

RELEASE IN PART B6

See intel on adaptation...

From: Burns Strider

To: Hillary Clinton HDR22@clintonemail.com;Huma Abedin abedinh@state.gov

Subject: See intel on adaptation...

B6

Here's an FYI for you that came across my desk last night... I don't know the nuts and bolts of this... thinking yall will know what you need... but, if needed, I can help... it's from the world of NGO's... See below...

Subject: hey...

I just realized, it was Hillary who made the big adaptation promise at Copenhagen. We're trying to get Nelson to join Boxer in pushing Levin to include the adaptation authorization language (no cost) to the Def Auth. It would be a HUGE win for our community and also, it seems, for Hillary. Do you think that is something her crew might weigh in on? It's really a small ask and very easy lift...the problem is it just hasn't been a high priority. But we now have Boxer who says she'll champion if she can get an ally on Armed Services to approach Levin. So if Hillary's folks could engage Nelson (and/or Levin) to get them on board, that would be HUGE. I know there is a lot out there to her, but it seems like with this and ATT, what we're asking is very much in her interest and as much a gift as a request.
