Subject: Re: Checking in

I am enormously grateful for your thoughtfulness. You can't know how much it means to me as I consider all that you're doing, and doing so well. Cheryl and colleagues in Washington and the consular officials in Cairo were wonderful when I became ill. With hindsight it was obviously too difficult a trip for someone with my underlying health issues, but the State Department made it easier to manage. You have my continuing highest admiration for the job you are doing and my personal appreciation for your kindness.

Howard
