March 26, 2021

Via email

This is in response to your December 20, 2020 emailed Freedom of Information Act (FOIA) request to the National Science Foundation (NSF) for the following records:

A copy or printout of the YouTube Creator’s Page for the National Science Foundation, which shows nonpublic videos on the agency's YouTube account. This page is available from the Agency person responsible for the Agency YouTube account. The filter setting used on the YouTube creator's page is UNLISTED and/or PRIVATE.

NSF conducted a search and is providing a listing of everything on the YouTube Creator’s page which is being released in its entirety.

Your right of administrative appeal is set forth in Section 612.9 of the NSF FOIA regulation (copy enclosed). Your appeal must be postmarked or electronically transmitted within 90 days of the date of the response to your request.

If you need any further assistance or would like to discuss any aspect of your request, please do not hesitate to contact our FOIA Public Liaison at 703-292-8060. Additionally, you may contact the Office of Government Information Services (OGIS) which was created to offer mediation services to resolve disputes between FOIA requesters and Federal agencies as a non-exclusive
alternative to litigation. Using OGIS services does not affect your right to pursue litigation. If you are requesting access to your own records (which is considered a Privacy Act request), you should know that OGIS does not have the authority to handle requests made under the Privacy Act of 1974. You may contact OGIS in any of the following ways:

National Archives and Records Administration  
Office of Government Information Services  
8601 Adelphi Road - OGIS  
College Park, MD 20740-6001  
E-mail: ogis@nara.gov  
Web: https://archives.gov/ogis  
Telephone: 202-741-5770  
Facsimile: 202-741-5769  
Toll-free: 1-877-684-6448

There is no fee for FOIA services in this instance in accordance with 5 U.S.C. 552(a)(4)(A)(i) et seq.

Sincerely,

/s/

Sandra Evans  
FOIA/Privacy Act Officer
