Subject: Seminal Moments/Events/Decisions List

B6

Gang:

Can you send your list, in rank order, of as many as you think relevant that identified a key moment, event, decision, policy change during S's tenure (no less than 7). I would welcome you doing it quickly, off the top of your head as that is most likely to capture the frame of what really made an impression.

If you could send your list by noon on Sunday I would be grateful.

thanks.
