Subject: Re: New START intel out of TN:

Delighted to pick up tidbits every now and then to pass along... I was able to round up a little more funding and, starting Monday, am adding to the TV buy in the targeted states including TN and our 3rd email from a General will begin going into ID'ed households as well... The radio w General [redacted] will continue on Christian and Country radio... We've been successful at making our campaign seem larger than it is... We're far from saturation in any states... But we up. I'll be contact w some TN clergy tomorrow hopefully garnering their involvement... Heritage is amazing me. Not because of their message and visible activities. All expected. But their organizational success down to county levels is very solid and does push up a negative message from constituents of these Senators... We're doing all we can with what we have. Yall hang in there. Your doing amazing work on this. We'll get there!

Thanks for the info:

-- we have a statement ready to respond to the Kyl op ed. We also have briefed Durbin and McCain and both staffs so they hopefully are ready for sunday shows. We also did a conference call with meet the press producers with the negotiating team. In addition, we have a fact sheet and excerpts from previous testimony ready to be sent
