Re: Netanyahu

You may recall my friend [REDACTED] in the department including as [REDACTED]. He sent me the email below from a friend who was in charge of serving the head table at the AIPAC dinner and related the conversation he overheard because he was disturbed by it. I spoke with [REDACTED] about this and he says his friend, who often is the person in charge of high level events and is highly discrete, was genuinely shocked by the relentless disparagement of you by Netanyahu to those at the head table. Not exactly news, but here it is.

The email:

Fyi friend is [REDACTED] Served netanyahu and table. Was appalled. Netanyahu said "if we cant sleep, hillary is not going to sleep." others were very disparaging of her. Netanyahu was encouraging them to pressure the administration to take out iran nuclear. My friend said besides the millions spent on the meeting, it reminded him of a party rally. [REDACTED] He found the whole thing very disturbing.
