

## Jet Propulsion Laboratory Building 600 Data Center Relocation Strategy

**Summary:** The Mission Support Council met on April 13, 2017 and evaluated the best long-term solution for housing the facility's IT equipment that meets CalTech's needs and is fiscally viable, given the requirement to vacate Building 600 (B600).

The Mission Support Council made the decision after consultation by the recommender with the following stakeholders, and several others, based on the data and analyses provided.

- Krista Paquin, Associate Administrator, Mission Support Directorate
- Calvin F. Williams, Assistant Administrator, Office Strategic Infrastructure
- Renee Wynn, Chief Information Officer
- Marcus Watkins, Director, NASA Management Office
- Roy Maizel, Deputy Associate Administrator for Management, SMD
- Eugene Tu, Director, Ames Research Center

**Decision:** Based on this review, the Mission Support Council decided on Option 2:

- Migrate into B230 Phase 3 supplemented by two on-Lab data modules
  - Expansion of existing B230 data center and installation of (2) data modules to support current B600 IT loads.
  - ESPC payments made from energy and operational savings over contract term.
