FBI FOIPA Addendum

As referenced in our letter responding to your Freedom of Information/Privacy Acts (FOIPA) request, the FBI FOIPA Addendum provides information applicable to your request. Part 1 of the Addendum includes standard responses that apply to all requests. Part 2 includes standard responses that apply to requests for records about individuals to the extent your request seeks the listed information. Part 3 includes general information about FBI records, searches, and programs.

Part 1: The standard responses below apply to all requests:

- (i) **5 U.S.C. § 552(c).** Congress excluded three categories of law enforcement and national security records from the requirements of the FOIPA [5 U.S.C. § 552(c)]. FBI responses are limited to those records subject to the requirements of the FOIPA. Additional information about the FBI and the FOIPA can be found on the www.fbi.gov/foia website.
- (ii) **Intelligence Records.** To the extent your request seeks records of intelligence sources, methods, or activities, the FBI can neither confirm nor deny the existence of records pursuant to FOIA exemptions (b)(1), (b)(3), and as applicable to requests for records about individuals, PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(1), (b)(3), and (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records is itself a classified fact protected by FOIA exemption (b)(1) and/or would reveal intelligence sources, methods, or activities protected by exemption (b)(3) [50 USC § 3024(i)(1)]. This is a standard response and should not be read to indicate that any such records do or do not exist.

Part 2: The standard responses below apply to all requests for records on individuals:

- (i) **Requests for Records about any Individual—Watch Lists.** The FBI can neither confirm nor deny the existence of any individual's name on a watch list pursuant to FOIA exemption (b)(7)(E) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(7)(E), (j)(2)]. This is a standard response and should not be read to indicate that watch list records do or do not exist.
- (ii) **Requests for Records about any Individual—Witness Security Program Records.** The FBI can neither confirm nor deny the existence of records which could identify any participant in the Witness Security Program pursuant to FOIA exemption (b)(3) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(3), 18 U.S.C. 3521, and (j)(2)]. This is a standard response and should not be read to indicate that such records do or do not exist.
- (iii) **Requests for Confidential Informant Records.** The FBI can neither confirm nor deny the existence of confidential informant records pursuant to FOIA exemptions (b)(7)(D), (b)(7)(E), and (b)(7)(F) [5 U.S.C. §§ 552 (b)(7)(D), (b)(7)(E), and (b)(7)(F)] and Privacy Act exemption (j)(2) [5 U.S.C. § 552a (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records would reveal confidential informant identities and information, expose law enforcement techniques, and endanger the life or physical safety of individuals. This is a standard response and should not be read to indicate that such records do or do not exist.

Part 3: General Information:

- (i) **Record Searches and Standard Search Policy.** The Record/Information Dissemination Section (RIDS) searches for reasonably described records by searching systems, such as the Central Records System (CRS), or locations where responsive records would reasonably be found. The CRS is an extensive system of records consisting of applicant, investigative, intelligence, personnel, administrative, and general files compiled by the FBI per its law enforcement, intelligence, and administrative functions. The CRS spans the entire FBI organization, comprising records of FBI Headquarters, FBI Field Offices, and FBI Legal Attaché Offices (Legats) worldwide; Electronic Surveillance (ELSUR) records are included in the CRS. The standard search policy is a search for main entity records in the CRS. Unless specifically requested, a standard search does not include a search for reference entity records, administrative records of previous FOIPA requests, or civil litigation files.
 - a. *Main Entity Records* – created for individuals or non-individuals who are the subjects or the focus of an investigation
 - b. *Reference Entity Records*- created for individuals or non-individuals who are associated with a case but are not known subjects or the focus of an investigation
- (ii) **FBI Records.** Founded in 1908, the FBI carries out a dual law enforcement and national security mission. As part of this dual mission, the FBI creates and maintains records on various subjects; however, the FBI does not maintain records on every person, subject, or entity.
- (iii) **Foreseeable Harm Standard.** As amended in 2016, the Freedom of Information Act provides that a federal agency may withhold responsive records only if: (1) the agency reasonably foresees that disclosure would harm an interest protected by one of the nine exemptions that FOIA enumerates, or (2) disclosure is prohibited by law (5 United States Code, Section 552(a)(8)(A)(i)). The FBI considers this foreseeable harm standard in the processing of its requests.
- (iv) **Requests for Criminal History Records or Rap Sheets.** The Criminal Justice Information Services (CJIS) Division provides Identity History Summary Checks – often referred to as a criminal history record or rap sheet. These criminal history records are not the same as material in an investigative “FBI file.” An Identity History Summary Check is a listing of information taken from fingerprint cards and documents submitted to the FBI in connection with arrests, federal employment, naturalization, or military service. For a fee, individuals can request a copy of their Identity History Summary Check. Forms and directions can be accessed at www.fbi.gov/about-us/cjis/identity-history-summary-checks. Additionally, requests can be submitted electronically at www.edo.cjis.gov. For additional information, please contact CJIS directly at (304) 625-5590.

W. R. Wannall
Mr. G. Marvin Gentile, Deputy Assistant Secretary of State for Security, called Liaison representative [redacted] 1/17/74, to advise concerning the current status of Secretary of State Kissinger's personal protective security.

Gentile said that in early December Kissinger agreed to integrate the protective detail by splitting responsibility on a trial basis between Secret Service and the State Department. It was understood at the time that at the end of approximately 30 days the entire responsibility would be assumed by the State Department and that Secret Service would be phased out. Gentile said that until approximately 1/6/74, there was no indication that Kissinger would not follow this plan. In fact, Gentile had arranged for the necessary manpower and was fully prepared to accept full responsibility. However, at the last moment and just before Kissinger departed for his recent trip last week, Kissinger decided to go entirely with the Secret Service. Consequently, Gentile and his men are completely out of the picture with the exception of a couple of technical personnel who are traveling with the Secret Service detail to assist in handling communications. Gentile assumes that Kissinger's decision to use Secret Service is firm.

In a way, Gentile is relieved by Kissinger's decision. Although Gentile stood his ground in emphasizing that his men should have the responsibility and could do a

job as good or better than Secret Service, he at the same time recognizes that it would have been difficult to develop Kissinger's confidence and that Kissinger, who is considered very difficult to satisfy, would have kept considerable pressure on a State Department protective detail. Gentile feels that he gave the matter his best effort and plans to drop the matter until Kissinger himself again brings it up.

Gentile was especially appreciative of the confidence of Director Kelley and Deputy Associate Director Miller in connection with this matter. He again expressed his desire to be of any assistance possible to the Director and the Bureau.

4/30 RECLAR ALARMS

This memorandum recommends that a Laboratory expert be authorized to consult with a State Department representative at its request regarding protective devices.

On 4/27/70, G. Marvin Gentile, Deputy Assistant Secretary for Security, State, a former Special Agent and close Bureau contact, handed the Liaison Agent his letter to the Director dated 4/22/70 (attached) wherein he references the problem currently being encountered by the State Department in the protection of overseas personnel against abduction by members of radical groups and wherein he advises concerning current State attempts to obtain data concerning "hardware" which might be used by State in protecting against such acts. Recognizing the Bureau's extensive background in all areas of law enforcement, Gentile requested, if possible, that a Bureau representative be made available for brief consultation with a representative of his office in the hope that the Bureau might have some suggestion to assist State in consideration of this problem.

Gentile acknowledged to the Liaison Agent that he recognized that protection and protective devices were not within the area of FBI responsibility; however, Gentile was hopeful that in the light of the Bureau's pre-eminence in its field that it might possibly have some bit of advice, regardless of its simplicity or complexity, which State has not considered. Gentile emphasized that he had no intention of absorbing the Bureau with his problem pointing out that he would restrict any consultation to the specific area of protective devices such as might be applicable to the person, auto, residence or business establishment and not extend to personnel guard-type protection.

OBSERVATION:

Protection of U.S. Government personnel both in the U.S. and abroad is becoming a matter of extreme concern to many agencies, particularly the State Department which has the responsibility for the majority of U.S. personnel abroad. Although we have not conducted specific research in this area

since protection is not our business, we would appear uncooperative if we did not at least listen to what State has to say. Dear Mr. Hoover:

9/3 URGENT ALARMS

mz Our Department is encountering a problem with the protection of overseas personnel against abduction by members of radical political groups. We are attempting to collect as much information as we can obtain concerning hardware which may be used in assisting us with these acts. It is our belief that all available devices should be scrutinized as to their applicability. Neither simplicity or complexity of items should restrict their consideration in dealing with this matter. *J*

We feel that your organization, because of its extensive background in all of the areas of law enforcements, could be of great assistance to us in solving some of these problems. We request that you identify an agent of your organization who we might consult in this area. My office could be consulted directly by your representative for further arrangements.

NEED FOR AN ADDITIONAL APPLICANT SUPERVISOR

PERSONAL AND CONFIDENTIAL

I am greatly concerned over the delinquencies in the applicant field in this office and propose that another supervisor be designated to handle classifications 77 and 130 (International Development Program). Our case load in those two classifications as of February 1, 1951 was 700. It is contemplated that the agent strength of this newly created squad would be twenty-eight.

I recommend that Special Agent G. MARVIN GENTILE who is now the relief supervisor of Supervisor W. C. RYAN, be designated as Supervisor. GENTILE has been in the Bureau many years, both as a stenographer and agent. He is presently in Grade 12 and was rated Excellent in his last efficiency report.

To assist the Bureau in evaluating the need for this additional supervisor, the following information is set forth concerning applicant investigations:

No. 2 Squad - Supervisor W. C. RYAN. Handles classifications 1, 62, 118, 123, 124, 126 and 128. Case load as of February 1, 1951 re these classifications was 1500. Present agent strength - 47. Contemplated agent strength - 52.

No. 3 Squad - Supervisor STEPHEN A. SMITH. Classifications 67 and 116, plus record checks and zone organization. Case load as of February 1, 1951 - 5200. Present agent strength - 35. Contemplated agent strength - 60. In addition, 20 Special Employees will be on this squad.

The applicant squads will be under my personal supervision, as well as the stenographers and the stenographic pool.

It is noted that in the last Inspection Report, the morale of the stenographers was considered quite low due to the congestion of work on their books and to the crowded quarters in which they work. The Bureau has provided us with additional stenographic help, which will relieve the congestion on their books, and our removal to the Old Post Office Building will give them much better working accommodations.

It will be appreciated if the Bureau will promptly advise me as to the designation of the additional applicant supervisor so that we can put it into effect as soon as possible.

Special Efficiency Report

This special efficiency report is being submitted inasmuch as sixty days have elapsed since this Agent was designated Mail Reader (Supervisor) in the Washington Field Office.

Special Agent GENTILE presents a very neat and above the average personal appearance. He has an agreeable and friendly personality. He has continued to handle his duties on the Applicant Squad in a very effective manner and since his designation as Supervisor of this type of investigation has exhibited that he is possessed of a proper degree of self-assurance, utilizes tact and good judgment, and has shown that he is capable of handling the supervision of the Agents on the Squad in a proper fashion when operating on his own initiative. He appears to have a very thorough working knowledge of the investigations handled by him and is not hesitant in arriving at proper decisions. He appears to have gained the respect and confidence of the Agents assigned to the Applicant Squad. He is properly forceful and aggressive, and I feel that he has been progressing very satisfactorily in his present duties. He is available for general and special assignment.

I consider Agent GENTILE as being entitled to a rating of Excellent.

GUY HOTTEL, SAC, WASHINGTON

SUPERVISION OF WORK
WASHINGTON FIELD OFFICE
ADMINISTRATIVE MATTER

PERSONAL AND CONFIDENTIAL

During the self-inspection of the Washington Field Office in the past six weeks, it was ascertained that the volume of cases being handled relating to applicant matters is extremely high. For the six month period ending March 31, 1950, a total of 13,485 cases was closed and as of April 1, 1950, there were pending 2,566 cases. Total personnel assigned to these investigations is 117. In the past, the Bureau has approved two Supervisors and one Mail Reader to handle this volume of work. It was ascertained that this supervisory staff is insufficient because of the sheer volume and it is necessary that an additional person serve in the capacity of Supervisor. This person would be principally utilized in the reading and approval of mail and would be further available as a Relief Supervisor in the absence of the regularly designated Supervisors.

It is recommended that SA G. MARVIN GENTILE be designated as Mail Reader (Supervisor). He has been assigned to applicant matters in this office for a considerable period of time and has a complete knowledge of procedures and policies followed in the conduct of applicant cases. He has proved he is capable of handling applicant investigations of a delicate or involved character, has been utilized in the past on the applicant desk in a substitute capacity and has demonstrated his understanding of the Bureau policies pertaining to these types of cases and his ability properly to apply them. He is regarded as the employee on the applicant squad of this office who has demonstrated administrative and supervisory ability above the average. He is an employee who has made very satisfactory progress in his work and he is believed capable of fully discharging these new responsibilities.

In connection with the supervision of espionage cases and related matters, it was ascertained that by reason of the volume of work and, particularly, by reason of the many pending cases requiring expeditious, intensive investigation, that the approved supervisory staff is inadequate. These cases are all handled by a squad of 59 Special Agents. There is one approved full-time Supervisor and one Relief Supervisor. By reason of the work required in such cases as the Foocase, Amerasia case, Owen Lattimore case, the William Wolf Weisband case and the developments on an over-all basis in the Sovne case, it has become necessary that the Relief Supervisor, for all practical purposes, be utilized full-time in a supervisory capacity. It is impossible for the single Supervisor adequately to supervise the routine espionage cases and at the same time afford the special cases adequate supervision.

Director
SUPERVISION OF WORK
May 29, 1950

The regular Relief Supervisor, previously approved by the Bureau, is SA DUDLEY PAYNE and it is now recommended that he be designated a full-time Supervisor on the espionage squad and that he be designated a Special Case Supervisor to assist the regular Supervisor in handling the workload. SA PAYNE, as Relief Supervisor, has complete knowledge of the work handled by the squad and over a considerable period of time has demonstrated he possesses the necessary Supervisory qualifications to function effectively. It is planned to assign to him, for supervisory purposes, those special cases requiring expeditious and continuing attention, thereby permitting the regular espionage Supervisor to afford necessary attention to the work of the squad on an over-all basis, to insure continuity of supervision. It is also recommended that SA WILLIAM H. MARR be designated as Relief Supervisor on this squad in the event SA PAYNE is approved as a Special Case Supervisor.

SA MARR is in Grade GS 12 and for a considerable period of time has been assigned to the espionage squad in this office. He possesses above average intelligence, excellent investigative ability and by virtue of his excellent handling of highly involved matters, has demonstrated he possesses both supervisory and administrative ability. It is felt he is the best qualified available Agent to serve in the function indicated.

SUPERVISION OF WORK - WASHINGTON FIELD OFFICE
ADMINISTRATIVE MATTER

In connection with the self-inspection of the Washington Field Office, SAC Hottel recommended (1) that SA G. Marvin Gentile be designated as Mail Reader in applicant matters; and (2) that SA Dudley Payne, Relief Espionage Supervisor, be designated full-time supervisor on the Espionage Squad to handle special cases.

Mr. Hottel points out in connection with request No. 1 that the WFO has closed a total of 13,485 applicant type cases during the 6 months preceding March 31, 1950. He also points out that as of 3-31-50, there were 2,566 such cases pending. The SAC has assigned 117 employees to handle these investigations. A review of an administrative memorandum in the self-inspection report captioned "Supervision of Squad No. 4 - Applicant Matters" reveals that the average number of applicant type cases closed per month for the 6 months preceding 3-31-50 was 2,247 per month, whereas during March, 1950, 2,711 such cases were closed. During the months of November and December, 1949 and January and February, 1950, the total cases closed varied from 1,961 to 2,109. From this it can be determined that the number of cases handled during March was unusual, it being noted that there was a 40 to 50% increase in the number of AEA cases closed in March as compared to each of the 4 preceding months. If the volume of applicant type cases is to continue as it was in March, 1950, it is felt that the request is entirely warranted. If this volume is not to continue, it is felt that the present number of full-time supervisors is adequate, with the understanding that relief supervisors should be used when the workload is excessive.

In regard to the request for another full-time Espionage Supervisor, it is noted that 59 Agents are assigned to this Squad, one full-time Supervisor is assigned and this Squad is presently handling a total case load of 341 cases. Several of these 341 cases, such as the Focase, Amerasia, Owen Lattimore, Sovne, and related cases such as William Wolfe Weisband, are considered major cases and ones which should receive very close and continuous supervisory attention. SAC Hottel recommends that Relief Supervisor Dudley Payne be assigned as a full-time supervisor on the Espionage Squad to handle special cases. In view of the case load, the number of Agents assigned and the number of major cases, it is felt that this request is not unreasonable. It is suggested that another full-time Espionage Supervisor be designated in the WFO for a period of 6 months, with the understanding that at the end of that time his continued assignment would have to be justified by the WFO.

RECOMMENDATION: That this memorandum, along with the attached letter from the WFO be
Ladd (1) routed to Mr. Rosen for his observations relative to the designation of another
Clegg full-time applicant supervisor; and (2) routed to Mr. Belmont for his observation
Glavin relative to the designation of an additional full-time Espionage Supervisor for the WFO.

G. MARVIN GENTILE
Special Agent
Official Six-Months Report

This efficiency report is being submitted inasmuch as six months have elapsed since Agent GENTILE was reallocated to Grade GS-12.

Special Agent GENTILE dresses neatly and in good taste, presenting an above the average personal appearance. He has a very friendly and pleasing personality.

He has been assigned to the Applicant Squad, throughout the period of this report, conducting investigations in all types of Applicant inquiries. He has a thorough knowledge of procedures and techniques in the conducting of Applicant inquiries and is capable of handling those investigations of a delicate or involved nature requiring better than average tact and resourcefulness. He is considered an excellent dictator, his reports being complete and comprehensive requiring very little editing. He is properly forceful and aggressive and operates very effectively on his own initiative, requiring much less than average supervision. He is qualified in the use of Bureau firearms and I feel that he would operate well on assignments of a dangerous nature. He has had no occasion to testify during this period, and he was engaged on one surveillance in which he indicated his ability to handle such assignments in a successful manner.

He has been utilized to some extent in assisting and reading reports on Applicant investigations, and has previously had some experience as a Bureau Supervisor. The manner in which he handles his assignments and his work in reading and reviewing reports indicates that he is definitely possessed of administrative and supervisory ability. He is available for special and general assignment.

I consider this Agent as being entitled to a rating of Very Good in his present grade.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

FROM : GUY HOTTEL, SAC, Washington Field

SUBJECT: G. MARVIN GENTILE
Special Agent

DATE: July 27, 1949

Rebulet to the above-captioned employee dated July 21, 1949, advising of the results of the physical examination afforded on July 7, 1949, at the U. S. Naval Hospital, Bethesda, Maryland. In referenced letter it was stated that this report of the physical examination reflected defective vision of 20/30 in the left eye.

This is to advise that on July 2 and 4, 1949, Agent GENTILE had a complete and thorough examination made of his eyes by Dr. MICHAEL KENNEDY, Eye Specialist, with offices in the Columbia Medical Building, Washington, D. C. Upon the completion of this eye examination, Dr. KENNEDY advised this employee that his vision was 20/20 in both eyes and there was no need for him to obtain glasses.

In view of the above facts, it would not appear that any further eye examination by Special Agent GENTILE is necessary at this time.

Annual Efficiency Report

Special Agent GENTILE presents a very neat personal appearance and dresses above the average and in good taste.

During the period of this report, Agent GENTILE has been assigned to the Applicant Squad, conducting investigations in VOA, ERP, CIA, AEA, DAPLI and Bureau applicant types of cases. Agent GENTILE is a well rounded Agent, having previously had experience in all types of Bureau investigations, and has adapted himself in an excellent manner to conducting inquiries of the applicant type. He produces a much better than average volume, is enthusiastic and thorough in his investigations, uses tact and good judgment and is possessed of a proper degree of force and aggressiveness. He operates well on his own initiative, is resourceful and requires a very minimum of supervision. He is considered an excellent dictator. His reports are comprehensive and complete and indicate that he properly organizes and initiates his investigations. He maintains himself in good physical condition, is qualified in the use of firearms and is sufficiently experienced to be utilized on assignments of a dangerous nature. He has not had occasion to testify in any matters but he has previously indicated his ability along this line. He has not been utilized on any physical surveillances during this period. He has not been engaged in any duties of an administrative or supervisory nature; however, the manner in which he organizes and completes his own assignments would indicate that he is possessed of administrative possibilities.

This Agent is available for general and special assignments.

I consider this Agent as being entitled to a rating of EXCELLENT in his present grade.

G. MARVIN GENTILE
SPECIAL AGENT

This efficiency report is being submitted inasmuch as six months have elapsed since Agent Gentile was reallocated to CAF 11.

Agent Gentile has been assigned to the Washington Field Office since March 30, 1948; however, since that date until August 2, he was utilized as a supervisor both in opening investigations and reviewing reports submitted by the Field in Loyalty investigations at the Bureau. I understand that he performed his duties in a capable manner and that his work was entirely satisfactory.

During the last month or so, he has been assigned to applicant investigations, and handles a good volume of work in an expeditious manner. He has initiative, is resourceful, and submits well-prepared reports that require less than average supervision. His contacts with those outside the Bureau have apparently been well handled, and he makes a very good personal appearance. He has conducted himself very well up to this date, and I am of the opinion he is entitled to a rating of VERY GOOD within his grade.

RE: G. MARVIN GENTILE, Special Agent
Special Efficiency Report

This report is being prepared in view of the transfer of Special Agent Gentile from this Division to the Washington Field Division. This Agent has been assigned to the Miami Division since October 28, 1946, it being his first office of assignment.

Reference is made to the efficiency report submitted in connection with the work of this Agent on January 8, 1948. Since that date he has been promoted to grade CAF-11.

The remarks set forth in reference report are still applicable and there is little to add except that Special Agent Gentile has continued throughout the intervening period to perform entirely satisfactory work. On the basis of his overall intelligence, alertness, industry, loyalty and dependability, it is believed that he can be considered as definitely above average and he has excellent prospects for future development and progress in the Bureau's service.

In grade CAF-11, he is being given a rating of VERY GOOD.

RE: G. MARVIN GENTILE, Special Agent
Special Efficiency Report

This Agent has been assigned to the Miami Division since October 28, 1946, this being his first office of assignment.

He makes a particularly good appearance, being extremely neat, well proportioned physically, and has an attractive and impressive personality. He handles himself well in conversation and in interviews. He represents the Bureau exceedingly well in contacts with others, is definitely above average as to intelligence, initiative, judgment and general investigative ability.

Special Agent Gentile throughout the period of this report has been assigned largely to the investigation of important cases having to do with foreign exiles plotting revolution on American soil and such related matters as arms smuggling, etc. in connection with such plots. He has demonstrated a very keen and analytical mind with regard to the proper handling of investigative problems of this type. He performs his duties entirely satisfactorily. He is a better than average dictator, operates an automobile satisfactorily, handles himself well on the firearms range, and is believed to be qualified to participate on raids and dangerous assignments, as well as surveillances.

This Agent has demonstrated above average interest in his work and above average devotion to duty. He is believed to be extremely loyal and commendably ambitious to succeed in the Bureau's service. This Agent has been characterized by steady and dependable application, hard work and constant improvement in the quality of his performance.

BS/wh
I have not had an opportunity to personally observe this Agent testify but on the basis of moot court experience and other information available to me, I can voice the opinion that he is fully qualified as a satisfactory and impressive Bureau witness.

Special Agent Gentile has not had any opportunity to demonstrate administrative, executive or supervisory ability. However, on the basis of his other work, intelligence, obvious good judgment, etc., it is believed that with additional experience he will constitute excellent material for development along administrative lines.

Examination: Set #13 - 94%

SAC Thornton:

Special Agent Gentile is a tall, slender, youthful looking Agent, dresses appropriately for his duties and has lots of pep and enthusiasm. This Agent is considered to be one of the best dictators in the Miami office. His reports have come in in very good condition showing good thought, investigative curiosity and very good planning. This Agent has put in a great deal of voluntary overtime without any request from me or his supervisor. This, of course, has increased his volume. He is outstanding as a new Agent.

Status - Very Good.

Inspector Naughten:

Though only a first office Agent, he looks very promising. He is above-average in alertness, enthusiasm, poise and possibilities for further development. He is the type who will anticipate rather than waiting to be told what to do.

MEMORANDUM:

Re: Special Agent G. MARVIN GENTILE
Annual Efficiency Report

This Agent has been assigned to the Miami office since October 28, 1946, and this is his first office of assignment. Gentile, however, previous to assuming the position of Special Agent, was employed by the Bureau in the Springfield and Honolulu Field Offices so that he does have a good deal of knowledge concerning the Bureau's work. This Agent is careful as to his dress and makes a good general appearance. He is quiet, but has a pleasant and friendly personality. Compared with other Agents in the same grade and rating, it is believed that his work is above average as to both quantity and quality. Gentile gives his cases careful thought, outlines a plan of action, and then follows it through step by step to a logical conclusion.

This Agent for the most part has worked in and around Miami, Florida. However, he did spend several weeks working with the Resident Agent at West Palm Beach, Florida, and a period of approximately two weeks at Tallahassee, Florida, when that Resident Agency was under the jurisdiction of this office. Both Resident Agents indicated that Gentile is a conscientious worker who used initiative and required a minimum of supervision in connection with his investigative duties. It was further indicated that his rough draft reports were exceptionally well done and did not require changes or retyping. These Agents indicated that Gentile made a favorable impression upon police officers with whom he came into contact, as well as various other persons with whom Gentile associated.

Six stenographers in the Miami office gave Gentile a rating of "Very good", stating that his dictation shows attention to detail, that his work is generally well prepared and that he dictates at an even rate of speed. These observations are reflected in the completed reports of Gentile, and they require only a small amount of supervision.

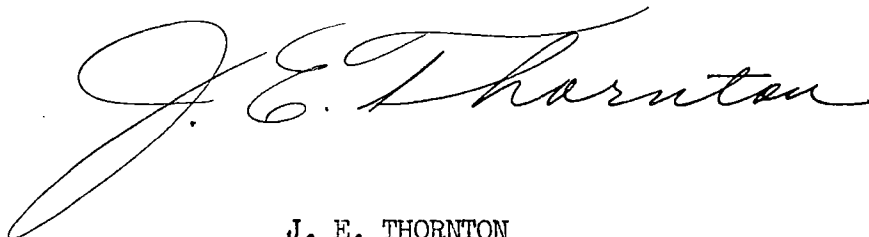

This Agent has not testified in Federal court or before a United States Commissioner while in this district, but it is believed that he would give a favorable account of himself. He has not attended firearms training session while assigned to this office, nor have I had an opportunity to observe him in a position of danger. Gentile recently participated, however, in an apprehension which presented some dangerous aspects, and he conducted himself in a calm manner and exercised good judgment. It is felt, however,

89

that he has not had sufficient experience in the Bureau to lead other Agents in this type of assignment.

This Agent has an excellent attitude, and it is believed that he will continue to make progress in the Bureau. He has not been with the Bureau for a sufficient length of time to judge his potentialities with respect to any supervisory, administrative or executive ability.

This Agent is rated as Very Good in CAF-10.

Re: G. MARVIN GENTILE, Special Agent
Sixty-Day Efficiency Report

This Agent presents a good personal appearance, dresses neatly and appropriately for his duties and although he has a quiet manner is sufficiently forceful and aggressive as he does have self-confidence and a good degree of assurance. He is personable and makes a good, sincere impression upon persons with whom he comes in contact.

Mr. Gentile has handled Selective Service, Deserter, Theft of Government Property, Theft from Interstate Shipment and Servicemen's Dependents Allowance Act cases as well as other miscellaneous work. I had an opportunity to observe this man very closely in connection with a series of police conferences throughout the state and noted that he met officers well and was alert to assist in arranging rooms, tables, exhibits and in helping a firearms expert who participated in the meeting. I also observed that he is a good and careful automobile driver and took pride in maintaining his car in good condition. Recently he was on a road trip in the Tallahassee district and his rough drafts were submitted in very good order, showing thought and planning.

This Agent turns out an above average volume of work for one of his experience in the Bureau, and while his work requires supervision, I expect that he will progress very rapidly in this phase of detail work. All of his reports have shown good judgment. He has an excellent attitude and I feel that he has fine possibilities in the Bureau.

Comparing him with other Agents in CAE-9, he is rated as Very Good.

I have had an opportunity
to read this report.

Gentile is a native of South Dakota and lived several years in Peoria, Illinois. He entered the Bureau's employment in the Springfield Office in July, 1941; was transferred to the Honolulu Office in 1943; entered the Armed Services in 1944, and was discharged two years later. He attended different schools during his Navy service and received a degree at Northwestern University known as a BS Senate Degree.

Gentile is an above average Agent in appearance and personality. He is very likeable, friendly, energetic in manner and is alert mentally. Although rather youthful, he has a mature manner. He appears to be the type who will apply himself conscientiously and with the appropriate seasoning process, he should develop into a good Agent.

The Special Agent in Charge of Firearms has certified that this Agent is qualified in the use of all Bureau weapons.

A driving test was afforded Agent Gentile and he is qualified to drive Bureau cars.

When the Bureau requested me to submit copies of my military status, it was necessary for me to use my release to inactive duty papers, which reflected that I was released to inactive duty as an Apprentice Seaman.

Since that time I have received copies of my official status papers. Inasmuch as I did not have these available before, they are being submitted at this time.

Attached to this memo you will find a photostatic copy of my Commission and paper showing my appointment to the Naval Reserve. These papers will serve to show my correct status as an Ensign in the U.S. Naval Reserve, on inactive duty.

Re: Lucy Jane Johnson
Stenographer

Dear Sir:

I am transmitting herewith a letter addressed to you from the above-named stenographer dated June 19, 1946.

Miss Johnson has been employed by the Bureau for almost five years. She is an excellent employee. She creates a good impression. She does very satisfactory work and is a distinct asset to the Bureau.

I have discussed with her her request for a transfer and am informed that family necessities require that all of the family move to Omaha, Nebraska. Because of this necessity and because of her loyal and fine service in the Bureau I recommend that she be transferred as requested.

I have discussed this matter with Special Agent in Charge Whelan and he concurs in my recommendation. If such a transfer is granted it will be necessary that the Springfield Office secure an additional stenographer. There is a possibility that Marvin Gentile, a former male stenographer in this office, will return to duty in July, which if he does return at that time, would solve the problem of an additional stenographer.

Very truly yours,

DUANE L. TRAYNOR.

Re: G. MARVIN GENTILE, Former Stenographer
Springfield Field Division

Dear Sir:

Reference is made to the letter directed to the above former employee of this office by the Bureau under date of May 5, 1944, in regard to the submission of documentary proof of his entry into the armed forces.

In this connection reference is made to letter from this office to the Bureau under date of April 26, 1944, wherein the Bureau was informed that Mr. GENTILE was examined at the Army Induction Station at Chicago, Illinois, and had been accepted for service and ordered to report for induction on May 1, 1944, at 6:45 a.m., and advising the Bureau a copy of the order to report for induction was being enclosed with the aforementioned letter to the Bureau.

In the event there is any further action whatever to be taken by Mr. GENTILE in this matter, please advise this office as it is my understanding that the photostatic copy of the order to report for induction is sufficient proof in order to keep an employee on a military leave status.

Very truly yours,

ORDER TO REPORT FOR INDUCTION

The President of the United States,

 To George Marvin Gentile
 (First name) (Middle name) (Last name)
Order No. 12025

GREETING:

Having submitted yourself to a local board composed of your neighbors for the purpose of determining your availability for training and service in the land or naval forces of the United States, you are hereby notified that you have now been selected for training and service therein.

 You will, therefore, report to the local board named above at Illinois Terminal Depot, Peoria,
 (Place of reporting)

 at 6:45 a. m., on the 1st day of May, 1944
 (Hour of reporting)

This local board will furnish transportation to an induction station. You will there be examined, and, if accepted for training and service, you will then be inducted into the land or naval forces.

Persons reporting to the induction station in some instances may be rejected for physical or other reasons. It is well to keep this in mind in arranging your affairs, to prevent any undue hardship if you are rejected at the induction station. If you are employed, you should advise your employer of this notice and of the possibility that you may not be accepted at the induction station. Your employer can then be prepared to replace you if you are accepted, or to continue your employment if you are rejected.

Willful failure to report promptly to this local board at the hour and on the day named in this notice is a violation of the Selective Training and Service Act of 1940, as amended, and subjects the violator to fine and imprisonment.

If you are so far removed from your own local board that reporting in compliance with this order will be a serious hardship and you desire to report to a local board in the area of which you are now located, go immediately to that local board and make written request for transfer of your delivery for induction, taking this order with you.

Member or clerk of the local board.

SPECIAL EFFICIENCY REPORT

This efficiency report is being submitted in accordance with Bureau instructions as this employee is entering the armed forces and is going into a military leave status. The items mentioned in my previous report of April 6, 1944 are true and are being reiterated at this time.

Mr. Gentile is a very loyal Bureau employee who presents a neat personal appearance and who possesses an extremely good attitude. He is thoroughly familiar with and has an understanding of the duties of the Chief Clerk's office, performs stenographic duties and operates the teletypewriter. He has demonstrated above average initiative in the handling of his duties and gets along well with other employees, and has exercised sound judgment in connection with his work.

From my observation of this employee's work he has impressed me as being considerably above average.

Dear Mr. Hoover:

I am writing this personal letter at this time to tell you how much I have enjoyed my association with the Bureau during the past three years, inasmuch as I will be leaving on military leave commencing May 1, 1944.

The past three years that I have spent with the Bureau have been three of the best in my life. Now that I am leaving this organization for the duration, I have but one thought in mind, and that is to return when the war is over and continue from where I left off. My one aim is to complete my college education and become an agent.

My regard for the Bureau is the highest, and I am indeed proud to be able to say that I have served in it during the war crisis. I want to take this opportunity of wishing you continued success in your great efforts on behalf of the Bureau.

Very truly yours,

Mr. GENTILE presents a very neat personal appearance, dresses appropriately for his duties, and has unusually sound judgment for one of his years. He has been working in the Honolulu Office, in the Chief Clerk's Office, on the late shift, and has also done stenographic work.

He is ambitious to succeed in the Bureau and has used every opportunity to improve his educational background by attending the University of Hawaii. He is an excellent typist, operates a teletype machine well, and has demonstrated very good initiative.

This employee will return to the mainland on transfer to the Springfield Office in the very near future and shortly thereafter will request military leave. He is rated as a very good stenographer and a very good all-around employee.

RE: GEORGE M. GENTILE
Order Number 12025

Gentlemen:

You will recall that under date of July 1, 1943, occupational deferment was requested by this Bureau on behalf of the above-named registrant. As a result thereof, you classified him in 2-B until further notice.

Since Mr. Gentile is not twenty-two years of age, the Agency Committee of the Federal Bureau of Investigation in compliance with Local Board Memorandum Number 115, as amended January 6, 1944, recommends that no further request for occupational deferment be made for this registrant at the expiration of his present period of deferment. As you have been previously advised, Mr. Gentile is at present on an assignment outside the continental limits of the United States. Arrangements have been made to recall him to this country before the expiration of his present period of deferment, and you will be appropriately advised when he does return.

Your cooperation in this case is appreciated. Should there be any change in the occupational status of this registrant before the expiration date of his deferment, you will be promptly advised.

OCTOBER 1, 1943.

Director, FBI

Dear Sir:

Inasmuch as Mr. FRANK V. SULLIVAN, who was formerly the Chief Clerk in the Honolulu office, will undoubtedly be called to Washington in the near future it is suggested that the Bureau consider designating Mr. LLOYD W. TITTERINGTON as Chief Clerk, to assume these duties at the departure of Mr. Sullivan. Mr. G. MARVIN GENTILE is being suggested as Assistant Chief Clerk.

It is requested also that the Bureau transfer a female stenographer to the Honolulu office, as when Mr. Sullivan leaves the office will need the services of such stenographer.

Very truly yours,

J. E. THORNTON, SAC

His attitude toward the work is very willing and he has functioned well in the Chief Clerk's Office. He has not taken any dictation since coming to the Honolulu Office because of the delinquent condition of the Chief Clerk's Office. He is rated as a good employee.

Inspector Gurnea:

This employee is presently assigned to the Chief Clerk's office. His appearance and personality are average. He appears to be alert, and energetic, however, somewhat boyish. His attitude is good. In commenting on his failure to pass the stenographic test, he stated that he has done Chief Clerk's work almost exclusively since entering the Bureau. I consider him as being a good employee.

SPECIAL EFFICIENCY REPORT

ON

G. MARVIN GENTILE
STENOGRAPHER

Mr. GENTILE presents a neat personal appearance, dresses appropriately for his duties, and appears to possess good discretion. He is presently working in the Chief Clerk's office, inasmuch as the Chief Clerk is ill and the Assistant Chief Clerk has not returned from a special training class at the Bureau. He is very well prepared to work in the Chief Clerk's Office.

Although Mr. GENTILE failed to pass the stenographic test during the recent inspection, he is considered to be a capable stenographer, but has lost some of his stenographic transcription accuracy due to the fact that he has not taken dictation for quite some time. Arrangements have been made so that he will be given dictation as soon as he can be relieved from his duties in the Chief Clerk's office. He is an excellent typist, operates the teletype machine well, and has demonstrated good initiative. He is presently attending the University of Hawaii, taking a part-time schedule.

This employee has a very good attitude, and turns out a good volume of work. However, he is not being rated as an excellent stenographer due to the fact that he recently failed his test. He is rated as very good.

SPECIAL EMPLOYEES

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others.

Special Employees of the Federal Bureau of Investigation are those employees who are performing the work of this Bureau outside the continental United States. These employees have met certain basic qualifications to perform the duties presently assigned to them. The majority of these employees have stenographic and typing experience, are qualified in the language of the country to which they are assigned, and their assignments are such that they must be capable of withstanding the most arduous physical exertions. They are assisting regular Special Agents of this Bureau on highly confidential assignments, and it has been through their past experience and training with the Bureau that they have qualified for this type of assignment. Replacements cannot be secured for these employees, and all of the work being performed by them is of a most critical nature and pertains directly to the successful war effort. Many times assignments are such that these employees cannot expect protection from our government which would otherwise be afforded.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Re: Annual Efficiency Report
G. Marvin Gentile, Stenographer

Mr. Gentile presents a good personal appearance, dresses neatly and since his assignment at this office has handled the opening of cases, indexing of new cases, posting reports, maintenance of assignment cards and in addition to these regular duties, does some filing and assists in the preparation of the monthly administrative report. He is thoroughly familiar with the preparation of this report and can handle same without assistance. He also handles outgoing mail when he is on the 5:00 p.m. to 1:00 a.m. shift.

He is a capable stenographer and typist and has taken dictation from agents of this office on road assignments on several occasions during the past year. He has performed all of his duties in an efficient manner. He is also a capable teletype operator. He is prompt in completing assignments, handles routine matters on his own initiative and his work has been of a high quality. He is presently attending Junior College and is under transfer to the Honolulu Office.

Mr. Gentile is an excellent employee.

MEMORANDUM

RE: G. MARVIN GENTILE
Clerical employee.
Springfield Field Division

While discussing other matters with me, SAC Crowl stated that he will have the above-mentioned employee who is under transfer to Honolulu, Hawaii, depart on or about April 15, 1943. This is necessary due to the shortage of clerical personnel in the Springfield office and the coming inventory period. I told Mr. Crowl it would be all right.

He stated that he has an applicant, Eugene M. Curry, under consideration for the position; that he has had certain unfavorable information in the investigation but that the same individual who gave the unfavorable information now said the boy is all right and he recommends that we give every consideration to this applicant when his papers are received. I told Crowl we would.

Last salary change	12-16-42
Age	21
Marital status	Single
Stenographic Test	97

Selective Service Status	2-B (deferment requested)

In view of the transfer of Stenographer Richard G. Carotta from Honolulu to San Francisco, it is necessary that he be replaced.

Stenographer Gentile has indicated a willingness to accept a transfer to Honolulu and SAC Crowl has advised that he is an above average employee and is capable of handling an assignment at Honolulu. SAC Crowl advised that Gentile's Selective Service Board has issued a permit for this employee to proceed to Honolulu and that this permit is for a period of six months. Mr. Crowl pointed out that the Board was at first reluctant to allow this employee to leave the United States and therefore he does not know what attitude would be taken toward extending permission for him to be out of the United States beyond six months.

RECOMMENDATION:

It is recommended that Stenographer Gentile be transferred from Springfield to Honolulu at Government expense.

SAC Crowl of Springfield, telephonically advised that the resident agent of Peoria had contacted Gentile's Selective Service Board concerning a permit for this employee to proceed to the Honolulu Field Division as a Stenographer. The Selective Service Board was not very favorable toward granting such a permit informing the Agent that the Bureau had been given until May to replace Gentile and they anticipated inducting him at that time.

SAC Crowl advised that he would attempt to convince the Board on next Wednesday when they have a meeting that Gentile should be allowed to proceed to Honolulu; he would point out that this is a decision for the Board; that, however, Honolulu was in a combat zone, and that this employee would be subject to bombing the same as a soldier, and that it was impossible to secure a female employee for this position.

It is believed that this telephone call was justified inasmuch as two teletypes had been sent to the SAC at Springfield requesting him to secure this permit. It is believed that this matter could not have been satisfactorily handled other than by a phone call.

Re: G. MARVIN GENTILE,

Special Assignment.

Dear Sir:

Inasmuch as the Bureau has indicated a need for more stenographic employees on SIS work, I wish to submit the name of G. MARVIN GENTILE, a male stenographer assigned to this office, who has expressed a desire to be given an assignment on SIS work.

Mr. GENTILE has been employed by the Bureau since August, 1941. He is well-acquainted with the work of the Bureau, having served in the capacity of a clerk and a stenographer. This employee has no responsibilities, is single, and I believe would acquit himself credibly on such an assignment in the event it were tendered. He is now in his second year of college work and is completing a year of work in Spanish. He is presently able to read and write this language to a certain degree of proficiency. He is able to understand and speak Spanish to a limited extent.

The above is being submitted for the consideration of the Bureau.

~~CONFIDENTIAL~~

Gentlemen:

Reference is made to the Selective Service case of Mr. George M. Gentile, who is duly registered at your Board as Order Number 12025. You will recall that D.S.S. Form 42-A was furnished to your Board under date of September 16, 1942, and as a result thereof, he has been placed in a deferred status.

In connection with this matter, I desire to advise you that due to his increased experience with the attendant increase of his service value in the successful prosecution of the war, Mr. Gentile has now been promoted to the salary of \$1800 per annum and has been designated as an Investigator-Reporter in the Springfield Field Division. I thought your Board would desire to have an appropriate D.S.S. Form 42-A (Revised) on file showing the change in the position of this registrant, and, therefore, the above form executed by me under date of December 24, 1942 is being transmitted herewith requesting that he be continued in a deferred status.

Please be assured that it is my desire to cooperate with your Board in every possible way, and should there be any additional information you may desire with regard to this case, please do not hesitate to call upon me. INSTRUCTIONS: This form is to be filled out by an employer or other person who has knowledge of the registrant's eligibility for Class II deferment as a necessary man in his civilian occupation or activity. If the registrant is deferred, the employer must notify the Local Board promptly of any change in the registrant's job status, or if his employment is terminated.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. This Bureau has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies every six months so that trends in crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records not only on a national basis but on an international basis. The greatest depository of fingerprint records in the world is maintained by the Federal Bureau of Investigation in Washington, D. C. We have over fifty-seven million sets of fingerprints on hand today and are receiving fingerprint records at a rate of approximately 115,000 each day. The military and naval authorities have issued orders that all employees of manufacturing plants operating under contracts with the War Department or Navy Department must be fingerprinted and their fingerprints sent to the Federal Bureau of Investigation for search against our existing files. Obviously the purpose of such an order is to ascertain the criminal background, if any, of persons who are occupying positions where they have access to confidential information and to eliminate from such positions those persons whose records indicate that their interests are not those of our government.

We are also receiving fingerprint records of all persons enlisting or being inducted into the army and other military and naval services. All employees of the Federal government are fingerprinted and their fingerprints searched through our files for prior criminal records, again for the purpose of guarding against the employment of persons in the Federal government whose backgrounds indicate that they might not function to the best interests of our government. We are receiving thousands of criminal fingerprints from all police agencies throughout the country and it is essential that these fingerprints be handled promptly and the contributing agency advised of any prior record so that justice may be intelligently administered. By means of this procedure the Federal Bureau of Investigation is able to identify thousands of fugitives from justice each year who otherwise might not be identified by local police agencies who do not have the benefit of prior criminal records as reflected on fingerprint cards which were made at the time of some previous arrest. Many such persons are wanted for a previous criminal act by some other law enforcement agency and are presently attempting to disguise their true identity through assuming a fictitious name. This ruse on their part is penetrated through the science of fingerprinting and the Federal Bureau of Investigation is enabled to advise the interested local law enforcement agency of the true identity of the individual and he can be held for appropriate prosecutive action, whereas if not identified, he quite possibly would have been released to continue his depredations against society.

Our criminological laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A very high percentage of the work presently being performed by the Technical Laboratory is in connection with the national war effort. Evidence collected in suspected sabotage cases is examined by the scientists in our laboratory who are qualified to handle examinations of almost any technical nature. The personnel in the Technical

Laboratory have been trained through education and experience to handle such subjects as analytical chemistry, qualitative and quantitative analysis, ballistics tests, microanalysis examinations, spectrographic examinations, cryptograph and cryptanalysis work, and many other highly technical examinations.

The Files Section of the Federal Bureau of Investigation contains files on hundreds of thousands of individuals whose activities are of the greatest importance to the country today. It is highly important that we maintain in the Files Section a nucleus of experienced personnel so that the information contained therein can be made readily available to the supervisory personnel of this Bureau and also be made available to other governmental agencies such as the State Department, Military Intelligence Division, Office of Naval Intelligence, and the Immigration and Naturalization service. It is most essential that only the most trusted employees be assigned to this work because of the highly confidential material that is contained in our files.

All of the functions of the Federal Bureau of Investigation are so closely inter-related that it is essential that qualified and experienced personnel be available not only to perform their own work but to train new employees. The Congress of the United States has passed several bills within the past year approving an increase in the personnel. When it is considered that the work of this Bureau is highly confidential it can be appreciated that the selection of personnel must be made with great care. It has been our experience that only one employee is obtained from every one hundred persons who have applied. It is necessary that each employee be investigated thoroughly so that there will be no possibility of having a person in our service who is not loyal to the United States. We have found that it is extremely difficult to secure qualified persons for almost any of the positions that are available. At the present time we have approximately 1,500 employees less than the number that has been authorized by Congress. Every effort is being made to obtain these additional employees as they are badly needed in order for us to properly carry on the work that has been assigned to us. We are endeavoring to obtain these additional persons without interfering in any way with the administration of the Selective Training and Service Act. In all positions where possible we are utilizing the services of female employees. With the exception of Special Agents' and Laboratory Scientists' positions, no appointment of male employees who may be eligible for military service are being made. It is absolutely necessary, however, that our experienced personnel be maintained so that the new personnel can be adequately supervised and trained.

All employees of the Federal Bureau of Investigation have been working at top speed to keep abreast of our duties. The regular work week has been extended to 44 hours, and in addition to that, employees are performing a tremendous amount of overtime and no compensation whatever is paid for the overtime service performed. Our Special Agent investigators are performing no less than four hours a day overtime service and the clerical personnel is performing between one and two hours a day overtime service. Obviously very little consideration can be given to replacing an experienced employee until such time as we are able to build up our present staff to the number authorized and needed.

Special Agents of the Federal Bureau of Investigation are given twelve weeks of training which embraces 535 hours of study. During that period of time they are trained not only in investigative techniques and procedures, but are qualified in the handling of firearms, mechanical devices, and technical devices in use by the Bureau. After entering the Field service which follows their training period, their skill of course increases with their length of service in the Field. It would

obviously, therefore, be impossible to adequately replace an experienced Special Agent until the replacement had been in the service an equal length of time.

The science of the classification of fingerprints is one of the most exacting in the world today. Employees in law enforcement organizations handling fingerprint activities are of a profession which demands the utmost skill and honesty in the practice of that profession. In the Federal Bureau of Investigation we train Fingerprint Technicians through classroom and practical study for a period of approximately six months. At the end of that time those employees are qualified to examine sets of fingerprints and to identify like sets. This science cannot be taught overnight and the loss of a fingerprint man at any stage of his training or employment is a severe blow to the Federal Bureau of Investigation at this time when we are receiving thousands of sets of prints from all of the coordinated activities of the Government and from local law enforcement agencies.

The Laboratory Scientists of the Federal Bureau of Investigation, all graduate scientists, are thoroughly schooled in the science of criminology and today are performing duties pertaining to the successful war effort one hundred percent of their time. Their training in this field, embracing all sciences of laboratory examination which includes cryptography, chemistry, ballistics, geology, serology, and many others, has been invaluable in the solving of espionage, sabotage, and other subversive activities. It is essential that these scientists many times perform their scientific work in the field under such conditions that they could not be replaced with employees not possessing their physical attributes.

Bureau employees in positions aforementioned and for whom deferments are requested possess technical and scientific skills which renders them irreplaceable to the Federal Bureau of Investigation at this time.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 24th day of December 1942.

In considering problems of health a number of people fail to realize the great importance of water. In order to keep in good health the average person should drink from six to eight glasses of water every day. Employers should, therefore, encourage their workers to drink enough water by providing a plentiful supply of fresh water at convenient points. When new office buildings are planned, there should be some provision for the distribution of water from central points where it may be cooled by special machinery or by packing ice around the pipes. Great care must also be taken to insure the purity of the supply, and frequent tests should be made to see that it remains free from disease germs. Since germs can be present in drinking water without affecting its taste or appearance, testing is the only way to be certain that the water is pure. If the water is not inspected there is some danger that many people may become ill before the cause of sickness is discovered. The chief sources of the public water supply are ~~now~~ pure since they are examined regularly by public health officers. A private well or spring, however, should not be used until a careful test is made, even though a particular family has been using it for many years. Through this long use the family may have built up a strong resistance to any disease germs that the water contains.

Local Board Number 4
Selective Service System
Peoria, Illinois

Gentlemen:

Reference is made to the Selective Service case of Mr. George M. Gentile, who is registered at your Board. You will recall that under date of September 18, 1942, D.S.S. Form 42-A was furnished to your Board requesting deferment for him by reason of his employment as a Confidential Index and Files Analyst assigned to the Springfield Field Division of this Bureau. Recently, however, you have ordered him for a physical examination.

I am sure you are aware of the work that is being performed by the Federal Bureau of Investigation at this time. As you know, we have been designated by Presidential Directive as the civilian agency to handle violations pertaining to espionage, sabotage and subversion. The duties and responsibilities of this Bureau have increased tremendously since the outbreak of actual warfare. In order that we may effectively cope with the ever increasing amount of work being referred to us, it is absolutely essential that we retain in this service our experienced employees who are performing duties in critical positions.

We must perform our work in an efficient and expeditious manner. This Bureau maintains fifty-six field divisions, out of which the various Special Agents operate. In order for our Agents to function effectively, it is necessary that the coordinating branches of this Bureau assist them. To conduct an investigation successfully, it is necessary for us to have Fingerprint Technicians, Investigator-Reporters, and Confidential Index and Files Analysts. These employees assist and make possible the work performed by Special Agents. This fact was fully realized by General Lewis D. Hershey of National Selective Service Headquarters, and for that reason, he designated certain positions at the Bureau as critical to our effective functioning. The position of Confidential Index and Files Analyst is one of those listed by him in Local Board Release Number 75, issued under date of December 19, 1941.

COMMUNICATIONS SECTION

Mr. Gentile has been employed in this Bureau since August 4, 1941, and his services are of considerable value at this time. The matter he handles is extremely confidential in character, and he must be familiar with all the confidential indices and investigative files maintained in the Springfield Field Division, in order that this work may be expeditiously handled, especially in connection with our investigations pertaining to national defense matters. It is only after considerable

experience that an employee is able to perform these duties as required, and Mr. Gentile has proved himself capable in all these respects. His removal for induction at this time would cause an impairment of the work we are now performing in order to safeguard the internal security of this nation.

We of the Federal Bureau of Investigation fully realize the many burdens and difficulties which confront your Board in these strenuous times in order to secure qualified eligibles for induction into the Armed Forces. Deferment has never been requested for an employee unless we felt that he was serving his country as well in his present position as if he were inducted into the Armed Forces, and I assure you this policy will be strictly adhered to. As I have stated before, I am of the firm belief that we must retain our experienced and trained personnel in this service, and I believe that I would be derelict in my duty as Director of the Federal Bureau of Investigation if I did not request deferment for him.

I hope the above information has sufficiently explained my position in requesting deferment for Mr. Gentile, however, in the event no deferment is to be granted, I would appreciate being furnished D.S.S. Form 59, "Notice to Employer of Right to Appeal", in order that this case may receive further consideration.

Sincerely yours,

John Edgar Hoover
Director

EXCERPTS FROM SELECTIVE SERVICE REGULATIONS

622.21 Class II-A: Man necessary in his civilian activity.—(a) In Class II-A shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or any other service or endeavor, or in training or preparation therefor, the maintenance of which is essential to the national health, safety, or interest.

(b) Class II-A deferments shall be for the period of 6 months or less as may be deemed necessary to secure or train a replacement for the registrant. If there is a change in the registrant's status during the period of his deferment in Class II-A, his classification shall be reopened and considered anew. At the expiration of the period of the registrant's deferment in Class II-A, his classification shall be reopened, and he shall be classified anew. When the registrant is classified anew, he shall not be again placed in Class II-A unless such classification is warranted, and in addition, the registrant or the registrant's employer convinces the local board, or the board of appeal (if an appeal is taken), or the President (if an appeal is permitted and is taken) that a reasonable but unsuccessful effort has been made during the period of deferment to secure or to train a replacement. If these conditions are met and the registrant is again placed in Class II-A, such further deferment shall be for the period of 6 months or less as may be deemed necessary to secure or train a replacement. The same rule shall be applied when again classifying such a registrant at the end of each successive period for which he has been classified in Class II-A.

622.22 Class II-B: Man necessary to the War Production Program.—(a) In Class II-B shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or in any other service or endeavor, or in training or preparation therefor, the maintenance of which is necessary to the war production program.

(b) Class II-B deferments shall be for a period of 6 months or less. If there is a change in the registrant's status during the period of deferment in Class II-B, his classification shall be reopened and considered anew. At the expiration of the period of the registrant's deferment in Class II-B, his classification shall be reopened, and he shall be classified anew. In again classifying the registrant, care should be taken not to impede the war production program. The registrant should be again classified in Class II-B for a period of 6 months or less if such classification is warranted and if the registrant's employer has made a reasonable but unsuccessful effort to secure or train a replacement for the registrant during the period of deferment. The same rule shall be applied when again classifying such a registrant at the end of each successive period for which he has been classified in Class II-B.

622.23 General rules for classification in Class II-A and Class II-B.—(a) On the local board is placed the primary responsibility of deciding which men should be deferred because of their civilian activities. It is in the national interest and of paramount importance to our national defense that civilian activities which are directly contributing to the war effort or which are otherwise essential to the national health, safety, or interest, should be maintained where possible, consistent with the fundamental purposes of the Selective Training and Service Act of 1940, as amended.

(b) No deferment from training and service shall be made in the case of any individual except upon the basis of the status of such individual, and no deferment shall be made of individuals by occupational groups or groups of individuals in any plant or institution.

(c) The local board may avail itself of the assistance of all Federal, State, or local agencies (such as the Office of Production Management Labor Supply Committees, State and Federal employment services, State occupational advisors, county agricultural agents, or others) to obtain information in cases of occupational deferments.

622.24 "Necessary man" defined.—A registrant shall be considered a "necessary man" in industry, business, employment, agricultural pursuit, governmental service, or in any other service or endeavor, including training or preparation therefor, only when all of these conditions exist: (1) He is, or but for a seasonal or temporary interruption would be, engaged in such activity; (2) he cannot be replaced because of a shortage of persons with his qualifications or skill in such activity; and (3) his removal would cause a serious loss of effectiveness in such activity.

B. 2.

The Federal Bureau of Investigation has been designated as the sole civilian Government investigative agency, having jurisdiction over the investigation of matters pertaining to the national defense, that is, espionage, sabotage, registration of agents of foreign principals and the like. Further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, the National Motor Vehicle Theft Act, and numerous others. The Federal Bureau of Investigation has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an Act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies each quarter so that trends of crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records, not only on a national basis, but on an international basis. We have some forty-six million sets of fingerprints on hand today. We are receiving the fingerprint records of all persons enlisted or being inducted into the Army and enlisted in other military services. Thousands of persons in public utility positions are fingerprinted and the prints are retained in our files. Those working in national defense industries on many occasions are fingerprinted, their prints being included in our files. Our Government employees' prints are included. We are receiving thousands of criminal fingerprints from all police agencies in the country daily and it is essential that we immediately be able to notify the arresting agency of the criminal record of the individual because he may be wanted for more serious crimes in other sections of the country and if he is to be released on a mere vagrancy or other charge, he may be set free to continue his depredations on society. This Bureau, together with many other foreign countries, participates in the international exchange of fingerprints. Hundreds of international crooks are brought to task yearly through the media of this service we have rendered.

Our Criminology Laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A great deal of their work is done in the examination of suspected sabotage cases at the present time. The scientists in that Laboratory have lectured throughout the country on bombs and explosives so that local police agencies may be adequately prepared to handle any such matters which might arise under their jurisdiction.

There are contained in our Files Section the files of hundreds of thousands of individuals whose activities are of the greatest importance to the country today. The work of the Files Section and the records of that section which have to do not only with the investigation of kidnaping, extortion, bank robbery, and like cases but also the investigation of our espionage, sabotage, foreign agent cases, and others, are of course accessible to employees working in that unit. It is most essential that only the most trusted employees be so assigned.

B. 5.

The work of the Federal Bureau of Investigation is of the utmost importance in the national defense. It is essential that thoroughly qualified personnel of the highest integrity and background be secured for every position in the Bureau. Our work is the guarding of the internal security of the country, not only in national defense matters, but in the control of those criminals who previously had terrorized the country in waves of bank robbery, kidnaping, extortion, white slavery, automobile theft, and numerous other crimes. There is no doubt whatsoever in the minds of law enforcement officials that should any group be permitted to have the assurance that their activities were being minimized during the present national emergency, we would have a tremendous country-wide wave of crime in that particular category in a very short period of time. It is, therefore, essential that from a national defense standpoint and from a public security standpoint the Bureau maintain its qualified staff at an absolute maximum in order to continue to have control of the criminal element under its jurisdiction.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 16th day of September, 1942

The Federal Bureau of Investigation is primarily a service agency. We serve our Government and the public. We cannot determine the amount of work which is going to be referred to us. If there is a crime wave of local or national significance at any time the work of the Bureau is increased in comparison. Our identification, laboratory, and crime statistics facilities reflect very definitely the trends in the country. We must have available personnel to properly handle the thousands of fingerprint records being received by us daily. We are at the present time receiving approximately one hundred and twenty thousand sets of prints daily. We must have a scientific staff in the laboratory to examine scientific evidence. We must have an investigative force of sufficient size to handle the work being referred to us. We must have a technical and supervisory staff of sufficient size to render the service to our investigative, identification, laboratory, and statistical staffs so that we may have the benefit of the wealth of information in our various files. The work of the Federal Bureau of Investigation has increased so tremendously that every employee in the Bureau, regardless of his position, is performing a tremendous amount of overtime service. Our Special Agent investigators are performing no less than four hours a day overtime service. In the present emergency we have found it necessary to curtail leave because of inadequate personnel and many of our men have worked over long periods of time without having any time off for vacation.

D. 1.

The additional duties imposed upon the Bureau since the declaration of the national emergency have made it necessary that our staff be more than doubled. From the information furnished under sub-heading B, it will be seen that it is essential to carefully investigate every employee in the Bureau. All of our employees in the performance of their work at one time or another have opportunity to observe and note the content of confidential investigative reports, the publication of which would be most detrimental to the national safety. We have had considerable difficulty in securing sufficient employees. We find that out of applicants who file application, we are successful in appointing about one out of every one hundred. It, therefore, means that if we lose an employee after he is fully investigated and is being given training or has been experienced, we must again consider on an average, one hundred persons before he can be replaced. In the accelerated program of the Government it is essential that the Federal Bureau of Investigation work at top speed to keep abreast of its duties and investigation of matters pertaining to national defense, its regular activities, and its most important and essential identification activities at this time.

D. 5.

At the present time the Federal Bureau of Investigation is employing additional qualified persons as rapidly as they can be found. The assembled Congress has in the past several months passed several bills which will increase even to a greater extent our present volume of work. The needs of the service as to employees fluctuate with the periods of stress in the country.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Re: G. Marvin Gentile, Typist,
Annual Efficiency Report.

Dear Sir:

The following comments are submitted at this time concerning Mr. Gentile, who has been employed in the Springfield Office since August 4, 1941.

Mr. Gentile presents a good personal appearance, dresses neatly, is a very willing worker who handles his assignments in an intelligent manner. He is a very good typist and a good teletype operator. He is presently assigned to the midnight shift, where he has duties of assigning, reassigning and posting cases, pulling ticklers, mailing of apprehension and identification orders. He also makes very good photostats.

Mr. Gentile gets along well with his fellow employees and is rated as a very good employee.

Very truly yours,

TEMPORARY TYPIST

Dear Sir:

There is shown below a special efficiency report on the above entitled employee, who entered on duty as a temporary typist in this office August 4, 1941.

Mr. GENTILE presents a good personal appearance, dresses neatly, is a very willing worker who is amenable to suggestion and criticism and is one who comprehends instructions readily. I have found his work to be accurate, and he also gets along well with his fellow employees.

He has been used in typing rough draft reports and assisting Chief Clerk in his various functions and to date this employee's progress has been entirely satisfactory. He should develop into an above average employee with additional training and experience, and is rated as a good employee at the present time.

At Brown's Business College, South Jefferson Street, Peoria, Illinois, Mr. H. F. RABER, principal, exhibited the record of the applicant to the writer which reflected that the applicant entered that school October 16, 1939, and completed his stenographic work and one accounting course on October 28, 1940, making a straight "A" card which is considered excellent. Mr. RABER knew the applicant and explained that he was instrumental in obtaining the applicant's present position with the James McCoy Company, Grocery Distributors, in October of 1940. The record indicated that the applicant's conduct, business habits, personal habits, were all good. Mr. RABER verified the part of the records

stating this by saying that the applicant was the most deserving student that he had taught in the past ten years, and that he considered him fast, accurate, persevering, with regard to the job, and an outstanding student in every respect. The applicant, though quiet, was well liked and popular with all the other students. He took care of his financial obligations promptly. At the time of his attendance at this school, the applicant was living at 1917 Lincoln Avenue. Mr. RABER informed that in so far as he knew, the applicant was an entirely patriotic American, having no sympathies for any subversive movement or foreign group.

At the James McCoy Company, Grocery Distributors, 402 South Washington Street, the writer interviewed Mr. A. E. MUIR, secretary treasurer of that company. Mr. MUIR, on checking his records, found that the applicant began his employment for that company on October 1, 1941, and was presently receiving a salary of sixty cents per hour.

Mr. MUIR had known the applicant well since his employment, and has, in fact, supervised his work. He found that the applicant was a quiet fellow who attended to business, does what he is told, and is entirely capable in every respect. In fact, he has been substituting for the chief of that section at times in the accounting work, and Mr. MUIR found it as accurate and exact as if an experienced man had done the work. At present, the applicant is doing general office work consisting of some accounting, dictation and typing. Mr. MUIR did not know how fast the applicant was in his stenographic work, but stated that it was always accurate and faultless as far as mistakes in typing and transcription were concerned. The applicant had been employed by that company after several men from Brown's Business College had been tried without success, and he was highly recommended by school authorities. Mr. MUIR stated that he was the type of young man that he would like to see succeed, and if greater opportunities were open to him in the government, he was glad to see the applicant advance, and would give him the best of recommendations. The applicant's birth date of March 23, 1922, at Peoria, was verified by personnel records of the James McCoy Company. Mr. MUIR said that the applicant's father had died in 1936, and that the applicant and his mother were presently living with his maternal grandparents at 1709 Howett Street, Peoria.

NEIGHBORHOOD INVESTIGATION

In the vicinity of the applicant's former residence at 1917 Lincoln Avenue, Mrs. WILLIAM S. BINDER, 1919 Lincoln Avenue was interviewed and stated that she had known the applicant and his mother, Mrs. MONA CARSON GENTILE for approximately two years. She stated that

the applicant's father had died four or five years ago, and that the applicant had helped support his mother since that time. She also stated that they had recently moved to 1709 Howett where the applicant's Grandfather CARSON lives. It was noted that Howett Street is only a block removed from the address on Lincoln Avenue. Mrs. BINDER advised that the applicant was quiet, reserved, had no bad habits, and thought that he should make a reliable, industrious employee.

Mrs. A. H. KLUEVER and Mrs. ARNOLD RIEDER who live at 1915 and 1927 Lincoln Avenue respectively, stated that they had known the applicant for the length of time that he had lived near them. They knew the applicant's parents better than they knew the applicant, and stated that they thought he came from an excellent American background, and as far as they knew should make an honest, dependable employee. They had never known the applicant to be involved in any trouble with the police or a neighborhood scandal.

At 1706 Howett Street, Mrs. FRANK KRAMER stated that she is well acquainted with the applicant and his mother, and knows both of them to be sincere, industrious people who are deserving of any opportunities that might arise to better themselves. Mr. KARL A. SCHMIDT at 1710 Howett and Mrs. E. H. HUGHES at 1704 Howett Street were also interviewed, but no additional information concerning the applicant or his background was obtained; both neighbors were entirely favorable in their remarks. All these neighbors were questioned concerning any subversive activities on the part of the applicant or any of his relatives with negative results.

Lieutenant GEORGE KARL of the Peoria Police department checked the identification records of that department without finding a record of the applicant's having been arrested. Miss RUTH MENDENHALL at the Peoria Merchant's Association advised that the applicant had no credit record but that of his mother was considered good.

Inasmuch as the applicant is under age for registration in the Selective Service, no check was made to determine if he has registered.

"MRS. NELSON who lives at 1010 W. 13th Street refused to let us use her sidewalk. She said that we got it dirty when we rode over it with our coasters and wagons. We do not like MRS. NELSON and so we decided that we would get even with her and so we threw stones at her house. We started doing this last Friday night. Altogether we have stoned her house three times. We did not intend to do any harm, but just to let her know we did not like her. We have never been in any trouble before and promise that if released we will be gentlemen from now on."

The purpose of this study is twofold. (1) Since the Chinese are now residing in a number of countries, the following questions are of interest: Why and how have they gone there? What is the degree of their economic prosperity and social adaptation in their new environments? In what ways and to what extent have they benefited themselves, their fatherland and their adopted countries? An attempt is here made to answer these queries, at least in part. (2) China is undergoing a stupendous social and political change which has brought to the fore, ~~an~~ greater and greater degree, the population problem. A high birth rate has been accompanied by a high death rate and infant mortality. Unsatisfactory socio-economic conditions have caused low wages, disease, poverty, and misery. In great numbers ~~the~~ needy have been forced out of the country. In this sense the outflow of the emigrants has arisen from the pressure of the home population. Wherever they have gone, clashes with other racial groups have been frequent. Inasmuch as the pressure of population is not likely to diminish in the immediate future, further conflicts are distinctly possible. The amelioration of the social and economic conditions in China are therefore desirable in order to insure social progress and promote international good will.

With these views in mind, inquiry has been made into the conditions of the Chinese in important countries with reference to certain specific problems. A few countries have been chosen on the following more or less arbitrary grounds. First, the countries must lie within the Eastern Hemisphere as far as the mid-Pacific. Second, the maximum number of the Chinese in each country must at some time have reached 50,000 or more. The scope of this study therefore narrows down to an account of the Chinese in Formosa, Dutch East Indies, British Malakka, the Philippines, the Hawaiian Islands, the Transvaal, and France (during the World War).

The main inquiries of this study resolve themselves into three major divisions: Historic, social, and economic. The historic phase includes important conflicts, and the political and civil relations between China and particular country to which the emigrants have gone. In tracing these events, the plan has been to terminate the account with the last significant clash whereby the Chinese either gained or lost socio-economic importance in their adopted country. In Java, for example, the failure of the Chinese revolt of 1740 led to the Dutch ascendancy in commerce and politics. Likewise, historic events in the Philippines have been outlined up to the third massacre of the Chinese by the Spaniards. Under the economic phase have been included the main occupations of the Chinese, and their activities in industry, commerce, and agriculture.

On 7-8-46 he entered on duty as a Special Agent in Grade CAF-9, \$4149.60 per annum.

At the conclusion of his training period Mr. H. H. Clegg said he was an above average Agent in appearance and personality. He was very likeable, friendly, energetic in manner and was alert mentally. Although rather youthful, he had a mature manner. He appeared to be the type who would apply himself conscientiously and with the appropriate seasoning process, he should develop into a good Agent.

On 10-27-46 he was assigned to the Miami Division.

On 12-30-46 SAC Thornton rated him VERY GOOD.

On 2-3-47 he was reallocated to Grade CAF-10, \$4525.80 per annum.

On 3-31-47 SAC Thornton rated him VERY GOOD.

During an inspection of the Miami Division in April, 1947, SAC Thornton said he was considered to be one of the best dictators in the office. His reports showed good thought, investigative curiosity and very good planning, he had put in a great deal of voluntary overtime, and he was outstanding as a new Agent. Inspector Naughten said that though only a first office Agent, he looked very promising. He was above-average in alertness, enthusiasm, poise, and possibilities for further development. He was the type who would anticipate rather than waiting to be told what to do.

On 1-8-48 SAC Carson rated him EXCELLENT and said he represented the Bureau exceedingly well in contacts with others, and he was definitely above average as to intelligence, initiative, judgment and general investigative ability. He performed his duties entirely satisfactorily, he was a better than average dictator, he handled himself well on the firearms range, and was qualified to participate on raids and dangerous assignments, as well as surveillances. He demonstrated above average interest in his work and above average devotion to duty, he had been characterized by steady and dependable application, hard work and constant improvement in the quality of his performance, and it was believed that with additional experience he would constitute excellent material for development along administrative lines.

On 2-8-48 he was reallocated to Grade CAF-11, \$4902 per annum.

On 2-11-48 SAC Carson rated him VERY GOOD and said that the comments of the 1-8-48 efficiency report were still applicable. He had continued to perform entirely satisfactory work, he was definitely above average, and he had excellent prospects for future development and progress in the Bureau's service.

On 2-16-48 he was transferred to the Washington Field Office. On 7-11-48 he received a basic increase to \$5232 per annum in Grade 11.

Memorandum dated 8-13-48 reflected that he had reported to the Bureau on 3-30-48 for special assignment to the Loyalty Section. He returned to the Washington Field Office on 8-2-48. During this period he had been utilized as a supervisor both in opening investigations and reviewing reports submitted by the field. He had performed his duties in a capable manner, and his work was entirely satisfactory.

On 9-22-48 SAC Hottel rated him VERY GOOD.

On 3-31-49 SAC Hottel rated him EXCELLENT and said he produced a much better than average volume, was enthusiastic and thorough in his investigations, used tact and good judgment, and he possessed a proper degree of force and aggressiveness. He required a very minimum of supervision, he was an excellent dictator, his reports were comprehensive and complete, he was sufficiently experienced to be utilized on dangerous assignments, and he was available for general and special assignment. On 8-11-49 SAC Hottel rated him EXCELLENT, and among other things said that he definitely possessed administrative and supervisory ability.

On 8-21-49 he was reallocated to Grade CAF-12, \$6235.20 per annum.

On 10-30-49 he received a basic increase to \$6400 per annum in Grade GS-12. He attended In-Service Training from 11-14 to 11-23-49.

On 2-20-50 SAC Hottel rated him EXCELLENT and said he had been utilized to some extent in assisting and reading reports on Applicant investigations, and the manner in which he handled his assignments and his work in reading and reviewing reports indicated that he was definitely possessed of administrative and supervisory ability. He was available for special and general assignment.

By memorandum dated 7-6-50 he was authorized as Mail Reader (Supervisor on the Applicant Desk). On 9-6-50 SAC Hottel rated him EXCELLENT.

During an inspection of the Washington Field Office in December, 1950, the Inspector (SA R. A. Garvey) said he displayed above average enthusiasm, and he appeared to be very familiar with all matters relating to applicant investigations.

His overtime for October, 1950, was 49 minutes, for November was 1 hour 23 minutes, and for December was 1 hour 41 minutes. The Office average for October was 40 minutes, for November was 1 hour 27 minutes, and for December was 1 hour 45 minutes.

On 2-10-51 he was approved as an additional Supervisor on the Applicant Squad.

On 2/18/51 he received a uniform promotion to \$6600 per annum in Grade GS-12.

On 3/31/51 SAC Stein rated him SATISFACTORY and said he had a thorough knowledge of procedures, policies and instructions applicable to all types of applicant investigations. He was personally capable of handling such investigations in an above average manner. He was fully qualified to handle assignments of more complicated nature, his paper work had always been of high calibre, his dictation was excellent, all his supervisory duties had been performed without adverse criticism and he was very effective as a supervisor-mail reader. He gave every indication of qualifying in every respect in an above-average manner in his present designated position and he was currently regarded as a competent, capable supervisor, qualifying as one of the higher rated Agents in his grade.

On 7/8/51 he received a basic salary increase to \$7240 per annum in Grade GS-12.

By letter dated 8/3/51 he was censured in connection with the reports which he approved as Supervisor in the cases entitled "Eunice Callahan, Departmental Applicant, Legal Stenographer, Lands Division, Washington, D. C." and "Frances Houston Fulk, Departmental Applicant, Clerk-Stenographer, Lands Division." In the Callahan case he failed to note that a report he approved did not reflect a thorough investigation. In the Fulk case he did not require an Agent to correct the inept phraseology which he employed to describe an interview with the tenant of a house formerly occupied by the applicant. His SAC was instructed to relieve him of his duties as a Field Supervisor and to reassign him to other duties.

By memorandum dated 8/20/51 it was recommended that he be passed over at this time for reallocation to Grade GS-13 and that he be reconsidered at a later date.

On 1-30-52 SAC Hood rated him SATISFACTORY and said he made a most favorable impression in making outside contacts for the Bureau, was considered an excellent dictator and the research and preparation of his work had been outstanding. He had a good working knowledge of Bureau practices and procedures, since his assignment to the Security Squad he had demonstrated his ability to handle the more complicated and involved types of cases. He had handled several matters requiring considerable diplomacy in a most discreet and satisfactory manner, he had been found to be most alert to the possibilities offered by any matter with which he came in contact and attacked his problems with enthusiasm and aggressiveness. He was available for special and general assignments wherever his services were needed.

On 3/16/52 he was reallocated to Grade GS-13, \$8360 per annum.

On 3/31/52 SAC Hood rated him SATISFACTORY and said he had been assigned to the Security Squad where he had done a most creditable job at all times; he was qualified in the use of all Bureau firearms and had a temperament which made him suitable for use on dangerous assignments; he had previously qualified as a creditable Bureau witness; he was considered an excellent dictator; prepared his work well and presented it in an orderly and easily readable

fashion. Since his assignment to the Security Squad, he had handled several involved assignments necessitating extensive research, in this work he had shown himself to be outstanding. He had a good working knowledge of Bureau practices and procedures. In spite of the fact that prior to being assigned to the Security Squad he had no previous extended experience in this particular work, he had shown a definite aptitude for this field, and there would be no hesitancy whatever in having him handle the most complicated and involved investigation of this nature. He had been found to be alert at all times to the possibilities offered by any matters which came to his attention, and attacked his problems with enthusiasm and aggressiveness. He was a loyal Bureau employee, fully capable of adapting himself to any circumstance with which he might be confronted. He had on numerous occasions been used on surveillances where he had always conducted himself in a commendable manner.

His daily average overtime for March, 1952 was 1 hour 34 minutes and he had no travel overtime.

In April, 1952 his SAC submitted his name in connection with Personnel Advancement and said he served as a field supervisor from April until August, 1951, at which time he was removed at Bureau instructions for having approved an Applicant report containing an incomplete investigation. It was felt that he had better than average ability for development; however, he should in the future have another opportunity to display his ability as an administrator.

His daily overtime average for August, 1952 was 1 hour 26 minutes and he had no travel overtime.

On 11-14-52, he resigned due to personal considerations. On his exit interview he was favorably recommended for reinstatement with the comment that his work was considerably above average and he had definite possibilities for advancement. On his cease-duty performance report his services were rated SATISFACTORY. His name was placed on the Bureau's mailing list.

On 12-2-52, his service record was prepared for transmittal to the Central Intelligence Agency.

On 12-10-53, his official personnel folder and leave record card was sent to the Central Intelligence Agency.

On 2-17-59, his service record was prepared for transmittal to the Atomic Energy Commission.

By letter dated 6-3-59, he expressed appreciation for the excellent afternoon the Bureau afforded the Washington Chapter of the Society of Former Special Agents of the FBI at the Academy in Quantico on 5-16-59. He also advised of a change of address. His letter was acknowledged 6-9-59.

On 2-19-64, his service record was prepared for transmittal to the State Department.

On 3-2-65, the State Department announced his appointment as Deputy Assistant Secretary of State for Security. An item in the Washington Daily News dated 3-4-64, carried this same information. A resume of his Bureau service was furnished the Director in a memorandum dated 3-3-64.

By letter dated 10-6-64, he expressed appreciation for the assistance rendered by SAs Charles D. Brennan and Fred J. Baumgardner in connection with the recently concluded series of In-Service Training Programs for Special Agents of the Office of Security in the State Department. Re: STATE DEPARTMENT INQUIRY CONCERNING
FBI POLYGRAPH EXAMINATIONS

b6
b7C

Section Chief Boynton was aware, our policy has always been one of very tight, top-level control ranging from consideration on an individual case basis to complete nonuse. He was informed that, when such examinations are used, a decision is made at the highest level based upon the facts surrounding the circumstances of each incident wherein the use of a polygraph examination is considered. Gentile stated that the State Department press release would contain no information referring to FBI polygraph examination policy.

Summary
SD TLL DC
This memorandum recommends that Director meet with G. Marvin Gentile, Deputy Assistant Secretary for Security, Department of State. Gentile, a former FBI Special Agent and currently one of our closest contacts at State, expressed to the Liaison Agent his desire to visit with the Director anytime at the Director's convenience. Gentile expressed an awareness of the Director's heavy schedule and insisted that he only desired a few moments of the Director's time to pay his respects.

Gentile was born 3/3/22 in South Dakota. He graduated from Northwestern University, Evanston, Illinois, and later received a Master's degree from George Washington University, Washington, D. C. He entered on duty with the FBI on 10/4/41 in a clerical capacity and was appointed a Special Agent on 7/8/46. He resigned from the FBI for personal reasons on 11/14/52 and was employed by the Central Intelligence Agency as a security officer. On 3/2/64, he

Re: G. Marvin Gentile

was appointed to his present position as Deputy Assistant Secretary for Security. In this capacity, he is responsible for State Department personnel and physical security, investigations, protective security of State Department officials and counterintelligence matters affecting State Department security programs.

Gentile assumed his present position as the State Department's Chief Security Officer following the much publicized Otto Otepka case when the prestige of the security office had materially depreciated. Otepka is the State Department security officer who was dismissed for furnishing information from State files to a Congressional committee. Gentile, through caution and good judgment, has been successful in restoring the image of the security office. He is known to be well regarded by top officials in State and is reported to have the support and confidence of his large staff of employees, both in the U. S. and abroad.

Gentile has shown impressive depth of knowledge concerning State Department organization, policies and programs. He has proven to be an extremely cooperative contact, is highly regarded within the investigative and intelligence community and his continued loyalty to the FBI is unquestioned.

RECOMMENDATION:

That the Director indicate a date and time if he wishes to meet with Gentile. Gentile will be accompanied by Liaison Agent [redacted] who handles our liaison with the State Department.

Mr. Marvin Gentile, Director of Security (and former Special Agent) of the U. S. Department of State, contacted Section Chief Boynton this morning and advised that the Department of State had had several inquiries from "The Washington Post" concerning polygraph examinations given to State Department employees at the time of the "SALT-talk" leak investigation in late 1971. Gentile stated that the Secretary of State, who is presently on a trip to South America, had agreed to release a statement to the press advising that the State Department had permitted polygraph examinations of three of its employees as a result of the leak investigation. Prior to the issuance of the press release, the Secretary requested that the answers to the following two questions be obtained from the FBI: (1) Has the FBI ever used a polygraph on U. S. Government employees?; (2) Has the FBI ever used a polygraph in a "leak-type" investigation? Gentile was queried as to the reason for the Secretary's questions and Gentile advised that he was not aware of the reason for the Secretary's inquiry.

Acting Associate Director W. Mark Felt advised that we should answer Question No. 1 by stating that, while we do on a selective basis occasionally use polygraph examinations involving FBI employees, we would not reply as to FBI use of polygraph examinations on non-Bureau Government employees. In addition, the Bureau maintains no records on its use of polygraph examinations and, therefore, it would be impossible to determine if a polygraph examination was ever used in a "leak-type" case or investigation.

The aforementioned information was furnished to Mr. Gentile, who advised that he would furnish this information to the Secretary of State.

Mr. Gentile called back a short time later to advise that the Secretary of State was at that moment calling from Rio de Janeiro and desired to know if the FBI had a policy involving the use of polygraph examinations. Mr. Gentile was informed that, insofar as

Re: STATE DEPARTMENT INQUIRY CONCERNING
FBI POLYGRAPH EXAMINATIONS

ADDENDUM: INTELLIGENCE DIVISION 5/24/73 (HAB:hc)

The July 23, 1971, edition of "The New York Times" carried an article containing highly classified information pertaining to the Strategic Arms Limitation Talks (SALT) under the byline of William Beecher. Because the information contained in the article could well compromise the U. S. position in those talks, the White House became gravely concerned over the fact that the information contained in the "New York Times" article had been leaked to the press. Several suspects were placed under investigation by the White House and the Bureau was requested to assist in polygraph examination of one of the suspects - Dr. William R. Van Cleave, who at that time was Special Assistant to the Secretary for Plans and Policy of the Department of Defense. Upon the instructions of the Director, Associate Director W. Mark Felt and Inspector Briggs J. White attended a meeting at the White House on Saturday, 7/24/71, concerning the use of FBI personnel in affording polygraph examinations to Van Cleave and other logical suspects (see enclosure-Felt to Tolson memo 7/26/71). The polygraph examination of Van Cleave was scheduled for 2 p.m. on 7/26/71. The polygraph was not conducted on 7/26/71 but was postponed until the following day, 7/27/71. On this latter date, Mr. Egil Krogh, Jr., Deputy Assistant to the President for Domestic Affairs, advised that a decision had been made [REDACTED]

[REDACTED] (see enclosure - Felt to Tolson memo 7/27/71).

b3
b7E

The Bureau's long-standing policy in regard to the use of the polygraph has been the implementation of its use on a highly selective basis on a case-by-case basis. This policy was set forth in instructions to the field on January 28, 1972, at which time instructions were issued that consideration would be given to the use of the polygraph technique on a selective basis in certain criminal cases where in unusual circumstances it was indicated that a polygraph examination would be helpful. According to these instructions, Bureau authority is required in each instance prior to the discussion of a polygraph examination with, and the obtaining of the written consent of, the person on whom it is to be used.

SUBJECT: RELATIONS WITH U. S. EMBASSY

LOUIS R. COLOMBO
REGIONAL SECURITY OFFICER

Mr. LOUIS R. COLOMBO, who has been assigned to the U. S. Embassy in Rome since August, 1966, as Regional Security Officer, will leave Rome on or about 6-1-71. After a leave period in the United States he will take up duties as Regional Security Officer at the U. S. Embassy in Madrid, Spain, sometime in August, 1971.

For almost five years Legat had almost daily contact with COLOMBO, and a smooth close-working relationship developed which proved very fruitful for this office. Mr. COLOMBO was quick to respond with an efficient alacrity to the innumerable requests levied upon him for assistance. He is a great admirer of the Bureau and is keenly aware of our jurisdiction, and particularly in matters of a security nature. Legat believes he will prove to be an outstanding contact for our Legat in Madrid.

In my opinion, Mr. COLOMBO deserves recognition for the outstanding cooperation and friendship he has shown to Legat and the Bureau and recommends that the Director give every consideration to a letter of thanks to G. MARVIN GENTILE. If approved the letter should be addressed as follows:

By the attached letter 12/17/70, State Deputy Assistant Secretary Marvin Gentile asks that we be sure to forward to State's Office of Security all information of security significance involving State Department personnel. He notes that some information of this type has been addressed to State's Bureau of Intelligence and Research, but to insure prompt handling and preclude notification to any State Department employee involved, such information should properly go to the Office of Security.

Mr. Gentile, a former Bureau Agent, is one of our most cooperative friends at the Department of State and his letter expresses his personal gratitude to the Director for the help we have furnished on matters of mutual interest. Information of the type in question could arise in any area of the Bureau and, whereas such dissemination was formerly kept in proper channels by liaison, it is now forwarded by courier to whatever address is selected by the interested supervisor. For this reason, we believe specific instructions should be issued to all supervisors.

SUBJECT: FBI Reports Containing Personnel
Security Information

STATE DEPARTMENT

EXP. PROC.

37 DEC 29 1970

Within the past several months, this office has noted a number of instances in which FBI reports, containing information of security significance concerning State Department personnel, have been addressed to the Director, Bureau of Intelligence and Research (INR). Since INR has no responsibility for investigating internal security or loyalty matters within this Department, these reports are invariably redirected to this office for appropriate action.

While it is realized that a fine distinction frequently exists between substantive intelligence and personnel security information insofar as dissemination of FBI reports is concerned, it would be appreciated if all reports concerning employees of this Department or hostile efforts to penetrate same could be sent directly to this office. Those reports determined to contain substantive intelligence as well as personnel security information would be furnished by this office to INR for subsequent dissemination to interested Department of State sections.

The requested action will not only assist us in acting more promptly on the security information provided in reports from your Bureau, but more important, will preclude the inadvertent provision of such reports

Gentile has expressed his desire to visit briefly with the Director to shake hands and pay his respects. He has nothing specific to discuss. He suggested any morning during the period 6/17 - 6/26/69.

Gentile was born on 3/23/22 in South Dakota. He is a graduate of Northwestern University and studied for a Masters Degree at George Washington University. He entered on duty with the FBI as a clerk on 10/4/41 and was appointed a Special Agent on 7/8/46. He resigned for personal reasons on 11/14/52 and was employed by Central Intelligence Agency as a security officer. On 3/2/64 he was appointed to his present position. As State's chief security officer, he has world-wide responsibility for personnel and physical security, investigations, protective security of State officials and counterintelligence matters affecting State security programs.

Gentile is one of our most reliable and effective contacts in State. He is an ardent admirer of the Director, is very pro-FBI, and is extremely cooperative. His large staff, world-wide, bears his influence and gives us every assistance. Gentile himself has an impressive depth of knowledge of the policies and programs of State as well as other agencies and is especially adept at recognizing matters of FBI interest. His over-all value to the FBI is exceptional.

Gentile is on the Special Correspondents List, and Bureau files contain nothing derogatory concerning him. He has not been photographed with the Director.

SUBJECT: Letter of Appreciation

In accordance with our earlier correspondence, the Office of Security was privileged to have Mr. Arbor W. Gray address our first Special Agent Seminar on Thursday, September 21, 1967.

Mr. Gray's superb presentation once again fulfilled our expectations in every way for he is a highly knowledgeable and polished speaker. His review of recent Communist strategy, followed by a timely and in-depth discussion of other movements affecting the internal security of our nation, surely enhanced our knowledge and appreciation of the potential influence these subversive forces could have on the American scene.

My staff and I are indebted to Mr. Gray for his very distinguished contribution to our Special Agent Seminar. I am most appreciative to you for permitting Mr. Gray's availability and hope you will convey to him my highest esteem and commendation.

Highlights of the training programs which the Office of Security inaugurated several years ago for its investigative personnel have been the presentations by guest speakers we were privileged to obtain from the Federal Bureau of Investigation. Because of the very significant contributions of the Bureau's representatives to the success of our mission, we would like once again to request your approval in providing a guest speaker to address our Special Agent Seminar which will be convened through the week of September 18 - 22, 1967.

This conference will be attended by experienced special agents from our domestic field offices in the United States. We believe that a current appraisal of Communist strategy and related problems affecting the internal security of our nation by a representative of the Bureau would be extremely advantageous in helping our personnel discharge their functions.

Mr. Arbor W. Gray provided us with an outstanding presentation last year and we would be immensely pleased to have him with us once again providing there is no conflict with the Bureau's operations. If this request meets with your approval, we would like to have Mr. Gray address the seminar on Thursday, September 21, 1967, from 10:00 a.m. to 12 noon in Conference Room 1408.

I earnestly hope for your favorable consideration.

On 2/25/64, Liaison Agent Bartlett was advised by Mr. William J. Crockett, Deputy Under Secretary of State for Administration, that former FBI Agent George Marvin Gentile has been named as Assistant Secretary of State for Security. He will report for duty on March 2, 1964.

Mr. Gentile will replace Mr. John F. Reilly who resigned under fire from Congress following his testimony before the Senate Internal Security Sub-Committee. Mr. Reilly's testimony included a denial that listening devices had been placed on the telephone used by one of his employees, (Otto F. Otepka), who has been "fired" by State but is still on the payroll. Mr. Reilly later recanted his testimony and admitted that he had requested listening devices be installed on Otepka's office telephone.

Mr. Gentile was a Bureau clerk from August 4, 1941, until June 6, 1944, when he was placed on leave without pay for military purposes. He returned from active duty on July 8, 1946, and was appointed to the position of Special Agent. He submitted his voluntary resignation effective November 14, 1952. His services were satisfactory. Following his Bureau employment, he has been employed by the Central Intelligence Agency.

Mr. Crockett advised that he wants Mr. Gentile to work closely with Bureau liaison. Mr. Bartlett will call on Mr. Gentile in the near future. You will be advised if any problems exist as result of Mr. Gentile's new position.

ACTION:

6 MAR 11 1964

For information. There is enclosed a sample change of address card showing Mr. Gentile's new position. This memorandum should be routed to the Mechanical Section so that appropriate number of change of address cards can be prepared for distribution at the Bureau.

G. MARVIN GENTILE
FORMER BUREAU AGENT

On 2/12/64 former SA PATRICK M. RICE, Chief, Special Assignments Branch, Office of Security, Department of State, confidentially advised SA KENNETH J. HASER that it now appears definitely decided that G. MARVIN GENTILE, an employee of CIA, will be named the new Deputy Assistant Secretary of State for Security. In this position, he will replace JOHN F. REILLY, who submitted his resignation some weeks ago but who is believed to be still on sick leave according to State Department rolls. RICE pointed out that this appointment of GENTILE is not official as yet.

RICE stated that GENTILE had a conference on 2/11/64 with Secretary of State DEAN RUSK, at which time he filled out some papers at the State Department.

It will be recalled that REILLY submitted his resignation from this position as an aftermath of the OTTO OTEPKA case.

It appears that GENTILE has been one of a rather large number of candidates for the position, including several former Bureau Agents. It is believed GENTILE was sponsored for the position by [redacted]. It appears that GENTILE is the leading candidate for the position. This, of course, would result in [redacted].

Dear Mr. Hoover:

My purpose in writing at this time to the Bureau is twofold. First, I want to express my personal appreciation for the excellent afternoon the Bureau afforded the Washington Chapter of the Society of Former Special Agents of the FBI at the Academy in Quantico on May 16, 1959. The Father-Son Day was a very nice affair and I know from the reaction of my son that the firearms demonstrations and other activities of the day were a great success. Needless to say, I also enjoyed seeing for the first time the excellent new facilities the Bureau has at Quantico.

My other reason for writing is to record a change of address with the Bureau. I am currently on the mailing list for the Crime Reports and would like to continue receiving them. Later this month I will depart on an overseas assignment in Germany. Even though overseas I will still have an interest in the Bureau's work. I would like to change my address with the Bureau as follows:

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

It should be designed to supplement resignation, to obtain real, motivating reason for resignation, to serve as basis for (1) accurate analysis of turnover, (2) determining necessary or desirable organizational improvements, and (3) permitting a recorded recommendation regarding future reinstatement. Many times, an exit interview, properly and promptly conducted, results in saving a valuable employee. RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
+ Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

ANNUAL PERFORMANCE RATING

For a portion of the period covered by this report, that is from April 1, 1951 to August 6, 1951, Agent Gentile was employed as an Applicant Supervisor in the Washington Field Office. He was removed from this position per Bureau instructions of August 3, 1951, for erroneously approving two reports as a supervisor one of which did not reflect a complete investigation and the other of them carried inept phraseology describing an interview.

Agent Gentile has, of course, not operated as a supervisor since that time, therefore, there has been no chance to observe whether or not he has corrected these delinquencies; however, it is to be noted that in handling and reporting his own investigations Agent Gentile always investigates matters assigned to him in a complete and thorough manner. Likewise in reporting the results of his investigations he shows splendid ability to express himself clearly and concisely.

Since August 6, 1951, he has been assigned to the Security Squad of the Washington Field Office where he has done a most creditable job at all times. Agent Gentile presents an excellent well groomed appearance; has a splendid personality, and appears to be in excellent physical condition. He gets along well with his fellow employees and makes a most favorable impression in outside contacts for this Bureau. He is qualified in the use of all Bureau firearms and has a temperament which makes him suitable for use on dangerous assignments. He has previously qualified as a creditable Bureau witness though he has had no opportunity to demonstrate this qualification during the period covered by this report. He is considered an excellent dictator; prepares his work well and presents it in an orderly and easily readable fashion. Since his assignment to the Security Squad, Agent Gentile has handled several involved assignments necessitating extensive research. In this work he has shown himself to be outstanding. He has a good working knowledge of Bureau practices and procedures. In spite of the fact that prior to being assigned to the Security Squad in the Washington Field Office he had no previous extended experience in this particular work of the Bureau, he has shown a definite aptitude for this field, and there would be no hesitancy whatever in having him handle the most complicated and involved investigation of this nature. Agent Gentile has been found to be alert at all times to the possibilities offered by any matters which come to his attention and attacks his problems with enthusiasm and aggressiveness. He is a loyal Bureau employee, fully capable of adapting himself to any circumstance with which he may be confronted. During the period of this report Agent Gentile has on numerous occasions been used on surveillances where he has always conducted himself in a commendable manner.

Reference is made to the attached memorandum submitted by Mr. H. L. Edwards to me, concerning erroneous reallocation of Special Agent G. Marvin Gentile from Grade GS-12 to Grade GS-13, even though he had not had ten years of service as an Agent nor was he in a supervisory position.

From the attached memorandum, it will be noted that Gentile was removed from his supervisory position on August 3, 1951, and the clerk briefing up the file failed to note this fact in a review of the file in preparing the brief for consideration for promotional action.

It will also be noted that Supervisor Joseph I. Cavanaugh, who is acting in charge of the Administrative Action Unit, failed to catch this error in reviewing the memorandum.

For your information, the memoranda prepared in such cases are prepared by a qualified briefing clerk and the memoranda are then reviewed and checked by a Special Agent Supervisor. This matter should have been caught by Mr. Cavanaugh in the Administrative Action Unit.

I also feel that Mr. Callahan in reviewing this matter, in my absence from the city, should have checked to determine that Special Agent Gentile possessed the basic qualifications for consideration to promotion to Grade GS-13.

It is my recommendation that clerical employee Avis Lee Taylor be severely censured and placed on probation. I agree.

With reference to Special Agent J. I. Cavanaugh, I wish to state that he is acting as supervisor in charge of the Administrative Action Unit, since Supervisor J. E. Edwards was transferred to the position of assisting Mr. H. L. Edwards, as the result of a recent in-

spection of the Personnel Section. I know that Mr. Cavanaugh and the

Memo to Mr. Tolson (Continued)

Agents assigned to his Unit have been working exceptionally hard for a number of months past. The amount of work being referred to that Unit for attention has been exceptionally heavy. It will be noted that Mr. Cavanaugh has averaged more than five hours a day overtime during the week in which this error occurred. I discussed this matter with him, and although he does not know the hour in which he reviewed the memorandum, he stated that it may have been at night when he was tired and not as alert as he would be earlier in the day. Cavanaugh has done a very good job in his present assignment. He is endeavoring to the best of his ability to keep the work rolling with a small staff. Had it not been for the fact that he has exhibited the loyalty and devotion to duty which he has, I would recommend that he be removed as a supervisor.

Taking into consideration the heavy volume of work being performed by him and realizing that during the week in question he averaged over five hours a day overtime, I recommend that he be severely censured and placed on probation and be advised that if there is a recurrence, he will be removed from any supervisory duties. I agree

With reference to Mr. Callahan, he was handling not only his own desk but mine during my absence from the city. However, I do feel that exceptional care should have been exercised in approving recommendations for a Grade GS-13, and in view of this fact, I recommend that he be severely censured at this time. I agree

I do wish to point out that this is the first error of this type that has ever come to the Bureau's attention and thousands of such memoranda have been prepared in the Administrative Division for action. I feel very keenly the fact that this matter was handled improperly. I have thoroughly discussed it with the Special Agent supervisory officials involved and have expressed my definite displeasure with the way this matter has been handled. Every effort will be made to see that there is no recurrence.

I concur with the recommendation made by Mr. H. L. Edwards that Special Agent Gentile be advised to the effect that the action was initiated in error and has been canceled, and that his grade and salary for the present will remain GS-12 \$7240. Yes 3-18

There is attached a memorandum prepared in the Administrative Action Unit under date of 3-4-52 recommending that Agent Gentile be reallocated to Grade GS-13 on the basis of his service as a Field Office Supervisor for a period of one year. This memorandum was approved and by letter of 3-10-52 Agent Gentile was advised that he was being reallocated effective 3-16-52. The fanfold on this action has not yet left the Bureau.

A review of Agent Gentile's file, however, reveals that on 8-3-51 he was censured in connection with derelictions noted in two Departmental Applicant cases and at that time he was removed as a Field Office Supervisor. Accordingly, the attached memorandum of 3-4-52 was in error and Agent Gentile should not have been reallocated at this time since he is not a Field Office Supervisor and has not yet completed ten years of service as an Agent.

ACTION TAKEN

A stop has been placed with the Payroll Preparation Unit to prevent the fanfold from leaving the Bureau.

EXPLANATIONS

223705-121

The reallocation memorandum on Gentile was prepared by Miss Avis R. Taylor, a personnel files briefer in the Administrative Action Unit. Her memorandum concerning this matter is attached. It is noted that the addendum to the SAC instructing that Gentile be removed as a Field Office Supervisor appears at the top of a separate page of the letter of censure to the Agent of 8-3-51. Miss Taylor points out that in reviewing the file in connection with her preparation of the memorandum, she apparently failed to observe this addendum which was on a separate page and, therefore, omitted it from her memorandum. It may further be noted that at the time this memorandum was prepared, the volume of work in the unit was extremely heavy and the pressure upon the personnel briefers, including Miss Taylor, was heavy. As she has pointed out, she had worked until 9:30 PM the night before the date she prepared the memorandum in question. Miss Taylor's services in the past have been most satisfactory, and she has been a dependable and hard worker, willingly performing overtime whenever the occasion demanded.

3/17/52

The reallocation memorandum on Gentile was reviewed and approved by Special Agent Supervisor Joseph I. Cavanaugh of the Administrative Action Unit. He has advised that he has no excuse for his failure to detect the error in the memorandum, he regrets exceedingly that it occurred, and he will make every effort to prevent any similar mistake in the future. It should also be noted that following the recent transfer of Special Agent Supervisor J. E. Edwards from the Administrative Action Unit to the office of Mr. H. L. Edwards, the volume of work performed by Agent Cavanaugh has been exceedingly heavy, necessitating long hours of overtime. During the week beginning Monday, March 3, 1952, during which week the Gentile memorandum was sent through, Cavanaugh averaged five hours and two minutes overtime per working day.

The reallocation of Gentile was also reviewed and approved by Inspector Callahan of the Administrative Division during the absence of Mr. Glavin from the city. Inspector Callahan stated that in approving such matters he endeavors to review such matters meticulously and he has no excuse for his failure to detect the error which has occurred in this case. He appreciates the seriousness of such an error and regrets deeply that it occurred and will make every effort to prevent a recurrence of such an error. It is pointed out that during the week in which this error occurred, the volume of material being handled was such that Inspector Callahan averaged three hours and twenty-five minutes overtime per working day.

As previously pointed out, the fanfold in this matter concerning the reallocation of Gentile has not been forwarded as yet to either the Department or to the Civil Service Commission and is being retained in Mrs. Wockerman's Office pending a final determination in this matter. In connection therewith, Mr. Edward Bechtold who is connected with the Veterans Service Section of the Civil Service Commission has advised that so long as the fanfold on a reallocation has not been processed, the promotion is not effective and therefore, can be undone.

RECOMMENDATIONS

Inasmuch as Special Agent Gentile was relieved of his duties as a Field Supervisor by the Bureau's instructions to his SAC under date of August 3, 1951, and is not presently being utilized in a supervisory capacity, it is not felt he is entitled to Grade GS-13 reallocation and it is recommended that it be cancelled. Agent Gentile should be advised accordingly together with the reasons therefor.

Memo to Mr. Glavin (continued)

It is noted that Miss Avis Lee Taylor is the Personnel Briefer who was responsible for the failure to include in the reallocation memorandum information reflecting the removal of Special Agent Gentile from his supervisory position at the time administrative action was taken against him in August, 1951, and accordingly, has been guilty of carelessness in this respect. Although Miss Taylor has been in the Bureau's service since June 18, 1945, and has been performing work in the Administrative Actions Unit since December, 10, 1950, this is the first time she has been responsible for such an omission. Her work, except for this instance, has been performed in an entirely satisfactory manner. It is recommended that she be censured by letter.

Mr. Joseph I. Cavanaugh who is the Supervisor in Charge of the Administrative Actions Unit should have in his review of the memorandum and service record of the employee caught the omission and was derelict in failing to do so. However, this is the first such error the Unit has ever made even though thousands of such memoranda have been prepared. In view of the exceedingly long hours put in by him when the voluntary overtime average of over five hours is considered, it is apparent that his alertness had to be at a low point. Except for this instance his work is considered to be above average. It is recommended that he be censured by letter.

Although Mr. Callahan likewise approved the memorandum recommending the reallocation, it is pointed out that in view of the tremendous volume of such memoranda and other memoranda and mail handled by him, it would be impossible except on a spot check basis for him to personally check the files and briefs in detail in every case and I don't think this is expected of him. However, he must ever be on the alert not to rely on the assumption that correct and accurate facts are always being submitted and must double his efforts to prevent any similar occurrences. It is recommended that he be advised accordingly by letter.

This employee entered on duty 8/4/41 as a Typist and on 7/8/46 was appointed to the position of Special Agent in Grade CAF-9, \$4149.60 per annum, on 8/21/49 he was reallocated to Grade CAF-12, \$6235.20 per annum, and his present salary in GS-12 is \$7240 per annum. He is being considered for reallocation to Grade GS-13 since he has been a full-time Supervisor since 7/6/50.

On 3/31/49, 8/11/49, and 2/20/50 he was rated EXCELLENT.

By memorandum dated 7/6/50 he was authorized as Mail Reader (Supervisor on the Applicant Desk). On 9/6/50 he was rated EXCELLENT.

During an Inspection of the Washington Field Office in December, 1950, the Inspector (SA R. A. Garvey) said he displayed above average enthusiasm, and he appeared to be very familiar with all matters relating to applicant investigations.

His overtime for October, 1950 was 49 minutes, November 1 hour 23 minutes, and December 1 hour 41 minutes.

On 2/10/51 he was approved as an additional Supervisor on the Applicant Squad.

On 3/31/51 SAC Stein rated him SATISFACTORY and said he had a thorough knowledge of procedures, policies and instructions applicable to all types of applicant investigations. He was personally capable of handling such investigations in an above average manner. He was fully qualified to handle assignments of more complicated nature, his paper work had always been of high calibre, his dictation was excellent, all his supervisory duties had been performed without adverse criticism and he was very effective as a supervisor-mail reader. He gave every indication of qualifying in every respect in an above-average manner in his present designated position and he was currently regarded as a competent, capable supervisor, qualifying as one of the higher rated Agents in his grade. He was available for any assignment.

By letter dated 8/3/51 he was censured in connection with the reports which he approved as Supervisor in the cases entitled "Eunice Callahan, Departmental Applicant, Legal Stenographer, Lands Division, Washington, D. C." and "Frances Houston Fulk, Departmental Applicant, Clerk-Stenographer, Lands Division." In the Callahan case he failed to note that a report he approved did not reflect a thorough investigation. In the Fulk case he did not require an Agent to correct the inept phraseology which he employed to describe an interview with the tenant of a house formerly occupied by the applicant.

14 MAR 26 1952

On 8/20/51 he was considered for GS-13 reallocation; however, he was passed over to be reconsidered at a later date because he had not assumed an equitable share of the responsibilities of the office and also in view of the administrative action taken against him on 8/3/51.

On 1/30/52 SAC Hood rated him SATISFACTORY and said he made a most favorable impression in making outside contacts for the Bureau, was considered an excellent dictator and the research and preparation of his work had been outstanding. He had a good working knowledge of Bureau practices and procedures, since his assignment to the Security Squad he had demonstrated his ability to handle the more complicated and involved types of cases. He had handled several matters requiring considerable diplomacy in a most discreet and satisfactory manner, he had been found to be most alert to the possibilities offered by any matter with which he came in contact and attacked his problems with enthusiasm and aggressiveness. He was available for special and general assignments wherever his services were needed.

A review of his file reflects that he has been a full time Supervisor since 7/6/50, he is qualified to handle the most complicated investigative matters referred to the Bureau for attention, his physical condition is such that he could function satisfactorily on any assignment, he is qualified to supervise or handle any dangerous assignments including the leading and participation in raids, he is available for assignment either in special instances or for routine assignments anywhere his services are needed, he has been in Grade 12 since 8/21/49, he was rated Excellent on his 1949 and 1950 annual reports, and Satisfactory in the upper limits on his 1951 annual report.

RECOMMENDATION: It is recommended that he be afforded reallocation to Grade GS-13, \$8360 per annum.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD - 185)

Name of Employee G. MARVIN GENTILETitle SPECIAL AGENT, GS-12Rating Period: from 4/1/51 to 1/30/52

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

G. MARVIN GENTILE
SPECIAL AGENT, GS-12
SPECIAL PERFORMANCE RATING

The following is a special performance rating on Agent GENTILE, submitted in compliance with Bureau request of January 29, 1952. It covers the period from April 1, 1951, to January 30, 1952. For a portion of the time covered; that is, from April 1, 1951, to August 6, 1951, Agent GENTILE was employed as an Applicant Supervisor in the Washington Field Office. He was removed from this position per Bureau instructions of August 3, 1951. Since August 6, 1951, he has been assigned to the Security Squad of the Washington Field Office.

Agent GENTILE presents an excellent well-groomed appearance at all times. He has a splendid personality and appears to be in excellent physical condition. He gets along well with his fellow employees and makes a most favorable impression in making outside contacts for the Bureau. He is qualified in the use of all Bureau firearms and has a temperament which makes him suitable for use on dangerous assignments. He has previously qualified as a creditable Bureau witness although he has had no opportunity to demonstrate this qualification during the period covered by this report. He is considered an excellent dictator and the research and preparation of his work have been outstanding. He has a good working knowledge of Bureau practices and procedures.

In spite of the fact that prior to being assigned to the Security Squad of the Washington Field Office, he had had no previous extended experience in this particular work of the Bureau, he has shown a definite aptitude for this field, and since his assignment to this squad has demonstrated his ability to handle the more complicated and involved types of cases. He has handled several matters requiring considerable diplomacy in a most discreet and satisfactory manner. Agent GENTILE has been found to be most alert to the possibilities offered by any matter with which he comes in contact and attacks his problems with enthusiasm and aggressiveness.

Agent GENTILE is a loyal Bureau employee, fully capable of adjusting himself to any circumstances with which he may be confronted. He is, therefore, being given a Satisfactory performance rating.

SUBJECT: WEEKEND AND HOLIDAY DUTY

H. Marvin Gentile

It is felt that to more equitably distribute weekend and holiday assignments in this office, additional Agents should be scheduled for complaint duty on Sundays and holidays. It is not anticipated that any of these employees would be used in a regular relief supervisory capacity, and none of them would be used on Saturdays in such work, for a regularly approved Supervisor is on duty each Saturday. Those Agents in Grades 12 and 13 have had sufficient experience to properly take complaints and refer special matters to the Supervisors on Sundays and holidays and, accordingly, the following Agents are recommended for such assignments:

OFFICE MEMORANDUM

UNITED STATES GOVERNMENT

TO :Mr. Glavin

FROM :H. L. Edwards

DATE: July 24, 1951

SUBJECT: EUNICE CALLAHAN
DEPARTMENTAL APPLICANT
Legal Stenographer
Lands Division
Washington, D. C.

The recent review by the Training and Inspection Division in the handling of the captioned case disclosed 2 principal delinquencies:

I

The report of SA Stannard E. Widener dated May 29, 1951, at Washington, D. C., reflects an interview with an employee of the Tax Division of the Department of Justice when in fact the employee interviewed in connection with this investigation was an employee of the Lands Division under the Department of Justice, and the report was in error. The report was approved in the Washington Field Office by Supervisor G. Marvin Gentile. The case was supervised at the Seat of Government by SA Charles A. May.

Explanation

Agent Widener, who is now assigned to the Knoxville Division, has advised that he does not now recall whether the interviewee mentioned above was with the Tax Division or the Lands Division. After dictating his report he did not see it again because of his entry into In-Service Training.

II

20 AUG 17 1951

It was also concluded by the Training Division that the investigation of this Departmental Applicant was not sufficiently thorough, and the following instances of this deficiency were cited:

a) The application reflected that the subject had left her previous employment at the Securities and Exchange Commission for the purpose of studying advertising, but according to the personnel records in the SEC office in Washington, she resigned in June, 1943, because of ill health. No effort was made to resolve this discrepancy or to determine the actual reason why she left the SEC. Her SEC employment had been in New York City, and copies of Agent Widener's report were not furnished that office.

Explanation

Agent Widener could not recall why a copy of his report was not designated for the New York Office.

b) The applicant had worked previously for Pan American Airways

JIC:bls

CC: Mr. Clegg
Mr. Rosen

in Washington as "private secretary - general secretarial work". The Assistant Vice-President was interviewed in connection with this case and he verified that the applicant had worked as a personal secretary for slightly more than a year and recommended her favorably. However, no other employees of the airline office were interviewed in an effort to secure information regarding the "general secretarial work" which her application showed she had performed, and the inspector felt that this should have been done.

Explanation

Agent Widener could offer no reason why other employees of Pan American Airways were not interviewed. He recalls that he had called at this office late in the afternoon and interviewed the Assistant Vice-President. This was after other employee had left for the day.

c) During Agent Widener's investigation which was made in May, 1951, information was developed that in 1929 the applicant had applied to the State Department for a passport at which time she gave a permanent address in Miami Beach, Florida, and a mailing address in New York City. This was the first time that either addresses had appeared in this investigation, and no leads were set out to the Miami Office to have credit and criminal records checked in that city. The inspector noted that a neighborhood investigation would not have been in order in view of the lapse of time since the passport application.

Explanation

Agent Widener offered no reason for not setting out a lead to the Miami Division. He admitted that such a lead appeared logical and could not recall that he had previously given consideration to it.

d) On the application form and in the Bureau investigation there are definite gaps in the applicant's employment record - in one instance from March, 1932 to April, 1936, another instance from June, 1937 to August, 1940, and again from June, 1943 to April, 1949. A report submitted by the New York Division disclosed that the applicant and her brother had rented an apartment from 1938 to February, 1950, but there was no information as to whether she was personally living in the apartment during that entire period, what she was doing, whether she was being supported by her brother, or whether she was engaged in any activities which might reflect favorably or unfavorably upon her.

Explanation

With respect to the gap in employment from June, 1943 to April, 1949, the New York Office wrote the Bureau on May 9, 1951, requesting that consideration be given to having the applicant interviewed by the Washington Field Office in order to fill in this period. The New York and Washington Field Offices were advised by teletype that such an interview was not desired. This teletype was prepared by Supervisor Charles A. May, initialed for

Section Chief Callan by May, by Mr. Rosen, and for Mr. Ladd by Mrs. Dottie Davidson, Mr. Ladd's Sec'y.

Conclusions of the Training and Inspection Division

The Training Division concluded that the erroneous description of the Justice Department employee interviewed in this case as a Tax Division employee instead of a Lands Division employee was the responsibility of SA Widener. In this connection the Investigative Division had pointed out that the supervisor reviewing the report had no way of knowing in which division she was employed and there was no apparent reason why the Departmental Directory should have been consulted.

It was likewise concluded that the failure to resolve the apparent discrepancy concerning the reason why the applicant left the Securities and Exchange Commission, the failure to interview fellow employees at the Pan American Airways regarding any general secretarial work the applicant may have done, and the failure to set out a lead for the Miami Division to have made credit and criminal checks on the basis of the addresses furnished in 1926 as well as the failure to fill in the gaps of 3, 4, and 6 years respectively in the applicant's employment record were the responsibility of Agent Widener and that Field Office Supervisor Gentile and Bureau Supervisor May should have detected them from the investigative report and taken corrective action.

Recommendations of the Training and Inspection Division

The Training Division has recommended that Agent Widener and Field Office Supervisor Gentile both receive letters of censure for their mishandling of this case. With respect to supervision at the Seat of Government, it was noted that this case was one of 3 in which substantive delinquencies were found during a review of 229 Departmental Applicant cases. Supervisor May of the Investigative Division was involved in 3 other cases beside the Callahan case, namely, the Freida B. Hennock case, the Chuch Mau case, and the Frances Houston Fulk case in which inept and inaccurate phraseology was used in a report. Mr. Clegg recommended that in view of his involvement in the 4 cases named above, Supervisor May receive a letter of censure and be placed on probation for 30 days.

It was also recommended that Section Chief G. C. Callan and Mr. Rosen be censured because of the delinquencies found in the 3 investigations although there was no indication that they personally reviewed or approved any of the reports in question.

Recommendations of the Administrative Division

1. It is recommended that Agent Widener be censured for the error in his report describing an interviewee as an employee of the Tax Division instead of the Lands Division and for his lack of thoroughness in this investigation as outlined above.

2. It is also recommended that Agent Supervisor Gentile be censured for his failure to note the lack of thorough investigation as reflected in Agent Widener's investigative report.
3. It is recommended that Supervisor Charles A. May be censured and placed on probation for 60 days for his failure in this and the other 3 investigations disclosed by the survey of the Training Division. Separate memoranda are being submitted with respect to these other cases.
4. It is further recommended that letters be directed to Mr. Rosen and Section Chief Callan inasmuch as they had the overall responsibility for the supervision of the 3 Departmental Applicant cases in which substantive delinquencies have been found. Separate memoranda are being submitted with respect to the other 7 cases.

Re: EYNICE CALLAHAN
DEPARTMENTAL APPLICANT
LEGAL SCENOGRAPHER
LANDS DIVISION
WASHINGTON, D. C.

FINDINGS:

1. The report of Special Agent Stannard E. Widener, May 20, 1951, Washington, D. C. on Page 3, reflects an interview with reference "Miss Dollie M. Davis, Tax Division, Department of Justice..." Miss Davis is secretary to the Assistant Attorney General in charge of the Lands Division and is carried in the Department directory as attached to the Lands Division.

Special Agent Stannard Widener, now of the Knoxville Office, reported to Mr. Soucy that he did not recall at present whether Miss Davis was with the Tax Division or the Lands Division, but he does recall talking with her. He had to telephone her twice to make an appointment in the Justice Building and from the markings on the door and the general observations in her office, he observed that she was secretary to one of the Assistant Attorney Generals. She impressed him as an efficient type of middle-aged lady who was very thoughtful and cooperative and very interested in and thoughtful of the applicant. She escorted the Agent into a near-by conference room for a private discussion. After dictating the report he did not see it as ordinarily he would, since he entered In-Service School on May 20, 1951, and continued in this course until June 9, 1951. If Miss Davis were in the Lands Division, he might have caught this mistake if he has read the report. In-Service attendance was verified.

2. The application reflects that applicant left Security Exchange Commission with the express purpose of studying advertising. Her file in the Personnel Office of SEC at Washington reflected that she resigned on June, 1943, "because of ill health." Her employment in SEC had been in New York. Copies of Agent Widener's report

and the first instance indicating that the applicant had resided at any time as a "permanent address" in Florida. No leads were sent to New York, or Miami Divisions for a police and credit check. This application was dated in 1926 and, although neighborhood investigations are not required under such circumstances, applicant was nevertheless twenty-five years of age, and it appears that her police and credit records should have been checked by the Miami Office and the New York Office should have inquired as to the identity of Philbin.

Agent Videner informed SAC Soney that he recalls the passport matter and that the destination was not shown in the application, and he recalls discussing this fact with his supervisor and they felt it was unnecessary to follow up on the destination angle. He does not recall the reason for omitting a lead to Florida or New York, and although the file was not available to him, he stated it appeared logical that such lead should have been set forth but he does not recall any previous consideration of such lead.

5. During the investigation and on the application form there are definite gaps in the employment record of applicant. In one instance from March, 1932 to April, 1936; in another instance from June, 1937, to August 1940; and in another instance from June, 1943, until April, 1949. The New York Office report discloses that applicant and her brother rented an apartment from 1938 to February, 1950, but there were no entries as to whether she personally was living in the apartment during 1943 and 1949 or what she was doing, or whether she was being supported by her brother or whether she was engaged in any activities in or out of the country which might reflect favorably or unfavorably upon her. It appears that at least the six-year gap between June, 1943, and April, 1949, should be explained. The New York Office wrote the Bureau on May 9, 1951, and asked the Bureau to consider the advisability of having the applicant interviewed by Washington Field Office concerning her employment status from June, 1943, to April, 1949. The Bureau's wire dictated by Supervisor C. A. May and initialed for Callan by May, Rosen, and Ladd by Davidson, informed the New York and Washington Field Office that the interview of the applicant was not desired.

were not furnished the New York Office. As a consequence no inquiries were made as to her health and the only comment concerning her resignation was that "she resigned on her own accord." This inconsistency was not, therefore, clarified. The nature of her ill health was not disclosed or reported upon as to whether it was mental, chronic or casual.

SAC Soucy stated that Agent Widener recalls that the applicant worked in New York and that he talked to the personnel officer who had available only her personnel record card from which the information was reported to him. He did not recall why a copy of his report was not designated for the New York Office, if this were so.

3. Applicant worked for Pan American World Airways in Washington as "private secretary - general secretarial work" to the Assistant Vice President, who was interviewed and the employment as "personal secretary" for slightly over a year was verified and she was recommended favorably by this official. Since she was engaged in general secretarial work, as well as private secretary work, it would appear logical that during this recent period of employment ending in March, 1951, other employees of Pan American World Airways should have been interviewed.

SAC Soucy reports that Agent Widener remembers interviewing the Assistant Vice President. He does not know the reason others were not interviewed, but his recollection is that he called at this establishment late in the afternoon after other employees had departed from the building and that all others were gone. He offered no alibi for not returning to see other employees at another time, but did point out that applicant worked as a private secretary.

4. During the investigation, the report of Agent Widener discloses that the applicant's application for a passport at the State Department reflected a permanent address as 1342 Drexel Avenue, Miami Beach, Florida, and a mailing address "c/o Philip Philbin, 25 Broadway, New York City." This was the first instance where the Broadway address or Philbin's name had appeared in the file and

REPLY:

1. The Supervisor at the Bureau had no way of knowing whether Miss Davis was connected with the Lands and Tax Division. This could have been secured from the Department Directory but this appears impractical.

2. In the absence of any information developed during the course of the investigation indicating that applicant had ever suffered any serious illness or that she was mentally unbalanced, it does not appear that inquiries concerning her health were in order. It is stated that the only comment obtained in New York concerning her was that "she resigned of her own accord". On page 6 of the New York report it is noted that two fellow employees at the SEC were interviewed, both of whom furnished favorable information. The discrepancy in the reason for resignation is noted, but as her employment was satisfactory it does not appear that this is of consequence.

3. It is believed that inasmuch as applicant worked as a private secretary that the interview with that individual was sufficient for the purposes of this investigation. The report clearly indicates that she was the personal secretary to J. Carroll Cone and does not indicate that she was engaged in general secretarial work.

4. Bureau Bulletin #8 dated 2/17/51 which limits neighborhood investigations to the last 5 year period has been interpreted to mean that if a neighborhood investigation is the only lead, then a lead would not be sent merely for the purpose of credit and criminal checks. The Bulletin itself does not require that these checks be made.

Since the Passport Application was dated in 1926 and in the absence of any derogatory information concerning the applicant it does not appear that any benefit would have been derived from locating and interviewing Philip Philbin.

5. This deals primarily with gaps in employment and will include her self-reported study of advertising. The Bureau has gone on record and by memorandum dated 2/15/51, Mr. Andretta was advised of the inadequacy of the information appearing on the Standard Form 57 which was used in this case. At that time it was suggested that complete employment listing be furnished and if unemployed a statement as to the person's activity, such as housewife, and the address where living during the period.

A detailed form was prepared which was furnished to the Department and conferences were had with Mr. Adler in Andretta's office concerning this form. Therefore, the Department knows that unless such details are given, we cannot be expected to do as complete an investigation as we could with the detailed information. To date no change has been made in the form.

With particular reference to the period June, 1943 to April, 1949, it is to be noted that she resided at one address in New York City with her brother during that time. There was no information developed from neighbors interviewed that she had left New York during this period and one neighbor specifically commented that she left there in February, 1950 to take a position in Washington. They knew of no employment on her part during this period and was probably keeping house for her brother as the neighbors mentioned that only applicant and her brother resided in the apartment.

CONCLUSIONS:

Item I - Listing Miss Davis in Tax Division instead of Lands Division is responsibility of SA Stannard E. Widener, although he did not have a chance to review report after dictated, due to attendance at In-Service School. No stenographic notes are now available.

Item II - Failure to reconcile one record that resignation was due to ill health and find out type of illness which would cause resignation when application claimed another reason was of consequence so as to determine qualification and honesty of applicant. Failure to send lead to N. Y. Office is chargeable to SA Widener. Report approved for SAC by G.M.G.(?)* Initialed by Supervisor C. A. May, Section Chief is G. C. Callan and Assistant Director Al Rosen is Division Chief.

Item III - The answer that report does not indicate applicant engaged in general secretarial work as a justification for not seeing others than her immediate superior in Pan American Airways office is true but misleading. The application shows "Private Secretary - general secretarial work." Others were not seen. They should have been.

Responsibility - same as for Item II, above.

Item IV - Although the place of "Permanent Residence" in Florida of 25 years ago as well as mail address in N.Y.C. had not been disclosed by applicant, ASAC Fletcher believes

police record and credit record should have been checked at Florida "permanent residence" and so de I. This was during adult life of applicant. No authority for omitting these checks has been issued.

Responsibility - same as for Item II, above.

Item V - If Bureau undertakes investigation and there are gaps in record of 3, 4, and 6 years - the Bureau should fill these gaps. This was not done regardless of lack of completeness of application.

Responsibility - same as for Item II, above.

DATE: July 25, 1951

C. Marvin Gentile

In a recent review of the captioned case by the Training & Inspection Division, the following delinquency was noted:

The report of Special Agent Jack W. Gray dated June 6, 1951, at Washington, D. C. reflects an interview with Mrs. Mary Cunningham, who occupied a house from which the applicant had moved. Mrs. Cunningham indicated that she had seen the applicant briefly on several occasions and she stated that she did not wish to make any further comments concerning the applicant's character, reputation or loyalty. This report was approved in the Washington Field Office by Supervisor C. Marvin Gentile and was under the supervision of SA Charles A. May of the Investigative Division.

The Training and Inspection Division concluded that the phraseology employed here creates the inference that Mrs. Cunningham may be withholding information concerning the applicant's character, reputation and loyalty.

EXPLANATION

Agent Gray, who is still assigned to the Washington Field Office, stated that Mrs. Cunningham indicated she did not know the applicant well and for this reason could make no further comments concerning her.

The Investigative Division noted that any inference that Mrs. Cunningham was withholding information concerning the applicant appeared to be dispelled by her statement that the applicant seemed to be a nice congenial young lady and in the absence of a definite statement by the reporting Agent that Mrs. Cunningham appeared to be withholding information no such assumption was made. The other neighbors interviewed spoke favorably of the applicant.

3 AUG 15 1951CONCLUSIONS & RECOMMENDATIONS OF THE TRAINING & INSPECTION DIVISION

The Training Division concluded that the reply of the Investigative Division does not clarify the inept phraseology in the report which makes an incorrect assumption possible.

Memo to Mr. Glavin (Con'd)

The Training Division recommended that a letter of criticism be directed to Agent Gray and Field Office Supervisor Gentile. With respect to the supervision at the Seat of Government, it was noted that this case was one of eight in which substantive delinquencies were found during a review of 229 Departmental Applicant cases. Supervisor May of the Investigative Division was involved in three other cases besides the Fulk case, namely, the Frieda Hemmick case, the Chuck Mau case and the Eunice Callahan case. Mr. Clegg recommended that in view of his involvement in the four cases named above, Supervisor May receive a letter of censure and be placed on probation for 30 days.

It was recommended that Section Chief G. C. Callan and Mr. Rosen be censured because of the delinquencies found in the eight investigations although there was no indication that they personally reviewed or approved any of the reports in question.

RECOMMENDATION OF THE ADMINISTRATIVE DIVISION

(1) It is recommended that a letter of caution be directed to Special Agent Jack W. Gray for his failure to clearly state the opinion expressed by Mrs. Mary Cunningham.

(2) With reference to Field Office Supervisor Gentile, it has been recommended that a letter of censure be directed to him for his failure to note the lack of thorough investigation in the Eunice Callahan case and it is now recommended that he be admonished in the same letter for his failure to note the inept phraseology employed by Agent Gray in the instant case.

(3) Administrative action with respect to SA Charles A. May, Section Chief G. C. Callan and Assistant Director Rosen, has been recommended in a separate memorandum previously submitted.

This employee entered on duty 8-4-41 as a Typist and on 7-8-46 was appointed to the position of Special Agent in Grade CAF-9, \$4149.60 per annum. On 8-21-49 he was reallocated to Grade CAF-12, \$6235.20 per annum. As the result of one uniform promotion and one basic salary increase his salary in GS-12 was increased to \$6600 per annum. He is being considered for reallocation to Grade GS-13, \$7600.

On 3-31-49 he was rated EXCELLENT. On 8-11-49 and 2-20-50 he was rated EXCELLENT.

By memorandum dated 7-6-50 he was authorized as Mail Reader (Supervisor on the Applicant Desk). On 9-6-50 he was rated EXCELLENT.

During an Inspection of the Washington Field Office in December, 1950, the Inspector (SA R. A. Garvey) said he displayed above average enthusiasm, and he appeared to be very familiar with all matters relating to applicant investigations.

His overtime for October, 1950, was 49 minutes, November 1 hour 23 minutes, and December 1 hour 41 minutes. The Office overtime for October was 40 minutes, November 1 hour 27 minutes and December 1 hour 45 minutes.

On 2-10-51 he was approved as an additional Supervisor on the Applicant Squad.

On 3-31-51 SAC Stein rated him SATISFACTORY and said he had a thorough knowledge of procedures, policies and instructions applicable to all types of applicant investigations. He was personally capable of handling such investigations in an above average manner. He was fully qualified to handle assignments of more complicated nature, his paper work had always been of high calibre, his dictation was excellent, all his supervisory duties had been performed without adverse criticism and he was very effective as a supervisor-mail reader. He gave every indication of qualifying in every respect in an above-average manner in his present designated position and he was currently regarded as a competent, capable supervisor, qualifying as one of the higher rated Agents in his grade.

By memorandum dated 7-7-51 his SAC recommended him for reallocation to Grade GS-13.

By letter dated 8-3-51 he was censured in connection with the reports which he approved as Supervisor in the cases entitled "Eunice Callahan, Departmental Applicant, Legal Stenographer, Lands Division, Washington, D. C." and "Frances Houston Fulk, Departmental Applicant, Clerk-Stenographer, Lands Division." In the Callahan case he failed to note that a report he approved

did not reflect a thorough investigation. In the Fulk case he did not require an Agent to correct the inept phraseology which he employed to describe an interview with the tenant of a house formerly occupied by the applicant.

A review of his file reflects that he is available for general and special assignments wherever his services are needed.

RECOMMENDATION: It is recommended that he be passed over at this time for reallocation to Grade GS-13 and that he be reconsidered in February, 1952.

Mr. G. Marvin Gentile
Federal Bureau of Investigation
Washington, D. C.

Dear Sir:

The Bureau has reviewed the reports which you approved as Supervisor in the cases entitled "Eunice Callahan, Departmental Applicant, Legal Stenographer, Lands Division, Washington, D. C." and "Frances Houston Fulk, Departmental Applicant, Clerk-Stenographer, Lands Division."

In the Callahan case you failed to note that a report you approved did not reflect a thorough investigation. In the Fulk case you did not require an Agent to correct the inept phraseology which he employed to describe an interview with the tenant of a house formerly occupied by the applicant.

The primary responsibility of a Field Supervisor is to insure that the Agents under his supervision are investigating their cases fully and reporting all of the investigative matters pertinent to the cases they handle. The errors noted herein indicate that you were negligent and did not review the contents of the reports in these cases thoroughly before you approved them for dissemination.

The careless, inadequate manner in which you performed your duties reflects unfavorably upon your capacity as a Supervisor and in the event any further errors of this type are noted in your work, it may be necessary to take more severe administrative action against you.

Very truly yours,

J. Edgar Hoover

RECOMMENDATIONS:

1. That SA Theodore X Sanders, who prepared the report at Knoxville, and SAC X Robey, now at Pittsburgh, who approved it, showing a lack of thoroughness in investigation in the Virginia Townson case, each receive a letter of criticism.
2. That SA George B. X Kennedy who submitted a report from Philadelphia Office and SA J. E. X Ogden, who approved the report at Philadelphia, because of inconsistency which appeared in a date as between the synopsis of facts and the details of the report in the Margaret Constance Burke case each receive letters of criticism.
3. That SA Jack M. X Gray of the WFO, who submitted a report containing inept and thus inaccurate phraseology in the Frances Houston Fulk case, and Field Supervisor G. M. X Gentile, who approved this report, each receive a letter of criticism.
4. In the Frieda B. Hennock case in which there was a lack of thoroughness in an expedite investigation being made for the White House and this lack of thoroughness was to an aggravated extent, it is recommended that SA Thomas J. X Ryan, who submitted a report from NYC, and Field Supervisor Cyril J. X Ryan each receive a letter of censure.

5. In the Eunice Callahan case, SA Stannard E. Widener, now of the Knoxville Division, must be held responsible for showing an interviewee in the Tax Division instead of the Lands Division and, because of a lack of thoroughness in investigation by SA Widener, then of the WFO and now at Knoxville, the report having been approved by Field Supervisor G. M. Gentile, it is recommended that SA Widener and Field Supervisor Gentile each receive a letter of censure for their mishandling of this case.

6. In the Lena Gartner Orme case where an Assistant Attorney General was listed as a Special Assistant to the Attorney General, the responsibility initially is on SA Lester P. Condon, who has now resigned. It is recommended that a letter of censure be sent to Field Supervisor James O'Connell of the WFO for failing to note the embarrassing error in this report.

7. In the case of Marie Renee Mulligan, because of a failure to interview references listed in the previous application, it is recommended that a letter of criticism be sent to SA Edward J. Anderson and Field Supervisor E. L. Gramp of the WFO.

8. In the Chuck Mau, applicant for Judgeship in Hawaii, case because of a lack of thoroughness in the investigation accentuated by the fact that an investigator of the Senate Judiciary Committee was able to obtain additional allegations not learned during the course of our own investigation and because of the aggravated nature of these delinquencies, it is recommended that a letter be transmitted to the SAC at Honolulu requesting that detailed explanations be obtained from SA's Philip C'Brien, Richard B. Stull and Duane C. Limprecht as to these delinquencies and that an explanation should be submitted by the SAC at Honolulu who should also fix responsibility for the errors during the investigation and for the approval of the reports which were submitted in this case, and, based upon the explanations received, appropriate administrative action should be taken with reference to those who were responsible for the inadequate handling of this case. It is recommended that this letter of inquiry be prepared in the Administrative Division where records will be available as to the whereabouts and present assignments of the personnel involved.

9. Because of the supervisory delinquencies by the supervisors in the Investigative Division, P. A. Turner, who approved the reports of reference in the Virginia Townson, Margaret Constance Burke, Lena Gartner Orme and Marie Renee Mulligan cases, it is recommended that SA P. A. Turner receive (1) a letter of censure, and (2) that he be placed on probation for a period of 30 days.

10. Because Supervisor C. A. May of the Investigative Division

approved the reports of reference in the Frances Houston Fulk, the Frieda B. Hennock, the Eunice Callahan and the Chuck Mau cases, it is recommended that he (1) receive a letter of censure and (2) that he be placed on probation for a period of 30 days.

11. Because Investigative Supervisor J. A. ~~X~~Lehman prepared a memorandum summary which went to Mr. Dawson at the White House in the Frieda B. Hennock case and although he included information accurately transcribed from the report as to the date when an application for admission to the Bar was filed at which time the applicant was 21 years of age and although it was contrary to information in the files in previous reports which were forwarded to Mr. Dawson by the Bureau which contained a different date and these dates had not be reconciled, it is recommended that SA Lehman receive a letter of criticism because of this oversight.

12. Because Inspector G. C. ~~X~~Callan is the Section Chief of the Section of the Investigative Division which handled these reports in which substantive delinquencies appeared and because Assistant Director Al ~~X~~Rosen is the Division Chief in charge of these operations, although there is no indication that they personally saw or reviewed or approved any of these reports, and because of the aggravated nature of some of them, for which they must share in the responsibility, it is recommended that they receive letters of censure.

HANDLING OF NAME CHECKS

MARVIN GENTILE

Reference is made to the memorandum from Mr. Belmont to Mr. Ladd dated 4/7/51 recommending additional personnel for the Correlation-Liaison Section. This memorandum was referred to the Training and Inspection Division to be checked. F. H. McIntire checked into the work of this Section and will hereafter handle each suggested increase in personnel separately:

SUGGESTION #1: That one extra Name Check Supervisor be added to the Name Check Unit which handles all but Coast Guard Name Checks. (Recommendation: Favorable)

On August 1, 1950, the equivalent of 6½ Supervisors were handling Name Checks other than Coast Guard. During August, 1950, one of the Supervisors was assigned to other work. During September, 1950, the Supervisor working half-time on Name Checks was reassigned to other work; therefore, since September, 1950, 5 men have been assigned to Name Checks.

During the last 3 months of 1950 this Unit received an average of 53,201 Name Checks per month or 10,640 per supervisor. During the first 3 months of 1951 this unit received an average of 67,123 Name Checks per month or an average of 13,425 per Supervisor. During March, 1951, 78,946 Name Checks were received. This is the greatest number received any month during the present fiscal year. Since January it has been necessary to assign extra supervisors from the Correlation Unit periodically to assist in the handling of this extra work. As of the close of business 4/9/51 each Supervisor had an average of 5 days' work assigned and the Records Section was processing 55,094 Name Check Request Forms other than Coast Guard.

From the increase in work it appears that the recommended increase in personnel is justified.

SUGGESTION #2: That a Supervisor be transferred in immediately to replace a Supervisor from the Correlation Unit who is working on the Coast Guard Name Check project. (Recommendation: Unfavorable)

We have money to do 300,000 Name Checks for the Coast Guard. This program was instituted August, 1950. Since 11/1/50 2 Supervisors, one regularly assigned and one on loan from the Correlation Unit, have been handling these requests. From August, 1950 through March, 1951, 201,721 Coast Guard Name Checks have been handled or an average of approximately 25,000 per month. During the last 3 months an average of 32,607 Name Checks per month have been handled. The 2 men assigned have been able to handle this increased work. There are approximately 100,000 of these Name Checks yet to be received. At the rate they have been received during the past 3 months the remaining 100,000 Name Checks should be received during the next 3 or 4 months. After this project has been completed, it is estimated that only approximately 1,000 Coast Guard Name Checks will be received per month.

months, it is not believed logical to transfer a man in to be assigned to this project since it should be completed within 3 or 4 months. It is believed more logical to leave the 2 men presently handling this project to complete it. After completion the one regular Supervisor can handle the few Coast Guard Name Checks received on a part-time basis.

SUGGESTION #3: That 5 Agents from Washington Field Office be immediately assigned to the Correlation-Liaison Section to be put on a night shift from 6:00 p.m. to 2:30 a.m. for the purpose of handling McCarran specials, these men to be released to return to the Washington Field Office at the earliest possible date. (Recommendation: Favorable as to the number of men to be added, but that experienced Name Check Supervisors rather than new men handle the McCarran Committee Name Checks.)

Name Checks for the McCarran Committee are to be handled as specials. The normal volume of work is such in the Correlation-Liaison Section that these checks cannot be absorbed by the present personnel. On 11/27/50 the Supervisors in the Correlation Unit which prepares special memoranda were reduced from 20 to 13. One of the remaining 13 is helping full-time on the Coast Guard Name Check project. Four others spend part of their time on other supervisory duties. This Unit has pending an estimated 575 man days on summary memoranda exclusive of specials. Addition of the time required on specials presently assigned would add a considerable amount of work to this figure.

Two memoranda must be prepared on each subject for the McCarran Committee, one showing all public source information and the other showing all information in Bureau files. Preparation of 2 memoranda will greatly increase the amount of work in handling these Name Checks. Since many of the Name Checks refer to prominent subversives, numerous references are found, many being main files with several volumes. A check of 24 names referred by the McCarran Committee produced 3,950 references.

It is not known at present how many names will be referred by the McCarran Committee. The volume of this work can, therefore, not be accurately estimated. The Correlation Unit has recently been turning down requests for Correlation memoranda unless they are specially approved by Mr. Belmont.

The pending work on hand at present in this Unit plus the additional burden of the Name Checks for the McCarran Committee indicates a definite need for added personnel in this Unit. Mr. Belmont's recommendation as to the number of additional Supervisors for this work appears warranted.

During January, February and March, 1951 the Supervisors of the Correlation-Liaison Section contributed average voluntary overtime per employee per day of 2 hours, 2 hours 1 minute, 2 hours 2 minutes for each of the respective months.

CONCLUSIONS: It is believed that an additional Supervisor should be assigned to the Name Check Unit, that 5 men should be brought in on special to be assigned to the Correlation Unit to handle some of the more routine work of this unit, that 5 of the experienced men of this unit be assigned to handle the McCarran Committee Name Checks, and that the Supervisor from the Correlation Unit presently handling Coast Guard Name Checks should not be replaced by a full-time Supervisor since this project should be completed in the next 3 or 4 months. The recommendation

relative to assigning experienced men to the McCarran Committee Name Checks is made in view of the importance of these checks. Five men from the Correlation Unit should be assigned to a night shift as there is insufficient space to accommodate this increase in Supervisory personnel. It is believed that the Supervisors to be brought in on special should be brought in from the Washington Field Office as these men could be brought over immediately. They would have no housing problem and there would be no per diem or travel involved. In the event it is necessary to replace them temporarily in the Washington Field Office, it is recommended that this be done by the assignment of New Agents from training school to the Washington Field Division.

RECOMMENDATIONS:

1. That one additional Supervisor be assigned to the Name Check Unit.
2. That the Supervisor from the Correlation Unit presently working on the Coast Guard project not be replaced by the transfer in of a Supervisor.
3. That 5 Agents from the Washington Field Office be assigned to the Correlation-Liaison Section immediately to handle some of the more routine work of the Correlation Unit and that 5 of the experienced men of the Correlation Unit be assigned to handle the McCarran Committee Name Checks. Five men from the Correlation Unit should be assigned to a night shift in view of the lack of space. These men from the Washington Field Office should be returned to that office as soon as the backlog of work created by Name Check Requests from the McCarran Committee has been removed.

The Correlation-Liaison Unit suggested the following Special Agents in the Washington Field Office who have had experience at the Seat of Government:

<u>0</u>	No opportunity to appraise performance during rating period.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. ANNUAL PERFORMANCE RATING

Special Agent Gentile, during the rating period, was assigned to applicant work. As of July 6, 1950, he was approved as a supervisor-mail reader on one of the supervising applicant desks. On February 10, 1951, he was named as a regular designated field supervisor handling an applicant squad in the office. He has a thorough knowledge of procedures, policies and instructions applicable to all types of applicant investigations. He is personally capable of handling such investigations in an above average manner. He is regarded fully qualified to handle assignments of more complicated nature. He has properly qualified in the past in Bureau firearms, for participation in assignments dangerous in character, as a witness and in physical surveillances. His paper work has always been of high calibre and in dictation he is rated excellent. All his supervisory duties have been performed without adverse criticism and he was very effective as a supervisor-mail reader.

He gives every indication of qualifying in every respect in an above-average manner in his present designated position and he is currently regarded as a competent, capable supervisor, qualifying as one of the higher rated Special Agents in his grade.

Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. Flat foot of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a weak foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying.

12 and 13. Scars, deformities, atrophies, and paralyses should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. Urinalysis to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected.

Record of urinalysis, if made: Sp. gr. _____ Albumin _____ Sugar _____ Casts _____

Blood pressure: Mm. Hg. systolic 116 Mm. Hg. diastolic 85

Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has

been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. **Flat foot** of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a weak foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying. Function should be tested by requiring the examinee to raise his weight several times on his toes and to jump as far as possible, alighting on his toes.

12 and 13. **Scars, deformities, atrophies, and paralyses** should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. **Urinalysis** to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected, and when obesity is found on examination.

Record of urinalysis, if made: Sp. gr. 1.015 Albumen Neg Sugar Neg Casts Neg

Blood serology test, if made: Result

If arrhythmia, bradycardia, or tachycardia is present, give pulse rate: Sitting Immediately after exercise (unless contraindicated) Two minutes after exercise Cardiac reserve (Good, fair, or poor)

I have found this applicant abnormal under the following headings:

In my opinion, applicant is capable of performing duties involving arduous physical exertion. (Arduous, moderate, or light)

Result of examination:

Specimens Q1 and Q2 were compared with the appropriate sections of the Anonymous Letter File without identifying it with any prior submissions. Copies of these specimens are not being added to this file at this time.

The questioned typewriting on specimens Q1 and Q2 matches standards on file in this Laboratory for a Royal elite style, having a horizontal spacing of twelve to the inch.

No indented writings of value or other characteristics were noted on specimens Q1 and Q2 which would aid in identifying the immediate source of the material.

The entire postmark on the Q1 envelope could not be deciphered. The zip code appears, however, to be "10 P.R." The characters underlined are the best possibilities. Assuming these possibilities are accurate, the letter originated from a United States Navy base or station in Puerto Rico, since United States Navy zip code designations in Puerto Rico are 1004_12.

Specimens Q1 and Q2, which have been photographed, will be returned separately with the results of the requested latent fingerprint examination.
