I have felt, and I have said publicly in speaches, that they are just as much danger, at either end of the specturm, They don't deal with facts. Anyone who will allege that General Eisenhower was a Communist agent has something wrong with him".

I would like to know if this is the truth and if you meant it in the way that he implies. I have read your book "Masters of Deceit", and many articles and speaches you have made and I have always felt that you were warning us of a great danger from Communism in our country.

I would appreciate two copies of the full statement----one for myself and one to send to Senator Church.

# Sen. Church Says U.S. Is World's Top Merchant of Death

THE U.S. is the world's largest and busiest merchant of the instruments of death and destruction. Not only do its private munitions manufacturers multi-billion-dollar profits each year from their own activities, but the U.S. Government subsidizes the industry through its sales and promotion work with governments throughout world.

This was the theme of a speech delivered in the Senate by Senator Frank hurch (D-Ida.)

Excerpts from Church's speech follow:

#### **DEADLY NUMBERS**

During the past 17 years, we. have bestowed on foreign governments \$8 billion in military vehicles and weapons, \$7 billion in aircraft, \$5 billion in ammunition, \$2 billion in ships, \$2 billion in communications equipment, \$1.5 billion in missiles, and \$3 billion in other supplies.

Services granted in the form of base construction, training, repair, and spare parts amounted to an additional \$8 billion, for a staggering total of \$37 billion dispensed abroad since 1950.

The armaments which these represent are no less stag-4,384 F-84 fighters, 2,812

F-86 fighters; 3,292 aircraft trainers, 20,279 tanks; 75,995 trailers; 150,552 2½ ton trucks; 1,362,000 carbines: 2,106,000 rifles: 72,777 machine-guns; 29,716 mortars; 30,340 missiles.

As if to augment these massive gifts of arms, the Defense Department is now engaged in a mushrooming sales campaign. Direct sales to foreign governments already exceed \$16 billion,

while Pentagon officials anticipate orders worth another \$15 billion in the next decade.

Clearly, the supplying of munitions, quite apart from ordinary commercial sales by private American manufacturers, has become a big business in which the U.S. Government plays a central role. Today, the Federal Government is the principal arms dispenser of the world, giving away, advancing credit, and promoting the sale of a volume of arms over six times that of our nearest rival, the Soviet Union. . . .

#### FAR AND MIDDLE EAST

In the Far East, from 1945 to 1949, to bolster Chiang Kaishek's faltering grip on China, we granted arms and supplies worth \$800 million in original acquisition cost.

In the Middle East, starting in 1947 with the Truman doctrine, we came to the help of Greece, threatened by a Communist guerrila war, and Turkey, then under intense Soviet pressure. The onset of the cold war brought additional demands for further military aid — demands which intensified with the invasion of South Korea. Congress, in 1950, yoted \$1.3 billion in

military assistance to 14 countries for "the performance of specific tasks" which we, presumably, would otherwise have had to undertake. The postwar period of "arsenal diplomacy" had begun. . . .

#### DEATH AND THE SALESMAN

Our total addition to the armament inventory of other nations is now higher than for any period since the Korean War. The United States now spends \$70 billion a year on its own Armed Forces. The rapid technological progress generated by this investment often produces weapons which turn obsolecent soon after they come off the assembly line. For years our defense industry has sought to prolong their use through arms sales abroad. In 1961 this drive shifted into high gear with the establishment, in the Pentagon, of the Office of International Logistics Negotia-

Under the direction of Deputy Assistant Secretary Henry J. Kuss, Jr., the office has steadily grown in size and substance. Today, its staff, with the support of experts from each of the three armed services, and the guidance of a 25-man advisory committee from private industry, travels the world in quest of new contracts. Working in tandem with private industry, Defense's arms salesmen employ the full range of American promotion techniques. . .

... Since 1964, Kuss has been authorized to guarantee credit extended by private banks to foreign governments buying weapons from us. The working policy of the Office of International Logistics, as described in a recent laudatory article: "has always been "if you need credit, we'll get it for you," and they

have yet to fail to do so." Nearly \$3 billion of the arms sales in the last 5 years were on credit.

Two years ago, for his "unparalleled ability as an international negotiator," Secretary McNamara awarded Kuss with the Meritorious Civilian Service Medal. And for good reason. Until 1961, sales have averaged \$300 million a year. Since then, Kuss has signed up orders and commitments on \$11.7 billion in arms sales, thereby providing our munitions industry with an added billion dollar profit. "Buy American," ABusiness Week magazine reported recently, "is becoming an increasingly prevalent slogan in the world arms market."

#### UNEXPECTED RESULTS

The result, in some cases, was little less than grotesque, as on the island of Taiwan, where the real protection has always been furnished by the American 7th Fleet, but where we were induced to give over \$2.5 billion, in injections of military aid to equip an army twice too big for its tactical role in any future defense of the island but not a tenth big enough to ever threaten the mainland. . . .

The army we equipped in Iraq brought down the government we supported in a coup which caught us completely by surprise. The military assistance we furnished the armed forces of the Dominican Republic did not prevent them from overthrowing the elected regime of Juan Bosch, which we strongly favored at the time. Moreover, the same army later proved to be unable to put down the subsequent uprising in the streets of Santo Domingo, where the landing of American Marines only underscored, as in Vietnam, the failure of military aid. . . .

# EXTENSIONS OF REMARKS

FRESH FISH FOR ALASKA

#### HON. NICK BEGICH

OF ALASKA

IN THE HOUSE OF REPRESENTATIVES Tuesday, September 21, 1971

Mr. BEGICH. Mr. Speaker, while the fishing industry is one of the most important segments of the Alaskan economy, many Alaskans find fresh fish products unavailable in their local markets. Most fish caught in Alaska and available for distribution in the State are first shipped to the "lower 48" for processing. Needless to say, this is an unnecessary expense to the Alaskan consumer and an unfair practice to those Alaskans who enjoy fresh fish.

Recently, John Wiese, writer for one of Alaska's most distinguished newspapers, the Anchorage Daily-News, wrote an interesting article regarding the problem of making fresh fish available to Alaskans. At this time, I would like to include into the Record the article Mr. Wiese wrote.

The article follows:

FRESH FISH FOR ALASKA
(By John Wiese)

A gripe that has persisted for fully half a century has been the unavailability of fish products for local retail distribution unless they had been first shipped to the lower 48 after being processed from stocks caught in Alaska waters.

A program instituted in Anchorage by the Whitney-Fidalgo people promises to substantially reduce some of the adverse effects of this situation.

In the past, with rare exception, items like canned salmon or crab meat or clams that grocers have stocked for urban Alaskan customers could not be obtained by the store keepers directly from plants where the products had been packed. This has been especially true with "name brands."

These items had to be ordered by the retailers through their established wholesale suppliers who shipped them north through Seattle. Obviously, convenience and cost suffered adversely.

Several reasons were always offered for this practice.

Processing plants in Alaska were not adequately equipped to make the relatively small sales represented in local consumption requirements.

Products are required to go through quality-control inspection procedures and these are arranged only in Seattle or Astoria or San Francisco or Bellingham. Changing this would cause undue costs.

Labeling or repackaging or otherwise finalizing the fish products was almost never done at the Alaskan plants so the trip Outside is mandatory before they can be available for retail sales.

Whitney-Fidalgo has started an Alaska distribution facility in Anchorage that changes things. They are even warehousing a total of 3,000 cases of various types of canned salmon in Anchorage to be distributed to retailers and institutions in the state, according to Tom Doyle, superintendent of the firm's freezer and cold storage plant here.

The plan calls for a year-'round operation from this plant which is located near Anchorage International Airport.

In addition to the canned products, fresh and frozen fish products are also to be

stocked. Some items are to be especially processed here for intrastate trade.

An instance of this is king and Dungeness crab. The firm has been bringing crab in from receiving points (chiefly Homer at present) and processing it here to accommodate a fresh-never-frozen requirement on a sustaining basis and, at the same time, preparing some of it for later sales by freezing it in both household and institutional packaging.

Stocks have also been arranged so that fresh halibut, sablefish and salmon is on hand locally with frozen products available when the fresh items are out of season.

A unique feature of this venture is an offering of filets and other prepared forms of ground fishes such as red snapper, ocean perch, sea bass, etc. that are being purchased from fishermen augmenting their otherwisenormal salmon fishing operations in places like Homer, Seward and Kodlak.

When these items have been offered in retail outlets heretofore they have been products brought here from Scattle, usually freshfrozen. And some of them are actually stocks that were originally taken from coastal waters of the state.

This local fileting operation is on a pioneering basis and is contingent on the dual conditions of fishermen's persistence and successes as well as developing acceptable skills in the plant's crew of fish butchers and fileters. But if it succeeds technologically it should be a real boon for the local market-place and consumers.

A major prospective user of this source of fish stocks is the military complex in Alaska. Included in the promotion is an effort to furnish the fish needs for both the military messhalls and the retail counters (PX) that provide foodstuffs for military families. Most of the fish products are now supplied from out of state.

Doyle reports that the Whitney-Fidalgo volume of business being handled at the present time is near the 6,000-pound-a-week level. And it has been in operation for less than two months.

The motivation for this innovation was admittedly no exclusively an altruistic desire to correct a chronic inequity by providing Alaska's non-fishing community with fresher and (hopefully) less costly products from their neighboring seas.

The major reason for the operation is strictly economic.

Whitney-Fidalgo operates two plants in Anchorage which is in a district that is not much of a fish source for industrial purposes. One of these plants is the cold storage plant and the other is the salmon cannery on Ship Creek flats that is usually termed the "Emard cannery" by old-timers.

These operations work with raw material that is hauled great distances, compared to the otherwise-normal processing stocks of fish factories. Some of their salmon was hauled all the way from Kotzebue in the Arctic (by air yet!) and some of their raw stocks come from as far east as Yakutat and as far west as Kodiak and Naknek.

Whitney-Fidalgo executives have said that they are convinced that the future is certain to witness the development of airlifted fish products—especially the more valuable varieties like some of the saimon species and shellfishes—and they are determined to be a part of such developments.

This means that they must operate, as economically as possible, on a year-round basis and must put together a technically efficient staff and labor force that can handle the stuff they hope to trade in.

These requirements obviously should also be able to provide the necessary skills to produce and handle the fish needs of Alaska without exposing the products to a needless round trip to Seattle.

NEW IDAHO HIGHWAY ENFORCE-MENT PROGRAM

#### HON. FRANK CHURCH

OF IDAHO

IN THE SENATE OF THE UNITED STATES

Tuesday, September 21, 1971

Mr. CHURCH, Mr. President, the current issue of the FBI Law Enforcement Bulletin contains an article by Capt. Ervin T. Dunn, of the Idaho State Police, in Boise, describing a new system developed by his agency to help enforce highway speeding laws by use of aircraft.

Captain Dunn writes:

In our program, we attempted to reduce violations where they were known to be excessive and, at the same time, to make it possible to measure the reduction for evaluation purposes. We developed some new methods that could make the use of aircraft in speed control programs much more practical and effective.

I am highly pleased that my own State has taken the lead in finding new ways to reduce measurably the incidence of excessive speed on our highways, which is a prime cause of traffic fatalities.

I ask unanimous consent that Captain Dunn's article be printed in the Extensions of Remarks.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

AN AIRCRAFT ENFORCEMENT TEST PROGRAM
(By Capt. Ervin T. Dunn)

Aircraft enforcement of speed regulations is not a new technique; it has been used and is still being used by many States. Even though the procedures from State to State vary to some degree, in a broad general sense they are quite similar.

These programs use various types of aircraft, different lengths of measured distances for determining speeds, and many methods of planning when and where the planes are to be used. There are numerous and varied markings on the highways for pilots to use in making their calculations and for the motoring public to see. Most of them have a decided psychological effect on the motorist.

In our program we attempted to reduce violations where they were known to be excessive and, at the same time, make it possible to measure the reduction for evaluation purposes. We developed some new methods that could make the use of aircraft in speed control programs much more practical and effective.

Our project was conceived on November 2, 1970, but, because of pilot difficulties and pilot training, it was December 8 before speed enforcement on the selected area began. Two months was the period of time allocated to the program, a short time as tests go, but we hoped this period would give the same picture as if it had been set up several months, or even a year. The program was to test whether aircraft patrol would reduce the number of accidents and fatalities on a given stretch of road; in this particular case, 150 miles made up of 82 miles of 70 m.p.h. divided interstate, 20 miles of 2-lane 70 m.p.h. road, and 48 miles of 2-lane 60 m.p.h. road. One hundred fifty miles is a long distance, of course, to patrol with one piece of equipment in hopes of influencing the behavior of drivers and, at the same time,

measuring the effect within a 2-month period

The program began with two main assumptions that seemed reasonable and valid. First, the bulk of serious accidents and fatalities are caused by speed, which almost always ranks first on "accident causes" lists. Second, data collected on fatalities over a specific collected on fatalities over a specific stretch of road can be misleading because one accident can produce several fatalities and render the information practically useless or, at least, difficult to understand as far as control of fatal accidents over the given distance is concerned.

Further, we also knew that any data collected on accidents or accident rate for the test span of roadway could be adversely affected because, this was the time of year when slick roads and sudden storms could bring a rash of accidents that would not be indicative of normal accident rates.

#### PRESSING NEÉD

Our need to have the information by a certain date was the reason the program was put into effect in the late fall and winter, but we were reasonably certain there would be enough clear days and clear highways to finish the survey. The program was designed to cover 60 days with approximately 44 days of flight time. However, because of inclement weather, the 44 days were reduced to 27 days in the air. On several of these days flight time was reduced by more than half, and it was impossible to cover all of the 150 miles of selected highway on those days. We checked all 150 miles only 14 times during the program.

Since the fatality rate and the accident rate would require such a long period before either would or could show a reasonable response to the aircraft enforcement program, a plan was adopted to control the speed violation rate which included measuring this rate from time to time to make certain of the desired results. We felt the control of the violation rate would eventually control the accident and fatality rates because both seemed to be directly related to the violation rate.

Vital parts of the survey, we feel, were the system used to measure the size of the problem before the aircraft was employed and the system used to measure the effect of the aircraft on that problem, from time to time, to determine if the program was doing the job of reducing the violation rate, and to what degree. This was done with a speed computer system the author designed and copyrighted. This computer system makes it possible to place the survey car from three-eighths to one-half mile away from any highway and instantly and accurately compute the speeds of vehicles seen traveling on that highway from that vantage point.

The advantages to this system are that speed surveys can be taken without the motorist's being aware that his speed is being computed, and his speed is not influenced by cars or equipment on the right-of-way, which does have a deterrent effect on getting accurate figures for speeds.

One feature of the program was the method of selecting cars to be checked. The speed of the driver was not necessarily considered for putting him in the survey or leaving him out. The chief requisite had to be that he was free to travel at any speed he might choose. In other words, it would not be beyond belief to visualize 100 cars strung out behind a truck they could not pass, and the result would be a 100-car survey with no violators of the posted speed. Large trucks were also eliminated from the survey because we felt aircraft would have little or no effect upon their speeds, and most of them were not free to travel at any speed they chose, being restricted by company policies, tachometers, and revolutions-per-minute recommendations for equipment. Loads, tachometers,

themselves, would be restrictive to some degree. If a motorist was free to travel at any speed he might choose, he was entered in the survey. If not, he was left out.

#### 100-CAR SEGMENTS

Almost all of the tests were based on 100-car segments because it was learned that 100 cars passing a given point on the highway would be indicative of how all traffic by that point for the balance of the day would proceed. Two studies were run for a 24-hour period to give a clearer picture of driving behavior at different hours of a day, but they merely bore out that a 100-car test would give a good cross section of what could be expected of the traffic.

The No. 1 survey, prior to putting the aircraft in the air on speed enforcement, was actually five separate surveys of the 150-mile selected stretch and was done to give a picture of the violation rate on the stretch under normal conditions. Most of the figures shown as violations in the surveys (see chart) represent speeds of 1, 2, 3, and up to 10 m.p.h. above the posted speeds. Speeds of 80 to 90 m.p.h. represented approximately 10 percent of the violations, and there were speeds of well above 100 m.p.h. (a-little-overone-half of 1 percent) on the freeway sections of the test area. Excessive rain at one position prevented the collection of any conclusive data.

#### SECOND SURVEY

The No. 2 survey was also five separate surveys and was taken after the program had been put into effect. One plane had flown the area for a total of about 60 hours and had assisted ground crews in making 87 arrests for speeding and in issuing 30 warning cards. The violation rates during this survey are shown in the chart. Milepost 162 on this survey represents the one that had previously been rained out. There are a noticeable reduction in the violation rates at three sites and an increase at Milepost 109.9 which was shocking to the survey crew. We later discovered that this was a patrol area posted 60 m.p.h. and bound on each end by a 70 m.p.h. posting. Drivers were coming off a 70 m.p.h. freeway, going through a small town, then right out into the 60 m.p.h. zone. In all probability, a reevaluation of the 60 m.p.h. posting will be seriously considered.

An aircraft enforcement program could well be a means of pointing out needs for speed posting reevaluations from time to

#### EVALUATION

A second evaluation of the aircraft program was made at the close of the flight program (completed after 141 hours flight time). At that time, the violation rates were taken again at four of the five selected locations, and most showed the movement of the extremely high speeder downward into speeds within our tolerance areas. We were again unable to make a survey at Milenost 162 because the road was broken up and repair crews were in the area. Milepost 109.9 continued to show increases in some of the high speeds. There were, however, excellent enforcement results on each flight, with many arrests made in the 90 to 100 m.p.h. range. There were approximately 140 arrests made altogether during the program with almost all violations for 85 m.p.h. or more. In addition, there were 40 warning cards issued for speeds above 75 m.p.h.

#### DOUBLE USE

Another interesting part of the Idaho Aircraft Enforcement Test System is that the same computer system used to make the initial survey was used in the aircraft to determine speeds of the motorists. The system does not require special measured distances or marks on the highways other than the white centerlines that are already there. The white centerlines are placed with mechanical accuracy that can be predetermined.

The three big advantages are: The system does not require measured distances painted : on the surface of the highway and does not confine the plane to those places where measured distances appear. Because the speed of an approaching car can be checked in 4 to 5 seconds, it is possible to check the speeds of traffic coming toward the plane, and turnarounds are unnecessary except in those cases where an already checked violator is wanted. The third factor is that one patrol car can follow the plane at approximately 55 m.p.h. over long distances. The patrolman's getting 4 or 5 miles behind creates no problem because the pilot. is checking the speeds of the heavy traffic going in the opposite direction from the plane. When the pilot finds a violator, he turns around and follows the speeder back to the trailing car, describing him to the patrolman by radio. It is possible to check the violator's speed several times going back to the trailing patrol car.

The computer system makes use of the fact that every speed is directly related to every other speed through time and does not need measured distances to make the computations. The system has been in use in Idaho as an enforcement tool on the ground since 1956 and has been used from aircraft several times in selected cases.

#### EFFECTIVENESS

The aircraft enforcement program has proven a very effective instrument for bringing enforcement pressure on exceedingly high-speed drivers. One plane and a trailing patrol car using the system can cover from 50 to 75 miles of assigned highway with plenty of work to keep both pilot and patrolman busy. Highways with 300 to 400-carsper-hour volume are ideal for this situation.

From his 1,000 to 1,500-foot up-in-the-air seat, the pilot can observe 5 to 6 miles of highway most of the time, check the entire 50 or 75-mile length in a very few minutes and pick out almost every violator of the posted speeds.

In addition to speed enforcement, the plane can also be used for other functions, such as, search for lost hunters, surveillance of slow-moving traffic problems, surveillance of school bus routes and problems, check of little-used highways occasionally, observation of double-line areas, and location of stolen, abandoned, and stripped cars in out-of-the-way places. These additional uses make the plane a valuable piece of standard equipment even if it were only assigned to speed enforcement on selected occasions.

Generally, the program was too short in length and covered too many miles. It is a good program where enforcement results are needed in connection with high speeds over open highways. There were problems with weather and a definite problem in connection with assignment of personnel to work the program. The program would work much better where plane and personnel needed are assigned to the project for the duration. Then one car could follow the plane over long distances and return the same day without assignment from separate districts.

#### COMPARISON OF COSTS

After making a comparison of costs for lease and purchase of a tandem 2-place plane and a 4-place plane, we decided to lease a 2-place aircraft. The cost of the program will run slightly over \$2,300 over and above regular budget items. There will be around \$2,000 collected in fines and costs.

#### OBSERVATIONS

Final reports on arrests and fines are not complete at this time. The program can bring a tremendous amount of enforcement pressure on speeders in well-selected areas. Results can be tabulated and evaluations made, but a continuing program of this nature needs much more planning and preparation than was possible for this project. The project would work exceptionally

well for special occasions and problem assignments.

#### MINNEAPOLIS HEALTH HEARINGS

### HON. DONALD M. FRASER

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES Tuesday, September 21, 1971

Mr. FRASER. Mr. Speaker, the health needs of our youth were aptly demonstrated by two witnesses who testified during the recently held Minneapolis health hearings. Pointing out that the health needs of our youth are vastly different from those of other age groups, Mr. Jim Brink discussed the operation which he heads, the Southeast Drop-In Center.

This organization, comprising interested laymen, attempts to deal with problems facing juveniles on a preventive basis. Recognizing that most young people with drug problems will come to the center needing treatment, members of the center attempt to move from strictly treating bad trips to discovering the underlying reasons for drug use. These dedicated laymen have discovered that some of the young find it extremely difficult to deal with the larger, public institutions in the twin cities. The drop in center, therefore, provides a middle ground between the public institutions and the concern which leads to involvement of those people who wish to help. When the problem becomes extremely serious, referrals to professionals are made.

Mr. Brink argued persuasively for everyone to consider youth drug problems as essentially mental health prob-lems. It is his belief that only by starting from this premise and involving the lay members of the community can the seri-

ous drug problem of youth be prevented.

Another center attempting to solve some of the problems facing youth in the twin cities is the Children's Health Center and Hospital. This organization established a teen-age medical service and a walk in counseling center.

At the hearings, Dr. Elizabeth Jerome detailed some of the activities of the center. The medical center, for example, is staffed by 15 volunteer physicians, 35 nurses, and five volunteer lab technicians. These professionals see approximately 500 youths per month. Open 3 nights a week and 3 mornings during the week, the medical center draws from all areas of the twin cities.

The walk in counseling center is opened every evening and is staffed by 30 volunteer professional psychologists. These psychologists supervise approximately 50 students in training who serve approximately 6 months at the center. A further breakdown of the services provided is enclosed at the end of the report.

One of the startling discoveries related by Dr. Jerome was the degree of alienation of these youth. Many were medically alienated from their family physician or from their own parents. These youth sought service at the clinic. Also, many parents bring their own children to the center. That is a significant tribute to the need that the center fills.

Since the hearings, the Children's Health Center has received financial assistance to continue these two programs. A statement explaining that financial award in more detail appears

These centers, the teenage medical service and the walk in counseling center are major innovative steps attempting to deal with the specific problems facing youth. They deserve encouragement from elected officials and require broad support from the community. They are examples of a response to a need that is

not based on financial incentives. We should look at the motivation of the laymen and professionals who donate their time and expertise. Ignoring these motivations may cause us to develop a system concerned only with financial rewards.

MAJOR GRANTS TO CHILDREN'S HEALTH CENTE BROADEN AID TO TEENAGERS	R

Two grants totaling \$132,930 have been awarded to Children's Health Center, Inc. of Minneapolis (CHC) for its satellite clinics, the Teen-Age Medical Service and affiliated

Walk-In Counseling Center.

A grant of \$72,460 was awarded from the Department of Health, Education and Welfare to develop demonstration projects in the two clinics for the health care of teenagers. "The money is to be used to develop a more personalized style of health services for that group of tennagers who are currently not accepting health services through our established institutions," according to Dr. Arnold Anderson, Principal Executive Officer of Children's Health Center, Inc.

The two clinics function as a bridge across the "generation gap" and the developmental monies from this grant will be used to strengthen that bridge.

"Initially, development funds will be used to explore means of re-establishing family in-volvement in health problems of "alienated" teenagers, and to explore the use of consumer inputs from the teenagers themselves in the management of the operations," said Dr. Anderson.

Fifth District Representative Donald Fraser was helpful in making known to the Office of Child Development in Washington, D.C. the unique value of the functions of the two

The second grant, totaling \$60,470, comes from the Governor's Commission on Crime Prevention and Control through the City of Minneapolis. It will enable the clinics to establish a project to evaluate their programs and centers; to coordinate their activities; to establish liaison with criminal justice and health agencies; and to gather data on the kinds of problems they see and treat. The information will be made available to other community resources and to colleges and universities for use in training social workers, police officers, health professionals, etc.

U.S. CHROME ORE SUPPLY

# HON. HARRY F. BYRD, JR.

OF VIRGINIA

IN THE SENATE OF THE UNITED STATES

Tuesday, September 21, 1971

Mr. BYRD of Virginia: Mr. President, an excellent editorial on the subject of the U.S. position with respect to its chrome ore supply was published in the Hopkinsville, Ky., New Era of August 28, 1971

I ask unanimous consent that the editorial, entitled "Wrong Direction," be printed in the Extensions of Remarks.

There being no objection, the editorial was ordered to be printed in the Record, as follows:

WRONG DIRECTION

Does it make sense that a nation should be dependent upon a potential enemy to supply a material which would be needed in case of armed conflict?

Sen. Harry F. Byrd Jr., the Virginia Independent doesn't think so, but he seems to be having a hard time convincing enough people around official Washington that the old cavalry would never have pushed the Indians out of the West if the Army had had to wait for the Redmen to sell the soldiers enought arrows to wage war.

But the Virginia senator refuses to be discouraged and has introduced a piece of legislation which is vital to the future of the United States as a free nation. Presumably the Congress will get around to taking up the Byrd bill when the recess is over next month.

Byrd's bill provides simply that importation of strategic materials from a Free World country cannot be prohibited so long as imports of the same commodities are permitted from a Communist country.

The purpose of this provision is to correct

The purpose of this provision is to correct an almost insane situation which has been permitted to develop and which now endangers America's capacity to defend herself in case of Soviet aggression. This is the refusal of the United States to buy chrome ore, vital to defense production, from Rhodesia, and its increasing reliance upon none other than Russia for this strategic material.

The United States refuses to trade with Rhodesia because it, is ruled by a minority government and allegedly his a threat to international peace. As a consequence, the U.S. now buys a major portion of its chrome ore from the Soviet Union, a country which is ruled by a brutal one-party dictatorship and constantly instigates threats to world, peace.

The result is that the United States has made its defense production dependent upon the very nation we are supposed to be defending ourselves against. Dependence now is estimated at more than 50 percent. It will go higher to the point of paralyzing American

defenses unless our elected representatives stir themselves.

Byrd's legislation would have the effect of reopening trade with Rhodesia and easing the Soviet grip on America's defenses. The issue is nothing less than our survival as a free and independent nation, but official Washington today is so caught up in false hopes of peace that neither the administration nor Congress will act unless they hear from the people.

We may be foolish enough to arm the Soviets in case a shooting war gets near, but you can bet the Russians wouldn't do the same for us

PROSPERITY AND PRODUCTIVITY

## HON. THOMAS M. PELLY

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES Tuesday, September 21, 1971

Mr. PELLY. Mr. Speaker, the nationwide response to President Nixon's wageprice freeze has surprised some of the previous critics of his economic policies. In the first month following the President's historic speech on the economy, Americans in all walks of life have indicated newly restored confidence in the measures proposed by Mr. Nixon to end inflation and bring prosperity to the Nation. Meanwhile, there seems to be a willingness to sacrifice, and, while the program, and especially the wage-price freeze, creates some inequities, and, in some instances, hardships, the reaction of Americans in general is one of patriotic determination to do their part toward making the freeze work voluntarily.

So, Mr. Speaker, we can look back at the last 30 days with satisfaction and now turn our attention to a phase 2 plan to follow the 90-day freeze. This issue is not to play politics with the presidential election next year. The plan to protect our economy involves the living standard and livelihood of the American worker who has a vital stake in the stability of the American dollar and the ability of our Nation to maintain its industrial leadership in the face of evergrowing foreign competition.

Economists do not all agree as to the proper and fairest solution. However, I venture to say America will not halt its inflation and restore prosperity until in this country production per man-hour is in balance with the cost per man-hour. Rising costs have priced U.S. goods out of the marketplace both abroad and at home and U.S. capital has fled to foreign countries to meet this situation.

I do not blame labor for seeking more for its services. I do blame management for yielding on wages without gaining assurances of increased production. Collective bargaining seems to be failing and the strike weapon seems neither to benefit the worker nor management but instead penalizes the consumer and the public.

So, Mr. Speaker, as I see it today this country must seek alternatives in labor-management relations and greater production should be the basis of increased wages if we are going to curb inflation and reduce unemployment.

Congress will try to meet the economic crisis with a new tax program, but I

doubt if such a plan succeeds unless there is greater incentive to workers and management alike for increased productivity.

AMERICANS WANT TO PRAY; CHURCHES DO NOT WANT THEM TO

### HON. JOHN R. RARICK

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES Tuesday, September 21, 1971

Mr. RARICK. Mr. Speaker, while the people of America want their children to be able to pray in school, the churches object, claiming this would "take away religious freedom."

We now learn that 208 of the 218 required Members of the House have responded to public opinion and the outpouring of faith from the people and signed the discharge petition to force a House vote on the prayer amendment that would restore the right of American schoolchildren to engage in nondenominational prayer, a right that all Americans had enjoyed until abrogated by judicial flat in the Supreme Court decisions of 1962 and 1963.

We are also told that the principal opposition to such a prayer petition comes from religious groups including the American Baptist Convention, Baptist General Conference, North American Baptist Conference, the executive council of the Episcopal Church, United Methodist Church, Church of the Brethern, Lutheran Church in America, United Presbyterian Church, Unitarian-Universalist Association, Churches of Christ, Mennonites, and 12 different Jewish groups.

I include a related news article detailing this paradox in the Record:

[From the Washington Star, Sept. 20, 1971] .SCHOOL PRAYER FIGHT REKINDLED IN HOUSE

(By Ronald Sarro)

The long-smoldering school prayer controversy has been rekindled in the House and may come to a vote soon.

Few members anticipated that Rep. Chalmers P. Wylie, R-Ohio, would have much success when he filed a petition April 1 to force a House vote on the issue.

But at the close of House business last week, 208 of the 218 members required had signed the petition, and it appeared Wylie might obtain the remaining 10 signatures.

Opposing religious groups have just launched a counter campaign to get Congressmen not to sign, or to remove their names if they have signed.

At issue is a proposed constitutional amendment, locked in the Judiciary Committee for years. Wylle's petition would force the committee to release the amendment for a House vote.

Supporters say the amendment would put prayer back in the classrooms and overcome 1962 and 1963 Supreme Court decisions banning organized prayer in public schools.

Opponents say the amendment actually would take away individual religious freedom. A committee of 38 national religious leaders and organizations urged Congress Friday to reject the amendment.

Support for a vote in the House has been building steadily, mainly because of the lobbying efforts of Mrs. Ben Ruhlin of Cuyahoga, Ohio, and her 30-member Prayer Cam-

## ASSOCIATION OF THE NATIONAL MOVEMENTS AGAINST AMERICAN DANGER IN EUROPE

# Berlin - Bonn - Heidelberg - Frankfurt/Main

# No. 9/73 What does Mixon wants in Europe?

Disqualified as President of the USA by numarous affairs (among others, assassination of President Kennedy, Watergate, etc.), Nixon wants to improve his status by a "successful" tour of Europe. In preparation of this tour he had the year 1973 declared with utmost dispatch, as the "European Year" of American foreign politics, and announced the project of a renewal of the Atlantic Charter.

Indeed, the relationship Europe-USA requires a revisal! However, the reorganization cannot be orientated according to the wishes of Mr Nixon and Co, but must be based on the solid foundation of the economic and monetary increase of power in Europe, and take into consideration all relevant changes of the recent past.

Nixon pretends to be interested in a relationship of partners with equal rights. Already the limitations of European rights in regional questions, and the reservation to safeguard world-wide interests, belie Nixon's words.

Europe must, in order to strengthen its unity, surmount the subordination to the USA!

Nixon demands from Europe, not to exclude American products from the Common Market of the partner countries and the associated countries. This demand affects the foundations of the Common Market on the whole, and is therefore not acceptable to the EEC. Thanks to the economic constellation, which cannot be retrograded, such interventions must be defeated without further ceremony.

Europe needs its own independent economic field, which must not be insecured by US concerns. The steadily growing US investments in Europe, which are estimated to reach 6,1 billion dollars in 1973, and with their total book-value of 35 billion dollars (=market value of about 100 billion dollars), are undermining the safety of the European market, and must be repressed, in favor of a real Europeanization of enterprises.

ENCLOSURE

Nixon demands that the Europeans contribute their full share of the defense costs, meaning, among others, financing of American troops in Europe. If Nixon would be realy interested in an European-American partnership (see above), he could give the most persuasive demonstrations particularly in this field. The European adaequate safety model includes the creation of an European defense union, which takes full responsibility for Europe, and promotes, within the scope of an Atlantic Alliance, mutual obligations for assistance with the American partner. However, Nixon is not thinking of such alternative.

Europe needs autonomy on the defense field!

Instead, Nixon promised that the American troops in Europe, which are humiliating the European self-assertion, will stay in Europe, despite the fact that they have lost long time ago their halo as deterrents. Formerly safety factors, they are now steadily raising the general uncertainty (doubts as to their reliability, demoralized soldiers and officers) All indications are pointing to it that they no longer serve as deterrents against the threat of communism, but are here to safeguard American interests against Europe!

Europe does not need a foreign rule from overseas, which, in addition infiltrates the continent with drugs, criminality and immorality.

Nixon expects, that his anachronistic demands are particularly impressing the Europeans by his personal engagement. The reactions in the European capitals to the proposals Kissinger/Nixon were observant and cool. The foreign ministers of the European market have unanimously determined during their meeting in Luxembourg in June, that the EEC is in no hurry to give an answer to the proposed alterations of the Atlantic Charter. According to the informations on hand, there is no doubt that Nixon's interlocutors will assume European viewpoints.

Europe needs its own unmistakable identity, free of American attributes.

The period of European-American confrontation has started. Europe cannot continue to develop without a collision with the USA. Naturally, this phase of unavoidable conflicts does not preclude a cooperation with the USA, as far as it is in European interests. The need of the moment is the consolidation of European power. Europe has just started to show its strength, and to gain the respect due to her.

Europeans, manifest to Nixon and his followers your firm determination to give the European Community the preference over the Atlantic Alliance.

Europeans, you must show in various ways your European identity, and emphasize the deep alienation between Europe and America.

# "Alarming Anti-Americanism"

The Headquarters of the US Army in Europe, and Seventh Army in Heidelberg, are observing with great alarm the dangerous growth of anti-Americanism, particularly within the area of Seventh Army. It is true, that many high-ranking officers welcome the efforts of the German public to play down the development of anti-Americanism, however, they are stressing at the same time that they are not deceived by the real proportions of these efforts. During personal talks, among others, also during discussion rounds with General Davison concerning German-American relations, they got the impression that the German partner is progressively less willing to listen to American ideas, is often not keeping his promises, and articulates German wishes as demands. Under such conditions expressions of sympathy are felt to be pure pharisaism.

Representatives of the Embassy in Bonn have acknowledged that similar observations have been made in the civilian sector. The Embassy is in the possession of evidence, according to which the results of the opinion-poll by the institutes INFAS and Infratest were set up in a way to make them "endurable" to the Americans.

#### Officers want to go home

Lately, General Davison's political adviser was forced to present his chief with an "unpleasant" information. He complained that the officers of them US Army in Europe are increasingly joining the opinion voiced by Senator Mansfield (see report of 24.7.73, to the senat committee for foreign affairs) and Church (see last page). Most frequently the opinion is expressed that the military presence of the USA in Europe is not vital for American national interests, and the costs which the USA has to pay to keep its troops in Europe, are needed for other budgetary expenses. He also stated that in many cases US officers are contacting firms at home, in case of their discharge from the Army. (See No 2/73).

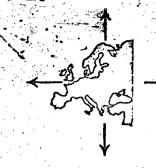

Such motives and other reasons induce numerous members of the American Forces to send their dependents back to the USA.

# Special authorization for the American Military Intelligence Service.

During the past days the American Military Intelligence Service in the FRG started a large-scale campaign to spy on enemies of present American politics. The afflicted circle of persons includes Americans, who are suspected to sympathize with the democratic party in the USA, or to be so-called isolationists, as well as Germans, who have strongly criticized the USA in public. This campaign uses a range of instrumentations, from tapping of telephones, photographic surveillance, to the opening of mail. Reason: Prophylactic safety measures for the expected visit of President Nixon. The campaign will continue also after the visit.

#### Superfluous nuclear weapons in Europe

Today, US politicians and military persons are talking openly about the fact that the relocation of nuclear weapons to Europe was done without sufficient conceptional pre-planning, and has become incredible from the military viewpoint.

#### Was will NIXON in Europa?

Als Präsident der USA durch zahlreiche Affären (u.a. Ermordnung Präsident Kennedys, Watergate) disqualifizier will sich NIXON durch eine "erfolgreiche" Europareise aufwerten. In Vorbereitung seiner Tour ließ er 1973 eilfertig zum "europäischen Jahr" der amerikanischen Außenpolitik erklären und das Projekt der Erneuerung der Atlantik-Charta verkünden.

Das Verhältnis Europa-USA ist tatsächlich revisionsbedürftig! Nur kann sich die Neuordnung nicht an den Wünschen der Mr. NIXON & Co. orientieren, sondern muß auf dem soliden Fundament des wirtschaftlichen und monetären Machtzuwachses Europas begründet sein und alle einschlägigen Veränderungen der letzten-Zeit berücksichtigen.

NIXON gibt vor, an einem Verhältnis gleichberechtigter Partnerschaft interessiert zu sein. Allein schon die Beschränkung der Rechte Europas auf regionale Fragen und der Vorbehalt der Wahrnehmung weltweiter Interessen durch die USA strafen NIXON Lügen.

Europa braucht als Voraussetzung für die Festigung seiner Einheit die Uberwindung der Unterordnung unter die USA!

NIXUN verlangt von Europa, daß die amerikanischen Waren vom Gemeinsamen Markt der Mitgliedsländer und der assoziierten Staaten nicht ausgeschlossen werden. Diese Forderung berührt die Grundligen des Gemeinsamen Marktes Aberhaupt und ist deshalb für die EG nicht akzeptabel. Dank der nicht rückgängig zu machenden ökonomischen Konstellation sind derartige Interventionen ohne weiteres zu vereiteln.

Europa braucht ein eigenes abgeschlossenes Wirtschaftsgebiet, in das keine Unsicherheit durch US-ASSIFIED ASSIFIED MIT 6.1 Mrd. Dollar angegeben werden und damit Konzerne getragen werden darf. Die ständig anwachsenden US-Investitionen in Europa, die für 1973

b7E

einen Gesamtbuchwert von 35 Mrd. Dollar (=Marktwert von ca. 100 Mrd. Dollar) ausmachen, unterhöhlen die Sicherheit des europäischen Marktes und müssen zugunsten echter Europäisierung der Unternehmen zurückgedrängt werden.

NIXON fordert volle Beteiligung der Europäer an den Verteidigungslasten und meint damit u.a. die Finanzierung der amerikanischen Truppen
in Europa. Wäre NIXON wirklich an einer europäisch-amerikanischen Partnerschaft (s. o.!) gelegen, so könnte er gerade auf diesem Gebiet den
Aberzeugendsten Beweis führen. Das Europa adaquatg Sicherheitsmodell
beinhaltet die Schaffung einer europäischen Verteidigungsunion, die
die Aufgaben in Europa vollverantwortlich wahrnimmt und im Rahmen eines
atlantischen Bündnisses mit dem amerikanischen Partner gegenseitige
Beistandspflichten begrundet. Aber eine solche Alternative hat NIXON
nicht im Auge.

Europa braucht Autonomie auf dem Gebiete der Verteidigung!

NIXON verspricht stattdessen den weiteren Verbleib der das europäische Selbstbewußtsein demütigenden amerikanischen Truppen in Europa, obwohl sie den Nymbus der Abschreckung längst verloren haben. Ehemals Sicherheitsfaktor, erhöhen sie heute ständig die allgemeine Unsicherheit (Zweifel an ihrer Zuverlässigkeit, demoralisierte Soldaten und Offiziere). Alle Anzeichen sprechen dafür, daß sie nicht mehr der Abwehr der Bedrohung durch den Kommunismus dienen, sondern der Sicherung amerikanischer Interessen gegenüber Europa!

Europa braucht keine Fremdherrschaft aus Übersee, die den Kontinent zudem mit Rauschgift, Kriminalität und Unmoral infiltriert.

NIXON erwartet, daß die anachronistischen Forderungen die Europäer durch sein persönliches Engagement sonderlich beeindrucken. Die Reaktion in den europäischen Hauptstädten auf die Vorschläge KISSINGER/NIXON war abwartend und kühl. Die Außenminister der EG haben auf ihrem Treffen im Juni in Luxemburg einmütig festgestellt, daß die EG mit einer Antwort auf die vorgeschlagene Erneuerung der Atlantik-Charta keine Eile hat. Und uns vorliegenden Informationen zufolge besteht kein Zweifel, daß NIXONS Gesprächspartner europäische Standpunkte einnehmen werden.

Europa braucht seine eigene, unverwechselbare und von amerikanischen Attributen freie Identität.

Die Periode der europäisch-amerikanischen Konfrontation ist angebrochen. Die Entfaltung Europas kann ohne Kollisionen mit den USA nicht vorankommen. Selbstverständlich schließt diese Phase der unvermeidlichen Konflikte Zusammenarbeit mit den USA nicht aus, soweit sie in europäischem Interesse erfolgt. Das Gebot der Stunde ist die Konsolicierung europäischer Macht. Europa hat erst begonnen, seine Kraft zu zeigen und sich die gebührende Achtung zu verschaffen.

Europäer, bekundet NIXON und seinen Anhängern die unerschütterliche Entschlossenheit, der europäischen Gemeinschaft den Vorzug vor der Atlantischen Allianz zu geben!

Europäer, zeigt auf vielfältige Weise europäische Identität und macht die tiefe Entfremdung zwischen Europa und Amerika deutlich!

#### Besorgnis erregender Antiamerikanismus"

Im Hauptquartier der amerikanischen Armee in Europa und der 7. Armee in Heidelberg wird das gefährliche Anwachsen des Antiamerikanismus, insbes. im Bereich der 7. US-Armee, mit großer Besorgnis verfolgt. Viele hohe Offiziere begrüßen zwar die Bemühungen in der deutschen Offentlichkeit, die Entwicklung des Antiamerikanismus zu bagatellisieren, betonen aber gleichzeitig, daß sie sich dadurch nicht über das wahre Ausmaß täuschen lassen. Sie hätten in persönlichen Gesprächen, unter anderem auch in den Diskussionsrunden von General DAVISON über deutschamerikanische Beziehungen, den Eindruck gewonnen, daß die deutschen Partner amerikanischen Gedanken immer schwieriger zugänglich werden, ihre Zusagen oft nicht einhalten und deutsche Wünsche stärker als Forderungen artikulieren. Unter solchen Umständen würden die Sympathiekundgebungen als pure Heuchelei empfunden.

Vertreter der Botschaft in Bonn bestätigen, daß im zivilen Bereich ähnliche Beobachtungen gemacht wurden. So verfüge die Botschaft über Beweismaterial, wonach die betr. Meinungsumfragen durch die Institute INFAS und Infratest demart angelegt wurden, daß das Resultat für die Amerikaner zu "ertragen" sei.

#### Heimkehrwillige Offiziere

Der politische Berater von General DAVISON kam kürzlich nicht umhin, seinem Chef "unerfreuliche" Informationen zu präsentieren. So beklagte er, daß sich im Offizierscorps der US-Army in Europa zur Truppenpräsenz und zu ähnlichen Fragen zunehmend solche Meinungen durchsetzen, wie sie u. a. von den Senatoren MANSFIELD (s. Bericht vom 24. 7. dieses Jahres an den Senatsausschuß für Auswärtige Angelegenheiten) und CHURCH (s.letzte unglaubwürdig geworden ist. Seite) vertreten werden. Am häufigsten wird erklärt, daß die militärische Präsenz der USA in Europa

für Amerikas nationale Interessen nicht lebenswichtig ist und daß die Kosten, die die USA für die Stationierung ihrer Truppen in Europa aufbringen müssen, bei anderen Etatposten fehlen. Weiter führte er aus. daß sich die Fälle mehren, in denen US-Offiziere-Verbindungen zu Firmen ihrer Heimatorte für den Fall ihres. Ausscheidens aus der Army aufnehmen (Vgl. Nr. 2/73!).

Derartige Motive und andere Gründe bestimmen zahlreiche Angehörige der amerikanischen Streitkräfte, ihre Angehörigen in die Staaten zurückzuschicken.

Sondervollmachten für den amerikanischen militärischen Nachrichtendienst

In diesen Tagen wurde eine großangelegte Aktion zur Bespitzelung von Segnern der gegenwärtigen amerikanischen Politik durch den amerikanischen militärischen Nachrichtendienst in der Bundesrepublik Deutschland begonnen. Der betroffene Personenkreis umfaßt sowohl Amerikaner, die der Sympathie für die Demokratische Partei der USA oder als segen. Isolationisten verdächtig sind, als auch Deut sche, die mit massiver Kritik an den USA in der Offentlichkeit hervorgetreten sind. Das zur Anwendung gebrac te Instrumentarium reicht vom Telefon **abhören ü**ber fotografische Oberwachun bis zum Offnen der Post. Begründung: \*Prophylaktische Sicherheitsvorkehrungen für den Präsidentenbesuch. Dieser Aktion soll auch später weitergeführt werden.

#### Oberflüssige Nuklearwaffen in Europa

US-Politiker und Militärs sprechen heute offen darüber, daß die Verlegung der Nuklearwaffen nach Europa ohne genügende konzeptionelle Vorplanung erfolgte und nunmehr unter militärischen Gesichtspunkten

Sacramento, California January 6, 1976

JAMES BYRON ANDERSON
Alleged Threats to
Congressional Members
FRANK/CHURCH; V, C7, M
DICK/CLARK; and V, C+, M
JOHN V, TUNNEY

On December 31, 1975, the Sacramento Office of the Federal Bureau of Investigation received a telephone call from an individual identifying himself as James Byron Anderson, date of birth November 25, 1927, home address 2601 D Street, Sacramento. Anderson advised that he was calling in response to the December 31, 1975, Sacramento Union newspaper article entitled "Death Threats to CIA Foes." He advised that the UPI article stated that the FBI was investigating threats to the lives of Democratic Presidential Candidate Fred Harris and three members of Congress, Senator Frank Church and Representatives Otis Pike and Ronald Dellums, and that he felt the FBI was looking for him for writing these letters.

On January 2, 1976, James Byron Anderson voluntarily appeared at the FBI Office, Sacramento, and was interviewed regarding letters that he stated he had written. Anderson was advised of his constitutional rights and consented to interview. Anderson stated that he had been concerned about the shortage of oil and the energy crisis in this country and, as a result, he embarked on a program to lobby against ecology. He advised that he had planned on using a letter writing campaign with a nonexistent organization, the California Professional Society, as a letterhead to add importance to his communications. He stated that he has been sending materials and letters to the same Congressmen since September, 1972, and he does not recall writing anyone else except the above-mentioned Congressmen.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

#### JAMES BYRON ANDERSON

Anderson further advised that on December 19 or 20, 1975, he mailed materials, which included a letter, to Senators Church, Clark and Tunney. The contents of the letter was as follows:

"Honorable Jackass:

"Any man who destroys the security of his country is guilty of treason.

"We are out of oil. Leave the executive branch of government alone or the people will rise up and kill you."

Anderson stated that he meant no threat to the Senators, but that he was only attempting to prove a point. Anderson was admonished for writing letters which could be construed as a threat. In addition, he was advised that it was a federal violation to mail threatening communications. Anderson stated that although he was going to continue his letter writing campaign, that he would refrain from writing any threatening type statements.

VICTOR BYRON BEVERFORD; THREATENING LETTER POSTMARKED RINCON, NEW MEXICO - MARCH 16, 1976 SENATOR FRANK CHURCH - VICTIM EXTORTION

Investigation was initiated upon receipt of a Xerox copy of a letter addressed to Senator FRANK CHURCH, United States Senate, Senate Office Building, Washington, D. C., by the Mashington Field Office of the Federal Bureau of Investigation. This letter reads: "Senator Church, U. S. Senate! Why??? This nation needs you in the Senate like it needs rocks in its head! I said it once. I repeat, you ought to be shot! You and that Commie writer on your committee. Nuff Sed. Vic Beverford, Box 74, Rincon, New Mexico 87940."

Mr. JOHN PAUL JOMES, Agent in Charge, United States Secret Service, Albuquerque, New Mexico, advises this letter was referred to Secret Service Headquarters, Washington, D. C., March 19, 1976, by the Office of Senator CHURCH; and Secret Service Agent Albuquerque, promptly proceeded to Rincon, New Mexico, and talked to Mr. BEVERFORD who admitted writing letter, stating his opinions of CHURCH, and said he never intended any harm to Senator CHURCH.

VICTOR BYRON BEVERFORD is described as a white male American, born December 18, 1898, at Crookston, Minnesota, occupation - retired, weight - 175 pounds.

Assistant United States Attorney

Albuquerque, New Mexico, on April 2, 1976, advised he feels
letter does not constitute a violation under the statute in
view of the explanation by Mr. BEVERFORD and is not a threat.
He further declines in view of the age of the writer of questioned
letter.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency. It and its contents are not to be distributed outside your agency.

#### Result of examination:

Specimen Q1 was searched in the appropriate sections of the Anonymous Letter File without effecting an identification. Appropriate copies have been added to this file for future reference.

Specimen Q1 bears the watermark "FOUR STAR BOND SOUTHWORTH CO. U.S.A. 25% COTTON FIBER." This watermark is registered for the Southworth Company, West Springfield, Massachusetts 01089. Q1 was also examined for indented writing and other physical characteristics by which the source of this specimen could be determined with negative results.

The typewriting on Ql most closely corresponds to standards for IBM Courier style of type spaced ten letters to the inch. This type style is used on both standard and electric machines as well as IBM Selectric models.

Ql has been photographed and is being returned to Washington Field Office separately.

UNKNOWN SUBJECT; THREATENING LETTER, POSTMARKED NOVEMBER 22, 1975, ALTOONA, PA.; SENATOR FRANK CHURCH - VICTIM

The following letter was directed to Senator FRANK CHURCH, Washington, D. C., and was postmarked November 22, 1975, at Altoona, Pa.:

"Which do you value more? The disclosures you are making or the lives of you and your family?

b6 b7C

"Think about it"

The above material was received on November 25, 1975, by the Washington Field Office of the FBI from U. S. Capitol Police, Washington, D. C.

On November 25, 1975, the Liaison Unit of the U.S. Secret Service, Washington, D.C., and the Intelligence Division, Metropolitan Police Department, Washington, D.C., were notified of the contents of the above letter by the Washington Field Office of the FBI.

On January 6, 1976, the FBI Laboratory advised that the envelope and letter addressed to Senator CHURCH were not identified in the Anonymous Letter File, and that nothing of particular significance was noted during the physical examination of the letter which would denote the immediate source of this material. No legible indented handwriting was found.

On January 14, 1976, the Identification Division of the FBI advised that no latent impressions of value were developed on either the envelope or the letter.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaved to your agency; it and its contents are not to be distributed outside your agency.

ENCLOSURE

On January 9, 1976, the Butte Division of the FBI advised that local authorities at Boise, Idaho were advised regarding the threatening letter received by Senator CHURCH.

The office of the U. S. Secret Service, Pittsburgh, and the Police Department, Pittsburgh, have been advised of the contents of the above letter.

b6 b7C

On January 19, 1976, Assistant U. S. Attorney

Western District of
Pennsylvania, Pittsburgh, was contacted in this matter. He was advised of the contents of the letter directed to
Senator CHURCH and as to results of examinations conducted by the FBI Laboratory and FBI Identification Division.

advised that it was his opinion that the prosecutive merit of the letter does not warrant the extensive investigation that would be required to determine the author of the letter. He stated that this is especially true in light of the ambiguous nature of the threat.

#### FEDERAL BUREAU OF INVESTIGATION

San Francisco, California November 7, 1975

UNKNOWN SUBJECT; FRANK CHURCH, U.S. SENATOR - VICTIM, EXTORTION

The United States Capitol Police, Special Investigative Unit, Washington, D.C., referred a letter and an envelope to the Federal Bureau of Investigation, for consideration as a possible violation of the Extortion Statute. The envelope was postmarked October 13, 1975, at San Francisco, California. It bore a return address of 1011 Bryant Street, San Francisco, California. In the lower left portion of the envelope it bore the letters KQED. The envelope was addressed as follows:

Senator Frank Church Congress Washington, D.C.

The printed message in the letter contained the following:

b6 b7C

"Frank, your life is in danger, get your investigative comittee on T.V.

A Friend?"

							KQED,	Inc.,
Channel	9	, San	Francisco,	advised	as	follows:		_

The KQED envelope which contained the letter that threatened Senator Church can be obtained by several hundred individuals who are employed at KQED. KQED, which is an educational type station, also has a yearly auction at the Cow Palace in San Francisco and several thousand people attend this auction. KQED has numerous visual aids on display, b7c as well as KQED stationery and KQED envelopes. As well as educational programming, the station also has several news programs on their daily schedule. \_\_\_\_\_ could not provide any information as to the individual who may have submitted the threatening letter.

Television Operations,
KQED, Inc., Channel 9, advised as follows:
Senator Church was in the Bay Area and San Francisco on September 29, 1975. Senatur Church gave several speeches while in the Bay Area. On September 29, 1975, Senator Church gave a speech at the Fairmont Hotel in San Francisco. There are two business addresses for KQED, one at 1011 Bryant Street, San Francisco, which is the administrative offices, and a production building at 524 Fourth Street, San Francisco, KQED envelopes are available at both buildings. KQED has some employees who do not receive pay from the station. They work for free. All of these people would also have access to above referenced envelopes. In essence, several hundred people would have access to these envelopes.  KQED, interviewed
Senator Church b6
stated he could provide no information as to whom
may have sent referenced threatening letter to Senator Church.
Channel 9, advised as follows:
He interviewed Senator Church and stated that the interview went quite smoothly. There were no disruptions or anything unusual surrounding the interview. could not provide any information as to whom may have sent referenced threatening letter to Senator Church.
was interviewed on October 31, 1975, but could provide no information as to whom may have sent the threatening letter to Senator Church.
On November 4, 1975,, San Francisco Police Department, Intelligence Division, was notified of the above threat.
On November 4, 1975, U.S. Secret Service Agent, was notified of the above threat.

PETER E. BABALAS, 164 West Belvidere Road, Norfolk, Virginia, advised that he is not acquainted with either CHARLES L. MC CORMICK, III or WILLIAM DOUGLAS SHEPHERD. He stated he has not received any obscene or threatening post cards, letters, or telephone calls in the past.

BABALAS advised he is a State Senator and as such his name frequently appears in the news media. State Senator Henry E. Howell earlier telephoned him concerning an obscene and threatening post card that had been directed to them through the mails. He stated he could furnish no information concerning the source of this post card but did not feel particularly disturbed about the matter.

BABALAS advised he would immediately contact the Federal Bureau of Investigation should he receive any further communications.

The following description of BABALAS was obtained through observation and interview:

. CHARLES L. MC CORMICK IXI, Commonwealth's Attorney,
Halifax County Virginia, was interviewed by Special Agents
and who identified themselves
to MC CORMICK as Special Agents of the Federal Bureau of Investi-
gation At the outset of this interview, MC CORMICK was advised
by SA that he was being interviewed concerning his possible
involvement in regards to violation of the Federal Extortion
Statute, in which a threatening obscene communication was deposited
in the U.S. mails, postmarked February 17, 1971, Greensboro,
North Carolina, and addressed to Virginia State Senators HENRY
E. HOWELL, JR., and PETER K. BABALAS.

MC CORMICK was warned of certain rights, and he waived them, as shown on an executed warning and waiver form.

CHARLES L. MC CORMICK III emphatically denied any knowledge concerning aforementioned communications, stating he has not been in Greensboro, North Carolina, for approximately 18 months.

Mr. MC CORMICK advised that he had been previously interviewed by the U.S. Secret Service within the past year, concerning similar incidents.

Mr. MC CORMICK stated it is his opinion that one WILLIAM DOUGLAS SHEPHERD, 836 North Main Street, South Boston, Virginia, is the individual responsible for writing obscene threatening communications and affixing his, MC CORMICK's, name, to this correspondence.

MC CORMICK said he had become acquainted with WILLIAM DOUGLAS SHEPHERD the past year, during which period he had prosecuted numerous cases in Halifax County, Virginia, in which SHEPHERD was either plaintiff or defendant.

SHEPHERD, according to MC CORMICK, has not been satisfied as to how many of above cases were handled, and has since become a chronic letter writer and nuisance to virtually all officials of Halifax County.

On March 3, 1971, the Charlotte Office of the FBI advised that a similar post card postmarked Durham, North Carolina, date illegible, had been directed to Senator B. EVERETT JORDAN, Democrat, North Carolina, at the Duke University Hospital, North Carolina, where he is recuperating from an operation.

On March 2, 1971, the Charlotte Office of the FBI advised that a review of their files indicated the following information:

In February, 1963, WILLIAM DOUGLAS SHEPHERD was a Departmental Applicant for the position of Correctional Officer at the National Training School in Washington, D.C. It was shown that SHEPHERD was born February 16, 1931, in South Boston, Va., and was 6'4" tall, weighing 235 pounds, had blue eyes and brown hair. At the time of his application he was residing in Richmond, Va., and was employed by the Virginia State Penitentiary, 500 Spring Street, Richmond, Va., as a guard.

It was shown that he received his high school education in South Boston, Virginia. He attended Elon College near Greensboro, North Carolina, from March 1956 to May, 1958. For four months during 1961 and one month in 1962 he was employed by the North Carolina Prison Department serving at prison units at Yanceyville, High Point and Raleigh. It should be noted that guards at prison units in North Carolina normally reside in the prison compounds. The file revealed that in 1963 his mother, Mrs. JANTE NORWOOD SHEPHERD. resided at South Boston, Va. He had a

He listed three references, all of whom resided in South Boston, Va.

On February 26, 1971, Mr. JOHN H. GRIMES, Special Agent in Charge, U.S. Secret Service, Charlotte, North Carolina, advised that his files indicate that Postmaster at Greensboro, and Ruffin, North Carolina, forwarded to the Postal Inspector in Atlanta some typed postal cards bearing the name of CHARLES L. MC CORMICK, which were addressed to Vice President AGNEW, Senator MUSKIE, Senator FULBRIGHT, and to Governor RONALD REAGAN, and possibly others. He stated these cards were obscene in nature with indications of homosexuality. He stated that WILLIAM DOUGLAS SHEPHERD of South Boston, Va., was developed as a suspect. He advised that his files is incomplete, inasmuch as the main office handling the investigation for Secret Service is located in Richmond, Va.

On March 5, 1971, the headquarters of the FBI advised that similar post cards had been directed to Senator JACOB K. JAVITS, Republican, New York and Secretary of Agriculture CLIFFORD N. HARDIN. The post card to JAVITS was dated March 3, 1971, and HARDIN March 1, 1971, both at Durham, North Carolina.

On March 5, 1971, the Charlotte Office of the FBI advised the following information:

The Charlotte Office has separately forwarded the original post cardto the FBI Laboratory by letter dated March 5, 1971, requesting appropriate typewriter and Latent Fingerprint examination.

The Durham Police Department and the Director of Security at Duke University Hospital, Durham, North Carolina, were notified by SA at approximately 7:20 p.m., March 2, 1971, concerning the receipt of this post card by Senator JORDAN.

JOHN H. GRIMES, Special Agent in Charge, U. S. Secret Service. Charlotte. North Carolina, was notified by Special Agent at 10:00 a.m., March 3, 1971, concerning receipt of this post card by Senator JORDAN.

On March 5, 1971, JOHN H. GRIMES, Secret Service, telephonically advised that his records reflect that as of June 1, 1970, WILLIAM DOUGLAS SHEPHERD resided in South Boston, Virginia; and as of May, 1970, his resided at resided at is reported to

On March 9, 1970, the headquarters of the FBI advised that a similar post card, postmarked Durham, North Carolina, March 1, 1971, had been mailed to Congressman JAMES G. O'HARA, Democrat, Michigan, which was intercepted at the House of Representatives Post Office.

On March 9, 1971, the Charlotte Office of the FBI advised as follows:

On March 8, 1971, Mr. JOHN H. GRIMES, Special Agent in Charge, U. S. Secret Service Office, Charlotte, North Carolina, telephonically advised that his office had received from the State Bureau of Investigation (SBI), Raleigh, N.C., two cards postmarked at Durham, N.C., March 1, 1971, which were prepared on a typewriter and contained the same message as previous cards received in this case, including the name of CHARLES L. MC CORMICK, Halifax, Va.. One of these cards was addressed to Governor ROBERT W. SCOTT of North Carolina, and the other to Administrative Assistant to Governor SCOTT. He stated the SBI requested that the cards be returned to their office. In view of the investigation being conducted by the SBI in this matter, the original cards are not being obtained.

Mr. GRIMES stated that he is not aware of the status of the Secret Service investigation which is being conducted out of the Richmond Office regarding similar cards previously mailed to Vice President AGNEW and other federal officials. He stated, however, that investigation by Secret Service has indicated that the unknown subject must use gloves in handling the cards, as no latent fingerprints of value have been found on any of the cards. He stated suspect WILLIAM DOUGLAS SHEPHERD reportedly is on federal parole and under the supervision of the Federal Probation Office at Danville, Va.

On March 9, 1971, headquarters of the FBI advised that similar post cards had been received by Associate Justices of the Supreme Court WILLIAM J. BRENNAN, JR. and HARRY K. BLACKMUN jointly and another to Senator VANCE HARTKE, Democrat, Indiana. Both were postmarked Durham, North Carolina.

. 1

On March 9, 1971, the Washington Field Office of the FBI advised that similar post cards had been directed to Senator FRANK CHURCH, Secretary of Commerce MAURICE H. STANS, Secretary of Housing and Urban Development GEORGE ROMNEY and LAWRENCE F. O'BRIEN, Democratic National Chairman.

On March 12, 1971, the Richmond Office of the FBI furnished the following information:

WILLIAM DOUGLAS SHEPHERD, principal suspect in this matter was arrested by United States Secret Service Agents and postal authorities, March 12, 1971, at South Boston, Virginia.

The arrest warrant and search warrant obtained by U. S. Secret Service were authorized by Assistant United States Attorney, Western District of Virginia and warrants issued U.S. Commissioner, Danville, Virginia, charging WILLIAM DOUGLAS SHEPHERD with violation of Title 18, Section 871, threatening the life of the President, and violation Title 18, Section 1461, sending obscene matter through the U. S. Mail, in warrants executed March 12, 1971, by the above agencies.

Search of residence disclosed a portable console typewriter and search of premises is continuing.

SHERPHERD appeared before U.S. Commissioner EARLE GARRETT, III, Danville, Va., March 12, 1971, who set bond at \$15,000 and scheduled preliminary hearing for March 26, 1971. U. S. Marshal notified and SHEPHERD incarcerated Danville City Jail. U. S. Secret Service advised SHEPHERD expected to make bond March 12, 1971, or March 13, 1971.

On March 4, 1971, the Albany Office of the FBI advised that a similar post card had been directed to Governor NELSON and HAPPY ROCKEFELLER, Albany, New York, This post card was postmarked March 1, 1971, at Durham, North Carolina.

MILLER there was no record in her files of WILLIAM DOUGLAS SHEPHERD being a patient at that hospital. On March 16, 1971, the Charlotte Office of the FBI furnished the following information: On March 15, 1971 |VA Hospital, h6 Durham, North Carolina, advised a check of the records b7C indicated WILLIAM DOUGLAS SHEPHERD was not currently a patient at the VA Hospital. On March 16, 1971,\_\_ advised SHEPHERD had come to the VA Hospital on March 15, 1971, and was seen by Staff but was not admitted. Psychiatrist notations reflected SHEPHERD was seen at b6 the VA Hospital in November, 1969, at which time he was b7C involved in Federal legal problems. He looked like a sociopathic and was labeled untreatable. A report was sent to the Federal Probation Officer at that time.

SHEPHERD looked and acted as he did at the previous visit. He had no idea why they were after him as he did not do anything. impression was as before, that SHEPHERD was untreatable and that it was not appropriate that he be hospitalized at the VA Hospital. The hospital at St. Elizabeth was the proper place to obtain a pre-sentence evaluation. Hospitalization at the VA Hospital, Durham, North Carolina, was not indicated. diagnosed SHEPHERD as sociopathic.

Hospital records indicate SHEPHERD was born February 16, 1931, has Social Security Account Number 227-32-8285, served in U, S. Coast Guard from September 10, 1951, to March 11, 1954, Serial Number 298386, and received 10 per cent service-connected disability for eye condition.

SHEPHERD was not admitted VA Hospital, Durham, North Carolina, March 15, 1971.

On March 17, 1971, the headquarters of the FBI advised that similar post cards had been directed to Senator GAYLORD NELSON, Democrat, North Carolina, and JOHN VOLPE, Secretary of Transportation. Both post cards were postmarked Durham, North Carolina.

On March 19, 1971, the Washington Field Office of the FBI advised of a similar post card directed to ELLIOT RICHARDSON. This was postmarked at Durham, North Carolina, March 1, 1971.

Ql and QZ were compared in the Anonymous Letter File, but no identification was effected. Appropriate photographs will be added to the file for future reference.

The typewriting on QL and QZ conforms most closely to the Laboratory standard for Remington pica type, specifical ten letters to the inch. It was noted that the typewriter impressions on QL and QZ are of the same size and style and have a limited number of characteristic defects in counca which suggest the possibility that the typewriter impressions on the two specimens were prepared by the same typewriter; however, the characteristic defects are too limited to pursue any definite conclusion.

On March 23, 1971, the facts of this case were presented to Assistant United States Attorney

Norfolk, Virginia, who advised he would not consider prosecution even if WILLIAM DOUGLAS SHEPHERD was positively identified as the sender of the obscene and threatening post card to State Senators HOWELL and BABALAS. He stated he felt the ends of justice seemed to be served in the prosecution of SHEPHERD on federal violations of threatening the president and sending obscene matter through the U. S. Mails. He felt the proper venue for any federal prosecution would more probably lie where the majority of the cards were mailed, that is Durham, North Carolina, or where the bulk of them were directed, that is Washington, D.C.

Re Norfolk report of SA

As set out in referenced report, no further investigation is outstanding at Norfolk, and the AUSA at Norfolk, Va. has declined prosecution. He felt the proper venue for any federal prosecution concerning Extortion violations would more properly lie where the majority of the cards were mailed, that is, Durham, N.C., or where the bulk of them were directed, that is, Washington, D.C. It is further noted that the main suspect in this matter, WILLIAM DOUGLAS SHEPHERD, resides within the territory of the Richmond Division.

VA In view of the above, it is recommended that the Norfolk Office no longer be deemed Office of Origin and that the Bureau should designate Office of Origin.

Suspect WILLIAM DOUGLAS SHEPHERD SHOULD BE CONSIDERED MENTALLY UNBALANCED AND ARMED AND DANGEROUS.

Re Richmond airtel to Bureau dated 3-25-71, and report of SA at Norfolk dated 3-24-71

For information of the Bureau and all receiving offices, United States Probation Officer Virginia, advised that the findings of Richmond, Virginia, physician of suspect WILLIAM DOUGLAS, SHEPHERD, indicate there is

reasonable cause to believe that SHEPHERD may be presently so mentally incompetent as to be unable to understand the proceedings against him or properly assist in his own defense and that he may have suffered from a mental disease or defect at time of alleged offenses.

stated that on April 8, 1971, WILLIAM DOUGLAS SHEPHERD brought before United States District Judge TED DALTON, Western District of Virginia, who, based on above information, ordered that WILLIAM DOUGLAS SHEPHERD be placed in the custody of the Attorney General of the United States for a period not to exceed 90 days, during which time he shall be examined as to his mental condition by a qualified. pychiatrist to be designated by the Attorney General.

advised that on April 10, 1971, a Deputy United States Marshal transported WILLIAM DOUGLAS SHEPHERD to

Re Richmond letter to Bureau. 7/1

Mr. WILLIAM H. FULLER, Commonwealth's Attorney, Danville, Va., advised WILLIAM DOUGLAS SHEPHERD, suspect in captioned matter, indicted by local Grand Jury Halifax, Va., 7/19/71, and arrested at his residence same date.

FULLER said SHEPHERD was charged under State Statute regarding "writing, composing, and sending threatening letters through the mail." Above charges stem from threatening letters SHEPHERD allegedly sent to several Virginia State Officials.

Mr. FULLER stated a court-appointed doctor examined SHEPHERD and recommended SHEPHERD be committed to Central State Hospital, Petersburg, Va., for observation and tests, for a period not to exceed 90 days.

On 7/21/71, Halifax County Sheriff's Office Deputies delivered SHEPHERD to Central State Hospital.

Richmond will follow and report all pertinent developments.

During the period of February and March, 1971, typewritten threatening and obscene postcards addressed to the victims as captioned were either received by them or intercepted by officials of the United States Post Office. These postcards were postmarked primarily in Winston-Salem, Greensboro and Durham, North Carolina, a number of the cards addressed to different individuals being postmarked in the same city at the same time. All the cards bore the purported signature of CHARLES L. MC CORMICK, III.

CHARLES L. MC CORMICK, III, Commonwealth Attorney, Halifax County, Halifax, Virginia, advised on February 19, 1971, that he emphatically would deny addressing or causing to be mailed any of the above mentioned postcards. He stated that he had previously been interviewed by the United States Secret Service within the past year concerning similar incidents. Mr. MC CORMICK stated it was his opinion that one WILLIAM DOUGLAS SHEPHERD, 836 North Main Street, South Boston, Virginia, was the individual responsible for writing obscene threatening communications and affixing his, MC CORMICK's, signature to this correspondence.

MC CORMICK stated that he became acquainted with SHEPHERD during the past year during which period he had prosecuted numerous cases in Halifax County, Virginia in which SHEPHERD was either plaintiff or defendant. SHEPHERD, according to MC CORMICK, had not been satisfied as to how many of the above cases were handled, and he has since become a chronic letter writer and a nuisance to virtually all the officials of Halifax County.

WILLIAM DOUGLAS SHEPHERD was contacted at his residence, 836 North Main Street, South Boston, Virginia, by Special Agents of the Federal Bureau of Investigation, and he refused to be interviewed, stating through a closed glass storm door, that agents were not there "to help" him and stated agents should send him a letter.

On March 5, 1971, JOHN H. GRIMES, Special Agent in Charge, United States Secret Service, Charlotte, North Carolina, telephonically advised that his records reflect that as of June 1, 1970, WILLIAM DOUGLAS SHEPHERD resided in South Boston, Virginia; and as of May, 1970,  resided at  He stated that	ь6 ь7с
is reported to be a respected textile businessman.	
Mr. GRIMES stated his files indicate WILLIAM DOUGLAS SHEPHERD has been examined by a psychiatrist on three occasions, but his files do not reflect the results. He stated one reason SHEPHERD was developed as a suspect is the fact that previously some obscene cards were written bearing the name of	ь6 ь7с

WILLIAM DOUGLAS SHEPHERD, principal suspect in this matter, was arrested by United States Secret Service Agents and postal authorities, March 12, 1971, at South Boston, Virginia.

The arrest warrant and search warrant obtained by United States Secret Service were authorized by Assistant United States Attorney, Western District of Virginia, and warrants issued by United States Commissioner, Danville, Virginia, charging WILLIAM DOUGLAS SHEPHERD with violation of Title 18, Section 871, threatening the life of the President, and violation of Title 18, Section 1461, sending obscene matter through the United States Mail, in warrants executed March 12, 1971, by the above agencies.

SHEPHERD appeared before United States Commissioner EARLE GARRETT, III, Danville, Virginia, March 12, 1971, who set bond at \$15,000 and scheduled preliminary hearing for March 26, 1971. The United States Marshal was notified and SHEPHERD was incarcerated in Danville City Jail. United States Secret Service advised SHEPHERD expected to make bond March 12, 1971 or March 13, 1971.

	_
	Clerk, United States District
Court, Western District of Virg	ginia, Roanoke, Virginia,
advised that by communication d	dated June 22, 1971, addressed
to t <u>he United States District (</u>	Court. Western District of Virginia
from	St. Elizabeth's b6
Hospital, Washington, D. C., th	ne following information concerning "
WILLIAM DOUGLAS SHEPHERD was co	ontained therein:

SHEPHERD "diagnosed schizophrenia paranoid type, and is competent for trial by virtue of having a factual and rational understanding of the proceedings pending against him and being able to consult with counsel with a reasonable degree of rational understanding.

"Furthermore, on or about the time of the alleged offenses, he was suffering from a mental disease which interfered with his mental and emotional processes and his behavior controls so that he was not able to conform his behavior to the requirements of the law."

Mr. WILLIAM H. FULLER, Commonwealth's Attorney, Danville, Virginia, advised WILLIAM DOUGLAS SHEPHERD, suspect in this matter, was indicted by local Grand Jury, Halifax, Virginia, on July 19, 1971, and arrested at his residence the same date.

FULLER said SHEPHERD was charged under State Statute regarding "writing, composing, and sending threatening letters through the mail." The above charges stem from threatening letters SHEPHERD allegedly sent to several Virginia State officials.

Mr. FULLER stated a court-appointed doctor examined SHEPHERD and recommended SHEPHERD be committed to Central State Hospital, Petersburg, Virginia, tor observation and tests, for a period not to exceed ninety days.

On July 21, 1971, Halifax County Sheriff's Office Deputies delivered SHEPHERD to Central State Hospital.

The facts in this matter were discussed with United States Attorney WILLIAM L. OSTEEN, Middle District of North Carolina, Greensboro, North Carolina, on August 25, 1971, at which time he stated that he would decline prosecution in view of the pending prosecution in Virginia and also in view of subject's mental condition.

SUSPECT WILLIAM DOUGLAS SHEPHERD SHOULD BE CONSIDERED MENTALLY UNBALANCED AND ARMED AND DANGEROUS.

Re Charlotte letter with enclosed LHM to the Bureau 9/8/71 and Richmond letter to the Bureau 9/15/71.

AUSA, Western District of Virginia, advised no action regarding Federal charges pending against WILLIAM DOUGLAS SHEPHERD has been taken to date.

stated his office is currently following the local prosecution of SHEPHERD in Halifax County, Virginia, but no decision will be reached as to what course of action regarding Government's case against SHEPHERD until local charges are resolved.

stated the Federal indictment concerning SHEPHERD is a two count indictment, charging SHEPHERD with violations within the jurisdiction of the U. S. Secret Service and U. S. Postal Service, and it is not anticipated that the indictment will be amended to include violation of Federal extortion statute, falling within the Bureau's jurisdiction.

SUBJECT:

UNSUB, aka Charles L. McCormick, III; HENRY EVANS HOWELL, JR. - VICTIM; ET AL EXTORTION OO: CHARLOTTE

Re Bureau O-1 Form dated 3/16/72, returned herewith.

WILLIAM DOUGLAS SHEPHERD, the principal suspect in this matter, resides in South Boston, Va., and has been charged by the U. S. Secret Service with violations of Sections 871 and 1461, Title 18, USC, and was taken into custody by that agency on 3/12/71. Since that time SHEPHERD has been subjected to extensive psychiatric examination, which revealed that while he is competent for trial by virtue of having a factual and rational understanding of the proceedings and an ability to consult with counsel he was suffering from a mental disease on or about the time of the alleged offenses which interfered with his mental and emotional processes to such an extent that he was not able to conform his behavior to the requirements of the law.

The USA, MDNC, declined prosecution concerning SHEPHERD and this case was summarized in a letterhead memorandum dated 9/8/71, copies of which were furnished to the Bureau by a closing letter.

Richmond Division has subsequently been following the state and Federal charges against SHEPHERD, which are still pending and may not be resolved for a considerable length of time in view of SHEPHERD's mental status

An AUSA in the Western District of Virginia has stated that the Federal indictment against SHEPHERD concerns violations within the jurisdiction of the U. S. Secret Service and it is not anticipated that the indictment will be amended to include the Federal Extortion Statute. He further indicated that the Federal Government will not reach a decision concerning prosecution on this indictment until the state charges are resolved.

In view of the foregoing, there appears to be no further action to be taken in this matter, and this case will be retained in a closed status, UACB.

b7C Special Agent, U. S. Secret Service, Treasury Department, 400 North 8th Street, Richmond, Virginia, was contacted and stated that he has a current investigation concerning one WILLIAM DOUGLAS SHEPHERD. furnished the following information from his investigative file: U. S. Secret Service has been investigating SHEPHERD since February, 1970, for writing threatening letters to important political persons. SHEPHERD was developed as a b6 b7C suspect inasmuch as letters and postcards, were supposedly from Commonwealth Attorney, Halifax, Virginia. A review of pending prosecution cases determined was prosecuting a case against SHEPHERD for obtaining money under false pretenses. Subsequent investigation determined that SHEPHERD had been arrested for cashing forged checks. An examination of these checks by Intelligence Division, Treasury Department, 1800 G Street, Washington, D. C., determined that the checks were typed on the same typewriter that had been used in writing the threatening letters and postcards. Investigation to date has failed to locate the typewriter in question but it is believed to be in the possession of SHEPHERD. Postcards bearing obscene typewritten messages and signed Virginia, have been sent to President NIXON; Vice President AGNEW; Senator FULBRIGHT; Senator MUSKIE and Governor REAGAN. stated that SHEPHERD is currently on Federal propation rollowing a conviction for mail fraud. said conviction a result of case #69-CR-20-D. U. S. District b7C Court, Western District of Virginia, Danville, Virginia. further stated his investigation determined that a psychiatric examination of SHEPHERD showed him to be a psychopathic personality. stated that he and other U. S. Secret Service Agents have attempted to interview SHEPHERD without success. He added SHEPHERD is very belligerent and his sister-in-law has furnished information that Richmond, Virginia Richmond 9b7C 2/19/71

This document contains neithed recommendations not conclusions of the FBI. It is the property of the FBI and is loaned to your agency it and its contents are not to be distributed outside your agency.

SHEPHERD has stated he will kill any Federal agent who comes to see him again. stated he has received information that SHEPHERD is carrying a gun in his car; **b**6 however, has not been able to substantiate this. b7C stated that the obscene typewritten cards believed to be produced by SHEPHERD are always typewritten and most of them are mailed from Greensboro, North Carolina. Laboratory examination has failed to develop any latent fingerprints belonging to SHEPHERD. Laboratory examinations have shown fibers under tape which indicate that the writer has used gloves while writing the cards and letters. stated that the originals of all cards as well as forged checks would be on file with the Intelligence Division, Treasury Department, 1800 G Street, Washington, D. C. furnished the following physical description and background information concerning SHEPHERD:

MAY 1942 EDITION GSA GEN, REG, NO. 27 UNITED STATES GOVERNMENT Memorandumb7C TO DATE: 2/19/71 DIRECTOR, FBI (ATTN: FBI LABORATORY) FROM SAC, NORFOLK (9-608) (P) SUBJECT: UNSUB; HENRY E HOWELL, JR. - VICTIM PETER K. BABLAS - VICTIM EXTORTION (00:NF) Re Norfolk teletype to Bureau, Charlotte, and Richmond dated 2/18/71. Enclosed herewith for the Bureau are an original and one copy of obscene post card. Enclosed herewith for Richmond and Charlotte are copies of the obscene post card, which is self explanatory. The AUSA; Norfolk is considering prosecution of the Unsub if identified. Instant post card was intercepted in the US Post Office, Norfolk, Virginia, on 2/18/71 by Clerk HUSTON GRANT PENDERGRASS, born 8/19/15, Springfield, Illinois, Army Serial Number 337-42-488. Prior to its being turned over to the Norfolk Office, the post card was also handled by FRANK KENNETH NOCK, born 11/19/16, Hampton, Virginia, Army Serial Number 011-87-123, and HOWARD RANDALL LESNER, born 6/5/15, Norfolk, all US Post Office employees. As pointed out in referenced teletype, the US Secret Service, Norfolk, has advised that the Secret Service Office, Richmond, Virginia, feels that the Unsub is WILLIAM DOUGLAS SHEPARD, South Boston, Virginia, inasmuch as SHEPARD has written similar typewritten letters to the President and other Government officials. According to **b6** Secret Service, he is probably on probation at Halifax, Virginia, for writing one of these letters. Secret Service, Richmond, has a voluminous file on him and this file contains some of the typewritten letters he has written before. It was noted that the - Bureau (Encls. 2)(km) Richmond (Encl. 1) Charlotte (Encl. Worfolk/

post card, is the Commonwealths Attorney at who prosecuted SHEPARD in the past. Secret Service also advised that SHEPARD is mentally unbalanced and should be considered dangerous.

In referenced teletype, Richmond was requested to interview victims HOWELL and BABLAS, who are Norfolk attorneys and Virginia State Senators presently attending the current session of legislatorein Richmond.

An information copy is being furnished Charlotte inasmuch as Charlotte may be requested to conduct investigation later.

# REQUEST OF LABORATORY & Delland frenches Lice

The fab is requested to process the post card for latent fingerprints, noting that the post card was known to have been handled by the above three mentioned postal employees. It is also requested that an examination be conducted in an effort to identify the subject through the typing, noting that Richmond will be requested to forward the referenced typewriting samples from the Secret Service file. The Lab is requested to conduct these examinations and forward same to Norfolk, in order that results can be submitted in report form.

Card postmarked Greensboro, North Carolina. United States (U.S.) Secret Service, Metropolitan Police Department (MPD), Intelligence Squad, and U.S. Capitol Police advised. Enclosed for Charlotte, Norfolk and Richmond is one copy each of this postcard.

For information of Charlotte, Norfolk and Richmond, original postcards received by MILLS and ROGERS have been submitted to the Laboratory and Identification Division previously.

Review of WFO File 77-76578 reflects that Charlotte, Norfolk and Richmond should have copies of WILLIAM DOUGLAS SHEPHERD's application for employment as a Correctional Officer, National Training School, WDC, which was closed in 1967. This application contains complete description and background information. It should be noted that SHEPHERD shows residence from August, 1961 through May, 1962, in Raleigh, High Point, and Yanceyville, North Carolina, as a prison guard. He also lists a brother, VICTOR NORWOOD SHEPHERD, born 1926, address Greensboro, North Carolina.

### REQUEST OF THE BUREAU

The Laboratory and Identification Division are requested to conduct appropriate examinations of original postcard.

### <u>LEADS</u>

### CHARLOTTE

AT GREENSBORO, NORTH CAROLINA. Determine if VICTOR NORWOOD SHEPHERD still resides Greensboro, North Carolina.

### WASHINGTON FIELD

AT WASHINGTON, D.C. (1) Will attempt to locate original application SHEPHERD submitted as Departmental

WFO 9-2746

Applicant in 1963 and will submit to Laboratory if located.

(2) Will contact Intelligence Division, U.S. Secret Service for information regarding their investigation this matter.

SUSPECT SHEPHERD SHOULD BE CONSIDERED MENTALLY UNBALANCED AND ARMED AND DANGEROUS.

Q2 U. S. postal card postmarked "GREEUSDORO, NC 2D -AM FED 1 71." bearing typewritten address "House Republican Leader Gerald R. Ford Fanhington, D.C." and bearing on reverse side the typesritten message beginning "I am ..." and ending "... kill her too."

### Result of examination:

OI and O2 were consered in the Ananymous Letter File. But no identification was effected. Appropriate photographs will be added to the file for future reference.

The typearities on QL and Q2 conforms most closely to the Laboratory standard for Resington pica type, spaced ten letters to the inch. It was noted that the typewriter impressions on Q1 and Q2 are of the same size and atyle and have a limited number of characteristic defects in common which suggest the possibility that the typesriter impressions on the two specimens were prepared by the same typesriter: hovever, the characteristic defects are too limited to permit any definite conclusion.

UNKNOWN SUBJECT; SENATOR B. EVERETT JORDAN - VICTIM EXTORTION

Senator B. EVERETT JORDAN, Democrat - North Carolina, was interviewed at Duke Medical Center, Durham, North Carolina, on March 2, 1971, at which time he furnished a typewritten postcard which he stated he received in the hospital mail on March 2, 1971.

b6 b7C

Na. The message on the postcard was obscene and contained the statement that the writer would kill Senator JORDAN if he did not do as instructed. A copy of the contents of the entire postcard is attached to this memorandum as an enclosure.

Senator JORDAN advised he has never received a letter or postcard of this kind before, and could furnish no further information concerning it nor could he furnish any persons suspected of writing the card.

b6 b7C

On March 2, 1971, Detective Captain

Police Department, Durham, North Carolina, and

Director of Security, Duke University Hospital,
which includes Duke Medical Center, Durham, were notified
concerning the postcard received by Senator JORDAN.

On March 3, 1971, a representative of the U. S. Secret Service, Charlotte, North Carolina, was informed concerning the postcard received by Senator JORDAN.

It was shown that he received his high school education in South Boston, Virginia. He attended Elon College near Greensboro, N. C., from March 1956 to May 195 For four months during 1961 and one month in 1962 he was employed by the N. C. Prison Department serving at prison units at Yanceyville, High Point and Raleigh. It should be noted that guards at prison units in N. C. normally reside in the prison compounds. The file revealed that in 1963 his mother, Mrs. JANIE NORWOOD SHEPHERD, resided at South Boston, Va. He had a brother, VICTOR NORWOOD SHEPHERD, born in 1926, who resided in Greensboro, N. C., address no given,
resided at an unspecified address in Richmond, Va.  He listed three references, all of whom resided South Boston, Va.
On 2/26/71, Mr. JOHN H. GRIMES, Special Agent in Charge, U. S. Secret Service, Charlotte, N. C., advised th his files indicate that Postmaster at Greensboro and Ruffi N. C., forwarded to the Postal Inspector in Atlanta some typed postal cards bearing the name of which were addressed to Vice President AGNEW, Senator MUSK Senator FULBRIGHT, and to Governor RONALD REAGAN, and poss others. He stated these cards were obscene in nature with indications of homosexuality. He stated that WILLIAM DOUG SHEPHERD of South Boston, Va., was developed as a suspect. He advised that his file is incomplete, inasmuch as the ma office handling the investigation for Secret Service is located in Richmond, Va.

### Result of examination:

It was determined that the questioned typewriter impressions on Q9 through Q15 and Q20 through Q23 were prepared by a typewriter or typewriters equipped with Remington pica style of type, spaced ten letters to the inch. It was further determined that this is the same style and size of type used to prepare the questioned typewriter impressions on Q1 through Q8, previously submitted in this case. Although a limited number of characteristics in common were noted in the questioned typewriter impressions on Q1 through Q15 and Q20 through Q23, it was not possible to definitely determine whether the same typewriter was or was not used in the preparation of those specimens due to the limited nature of the characteristic defects. No significant differences were noted in the typewriter impressions on those specimens.

It was determined that the typewriter impressions on checks Q16 through Q19 were not prepared by the same typewriter or typewriters used to prepare the typewriting on the remainder of the specimens submitted in this case. The typewriter impressions on checks Q16 through Q19 were prepared in a different style of type than that on the remaining specimens.

Page 3 D-710310014 MS (continued on next page)

No indented writings of significance, watermarks, or other significant features were noted in an examination of Q9 through Q23 which would aid in determining there immediate source.

Q9 through Q23 were photographed. Q9 through Q15 and Q20 through Q23 are retained temporarily. Q16 through Q19 are returned to Richmond with copies of this report.

Halifax, Va. WILLIAM DOUGLAS SHEPHERD of South Boston, Virginia, has been developed as a suspect. He reportedly is mentally unbalanced. South Boston, Virginia, is located near the North Carolina line and is a relatively short distance from Greensboro and Durham, N. C.

All investigation to date points strongly to WILLIAM DOUGLAS SHEPHERD of South Boston, Va., as the UNSUB in this case. The large quantity of postcards which have been mailed and the post marks on the cards suggest that they are prepared in advance and mailed in groups. Under the assumption that SHEPHERD is the UNSUB, the overall circumstances would suggest that he prepares the postcards in South Boston, Va., and periodically travels to North Carolina for the purpose of mailing them. They are usually mailed on weekends. It would, therefore, appear that investigation and possibly surveillance of SHEPHERD is in order. The possibility exists that he could be surveilled to a Post Office or a Post Office Box and observed to mail some of the cards, which could then be recovered.

### REQUEST OF THE BUREAU

The FBI Laboratory is requested to examine the original postcards which have been previously forwarded for examination to determine if they are all prepared on the same typewriter, and further to provide a description of the make of typewriter, in order that investigation may be conducted in the South Boston, Va., area to locate the typewriter used by the UNSUB.

### NOTE:

This case concerns the mailing of obscene threatening postcards signed Virginia, to several high-placed persons in local and Federal Government. One William Douglas Shepherd is a suspect. Charlotte advised that USA Greensboro, North Carolina, stated mailing of instant cards appears to be violation of Postal and Extortion Statutes, but of the opinion prosecution should be pursued where majority of postcards received. The majority of postcards were mailed from Durham, North Carolina, and accordingly to Title 18, Section 3239, USC, which states in substance that the defendant has the right to be tried in the district in which the matter was mailed.

in the past five years and knows that he is not welcome at their residence. They have received no information or indication that he has been in the Greensboro or other North Carolina areas during February or March 1971. They last saw him at Christmastime 1970 at his mother's home in South Boston, Va., where he resides. At that time they thought he needed psychiatric treatment. WILLIAM DOUGLAS SHEPHERD told his brother, VICTOR, "I'm driving these lawyers crazy around here, and they can't do anything about it."

VICTOR SHEPHERD stated that WILLIAM SHEPHERD has no visible means of support except for some type of illegal loan shark business, which he apparently operates with disreputable persons.

He stated that four or five years ago WILLIAM SHEPHERD bought stock on margin using a fictitious name and information in an amount valued up to about \$110,000, for which he was unable to pay. This debt was settled by his maternal aunt, Virginia. Both WILLIAM SHEPHERD's mother and his aunt, have protected him in all of his wrong doings, giving him money when they could, and in the opinion of the VICTOR SHEPHERDs, they would not likely cooperate with law enforcement officers concerning WILLIAM SHEPHERD.

Postal Inspector's Office, Greensborb, N. C., advised that Postal Inspectors at Lynchburg, Va., and in Richmond, Va., have an investigation underway concerning WILLIAM DOUGLAS SHEPHERD, who is suspected of writing obscene and threatening letters to the U.S. Postmaster General. She stated her office is aware of cards being postmarked in Greensboro, N. C., but she has no information as to who mailed them. Postal Inspector at Lynchburg, Va., and [

Commonwealth Attorney, ٧a., reportedly have information concerning a similar postcard written in February 1971 to Va.

NOTE: Several high-placed persons in local and Federal Governments have received identical obscene threatening post cards signed

is a commonwealth attorney. Secret Service has advised that these post cards are possibly written by one William Douglas Shepherd, South Boston, Virginia, on whom they have voluminous file for writing similar type letters to the President and other Government officials. Shepherd is allegedly on probation for writing a similar type letter. AUSA, Norfolk, advised he will consider prosecution if unsub is identified.

Senator Javits, furnished the obscene threatening post card to Inspector David Bowers on 3/4/71.

Result of examination:

It was determined that the questioned typewriter impressions on Q6 through Q8 were prepared by a typewriter or typewriters equipped with Remington pica style of type, spaced ten letters to the inch. It was further determined that this is the same style and size of type used to prepare the questioned typewriter impressions on Q1 through Q5, previously submitted in this case. My dear Senator:

Your communication dated March 4, 1971, wherein \*

you enclosed an obscene threatening post card signed has been received.

I thought you would be interested in knowing that several high Government officials have received similar post cards and investigation has already been instituted concerning this matter. The communication to you will be included in this investigation.

Thank you very much for bringing this matter to myattention.

Sincerely yours,

# NOTE TO SACS, NORFOLK, WASHINGTON FIELD OFFICE, CHARLOTTE, AND RICHMOND:

For your additional information, similar post cards have now been received by Associate Justices of the Supreme Court William J. Brennan Jr., and Justice Harry K. Blackmun jointly, and Senator Vance Hartke (Democrat - Indiana), both postmarked Durham, North Carolina. You should expedite all logical investigation to identify the author of these post cards and present to the appropriate U.S. Attorney. All offices should advise local and Federal authorities concerning these threats. The Laboratory has advised that a Remington pica typewriter, ten letters to the inch, was used to type these post cards; however, no defects in the lettering have been discovered.

#### NOTE:

Senator Vance Hartke (Democrat - Indiana), with whom we have cordial relations, forwarded an obscene threatening post card by referral slip dated 3/4/71. Several high-placed persons in local and Federal Government have received identical obscene threat hing postcards signed

Virginia, is a Commonwealth Attorney. He has no idea as to the author. Secret Service has advised that these post cards are possibly written by one William Douglas Shepherd, South Boston, Virginia, on whom they have a file for writing similar type letters to the President and other Government officials. Shepherd is allegedly on probation as a result of writing letters to the President. All offices have been previously instructed to press this matter vigorously. Vernon W. Coble, Captain in Charge, U.S. Supreme Court Police, referred the post card received at the Supreme Court to the Eureau.

#### Result of examination:

The typewriter impressions on Q24 are similar in style and size to the typewriter impressions of Q1 through Q15 and Q20 through Q23, previously submitted. Although a limited number of characteristics in common were noted in the questioned typewriter impressions on Q1 through Q15 and Q20 through Q24, it was not possible to definitely determine whether the same typewriter was or was not used in the preparation of these specimens due to the limited nature of the characteristic defects. No significant differences were noted in the typewriter impressions on those specimens.

Q24 will be returned separately. This specimen was photographed.

Congressional Liaison Federal Bureau of Investigation Washington, D. C.

Dear Sir:

Enclosed is a card which arrived in the Senator's mail on March 4. Unfortunately, we cannot be certain that the proper envelope is attached to the card; however, our mail clerk upon realizing that he should identify the envelope checked through several he had discarded -- none postmarked Virginia and he feels that this is very likely the envelope used.

Of course, we have no way of knowing whether the name and address on the card are that of the sender and I would guess that this is probably a fictitious name or that it was used without the person's knowledge. I presume you may want to check this out.

Sipcerely yours,

Senator Nelson~

amended to "obtaining money under false pretenses), for allegedly cashing above checks.

It is noted that WILLIAM DOUGLAS SHEPHERD, 836 North Main St., South Boston, Va., is prime suspect in instant matter.

It is also noted that SHEPHERD is subject of curent intensive investigation being conducted by U. S. Secret Service, U. S. Post Office Department, and Virginia State Police, all of whom have voluminous information concerning SHEPHERD.

advised the above checks had previously been furnished to the U.S. Secret Service and U.S. Post Office Department for separate Laboratory examinations by these agencies, results unknown.

b7C

On March 3, 1971, SA U.S. Secret Service, Richmond, Va., advised Secret Service Laboratory report dated 1/4/71, concluded typewriting on aforementioned checks are identical to the typewriting on three previously received letters containing threats to the President.

Inspector, U. S. Post Office Department, Lynchburg, Va., advised the U. S. Post Office Crime Laboratory examination reports dated 2/24/71, concluded the typewriting of the four above personal checks, dated 1970, signed:

were all prepared on the same typewriter used regarding objectionable blue ink mimeograph letters, numbering over 100, postmarked 1969, and a threatening card to the President, postmarked Greensboro, N. C., 12/7/70.

RH 9-1509

#### REQUEST OF THE LABORATORY:

Compare typewriting on enclosures with specimens previously submitted to Laboratory (Laboratory numbers D-710219084-MS and D-710222012-MS).

It is to be noted that enclosed checks have been previously examined by both the U. S. Secret Service and the U. S. Post Office Department; however, it is believed most advantageous to have these documents now examined by Bureau examiners. In the event Laboratory testimony would be necessary in this case, it is desirous that Bureau experts testify rather than another Government agency. Therefore, it is requested that the Laboratory conduct the above requested examination.

b6 b7C

Commonwealth's Attorney, Va., advised WILLIAM DOUGLAS SHEPHERD case is continued until 3/23/71, and requests enclosures be returned for court date, to Richmond Division.

In view of above, Bureau is requested to expedite examination of enclosures which are to be used as evidence in \_\_\_\_\_\_, Va., 3/23/71.

### LEADS:

## WFO - AT WASHINGTON, D. C.

- (1) Will consider contacting U. S. Post Office Department and determine location of master file concerning WILLIAM DOUGLAS SHEPHERD and conduct extensive review of file for any information deemed pertinent to captioned matter.
- (2) Will attempt to locate original application SHEPHERD submitted as Departmental Applicant in 1963 and will submit to Laboratory for examination.
- (3) Will contact Intelligence Division, U. S. Secret Service, for information regarding their investigation in this matter.

Information copies being furnished Charlotte and Norfolk in view of their investigative interest.

SUSPECT WILLIAM DOUGLAS SHEPHERD SHOULD BE CONSIDERED ARMED AND DANGEROUS.

Specimens received

3/19/71

Q27 Envelope postmarked "DURHAM NC 2B PM 1 MAR 1971" bearing the typewritten address "Frank Sinatra Palm Springs, California"

Q28 Index card bearing typewritten message beginning "I am a ..." ending "...

Result of examination:

It was determined that the questioned typewriter impressions on Q27 and Q28 were prepared by a typewriter or typewriters equipped with Remington pica style of type, spaced ten letters to the inch. It was further determined that this is the same style and size of type used to prepare the questioned typewriter impressions on similar specimens previously received in this case. Although a limited number of characteristics in common were noted in the questioned typewriter impressions on Q27 and Q28 when compared with the typewriter impressions on previous specimens, it was not possible to definitely determine whether the same typewriter was or was not used in the preparation of those specimens due to the limited nature of the characteristic defects. No significant differences were noted in the typewriter impressions on those specimens.

No indented writings of significance, watermarks, or other significant features were noted in an examination of Q27 and Q28 which would aid in determining their immediate source.

Q27 and Q28 were photographed and will be returned separately to Los Angeles.

MEN FOR THE IMMEDIATE ABOLITION OF NAKED-APS MURDER-CONTESTING

Box 125

Brooklyn, N.Y. 11217

December 25, 1969

Senator Church

As you know, the general conclusion is that we will have to defensively kill you Capitalistic and Communistic politicians and press editors and professors in order to get open communications.

The treasonous anti-God and anti-man "monkey trial" blocking crime with which you are charged has been restated in the enclosed appeal.

Again, who is responsible for getting the information in-question publicly presented so that the conscience of man will stop the murder contesting? WE ALL ARE. But you politicians and professors and press editors hold the key. You are a deciding what information shall be publicly transmitted. You are assuming more authority than should be given to God.

In some countries you can't even say some of these things privately, yet. In the USA they just ignore you.

If you have any nonviolent plan you think might enable us to get open communications ("live" radio and tv from the streets - open to everybody - not just to the murderers and pacifists), within the next few weeks we and the rest of the world would preciate hearing about it. Thank you.

#### BIG MONKEY TRIAL ON "QUR" SPACESHIP EARTH

The God-plan (the embarrassing, reality, animal, heavyweight, boss argument) for stopping the murder-contesting is being villfully suppressed so that the Capitalistic and Communistic murder-bosses can get rich. This is no longer an honest, growing-pains mistake.

December 25, 1969

#### FELLOW CO-CONERS OF PLANET EARTH AND THE UNIVERSE:

Seasons Greetings. Friends, please permit us a moment to remind you about a "religious" and moral and practical matter of great concern to all - the God-plan for stopping the murder-contesting.

THE "ANIMAL ARGUMENT" (THE EMBARMASSING, REALITY, HEAVYWEIGHT, BOSS ARGUMENT) AGAINST MURDER-CON-FESTING AND THE "LANGUAGE INFLATION" (FANCY LABELING) PROBLEM THAT CONCEALS IT are being intentionally suppressed in every country on our planet, right now. This is no longer an honest, growing-pains mistake./We claim that if this information was publicly presented anywhere it would immediately mushroom wildly to everywhere, and that the murder contesting would be immediately stopped by the conscience of man. That this is the God-plan. That there is no easy or other living way out. That God is not a murderer. That man is a basically decent animal. That man can and must be ruled from within./That it is unfair to suppress this field of information is the legal point. Lawyers tell us that they think this problem should not be settled in the courts. We disagree. Irial by jury is better than trial by murder contest./Over the past several years, thousands of appeals have been made. The hour is late. And the general conclusion is that the only way we can secure the earthwide enforcement of open communications is by defensively killing the Capitalistic and Communistic politicians and professors and press editors.

#### Mho is responsible

for getting the information in-question publicly presented so that the conscience of man will stop the murder-contesting? WE ALL ARE. But the politicians and press editors and professors hold the key. They decide what information shall and shall not be publicly transmitted. No man or group of men must ever be permitted to have this power - regardless of whether they mean well.

#### WHAT WE ASK YOU TO DO!

HELP SECURE THE IMMEDIATE EARTHWIDE ENFORCEMENT OF OPEN COMMUNICATIONS. (See back page.)

#### big adjustment now - details later

Bur aim is the full democratization of our mankind - to let mankind run mankind. Even if the murderers don't blow up our star we'll still be working out the details in a hundred thousand years from now. But the big adjustment, open communications, could be made right now. All we would have to do is put "live" radio and tw microphones in the streets and make it so that everyman can have his say - not just the murderers and pacifists.

Excuse for the length of appeals such as this:

The "monkey trial" blocking crime (the suppression of the God-plan for stopping the murder-contesting) may be small, but its ramifications almost shadow the stars. Whenever bringing this information forward we must simultaneously make certain things clear and keep them nailed down. (A Murder Contest Information Rack will soon be placed in the UN Lobby - if they let us.)

#### index

- 2 Some of the points we must make clear and keep nailed down
- 3 The Language Inflation Problem
- 4 Some other points being suppressed and/or distorted

iome of the points we must make clear and keep nailed down:

scorecard/the nature of the problem

On Spaceship Earth it is "us proles (proletarians) v. the murderers (the Capitalistic and communistic bosses)." Alexander The Great Murderer said that if we proles had any brains the murderers wouldn't be able to engage us in murder contesting. This is a brainwash problem - not an intelligence problem. If it were an intelligence problem there would be no hope.

The crisis facing our mankind is essentially religious. And our main problem is that WE DO NOT YET HAVE A "CCMMON AND AS-IS" SENSE OF REALITY. Evolution and the religions and Capitalism and Communism are presented badly. Each group refuses to separate fact from theory or belief and teaches "their line" out of context. After we get open communications the plan is to get all schools in all countries to teach the essence of everything - the three basic concepts (creation, evolution, creation and evolution - these are the only options possible) and the arguments for and against them. We claim that this will help enable us to adequately unify our pluralistic mankind.

Isn't it alright to kill in self-defense? "Necessary" defense that supplements police action is justifiable.

With the politicians and clergy saying its ok to murder its a wonder that the crime in the streets isn't worse than it is.

Whether a group of armed men are murder contesters or police depends, primarily, not on the men, but on the way they are "used" by the animals-in-charge. AGAIN, NOT BY THE MEN, BUT BY THE WAY THEY ARE "USED."...We naked apes have 140 countries. If the mayors of 140 towns should all settle their disputes by engaging the men in their police departments in murder contests with the men in the other police departments - we would have 140 murder contest departments. AGAIN, THIS IS NOT DETERMINED BY THE MEN, BUT BY THE WAY THEY ARE "USED."

We must not put economics in front of survival. Granted, the financial replacement for the murder contesting will have to be a cluster of good tricks.

the unholy triumvirate - no heroes on plenet earth;

It will soon be what we call 1970. And every male child on our planet, by age 21, must still either join a murder contest department or become a homosexual or stand with pacifists who offer no practical alternative. (A few may "slip-through" - BUT WE ARE ALL GUILTY.) Homosexuals make it difficult for the murderers to keep secrets. But our members should not be pressured into becoming homosexuals. And we are probably indebted to the pacifists for our existence. And their conclusion that MURDER CONTESTING IS UNACCEPTABLE is correct. But their argument is inadequate and their effort is not international enough. The anti-murder-contest crusade must be brought to the UN - even though the murderers don't want that to happen.

affixing blame/regard for the murder contesting

Every living adult is to blame for the present day existence of the murder contesting. Some of the points won by murder contesting have been good, and some have been bad. They may have been necessary. They are not necessary now. The idea is that we should be ashamed of the murder contesting - not that we should be ashamed of ourselves or our forefathers. The politicians and press editors and professors won't let us correct the "system."

The system is the enemy. The Capitalists and Communists and blacks and whites say that you have t kill to correct the system. This would not be true if we had open communications.

Every Earthian means well. And every Earthian is immature. Just like you. Just like us.

The murderers let us proles use words, but won't let us agree about what "certain" words mean. The main bout is between "tyranny v. democracy" - not "private v. public" ownership.

first the horse, and then the cart

We Earthians cannot get physical protection until we first get protection in the area of ideas. The stakes are high. Neither the USA nor Russia nor China nor any other country can disarm until the earthwide enforcement of open communications has been secured and a nuclear equipped Hq Police Force has been created.

NOTE: We are talking about the historic situation that exists in every country on planet earth

#### The Language Inflation Problem

Language inflation (fancy labeling) is a leading "bamboozie" trick. It gives us trouble in many areas. We are here concerned about its concealing of the God-plan (the embarrassing, reality, animal, heavyweight, boss argument) for stopping the murder contesting.

the language inflation theory

At the dawn of recorded history, or before, unnoticed, as a subconscious rationalization, we Earthians started calling murder contests (nice) wars. And we called the murderers (nice) soldiers. And we called the Murder Contest Department the (nice) Army. We Earthians do not realize what we are doing in the murder contest area because we do not call things that they are in that area. These fancy labels have permitted the glamorization and perpetuation of murder contesting into modern times. If the Earthians called things what they are in the murder contest area they would realize what the situation is and become ashamed of it. And the murder contesting would be stopped by the conscience of man. This is the God-plan. To do this is the Earthians only living way out.

Again, whether a group of armed men are murder contesters or police depends primarily, not on the men, but on the way they are "used." AGAIN, NOT ON THE MEN, BUT ON THE WAY THEY ARE "USED."

an impossibility

PEACE is a misnomer. There can be no such thing. The opposite of "settling disputes by murder contesting" is, most nearly, "settling disputes by nonviolent, democratic action." We consider this to be the most sacred Age of Man principle.

and again, every living adult is responsible for the present day existence of the murder contesting - not just the fighting man.

front page sccret The Capitalistic and Communistic murder-bosses have no respect for the life and dignity of the fighting man.

The earthwide enforcement of open communications must permanently stand as a "living" memorial to those men that have been killed in battle.

A few of the other points being suppressed and/or distorted:

.Good news - us Earthians' oldest prayer has been answered As you know, to get the Devil off our backs has been the hope and dream and prayer of the ages. THE DEVIL WAS CONVERTED. (This was nothing new or unusual. This wasn't the first time somebody did wrong, and then worked it out with the Lord.) AND GOD AND MISS LUCIFER WERE MARRIED ON JULY 4, 1967, AT 12 NOON, NY TIME. WE EARTHIANS ARE ALL FREE AND RESPONSIBLE, AT LAST. (God visited us and gave us this information. We, ourselves, prayed for the conversion of Miss Lucifer and for her marriage to God everyday from July 4, 1927 till the day of Their wedding.) GOD OPPOSES ALL MURDER · CONTESTING. And God is displeased with the clergy who are saying that it is ok to murder. HUMAN NATURE IS IMPROVING AT AN ACCELERATED RATE. Some people still say that they do not yet believe They were married, or that it was a good marriage. Note "how many" people are now sometimes opposing "cortain" murder contests. After we get open communications the murder contesting will stop and crime and prejudice will be reduced by 90%. ALL MEN WILL THEN AGREE ABOUT THE FACT AND STRENGTH AND RIGHTNESS OF THEIR MARRIAGE. Miss Lucifer may still get mischievous, but God won't let her be mean anymore. GOD CAN DO ANYTHING - regardless of what the clergy say. Their marriage was the outstanding event of recent history and our greatest cause for hope. GOD IS NEITHER BLACK NOR WHITE. God is five feet tall and baldheaded. And His skin is a beautiful shade of green. Perhaps that is why so much of the best in nature is green. His features are more chiseled than those of any Earthian tribe. . He seems to travel by a "thought transfer" method. God spoke to us briefly, had toast and tea, used the toilet, and then just vanished. We were not able to ask Him about "universal" salvation or "personal" salvation, etc... But God gave the clear and forceful impression that He thinks He has been fair with us Earthians, and that we are capable of working out our problems, including that of getting along with each other, and that we should not expect Him to do what we can do for ourselves

(Our position: We are "universal" salvationists. We are theistic evolutionists. We believe that all men, in addition to working for their own "personal" salvation, should "also" work for "universal" salvation - the cternal continuance and humane success of all our mankind.)

(Organic Religion Creed we are joined together in search of the truth and the best possible way or ways to live. We shall work for the advancement of the common good and the glory of Almighty God, and ever try to make what's right win - regardless of what that might be.)

There are two fundamentalist (Scripturally based) concepts of salvation - universal and personal.

We "universal" salvationists claim that what has been Biblically predicted must come to pass. And that it is now time for all of us members of our God-created-mankind to beat our swords into plowshares and stop the murder contesting. And that there must be justice for all, of course.

We Earthians need some non-hero-worshipping holidays that are fun and don't hang us up. We should have a day for honoring our forefathers and our descendants and ourselves. We the living and they the dead and they the yet to come are one. We are joined by destiny and by love. And we need an OPEN CGMUNICATIONS DAY for honoring the men killed in battle. And we need a day for speaching and yoo-hooing to the animals on tre other stars. And we need an official BRAG DAY, of course.

If we don't secure the earthwide enforcement of open communications soon the Arabs and the Jews are going to destroy themselves and all of our mankind with their primitive nonsense.

For going to and from the other stars we must use the "electro-magnetic-snap" principle and utilize solar energy. We've got to crack this principle and figure how to use it. This is the big break-through we need. It will also have medical value.

We think the animals on the other stars should help us. Maybe we should help them.

This cemetary routine is crazy. It interferes with the balance of nature and focuses too strongly on the past. We should cremate the dead and flush the ashes down the toilet. Our main responsibility falls forward.

Give us that old time religion - minus that murder contest supporter policy.

UN Info Rack

Us Earthians' historic and universal problem of settling disputes by murder contesting is too big to shove under the rug and too important to ignore or be less than genuine about. We are asking the bosses to permit us and/or somebody else to create and maintain a MURDER CONTEST INFORMATION RACT in the UN Lobby. We would list the arguments for and against this routine, and plans for replacing it. We might use a few pictures and other items. And actually, for symbolic reasons, at least, this area should be guarded and supervised by men from all countries. (You're invited to help.)

What should, but won't, right now happen:

The leaders of all our countries should go to their peoples and acknowledge that the "animal argument" against us Earthians' historic and universal murder contesting problem, and the "language inflation" routine that conceals it have been around for several years. That it has been claimed that if this information were publicly presented the conscience of man would stop the murder contesting. And that this information has been suppressed....And they should provide their citizens with open communications, and invite them to test and see that this is so.

the master plan for our mankind

- 1 We, with God's help, get the God-plan (the "animal argument") for stopping the murder contesting publicly presented somewhere. It immediately mushrooms wildly to everywhere. The murder contesting is stopped by the conscience of man.
- 2 We secure the earthwide enforcement of open communications.
- 3 We create a nuclear equipped Eq Police Force.
- 4 We make each continent and its surrounding territories a political and economic unit.
- 5 We disarm all of our countries.
- 6 We establish fair and firm relations with the life of other planets.
- 7 We continue to work for the eternal continuance and harme success of our species.

The immediate goal

is to have "live" radio and tv from in front of the UN. And to make it so that everyman can have his say - not just the murderers and pacifists. And to have these programs broadcast "live" to all countries.

(1) HELP SECURE THE EARTHWIDE ENFORCEMENT OF OPEN COMMUNICATIONS. Help us get "live" radio and tv from in front of the UN. Help us get the support of politicians, professors, press editors, lawyers, etc. (2) HELP BRING THE ANTI-NAKED-APE MURDER-CONTEST CRUSADE TO THE UN. Join the Abolition Day demonstration at the UN on Feb. 14. 1-3 p.m.

A USA young man about to become a contestant in the Vietnam Murder Contest was asked (on Bill Mazer's radio program, NBC, NYC) whether he thought those who oppose this thing should be permitted to do so publicly He said, "Yes. That's what we're fighting for." The boy was right. IT NEVER SEEMS LIKE MUCH - BUT THE PRIVILEGE TO CHEN DEBATE OUR PROBLEMS IS THE PRICELESS FRUIT OF OUR MANKIND'S HISTORIC FIGHT FOR FREEDOM. The worldwide enforcement of open communications must permanently stand as a "living" memorial to those men that were killed in battle this morning, and yesterday, and in the days before.

At the time of the 1967 Pike heresy trial festivities an Episcopal committee issued the following statement: "Any risks the church may run by fostering a climate of genuine freedom are minor compared to the dangers it surely will encounter from any attempts at suppression, censorship or thought control." Their correct analysis also applies to politics.

bife is short. Death is long. Each man speaks for himself. Each man speaks for eternity.

Organic Religion Benediction

Lord, Grant that all men may have good health and good luck and a long life, and that our descendents might live usefully and well, throughout eternity, on this star and many more. Amen

Ollie Wilson

Men for the Immediate Abolition of Naked-Ape Murder - Contesting Box 125, Brooklyn, New York; Senator Frank Church - Victim Extortion

This investigation was instituted when by letter, dated January 19, 1970, the United States Secret Service, Washington, D. C., made available to the Washington Field Office of the Federal Bureau of Investigation (FBI) copies of printed material received by the office of Senator Frank Church, Senate Building, Washington, D. C. The material was received by Senator Church's office on January 9, 1970. The printed material included the following:

An envelope addressed to "Senator Frank Church, Senate Bldg., Washington, D.C.", and containing a return address of "Men for the Immediate Abolition of Naked-Ape Murder - Contesting, Box 125, Brooklyn, N.Y. 11217". The back of the envelope contained a label which read as follows: "if politicians kill they're going to kill themselves from now on, baby, man yes - animal no".

The envelope contained two printed letter/questionnaires, both dated December 25, 1969. Copies of the envelope and letters are set out hereinafter.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency: it and its contents are not to be distributed outside your agency.

It is noted that Brad Crandall, Host of a talk-type show on NBC radio, New York City, received an identical envelope and letters/questionnaires as those received by Senator Church. The envelope was addressed to "Brad Crandall, NBC, 30 Rockefeller Plaza, New York, New York, 10020", and was postmarked January 6, 1970, at Brooklyn, New York.

On January 9, 1970, the material received by Brad Crandall was displayed to \_\_\_\_\_\_\_ Assistant United States Attorney, Eastern District of New York, who stated that the material was rambling, vague, inconclusive, did not violate the Federal Extortion Statute, and he would decline.

Re Bureau airtel to New York, 3/5/74.

On 3/12/74, Kansas City advised Assistant Chief of Police, Prairie Village, Kansas of the contents of the letter from FIELD MARSHAL CINQUE that had been sent to Senator JAMES B. PEARSON. The Assistant Chief of Rollice was also advised that PEARSON resided at 5291 West 68th Terrace, Prairie Village, Kansas. Assistant Chief of Police stated that he would advise the proper officers and his department would be on the alert for any problems concerning Senator PEARSON.

Since Kansas City has not received any more information or leads in this case, no further investigation is being conducted.

EXTORTION

ReNYmitel to the Bureau, dated 3/1/74.

This case was opened during March, 1974, as a result of numerous Governors and US Senators receiving letters that were postmarked Queens, NY, and signed "Field Marshal Cinque".

As the Bureau is aware, on 3/1/74, Acting US Attorney, EDNY, stated that the contents of these letters did not constitute a violation of the Federal Extortion Statute.

Contact has been maintained with US postal authorities in the NYC area in an attempt to determine the specific area where letters were postmarked. All letters were postmarked in the Brooklyn, Queens district of NYC and postal authorities have advised that these letters were cancelled by automatic cancelling machines at the main post offices in Brooklyn and Queens.

All letters received by the various Senators and Governors were all postmarked during the latter part of February and early March, 1974, and since that time, no additional letters have been received.

No suspects have been developed in this case

Since no additional letters have been received over four months, no further investigation is being conducted by the NYO; however, should any information be received that might assist in identifying the author, this case will be immediately reopened and the Bureau advised.

The typewriting on the address labels on envelopes submitted in this case, although too limited to classify, corresponds to the same style of type.

For your assistance, it was noted that the typewriting on the city and state portions of the addresses on the address labels on many of the envelopes submitted in this case is inked heavier and is out of register with the name portions of the address on the envelopes, indicating that the name portion of the addresses was typed on each label by a separate typewriting operation than the city and state portions of the addresses. Although the significance of this is not known at this time, the information is being furnished for your assistance.

Q12, Q14, Q16, Q20, Q22, Q24, Q26, Q28 and the copy from which Qc30 was made, are copies made from the same original utilizing what appears to be a memographed type process.

The typewriting on Q11, Q13, Q15, Q19, Q21, Q23, Q25, Q27 and the original from which Qc29 was made, is on pressure sensitive adhesive backed labels attached to the envelopes.

The conclusion was reached that the typewriter or typewriters used to prepare the addresses on the envelopes submitted in this case were not used to prepare the typewriting on the master from which the copies or letters submitted in this case was prepared.

The typewriting on the address labels submitted in this case is pica type, spaced ten characters per horizontal inch, is too limited to classify. Also, the typewriting on the copies of the letter submitted, which is elite type, spaced twelve characters per horizontal inch, is too limited and too indistinct to permit classification as to make.

Each sheet of paper, Q12, Q14, Q16, Q20, Q22, Q24, Q26 and Q28 bears the watermark or partial watermark "PARSONS EDGEMONT BOND 50% COTTON FIBER" which is registered to the NVF Company, Post Office Drawer 311, Wilmington, Delaware. The submitted envelopes contain no watermarks. The submitted items contain no indented writing of significance or other characteristics to aid in definitely determining their source. An eight cent U.S. Postal Service stamp is affixed to each of the original envelopes submitted. These stamps were torn from a roll or rolls of stamps.

Qc29, Qc30 are retained. The other evidence submitted is being returned separately. Photographs were made.

The above-mentioned letters and envelopes are being afforded Laboratory and latent fingerprint examinations.

Kansas City and Philadelphia advise local police authorities covering the residences of Senators Scott and Pearson of the receipt of enclosed letter.

WFO was instructed in reButelcal to notify local authorities, Washington, D. C.

Information copy to San Francisco, in view of interest in Hearnap case.

NOTE TO LABORATORY DIVISION: Laboratory is requested to compare the attached letters with other letters received in this matter and conduct any additional examination that may be of assistant in identifying the author of attached letters.

NOTE TO IDENTIFICATION DIVISION, LATENT FINGERPRINT SECTION: Conduct latent fingerprint examination and compare any latents with other letters received in this case. Also compare any latents with latents in the Hearnap case.

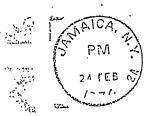

NOTE: Unsub, using the name Field Marshal Cinque, has sent identical threatening type letter to various Senators throughouthe U. S., postmarked 2/24/74, at New York. The letter refers to repenting for crimes committed. The individual writing the letter refers to himself as "nigger" and indicated that he has been hunted in the past but now, "I am that nigger that hunts you now". The letter appears to be based on phraseology used in the Hearnap tapes but is not believed identical to Field Marshal Cinque in that case. Offices involved being advised that a separate extortion case has been opened.

TELETYPE UNIT

None of the typewriting on items submitted in this case has been identified with typewriting submitted in the Hearnap or Symbionese Liberation Army cases.

The typewriting on the address labels submitted in this case is too limited to definitely classify but closely resembles standards for the typewriter mentioned in the attached report. This determination was made through an exhaustive search of the Typewriter Standards File and in consultations with other government agencies.

For your assistance, it has been noted that the typewriting on the city and state portions of the addresses on the address labels on many of the envelopes submitted in this case is much heavier and is out of register with the name portions of the addresses on the envelopes, indicating that the name portion of the address was typed on each label by a separate typewriting operation than the city and state portions of the addresses. Although the significance of this is unknown at this time, the information is being furnished for your assistance.

Result of examination:

Q32, Q34, Q38, Q40, Q42, Q46, Q48, Q50 and the copy from which photograph Qc36 was made, are copies made from the same original utilizing what appears to be a mimeograph Q type process.

The typewriting on Q31, Q33, Q37, Q39, Q41, Q43, Q45, Q47, Q49 and the original from which Qc35 was made, is on pressure sensitive adhesive backed labels attached to the envelopes.

The conclusion was reached that the typewriter or typewriters used to prepare the typewriting on the envelopes submitted in this case were not used to prepare the typewriting on the master from which the copies of letters submitted in this case was prepared.

The typewriting on the address labels submitted in this case most closely resembles Laboratory standards for a Ransmayer pica type style, spaced ten characters per horizontal inch, and used on Royal Executive electric typewriters. The typewriting on the copies of letters submitted, which is elite type, spaced twelve characters per horizontal inch, is too limited and too indistinct to permit classification as to make.

Each sheet of paper, Q32, Q34, Q38, Q40, Q42, Q44, Q46, Q48 and Q50 bears the watermark "PARSONS EDGEMONT BOND 50% COTTON FIBER" which is registered to the NVF Company, Post Office Drawer 311, Wilmington, Delaware. The submitted envelopes contain no watermarks. The submitted items contain no indented writing of significance or other characteristics to aid in definitely determining their source. An eight cent U.S. Postal Service stamp is affixed to each of the submitted envelopes. These stamps were torn from a roll or rolls of stamps.

The submitted items are being returned separately to the contributing offices. Photographs were made.

On 3/1/74, Senator HART's Office was advised that a copy of the letter would be made available to them as soon as possible.

On 3/1/74, TFD, Intelligence Division, was advised of contents of the same letter, a copy of which was sent to Senator HUGH SCOTT.

On 3/4/74, ASAG BILL D. WILLIAMS, WFO, received the letter addressed to Senator PHILIP A. HART from the Detroit Division. This letter was hand carried to FPI Laboratory and turned over to SA CARL LILJA, Document Section.

On 3/8/74, MPD, Intelligence Division, was advised that a copy of this letter was also received by Senator MARLOW W. COOK.

On 3/7/74, Office of Senator HAROLD E. HUGHES, made available the original letter addressed to Senator HUGHES at Frankfort, Kentucky.

On 3/13/74, Sergeant Arlington Polices.
Department, was advised of the contents of the letter as well as the local address of Senator COOK, 4000 North River Street, Arlington, Virginia.

In view of the fact that the U.S. Attorney has declined prosecution in this matter and the fact that copies of this letter were apparently to every Congressman in the United States, no further notification to local authorities is being made.

The FBI Laboratory is requested to conduct Document and Fingerprint examination of the enclosed letter.

UNSUB, aka Field Marshal Cinque; SENATOR JOHN L. MC CLELLAN, SENATOR PAUL J. FANNIN, ET AL - VICTIMS; EXTORTION

Specimens received 3-21-74, from SAC, Boston:

- Q51 Unpostmarked envelope bearing typewritten address label "Senator James O. Pastore, Providence, Rhode Island"
- Q52 Copy of one page typewritten letter beginning "YOU SHOULD ALSO DEMONSTRATE ..."

Specimens received 3-26-74, from SAC, Minneapolis:

- Q53 Envelope postmarked "U.S. POSTAL SERVICE NY 1105A AM 27 FEB 1974," bearing typewritten address label "Governor Arthur A. Link, Bismarck, North Dakota"
- Q54 Copy of typewritten letter beginning "YOU SHOULD ALSO DEMONSTRATE ..."

Result of examination:

Q52 and Q54 are copies made from the same original as letters previously submitted, utilizing what appears to be a mimeographed type process.

The typewriting on Q51 and Q53 is on pressure sensitive adhesive backed labels attached to the envelopes.

The conclusion was reached that the typewriter or typewriters used to prepare the typewriting on the envelopes submitted in this case were not used to prepare the typewriting on the master from which the copies of letters submitted in this case was prepared.

Page 1

(over)

BRG: mew (13)

The typewriting on the address labels submitted in this case most closely resembles Laboratory standards for a Ransmayer pica style of type, spaced ten characters per horizontal inch and used on Royal Executive electric typewriters. The typewriting on the copies of letters submitted is an elite type, spaced twelve characters to the horizontal inch and is too limited and too indistinct to permit classification as to make. The sheets of paper, Q52 and Q54, bear the watermark "PARSON'S EDGEMONT BOND 50% COTTON FIBER" which is registered to the NVF Company, Post Office Drawers 311, Wilmington, Delaware. The submitted envelopes contain no watermarks sullhe submitted items contain no indented writing of significance or other characteristics to aid in definitely determining their source. An eight cent U.S. Postal Service stamp, torn from a roll of stamps, is affixed to each Q51 and Q53.

The submitted items are being returned separately to the contributing of fices. Photographs were made.

RE: UNKNOWN SUBJECT, Also Known As, Field Marshal Cinque; JOHN J. GILLIGAN, Governor, State of Ohio - VICTIM

On March 3, 1974, to
Governor John J. Gilligan, Columbus, Ohio, opened a
letter postmarked, "U.S. Postal Service, NY 5A011,
February 27, 1974". stated he obtained this
letter after it was delivered to the Governor's mansion
on March 1, 1974. The letter reads as follows:

"You should also demonstrate that you are not only concerned with freeing and making a better life for Patricia but also freeing and making a better life for all the people. However you have seemingly said by your actions that you know me and therefore you do not have to repent for your crimes. However, to this I will say yes, you do indeed know me. You have always known me. I am that nigger you have hunted and feared night and day. I am that nigger. You have killed hundreds of my people in a vain hope of (word not legible). am that nigger that is no longer just hunted, robbed and murdered. I am that nigger that hunts you now.

Field Marshal Cinque"

The above letter is typed and appears to be a copy made by a reproduction machine. The envelope which has a typed address label is addressed to Governor

LIFE B.S.

Airtel to SAC, New York Re: CHANGED; UNSUB, AKA FIELD MARSHAL CINQUE

Louisville advise local police authorities covering the residence of Senator Cook of the receipt of the enclosed letter.

WFO advise local authorities, Washington, D. C., and authorities covering local residence of Senator Cook.

New York determine area from which letter was postmarked and ascertain if any logical investigation to identify unsub may be conducted.

Information copy to San Francisco in view of interest in Hearnap case.

NOTE TO LABORATORY DIVISION: Laboratory is requested to compare the attached letter with other letters received in this matter and conduct any additional examination that may be of assistance in identifying the author of attached letters.

NOTE TO IDENTIFICATION DIVISION, LATENT FINGERPRINT SECTION: Conduct latent fingerprint examination and compare any latents with other letters received in this case. Also compare any latents with latents in the Hearnap case.

NOTE: Unsub, using the name Field Marshal Cinque, has sent identical threatening type letter to various Senators throughout the U. S., postmarked 2/24/74 and 2/27/74, at New York. The letter refers to repenting for crimes committed. The individual writing the letter refers to himself as "nigger" and indicated that he has been hunted in the past but now, "I am that nigger that hunts you now." The letter appears to be based on phraseology used in the Hearnap tapes but is not believed identical to Field Marshal Cinque in that case. Offices involved being advised that a separate extortion case has been opened.

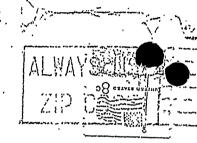

"YOU SHOULD ALSO DEMONSTRATE THAT YOU ARE OF ONLY CONCERNED WITH FREEING AND MAKING A BETTER AND MAKING A BETTER LIFE FOR PATRICIA EN ALSO FREEING AND MAKING A BETTER LIFE FOR ALL THE PEOPLE. HOWEVER YOU HAVE SEEMINGLY SAID BY YOUR ACTIONS THAT YOU KNOW ME AND THEREFOR YOU DO MONTHAVE TO REPENT FOR YOUR ACTIONS HOWEVER, TO THIS I WILL SAY YES, YOU DO MEED KNOW ME YOU HAVE ALWAYS KNOWN ME. Q55 Envelope postmarked "U.S. POSTAL SERVICE, NY 114 PM 24 FEB 1974," bearing typewritten address label "Governor William Egan, Juneau, Alaska"

Q56 Copy of one page typewritten letter beginning "YOU SHOULD ALSO DEMONSTRATE ..."

Result of examination:

Q56 is a copy made from the same original as letters previously submitted, utilizing what appears to be a mimeograph type process.

The typewriting on Q55 is on pressure sensitive adhesive backed labels attached to the envelope.

The conclusion was reached that the typewriter or typewriters used to prepare the envelopes submitted in this case were not used to prepare the typewriting on the master from which the submitted letters were prepared.

The typewriting on the address labels on envelopes submitted in this case most closely corresponds to Laboratory standards for a Ransmayer pica style of type, spaced ten characters per horizontal inch, and used on Royal Executive electric typewriters.

The typewriting on letters submitted in this case is an elite type style, spaced twelve characters per horizontal inch, and is too limited and too indistinct to permit classification as to make.

Page 1 BRG:mew / (9) (over)

Q56 contains the watermark "PARSON'S EDGEMONT BOND 50% COTTON FIBER" which is registered to the NVF Company, Post Office Drawer 311, Wilmington, Delaware. Q55 contains no watermark. Q55 and Q56 contain no indented writing of significance or other characteristics to aid in definitely determining their source. An eight cent U.S. Postal Service stamp, torn from a roll of stamps, is affixed to Q55.

Q55 and Q56, which have been photographed, are being returned separately.

Q57 Envelope bearing typewritten address label "Governor Phillip W., Providence, Rhode Island"

Q58 Copy of one page typewritten letter beginning "YOU SHOULD ALSO DEMONSTRATE ..."

Result of examination:

Q58 is a copy made from the same original as letters previously submitted, utilizing what appears to be a mimeograph type process.

The typewriting on Q57 is on a pressure sensitive adhesive backed label attached to the envelope.

The conclusion was reached that the typewriter or typewriters used to prepare the typewriting on the submitted envelopes in this case were not used to prepare the typewriting on the master from which the copies of letters submitted in this case was prepared.

The typewriting on the address labels submitted in this case most closely resembles Laboratory standards for a Ransmayer pica style of type, spaced ten characters per horizontal inch and used on Royal Executive electric typewriters. The typewriting on the copies of letters submitted is an elite style of type, spaced twelve characters to the horizontal inch and is too limited an too indistinct to permit classification as to make.

Q58 bears the watermark "PARSON'S EDGEMONT BOND 50% COTTON FIBER" which is registered to the NVF Company, Post Office Drawer 311, Wilmington, Delaware. The submitted envelope contains no watermark. The submitted items contain no indented writing of significance or other characteristics to aid in definitely determining their source. An eight cent U.S. Postal Service stamp, torn from a roll of stamps, is affixed to Q57.

The submitted items are being returned separately. Appropriate photographs were made.

1974 MAR 7 For your assistance, although the typewriting on the address labels on Ql, Q3, Q5, Q7 and Q9 is too limited to classify, the typewriting on these labels corresponds to the same style of type.

It was noted that the typewriting on the city and state portions of the addresses on the address labels on Q1, Q3, Q5, Q7 and Q9 is inked heavier and is out of register with the name portions of the addresses on the envelopes, indicating that the name portion of each address was typed on each label by a separate typewriting operation than the city and state portion of the addresses. Although the significance of this is not known at this time, this information is being furnished for your assistance.

- Q9 Envelope postmarked "U.S. POSTAL SERVICE NY 11058 AM 27 FEB 1974" bearing the typewritten address "Senator Charles H. Percy Springfield, Illinois"
- Q10 Accompanying typewritten letter beginning "YOU SHOULD ALSO DEMONSTRATE THAT YOU..." ending "FIELD MARSHAL CINQUE"

#### Result of examination:

Q1 through Q10 were not associated with material maintained in the Anonymous Letter File. Copies have been added thereto.

Q2, Q4, Q6, Q8 and Q10 are copies made from the same original utilizing what appears to be a mimeograph type process.

The typewriting on Q1, Q3, Q5, Q7 and Q9 is on pressure sensitive adhesive backed labels attached to the envelopes.

The conclusion was reached that the typewriter or typewriters used to prepare the addresses on envelopes Q1, Q3, Q5, Q7 and Q9 were not used to prepare the typewriting on the master from which Q2, Q4, Q6, Q8 and Q10 were made.

The typewriting on the address labels which is pica type, spaced ten characters per horizontal inch, is too limited to classify. Also the typewriting on Q2, Q4, Q6, Q8 and Q10 which is elite type, spaced twelve characters per horizontal inch, is too limited and too indistinct to permit classification as to make.

The conclusion was reached that the typewriter or typewriters used in preparing the address labels on Q1, Q3, Q5, Q7 and Q9 were not used to prepare any of the questioned typewriting on items submitted in cases captioned "HEARNAP", "Symbionese Liberation Army (SLA) EM" or "AUGUST SEVENTH GUERILLA MOVEMENT (ASGM) EM."

The typewriting on the copies Q2, Q4, Q6, Q8 and Q10 is too limited and too indistinct for adequate comparison purposes with other questioned typewriting.

Page 2 D-740301071 PF

(over)

However, the typewriting on items Q20 through Q23 and Q32 through Q39 in the HEARNAP case, the typewriting on items Q28, Q29 and portions of the typewriting on Q49 and Q50 in the SLA case, and the typewriting on Q3 through Q11, Qc13, Q16, Q17, Qc20 and Qc21 in the ASGM case have similar styles of type; however, for the reasons stated above, a definite conclusion could not be reached whether these items were prepared by the same typewriter. It was determined that the other questioned typewriting submitted in the HEARNAP, SLA and ASGM cases are different styles of type that the questioned typewriting on the copies Q2, Q4, Q6, Q8 and Q10.

Each sheet of paper, Q2, Q4, Q6, Q8 and Q10 bears the watermark "PARSON'S EDGEMONT BOND 50% COTTON FIBER" which is registered to the NVF Company, P0 Drawer 311, Wilmington, Delaware. Q1 through Q10 contain no indented writing of significance or other characteristics to aid in definitely determining their source. An eight-cent U.S. Postal Service stamp is affixed to each of the five envelopes. These stamps were torn from a roll or rolls of stamps.

The submitted evidence is being returned separately to the contributing offices. Photographs are retained.

NEW YORK SHOULD CONDUCT ANY LOGICAL INVESTIGATION THAT WOULD IDENTIFY UNSUB AND ELIMINATE HIM AS BEING INVOLVED IN THE HEARST CASE.

Numerous Senators and Governors have received identical letters from unsub who signs the letters Field Marshal Cinque. The letters are all postmarked New York 114, 2/24/74. The letter quotes almost directly from one of the tape cassettes sent to family in Acting USA, Eastern District of New York, advised no extortion violation. Investigation continuing under captioned matter to attempt to identify unsub and eliminate him as being involved in the case. All field offices are being advised since it is likely that unsub sent letters to all Senators and Governors.

A spokesman for the Fib.1 would not say whether the agency was formally investigating the apparently identical letters but did say, The Fib.1 does have information of the letters and are handling it.

The five Governors said Saturday they had received mime. gation said Sunday it was han-

The five Governors said Satisfact they had received mime ographed letters signed by Field Marshal (Olinque, the name given by the leader of the kid-nappers, who call themselves the Symbionese Liberation Army. At least three of the Governors said they did not take the letters seriously.

Gov. Meldrin Thomson Ir. of New Hampshire the first to disclose receipt of the letter described it as "a threat The other Governors to receipt letters sare Kenneth M. Churs Maine, Francis W. Sangent of Massachusetts, Thomas Resalmon of Vermont and Philip W.

Massachusetts Linomas Recallmon of Vermont and Philip W. Noel of Rhode Island.
Mr. Thomson declined to say whether he had been threatened with death or injury but said the mailed threat did include a "demand that certain things be done."

SLA-Type Letter Sent To Senator

Sen. Frank Church (D. Idaho) has received a threatening letter signed with the mame used by a ligure in the West Coast kidnaping of Patricia Hearst

"The muneographed letter signed "Field Marshal Cingue," was received at Church's Boise office in a pre-canceled envelope yesterday morning. Church's aides in Boise turned it was studying the letter for bossible wiolations for federal law.

Church's office said it doesn't know who sent the letter, or whether the sender is involved in the kidhaping.

Eield Marshal Cinque" was the name used by the speaker on tape recordings addressed to publisher Randolph A. Hearst outlining the Symbionese Liberation Army's conditions for release of Miss Hearst, abducted in Berkeley, Calif. Reb. 4

The document sent to Church makes no demands on the senator, who has been a strong backer of civil-rights legislation throughout his Senate career. But it ends, "I am that nigger that hunts you now."

It reads: "You should also demonstrate that you are not only concerned with freeing and making a better life for all people. However, you have seemingly said by your actions that you know me and therefore you do not have to repent for your crimes. However, to this I will say, you do indeed know me, you have always known me. I am that nigger you have hunted and feared night and day I am that nigger you have killed hundreds of my people in a vain hope of lunreadable! I am the nigger that is no longer just hunted, robbe and murdered I am that nigger that nigger that hunts you now [signed] "Field Marshal Cinque"

Over the weekend, five New England governors said they had received letters purports edly from the SLA. Those letters, like the one to Church, were similar to the last SLA communication to the Hearsts.

In San Francisco vesterday, Miss Hearst's kidnapers ignored a weekend plea from her parents that their daughter be allowed to send a note or tape recording to them.

GOVERNMENT OFFICIALS BY

1 - Mr. Wannall

THE SYMBIONESE LIBERATION ARMY

Frank . Church

At 10:00 a.m. today Director Kelley called. He advised he had just received a call from the Attorney General (AG). The AG stated that a "bunch" of Governors had reportedly recently received threats by the Symbionese Liberation Army (SLA). He continued a group of Governors was coming to Washington, D. C., this weekend and the AG was wondering if there was anything in the air which could be construed as a threat or possible demonstration. The AG continued that five Governors had already turned such communications over to us and, while reportedly Senator Church had received such a letter, the AG did not know if he had turned the communication over to the FBI or just made it public. Mr. Kelley advised he did not have any details regarding this matter.

b7C ₩ I advised Mr. Kelley that I was aware several Government officials including at least four or five Governors had received communications through the U.S. Mails. These communications consisted of an exact excerpt from a communication sent to Randolph Hearst by the alleged The excerpt quoted was that section referring to the "niggers being hunted." I told Mr. Kelley that these communications were all exactly alike and in view of the phraseology utilized we had sent them to New York where they had originated with the request that they be discussed with the U.S. Attorney to determine if there was any Federal violation involved. Insofar as Senator Church was concerned, I was aware he had received one of these communications but was not aware whether he had turned this matter over to us or whether he had given it to the news media. 157-208-6-99

Insofar as withreat is concerned, it was my personal view that these letters did not constitute a valid threat in the true sense of the word, although it would be difficult to explain to a recipient of such a letter this view. As to any demonstrations planned, I advised Mr. Kelfey I was not

Louisville advise local police authorities covering the residence of Senator Cook of the receipt of the enclosed letter.

WFO advise local authorities, Washington, D. C., and authorities covering local residence of Senator Cook.

New York determine area from which letter was postmarked and ascertain if any logical investigation to identify unsub may be conducted.

Information copy to San Francisco in view of interest in Hearnap case.

NOTE TO LABORATORY DIVISION: Laboratory is requested to compare the attached letter with other letters received in this matter and conduct any additional examination that may be of assistance in identifying the author of attached letters.

NOTE TO IDENTIFICATION DIVISION, LATENT FINGERPRINT SECTION: Conduct latent fingerprint examination and compare any latents with other letters received in this case. Also compare any latents with latents in the Hearnap case.

NOTE: Unsub, using the name Field Marshal Cinque, has sent identical threatening type letter to various Senators throughout the U. S., postmarked 2/24/74 and 2/27/74, at New York. The letter refers to repenting for crimes committed. The individual writing the letter refers to himself as "nigger" and indicated that he has been hunted in the past but now, "I am that nigger that hunts you now." The letter appears to be based on phraseology used in the Hearnap tapes but is not believed identical to Field Marshal Cinque in that case. Offices involved being advised that a separate extortion case has been opened.

Q18 Copy of one-page typewritten letter abeginning "YOU SHOULD ALSO DEMONSTRATE..."

Result of examination:

Q18 is a copy made from the same original as other letters submitted in this case, utilizing what appears to be a mimeograph type process.

The typewriting on Q17 is on pressure sensitive adhesive backed labels attached to the envelope.

The typewriting on the address label which is pica type, spaced ten characters per horizontal inch, is too limited to classify. However, the typewriting on Q17 corresponds to the style of type on other address labeled envelopes submitted previously in this case. Also, the typewriting on Q18 which is elite type, spaced twelve characters per horizontal inch, is too limited and too indistinct to permit classification as to make.

Indented writing was observed on the front of Q17. This indented writing appears to read as follows:

168 Postal Dept

Insp. 11/114 is for Long Island Terminal

b6 b7C Q18 contains the watermark "Parsons Edgemont Bond 50% cotton fiber." This watermark is registered to the NVF Company, P.O. Drawer 311, Wilmington, Delaware.

No other watermarks, indented writing of significance or other characteristics were observed to aid in determining the source of the submitted items. An eight-cent U. S. Postal Service stamp, torn from a roll of stamps, is affixed to Q17.

Q17 and Q18, which have been photographed, are being returned separately.
