RELEASE IN PART
B6

B6

Understood I should get new state berry for my trip to Paris tomorrow so w that and the iPad I should now be ok.

Sent from my iPad

> I believe the blackberry isn't working bc we have blocked the ability from third partied to put anything on to your berry. Its the number one vulnerability when using berries -- every time u go to a new country they try to drop little pieces of software from the local network on there. And for what its worth -- that is what I am trying to do with the work around so its blocked.
