Chelsea, this is one that might make your mom feel the love of the world for her.....it's from a female parliamentarian in Afghanistan! ( see the 3rd parag ff)  
Also Mohammed Yunus has emailed twice already today with good wishes for her.

Dear Ambassador Verveer,

Happy new year 2013, hope you are doing well, long time no news, we are fine here, abit worried about the uncertain peace process and woman rights , you know there are so many processes right now, Qatar process, Paris conference, etc.

I hope you will kindly, keep an eye on the situation here.

I heard the shocking news of Secretary Clinton, being hospitalized , we woman here in Afghanistan pray for her health and quick recovery. She is certainly a role model for all of us around the world, for Afghan woman certainly she is a hope, we are sure that with her support things will not change to the worst for us.

Please convey my best wishes and prayers message for her quick recovery to her.

My best new year greetings .

Fawzia,

Fawzia, I am very sorry to hear that you are no longer on the delegation. However, I am pleased to learn that you are still coming to Bonn and I hope there will be a chance to meet with you. I am adding Lida Noory to this email, so she can be in touch with you and figure out when we might see each other there.

I look forward to our discussion.

With warm regards,

Melanne

Dear Ambassador Verveer,

This is Fawzia Koofi, member of Afghan parliament and chairperson for women rights, Human rights, and Civil Society standing committee of the parliament.

If you re-call, we met in a gathering last year in Kabul.

I am writing this , because I believe on your commitments and struggles for women rights around the globe.

I wanted to write to you to let you know our concerns over the so called peace and reconciliation process. We women of Afghanistan believe that a sustainable peace will only be achieved when the process is transparent and inclusive.

History teach us that women rights in any society, especially in Afghan society are the easy elements to be compromised, therefore, we would like to have your support in the following issues.

- No peace without inclusion of women as the main decision makers, women participation in the Bonn conference 2, which will be held this year. Women who truly represent women voice not the man politician voice.

- No compromise on Afghan constitution, as both Afghans and International partners invested blood and treasure to achieve this.

- Last but not least, democracy is the only way of governance, Afghan nation deserve to live in a democratic, peaceful Afghanistan, where its population live with dignity.

Afghan society is in a transformation, the nation of today is not the nation of 1996 when Taliban first came and imposed what they wanted on women. Women will not keep silent when they see their basic rights are being ignored.

Thank you for all your commitments to women around the world. You are our inspiration and hope.

Best regards,  
Fawzia,
