Cheryl

I know you are swamped so I thought this would be the best way to reach out to you. [redacted]

I was a DAS under Richard Holbrooke when he was AS for East Asia. I learned a lot but I was pretty green, young (I was 31 years old at the time), female and non-white. Hard "faults" for State and its culture to swallow. HRC AND YOU will make a huge difference to the culture, the world politics. Getting the right persons to support both of you who can bring in the right skill sets will make your jobs easier.

BTW, I begged Jan P for your email. I did not want to invade your privacy, but thought this most efficient way to "talk" with you. Let me know how I can help going forward.

BTW, I have some diversity candidates who are very well qualified for State. Should I send those resumes to you? They are dynamite and would serve both of you well.
