SENT VIA ELECTRONIC MAIL

Re: Final Response to FOIA Request No. [REDACTED]

Dear [REDACTED]

This letter is in response to your December 23, 2020, Freedom of Information Act (FOIA) request which was received in the U.S. Department of Agriculture (USDA), Animal and Plant Health Service (APHIS) on the same date. Your request was assigned FOIA tracking number [REDACTED]. Your FOIA request states:

"I request a copy or printout of the YouTube Creator's Page for APHIS, which shows nonpublic videos (videos categorized as Unlisted or Private) on the APHIS YouTube account.

Specifically, I request a listing of videos on the APHIS YouTube channel, marked as UNLISTED or PRIVATE."

Upon receipt, a search for records responsive to your request was conducted. Agency employees conducted a search of their electronic files using key words that would most likely result in responsive records. As a result of their searches, thirty-nine (39) pages of responsive records were provided which are being provided to you in full without redactions.

We trust that this information fully satisfies your request. If you need any further assistance or would like to discuss any aspect of your request please do not hesitate to contact Tameka Tilliman, the analyst who processed your request, at (301) 851-4033 or our FOIA Public Liaison, Ms. Abbey Fretz, at (301) 851-4100. Additionally, you may contact the Office of Government Information Service (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is:

Office of Government Information Services
National Archives and Records Administration
8601 Adelphi Road – OGIS
College Park, MD 20740-6601
Email: ogis@nara.gov

Phone: (202) 741-5770
Toll Free: (877) 684-6448
Fax: (202) 741-5769

Although the records are being provided to you in full without redactions, you have the right to appeal the adequacy of search conducted by the program office(s). If you are not satisfied with this response, you may submit an administrative appeal. During the pandemic, our offices are closed. Instead of physically mailing your appeal, we ask that in the short term you submit your appeals electronically by email to FOIA.Officer@usda.gov. Your appeal must be electronically transmitted within 90 days of the date of this response. Please reference case number 2021-APHIS-01493-F and the phrase "FOIA APPEAL" in the subject line of your email. To assist the Administrator in reviewing your appeal, please provide specific reasons why you believe modification of this determination is warranted.

This completes APHIS's response to your request.

Sincerely,

for:

Tonya Woods
Director

[NWRC Rabies/Mongoose Research in Puerto Rico.](#)

NWRC wildlife biologist Are Berentsen removing a small Indian mongoose from a live trap in Puerto Rico. The animal will be weighed, measured and blood taken for rabies testing. Some of the animals received radio-collars so we could monitor their movements.

[Putting Chicks Back After Banding](#)

Returning Chicks after Banding, undertaken by the Missouri Department of Conservation (MDC), shows Micah Glover, WS biologist, returning three chicks to a nesting box after banding in 2016. WS' Luke Miller, holds a net to protect the crew from the most aggressive pair of adults. Video courtesy of Missouri Department of Conservation by Chris Cain.

[Theimer S2 skunkfight Cheshire](#)

Outside food sources, including spilled birdseed and pet food, provide an easy meal for nocturnal feeders and generate interactions- potentially leading to the transmission of diseases to domestic animals.
