Subject: Re: Ops building secure call to donilon now.

They also have problems. Specifically [redacted] is a problem.

But they also do send whca in days in advance to do all kinds of things to phone lines, adding, subtracting, removing from a dsl connection etc. Next time, we just need to do the same.

Why can it work in [redacted] or on the Vieyard or wherever the WH staff goes? Just tell Donilon I want to do nonsecure.

We need to transition to 100 percent [redacted] phones, even on vacation. I'm just going to tell them that whenever you go away, they can test lines in advance to make sure they can withstand the [redacted] phone. I know they tried to install [redacted] here and it wasn't successful.

the phone tom is on is only compatible with [redacted] or [redacted] which is why ops cannot connect directly. They say they are working this out.

I'm on with ops
They keep deferring to white house and are having connect. And I have told them to have ops just connect directly secure. That should work.
