David

Thanks for writing and for your call.

I wish you every good luck – they are fortunate to have you dear.

best.

Cheryl -

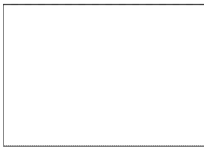

I've decided to take the assistant secretary job at DoE. (It's the policy planning position there, plus more.) A big staff, portfolio and opportunity.

I had hoped to do this by phone today, but knowing the pressures on your schedule wanted to get this to you before more time passes.

This is a tough email to write. I'd love to work for HRC and am honored that you'd explore the possibility of a State Department position.

Of course, if you'd ever like to talk about this or other topics, please don't hesitate to call. I very, very much hope we have a chance to make common cause in the months and years ahead.

best regards and warm wishes, David
